AN ORDINANCE CREATING A BOARD OF MECHANICAL ENGINEERS: DEFINING POWERS AND DUTIES OF SUCH BOARD; PROVIDING FOR THE LICENSING AND REGULATION OF STEAM ENGINEERS AND PROVIDING A PENALTY FOR A VIOLATION HEREOF.

BE IT ORDAINED, by the Council of The City of San Diego, as follows:

Section 1. That a board to be designated as the Board of Mechanical Engineers is hereby created, said board to consist of three members, to be appointed by the City Manager, said three members to hold office at the pleasure of said  
City Manager

Each person so appointed shall be of good character and habits and each shall have had at least five years' experience in the operation, maintenance and/or use of steam boilers and steam engines.

Section 2. It shall be the duty of said Board to examine all applicants for steam engineer's license. This said board shall hold meetings at 30-day intervals when necessary. Special meetings may be called by the Chairman or by two members thereof. Each member shall be properly notified of the time and place of all such meetings.

Section 3. At all meetings a majority of the said Board shall constitute a quorum for the transaction of business.

Section 4. The three appointed members of the Board of Mechanical Engineers shall serve without pay.

Section 5. The Chief Inspector of the Department of Inspection of The City of San Diego shall serve as, and be the Secretary of the Board of Mechanical Engineers, but shall not have a vote on, or be counted as a member, for a quorum of said Board.

The Secretary of the Board of Mechanical Engineers shall keep the minutes of all proceedings of the said Board and all records thereof. The said secretary shall keep a register of all names of all applicants for an engineer's license, designating those to whom licenses are granted and those to whom licenses are not granted.

The Secretary of said Board shall collect from each applicant for an Engineer's license the sum of ten Dollars (\$10.00); and no part of such sum shall be returned to any applicant who shall fail to pass the examination; provided however, that if any such applicant shall fail to receive the percentage required to get a license at the first examination, he shall be entitled to take a second examination without having to pay a second fee, if such second examination is taken within a period of thirty (30) days.

The Secretary of the said Board shall collect from every applicant for the renewal of a license, the sum of five Dollars (\$5.00).

Section 6. Licenses issued under this ordinance shall be of the following class:

Steam Engineer's License: The holder of this class of a license shall be qualified to operate steam boilers and steam engines of unlimited power.

Section 7. The said Board shall make a careful and thorough examination as to the qualifications of every applicant for a license. Such examination shall be along the applicant's knowledge of the operation, care and maintenance of steam boilers and steam engines, and the accessories thereof and appurtenances thereto. The examination of each applicant shall consist of three parts as follows:

First, as to the previous experience of the applicant;

Second, an examination in which questions shall be

propounded and the answers thereto shall be given by the applicant without assistance of any kind, in the presence of the said Board or a member thereof.

Third, demonstrations by the use of models and such appliances as may be provided by the said Board for that purpose.

One hundred points shall be counted as a perfect score, divided as follows:

- A maximum of twenty-five points for experience;
- A maximum of fifty points for the written examination; and
- A maximum of twenty-five points for the demonstration.

In any such examination, if any question of a mathematical nature shall be submitted, a formula for use in solving the same shall be furnished to each person taking such examination.

Section 8. Before being permitted to take an examination each applicant for a license shall make and file with the secretary of the said Board an affidavit in writing as to his previous experience, stating the number of years and in what capacity he has served about an engine or boiler, types and horsepower of engines and boilers, where and by whom he was employed, and the length of time he was employed by each person, firm or corporation. Such affidavit shall accompany the application for such a license. Each such application, together with the affidavit accompanying<sup>ing</sup> the same, shall be presented to the said Board by the Secretary at the first regular meeting of the said Board after the same is filed.

Section 9. Each application for a license, the affidavit accompanying the same, all correspondence of the said Board, and all communications received by the said Board relative to

such application or affidavit, or to the applicant, the written questions and answers, the marks or points obtained by the applicant, and all other notes or documents relative to such application, shall be kept on file in the office of the secretary of the said Board. The said Board shall grant a hearing to any applicant who is dissatisfied with any act or determination of the said Board.

Section 10. The Board of Mechanical Engineers shall authorize issuance of a certificate of license to each applicant who shall obtain in such examination, sixty-five or more points. Such certificate shall be signed by at least two members of the said Board and the same shall expire on June 30th following date of issuance, unless sooner revoked. Each such certificate may be renewed from year to year without examination, upon payment of the fee as hereinbefore provided for. Each such renewal shall expire on June 30th following date of issuance, unless sooner revoked.

Section 11. The Board of Mechanical Engineers shall have power by a two-thirds vote to suspend an engineer's license or a renewal thereof, for a period of thirty (30) days, and may recommend that the Council revoke same, for violation of any provision of this ordinance, or for inebriety, dishonesty or neglect of duty while in charge of an engine or boiler in use.

Section 12. If the licensee suspended demands a hearing no such license or renewal shall be revoked until a hearing shall have been had by the Council in the matter of the revocation of such license or renewal, notice of which hearing shall be given in writing and served at least three days prior to the date of hearing upon the holder of such license, which notice shall state the ground of complaint against the holder of such license and shall also state the time when and the place where such hearing will be had. Such notice shall be served upon the holder

of such license by delivering the same to such person, or by leaving such notice at the <sup>last known</sup> place of business or <sup>last known</sup> residence of such person with some person of suitable age and discretion. If the holder of such license cannot be found and service of such notice cannot be made upon him in the manner hereinbefore provided, then a copy of such notice shall be mailed, postage fully prepaid, addressed to such holder of such license at such place of business or residence at least three days prior to the date of such hearing.

Section 13. In case an application in writing, for the renewal of a license is not filed with the secretary of the said Board on or before the last day previous to the expiration of such license, the said secretary shall notify in writing, the holder of such license of the expiration thereof, and if the holder of such license shall not file an application in writing for such renewal with the said secretary within thirty days after receipt of such notice, the said Board shall revoke such license and refuse to issue a renewal thereof or a new license without an examination held in the manner provided in this ordinance for original examinations.

Section 14. Every applicant for a license who fails to pass the examination of the Board of Mechanical Engineers shall be required to wait for four weeks before making another application and thereupon the said Board shall give such applicant another examination. Any applicant who fails to pass the examination upon the third trial shall not be permitted to make another application within the period of six months thereafter.

Section 15. It shall be unlawful for any person, firm or corporation to use or operate or cause or permit to be used or operated any steam boiler or unfired pressure vessel until the same shall have been inspected and tested and approved by the

State of California or by an inspector of an insurance company certified by said State and such a certificate issued therefor, provided however, nothing in this section contained shall be construed as applying to domestic cookers and water heaters.

Section 16. It shall be unlawful for any person, firm or corporation to permit any boiler or steam generating apparatus or other apparatus mentioned in this ordinance to be subjected to or to carry a greater pressure than is allowed and stated in the certificate of inspection thereof, or to use, or cause or permit to be used any such boiler or steam generating apparatus after the same shall have been condemned as unsafe and before the same shall have been reconstructed to the satisfaction of the said boiler inspector.

Section 17. Any person, firm or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine of not more than Five Hundred Dollars (\$500.00) or by imprisonment in the City Jail for a period of not more than six (6) months, or by both such fine and imprisonment.

Each such person, firm or corporation shall be deemed guilty of a separate offense for every day during any portion of which any violation of any provision of this ordinance is committed, continued and permitted by such person, firm or corporation, and shall be punishable therefor, as provided for by this ordinance.

Section 18. Validity. If for any reason, any section, subsection, sentence, clause or phrase of this Ordinance shall be held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this ordinance. The Council of The City of San Diego hereby declares that it would have passed this ordinance and each section, sentence, clause or phrase thereof, irrespective of the fact that any one or

more sections, subsections, sentences, clauses, or phrases be declared unconstitutional.

If any provision of this ordinance or application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of this ordinance which can be given <sup>effect</sup> without the invalid provisions or application and to this end the provisions of this ordinance are declared to be severable.

Section 19. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

"CHAPTER V  
PURCHASING AGENT

"Section 5.01. The Purchasing Agent may, with the approval of the City Manager, establish and maintain one or more storerooms or warehouses for the keeping of the City's supplies. He shall cause to be kept (in addition to the 'perpetual inventory' required by Section 35 of the Charter), adequate stock records, which shall at all times show the number or amount and the value of all items carried in such storerooms and warehouses; the receipt of all items by the storerooms and warehouses established by him as aforesaid, and the cost of all such items; the issuance of all items from the storerooms and warehouses as aforesaid to City departments and offices upon requisition therefor, and the charges made thereupon. During the course of, but prior to the end of each fiscal year, the Auditor shall cause an inventory to be taken of all items in the storerooms and warehouses of the City which are then under the supervision of the Purchasing Agent and shall compare such inventory with the stock record to be kept as aforesaid by the Purchasing Agent.

"Section 5.02. Whenever articles, commodities, supplies, materials or equipment are purchased and delivered to the storerooms or warehouses under the control of the Purchasing Agent, in anticipation of requisitions from the several departments, divisions and offices, and it is impracticable at the time of such delivery to apportion the cost thereof, or any part of such cost, to the several commissions, departments, boards, divisions, and offices, payment shall be made from the Revolving Fund of the Purchasing Agent, to be repaid by the several departments, commissions, boards, divisions and offices as they receive such supplies on requisition.

"Section 5.03. At the time of the preparation of the Annual budget estimate, and at such other times as contracts for supplies are to be let, the head of each commission, board, department, office or bureau of The City of San Diego shall, upon request, submit to the Purchasing Agent an estimate, upon forms to be furnished by the Purchasing Agent, of all major articles, commodities, supplies, equipment and materials anticipated to be needed by such commission, board, department, office or bureau, for its regular operation during the ensuing fiscal year. All such estimates shall be transmitted to the Purchasing Agent, who shall prepare a summary statement which shall show the total quantity estimated to be required by all departments and offices, of each item of such article, commodity, supply, equipment and material. The estimate and summary shall also show the quantity of all such articles, commodities, supplies, or equipment and materials estimated to be on hand or in stock in such department or office or bureau, or in the City storerooms or warehouses, and the net quantities which it will be necessary or advisable to purchase during the ensuing year. The estimates and the summary shall also show the quantity, character and estimated value of all articles, commodities, supplies, equipment and materials or other property on hand in the several commissions, boards, departments, offices or bureaus, or in the storerooms and warehouses of the City, which is no longer usable or needed and which may be properly sold by the City. Such summary shall forthwith be filed with the City Manager.

"Section 5.04. The Purchasing Agent shall have the power, at any time, to purchase, on behalf of the City, without advertising, notice, or competitive bidding, any necessary or proper articles, commodities, supplies, equipment, or materials when the expenditure therefor is the sum of One Thousand Dollars (\$1,000.00) or less. He shall, however, secure competi-

tive prices on materials so purchased whenever it is feasible to do so.

Provided however, that the foregoing authority shall not be deemed to permit the Purchasing Agent, simultaneously or consecutively, within any period of six (6) months, to make two or more purchases of articles, commodities, supplies, equipment or material of the same character or for the same purpose, when the expenditure for the total of such purchases exceeds the sum of One Thousand Dollars (\$1,000.00) and when the total amount of such purchases is required at any one time, or when the Purchasing Agent has knowledge that the total amount of such purchases will be required within a period of six (6) months, without following the procedure required in making a single purchase involving the same total expenditure.. It is the intent of this provision to prohibit the Purchasing Agent from subdividing any purchase which should logically be made as a single transaction requiring the expenditure of more than One Thousand Dollars (\$1,000.00), into two or more purchases, each involving an expenditure of less than One Thousand Dollars (\$1,000.00) for the purpose of avoiding compliance with the procedure elsewhere in this Code and in the City Charter provided for the making of purchases where the expenditure involved exceeds the sum of One Thousand Dollars (\$1,000.00).

"Section 5.05. Requisitions for articles, commodities, supplies, materials or equipment by any commission, board, department, office or bureau shall be addressed to the Purchasing Agent, approved by the head of such commission, board, department, office or bureau, or authorized representative. Purchase Orders issued pursuant to such requisitions shall bear the certificate of the Auditor and Comptroller to the effect that the expenditure contemplated by such purchase order does not constitute a violation of any of the provisions of Sections 80 or 81 of the Charter.

If the commission, board, department, office or bureau making the requisition has available a sufficient appropriation balance, the Purchasing Agent shall either furnish the items requisitioned from the storerooms or warehouses under his control or shall procure them by purchase. Whenever any commission, board, department, office or bureau of the City requires supplies or equipment which another commission, board, department, office or bureau of the City is able to furnish, suitable work order or requisition may be made or transfer without monetary consideration may be effected and such supplies or equipment may be furnished to the requiring department. In such cases, appropriate charges and credits, if any, shall be made to the accounts affected by such transaction.

"Section 5.06. Whenever the City Manager of The City of San Diego, or the head of any commission, board, department or office not under the control of the City Manager, shall give notice, in writing, to the Purchasing Agent of The City of San Diego that certain personal property of The City of San Diego is so used, obsolete or depreciated as to be unfit or undesirable for use or retention by The City of San Diego, the Purchasing Agent shall, if the personal property described in said notice has an actual value less than One Thousand Dollars (\$1,000.00), have power, without advertising for bids, to sell or exchange the same for other property, or otherwise dispose of the same to the best advantage of the City after providing proper competition for such sale when feasible; provided that the word 'exchange' as used in this ordinance shall be deemed to include transactions wherein used or depreciated property of The City of San Diego is transferred as a partial consideration for the transfer to The City of San Diego of other property, and provided further, that when any such personal property has been disposed of, the amount received therefor, either in cash or as a credit, shall be credited to the depart-

ment or office of the City which requested its disposal, only if the trade-in or sale of such traded-in article or article sold has been contemplated in the current annual budget; otherwise receipts or credits from such trade-ins or sales will be deposited in the General Fund.

Whenever the personal property described in the notice referred to in the preceding paragraph shall have an actual value of One Thousand Dollars (\$1,000.00) or more, the Purchasing Agent shall apply to the Council of The City of San Diego for authority to dispose of the same, and the Purchasing Agent shall be authorized to sell or otherwise dispose of such property, as provided in the preceding paragraph, only when the Council of The City of San Diego shall, by resolution or ordinance, so direct.

The Purchasing Agent shall, within five (5) days after selling or otherwise disposing of personal property pursuant to the terms of this ordinance, report in writing to the City Manager, or the head of any commission, board, department or office not under the control of the City Manager when the proceeds of such sale is less than One Thousand Dollars (\$1,000.00) and to the Council, the result of such sale, exchange or other disposal, describing the property disposed of and stating the consideration received by the City for such property when the proceeds of such sale exceeds One Thousand Dollars (\$1,000.00).

"Section 5.07. The provisions of this chapter shall not apply to the purchase of supplies by the City Clerk for the holding of City elections where the procedure for the purchase of such supplies shall be provided for by any other ordinance of The City of San Diego.

"Section 5.08. There shall be established in the office of the Purchasing Agent, a Real Estate and Property Division, under the direction of a Supervisor of Properties who shall be under the general supervision of, and accountable to the Purchasing Agent.

The Real Estate and Property Division shall maintain complete records of all City-owned real estate, furniture and equipment of all kinds.

It shall, when directed, make inspections and appraisals of properties to be purchased, leased, sold, or transferred, and shall handle all matters pertaining thereto, not properly coming under the cognizance of the City Attorney.

It shall attend to the securing and acquisition of rights of way and easements.

It shall maintain close relationship with the office of the County Tax Collector, in order to secure information regarding property which may be sold because of delinquent taxes and which The City of San Diego may wish to acquire.

It shall cooperate with the office of the City Attorney in condemnation proceedings.

It shall keep records of, investigate, and check on lessees and concessionaires to insure compliance with leases and concession agreements.

It shall analyze forms of insurance policies, determine amounts and types of coverage required, maintain records of and supervise the distribution of all City insurance.

It shall review all City-owned real estate and direct attention to such properties which are not needed for present or future City purposes and which should be disposed of."

Section 7. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.
