BE IT ORDAINED By the Council of The City of San Diego, as follows:

Section 1. That Ordinance No. 10792 of the ordinances of The City of San Diego, entitled, "An Ordinance establishing a City Employees' Retirement System for the employees of The City of San Diego," approved December 1, 1926, as amended to date, be, and the same is hereby amended by adding a new section thereto, to be numbered Section 5.1, which said section shall read as follows:

"Section 5.1. In addition to all the benefits, rights, privileges and obligations set forth in this ordinance for and on behalf of the employees of The City of San Diego, each police officer, fireman or lifeguard performing lifeguard service, other than those police officers and firemen who are already members of the pension system under Article X of the Charter of said City, shall receive the following benefits on account of or because of accidental disability or accidental death, which said benefits are herein enumerated as follows:

(1) Whenever any such member of the City Employees' Retirement System who has been employed by The City of San Diego either as a member of the Police Department or of the Fire Department, and such employment in either the Police Department or Fire Department has taken place subsequent to June 30, 1946, and any member of said City Employees' Retirement System who as a lifeguard is performing lifeguard ser-

service at the time of his injury, shall become physically or mentally disabled by reason of bodily injuries received in or by reason of sickness caused by the discharge of duty, or as a result thereof, to such extent as to render necessary his retirement from active service, the head of the department concerned, with the approval of the City Manager, may grant a leave of absence for a period not to exceed one year with full pay to any member of the department concerned who is unable to perform his duty, which shall be paid to said employee out of the budgeted salary accounts of the City for the fiscal year or years involved.

(2) After one year, if said employee is still so incapacitated as to render necessary his retirement from active service the Board of Administration of the City Employees' Retirement System, upon determining such necessity for retirement, shall retire such member or employee and cause to be paid to him the following benefits:

An annuity which shall be the actuarial equivalent of his accumulated contributions at the time of retirement, together with a pension in addition to such annuity of an amount sufficient to provide a total retirement allowance of money equivalent to one-half of the salary received by such member at the time of injury, but not in excess of one hundred fifty dollars (\$150.00) per month.

(3) If such disability shall cease, or if such member shall, upon the recommendation of the head of the department in which he was employed, be restored to such active duty, either during the year's leave of absence or thereafter, as he is able to perform with the rank or rating in salary which he held at the time of his injury or illness, the absence payment or the retirement allowance provided hereunder shall terminate and cease. Any relief payment or retirement allowance provided for herein shall cease immediately upon the death of the person receiving the same.

If there be no widow said Board of Administration shall order paid to each child, or guardian of such child, under the age of eighteen years, if unmarried, the sum of twenty dollars (\$20.00) per month, payable monthly, but in no case shall such payments exceed the sum of seventy-five dollars (\$75.00) per month for one family.

Any payments made under this section to dependents of a member shall cease upon the death or marriage of such dependents, or upon the attainment of eighteen years of such dependents, other than the widow of such member.

(5) In the event that any member, or widow of a member, or dependent of a member, under this section, shall become entitled to receive benefits by virtue of this section, and also should be entitled to receive Workmen's Compensation Insurance benefits under any law of the State, the City shall be obligated to pay to said employee, or widow, or dependent only such amount as shall represent the difference between the sum paid to such employee, or widow, or dependent, by

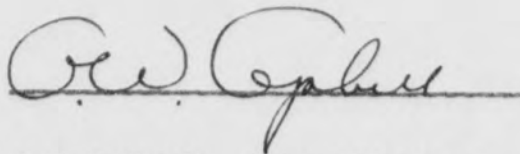

the State Compensation Insurance Fund and the maximum amount permitted to be paid such employee, or widow, or dependent under this section.

(6) None of the retirement allowances provided by paragraph 5 of Section 5 of this ordinance shall be paid to any member who is entitled to receive benefits under this section. In all other respects said Section 5, except as in conflict with this section, shall be applicable and control all situations not covered expressly by this amending ordinance."

All additional signs shall be regulated pursuant to the provisions of this ordinance.

Section 6. NO PERMITS, WHEN; The following types shall be deemed the only types of signs and billboards which may be erected on private property in Zones C, M-1 and M-2 without first obtaining a permit:

(a) Isolated signs and billboards supported from the ground on a private property, provided that the aggregate of such signs and billboards do not exceed a total of 50 square feet in area nor 6 feet in height measured from ground to top of sign.

(b) Signs and billboards, other than electric, when placed flat against the exterior walls of a building, provided that no part of such signs and billboards project more than 6 inches over public property and have clearance above public property as required in Section 18 of the Building Code; and provided, further, that such signs and billboards do not exceed a total of 50 square feet in area on any one premises or property.

(c) Temporary cloth signs when placed flat against walls of a building, also auction signs or banners, not exceeding 400 square feet in total, as particularly described in this ordinance.

(d) Temporary signs on temporary structures over public property, where permit has been issued for use of such public property during construction period, shall be for identification and principal use of the premises only.

Section 7. STRUCTURAL REQUIREMENTS:

(a) All signs and billboards, including their supporting parts and fastenings, shall have sufficient strength to safely support all possible live and dead loads, and shall safely resist the wind pressures as provided and required in the Building Code. Poles, posts and similar vertical supports when used to support a sign must be designed to safely support the weight of the sign and resist bending and torsion, if any.

(b) The structural safety of the roof, wall or other support which directly or indirectly supports any sign or bill-

board shall be carefully investigated and reinforced or strengthened when necessary to insure the safety requirements of the Building Code. All structural steel and similar supporting parts shall be galvanized or painted with three coats of preservative exterior paint.

Section 8. STRUCTURAL DESIGN: All signs and billboards, including their supporting parts and fastenings, shall have sufficient strength to safely support all possible live and dead loads, and when designing same the lateral wind pressure shall be assumed as 15 pounds per square foot for exposed surfaces, excepting that when said signs and billboards are to be located on or above the roof of a building or structure exceeding four stories or 40 feet in height above ground or grade, the lateral wind pressure shall be assumed as 20 pounds per square foot of exposed surfaces.

All sign and billboard supports and structural framing are to be substantial, rigid and well-braced without resorting to wires, guys and flexible ties, and no member of said structural support or framing, when of steel, shall be less than $3/16$ of an inch in thickness.

Section 9. MAINTENANCE. All signs and billboard supports and fastenings shall be maintained in a state of safe repair, and well painted by the person, firm or corporation owning, operating or having the care or custody of such signs and billboards.

Section 10. GALVANIZED MEMBERS. The minimum permissible diameter of all sign supporting wires, guy wires, or cables,

where structurally required, shall be not less than one-fourth of an inch. All wires, cables, turnbuckles, clevises, sleeve nuts, and fastenings connected therewith, shall be bronze, galvanized or painted with three coats of approved paint, and all supporting cables and guy wires shall be provided with turnbeuckles or sleeve nuts.

Section 11. PERMANENT FASTENINGS. Wooden plugs, wedges and similar wooden fastenings are prohibited. One-half inch diameter shall be the minimum allowable for bolts and similar fastenings at the walls. Loose brick, stone or masonry around fastenings must be permanently cemented back in place.

Section 12. FLAT WALL SIGNS, ETC. When a sign exceeds 50 square feet in area and is placed flat against the wall of a building, such sign shall be constructed from non-combustible material, excepting that such signs may have a wooden skeleton stiffening frame.

Section 13. UNLAWFUL FASTENINGS. No sign or banner shall be fastened to, or supported on or from any standpipe, downspout, conduit, fire escape, or fire escape balcony, and no sign or banner of any kind shall be placed across or directly in front of any necessary or required window.

Section 14. IDENTIFICATION. All signs must have the maker's name conspicuously located and permanently attached or painted on the exterior.

Section 15. NON-COMBUSTIBLE MATERIALS, STEEL FRAME. Except as otherwise particularly stated in this ordinance, all signs and billboards, their supports and fastenings when placed on or above any roof or similar location, shall be constructed entirely from non-combustible or approved materials.

Roof signs having an advertising surface exceeding 15 feet in height shall consist of open metal work skeleton lettered construction with a structural steel frame.

Section 16. ROOF AND PARAPET SIGNS.

(a) The lower edge of all roof signs and billboards shall be kept at least 4 feet in the clear above the roof, except when the topmost part of a sign does not exceed 5 feet in height above the roof.

(b) All roof signs and all billboards shall be so constructed as to provide a sufficient clearance for safety and fire fighting purposes, which clearance shall be at least 3 feet on either side and 4 feet above the roof surface.

(c) A non-combustible sign, not exceeding 20 feet in length, the top or upper edge of which does not exceed 30 inches in height above the parapet, may be placed directly on the parapet of a building, provided the sign, supports and parapet wall are suitable for the purpose and structurally safe.

Section 17. MAXIMUM VERTICAL SIGN PROJECTION: Signs may project over a public street or public sidewalk as far as but not beyond the limiting dimensions as follows:

<u>HEIGHT ABOVE SIDEWALK</u>	<u>MAXIMUM PROJECTION OVER PUBLIC STREET</u>
8 feet	1 foot
9 feet	1 foot, 6 inches
10 feet	2 feet
11 feet	2 feet, 6 inches
12 feet	3 feet
13 feet	3 feet, 6 inches
14 feet	4 feet
15 feet	4 feet, 6 inches
16 feet and over	5 feet

Vertical signs which are placed at the corner of two intersecting streets shall be hung so as to make the same angle with both streets. Said signs shall not exceed 16 inches in thickness; however the signs may extend vertically any safe distance.

Section 18. SIGNS OVER PUBLIC PROPERTY:

(a) Unless otherwise stated in this ordinance all signs, other than signs on marquees, when projecting more than 12 inches (and not exceed 5 feet) over public property, must be hung at right angles to the face of the building and/or property line, excepting that at the corners of intersecting streets the sign shall be hung so as to make the same angle with both streets. Small metal molding, trim, incandescent bulbs and neon tubing may project not to exceed 3-1/2 inches beyond the face of the sign. "V" shaped signs or rounded signs projecting more than 30 inches over public property are prohibited and no "V" shaped (or rounded) sign shall exceed three feet in height, nor more than 14 feet in length measuring parallel to the building. Signs may be placed flat against parapet walls, provided such signs do not project above top of parapets. Excepting that when such sign does not exceed 20 feet in length, the same may project not to exceed 30 inches above the parapet.

(b) All signs which project more than 8 inches over public property shall be constructed from non-combustible material, excepting that signs which do not extend more than 30 inches over public property and do not exceed a total of 10 square feet in area may be constructed from plywood, slow burning fiber board, or similar rigid material. No sign other than an approved electric sign shall project more than 30 inches over public property, except as to approved theatre marquee signs, which signs shall be regulated by Section 32.

Section 19. DISTANCE BETWEEN SIGNS. No sign projecting more than 30 inches over public property shall be located within 4 feet, measuring in any direction, of any other sign which projects more than 30 inches over public property. Such signs shall be entirely free and independent of one another.

Section 20. ELECTRIC SIGNS: All signs which project more than 30 inches beyond the property line (over public property) shall be illuminated, approved electric signs. Both sides or faces of such signs shall be illuminated. The exterior illumination shall be arranged to form an integral part of the characters, symbols and/or decorative features. The illumination shall be not less than the equivalent of 12 watts per square foot of exposed surface on each side when using incandescent lamps. When gaseous tubes are used not less than 10 linear inches of exposed, illuminating tubing for each square foot of exposed sign surface on each side will be required. The exposed illuminated tubing shall be reasonably distributed over the sign surface except for small concentrated areas containing a feature of the sign.

Section 21. ATTACHED SIGNS: A small metallic sign, not exceeding 18 inches in height, may be attached directly to the top or bottom of an electric sign which projects over the public walk, provided there is enough extra illumination on the electric sign to provide for the added surface as required in the preceding paragraphs, and provided, further, that the added sign shall be bolted, riveted and/or rigidly secured, as approved, directly to the electric sign, thus making one complete sign.

Section 22. THICKNESS, INTERNAL ILLUMINATION; WEATHER-PROOF: Hollow signs shall not exceed 16 inches in thickness. Signs when provided with approved and sufficient non-leak weather-tight transparencies on both sides, and uniformly distributed internal illumination, will be accepted as electric signs, provided that the total effective illumination in the preceding paragraphs be provided. All hollow signs shall have drainage holes in bottom.

The interior of all box type and hollow electric signs shall be protected from the elements, and shall be constructed so as to insure a reasonably dry interior.

Section 23. REFLECTED ILLUMINATION PROHIBITED: Illuminating any sign by reflected light will not qualify such sign as an electric sign when the light is held away from the sign with arms, brackets, conduits or rods, whenever any portion thereof is over public property.

Section 24. NATIONAL CODE REQUIREMENTS: Except as otherwise specified in this ordinance, all electric signs shall meet specification and construction requirements equal or equivalent to the electrical sign requirements as specified in the current National Electrical Code.

Section 25. NON-COMBUSTIBLE SIGNS: GLASS PANELS: All electric signs which extend more than 8 inches over public property shall be constructed entirely from non-combustible materials, and shall be reinforced with rigid steel or equivalent structural frame and bracing. Plain or plate glass panels or characters exceeding 200 square inches in area are prohibited. Wire glass, or approved heat resisting glass or approved equivalent fire resisting panels may be used, provided the area does not exceed 720 square inches.

Section 26. ILLUMINATED WHEN: All electric signs which project more than 30 inches over public property (beyond the property line) must be burned at full capacity at least two hours each and every night between the hours of sundown and midnight; excepting that Sunday and legal holiday nights may be optional. All signs not so burned shall be entirely removed, except where a diligent effort is being made to repair said sign or where said building is temporarily unoccupied, but not to exceed a period of ninety (90) days. It shall be the responsibility of the person, firm or corporation owning, operating or having the care or custody of such signs to remove the same.

Section 27. ERECTION BY ELECTRICIANS, WHEN: For the purpose of this ordinance all electric signs will be considered

as electric fixtures and must bear the approval of the Underwriters' Laboratory or other similar institution of recognized standing. All electric signs shall be erected and connected under the jurisdiction of a licensed electrical or sign contractor, and all permits for such signs shall be issued to a licensed sign or electrical contractor.

Section 28. CLOCKS: Clocks will be permitted next to curb at outer edge of walk, provided such clocks, constructed from non-combustible materials, are kept running and correctly keep the time of day. The bottom or pedestal part shall not exceed 2 feet in any outside dimension. That part of the clock carrying the dials shall be at least 7 feet 6 inches in the clear above the walk. The entire "upper part" containing the dial shall not exceed 14 inches in thickness, and each face shall not exceed a total over-all gross area of 20 square feet, the space occupied by the net area of the clock dials each side shall form at least one-half of such "upper part." Said clocks shall contain no advertising other than the name of the manufacturer or designer thereof, and said name designation shall be by name plate with engraved or embossed letters not exceeding 6 inches in height; provided that existing clocks whose dimensions are in excess of the requirements of this section shall be allowed to remain standing so long as they comply with all of the other provisions of this section.

Section 29. CLOTH SIGNS: Temporary cloth signs not exceeding a total of 400 square feet in area for any one premises or property, stretched on a wood frame, when in good repair and as long as said sign remains in good conditions, may be placed or kept flat against the face of a building for a period not to exceed 90 days in any period of 12 consecutive months. In the event said temporary cloth sign shall be in a state of disrepair or in poor condition or become poor in appearance, the Building Inspector shall order its removal. No cloth or other sign shall be placed over or across any

necessary or required window, nor shall such signs or advertising be placed on, over or suspended from or near any electric sign.

Section 30. STREET BANNERS: Banners stretched over public property are prohibited, unless recommended by the City Manager, after which the written approval of the City Council by resolution in writing must be obtained. After such approval has been granted the same shall be presented to the Building Inspector, and the latter will then issue an erection permit, for which a fee of Three Dollars (\$3.00) shall be collected. No banner shall be allowed over public property for a longer period than 30 days. A substantial rope at least one inch in diameter, not wire cable or other metallic rope or wire, shall be used as the main support, and two one-half inch ropes shall be used for securing each lower corner, and the banner shall have sufficient wind holes.

Section 31. SIGNS ON MARQUEES.

(a) Signs may be permitted on marquees. All applications for permits for signs on marquees shall be referred by the Building Inspector to the Planning Commission or any other commission designated by the City Council for approval. Procedure thereon shall be as prescribed by the zoning ordinances of The City of San Diego and amendments thereto, or by any other ordinance designated by the City Council.

(b) Marquees lawfully constructed in accordance with the requirements of the Building Code of The City of San Diego may contain signs or lettering along or on the outer vertical faces of said marquees, as provided herein. Signs may be superimposed or placed upon the roof or deck or upper edge of any marquee as provided herein. Signs may be attached to the soffit or lower edge or bottom deck of said marquee as provided herein.

(c) Marquees, when being used for theatrical purposes only, may have signs superimposed or placed upon the roof or deck or upper edge of said marquees, and said sign shall con-

sist of ornamental, non-combustible ornamentation and/or skeleton lettering, not to exceed 30 inches in height. Said marquees being used for theatrical display may contain signs or lettering along or on the outer vertical faces of said marquees. The maximum height of a marquee, measuring from the extreme bottom of the marquee to the extreme top, shall not exceed 6 feet.

(d) Approved electric signs may be rigidly connected directly to the soffit or lower edge or bottom deck of a marquee when the sign is placed at right angles to the face of the building, provided that the bottom of the sign be located at least 7 feet 8 inches in the clear above the walk or public property, and provided, further, that said sign shall be no longer than 8 feet in length nor more than two-thirds of the width of the marquee from the building line and the outer edge of the marquee and shall be symmetrically placed along a center line running parallel to the face of the building, which line shall run along the center of the marquee between the outer edge of the marquee and the building line, and provided, further, that the lettering on said sign shall consist of not more than a single row of letters not exceeding 8 inches in height, and further provided that said sign shall not exceed 12 inches in width and/or 12 inches in gross all-over height.

(e) Temporary decoration may be erected upon a marquee for a few days during some special occasion. A small temporary sign containing the words "Welcome," "Convention Headquarters," or similar temporary notices directing out-of-town delegates to their convention headquarters, may be placed upon a marquee with a minimum clearance of 7 feet 8 inches above sidewalk grade. However, no advertising shall appear on such temporary sign.

Section 32- FLAG-TYPE BANNERS: Temporary advertising, flag-type banners, not exceeding 30 square feet in area, may be placed over the public walk, provided that such banners be suspended from temporary portable poles extending from the building. The banner shall be at least 7 feet in the clear above the walk, and no part of such banner shall extend more than 4 feet from the building. For the purpose of this paragraph the term "temporary" shall be deemed to mean "not to exceed 60 hours in any one week," and such banners shall be entirely removed from above public property at all other times.

Section 33. THEATRE AND NEWS BULLETINS: It shall be lawful for theatres, motion picture theatres and newspaper publishing concerns to display banners composed of approved fabric or ducking for the purpose of acquainting the public with their current attractions and informative news items. The maximum size of any theatre or news bulletin under this section shall not exceed 6 feet 6 inches by 30 feet in height, and placed flat against the building. Such banner or news bulletin shall be suitably supported, and shall be provided with openings to relieve wind pressure through the material of which it is constructed.

Section 34. ADDITIONAL BILLBOARD REQUIREMENTS: No permit shall be issued for the erection or placing of any billboard requiring a permit unless the applicant be licensed to practice outdoor advertising, as provided in the San Diego

General License ordinances. This section shall not prohibit the Building Inspector from issuing such permit to any person, firm or corporation for the purpose of advertising their own business by means of outdoor signs or billboards on property which they own, lease or have control.

Section 35. BILLBOARD IDENTIFICATION: There shall be placed and maintained on each billboard the "name" plainly painted of the person, firm or corporation owning, or who is in possession, charge or control of such billboard, and such name shall be legible to the naked eye at a distance of 100 feet from the billboard.

Section 36. BILLBOARD HEIGHTS, FRAMING ADVERTISING SURFACES: Billboards with an advertising surface exceeding 15 feet in height, whether one or more sections in height or not, are prohibited. Non-combustible ornamental columns or pedestals only may be placed at the ends of billboards. Each section may have a small skeleton wood frame in back of the non-combustible advertising surface. The surface of all billboards shall be of non-combustible material, providing, however, that the surface of billboards located outside Fire Zone No. 1, on which the advertising matter is painted, may be of wood at least three-quarters of an inch in thickness, or approved equivalent.

Section 37. DEBRIS, WEEDS: No paper, cloth or advertising matter shall hang loose from any billboard, nor shall any person who constructs, owns, maintains or controls any billboard fail or neglect to remove at all times weeds, rubbish, or any inflammable material from below and adjacent to such billboard.

Section 38. BILLBOARD DEBRIS ON PUBLIC PROPERTY: No person shall scatter, daub, or leave any paint, paste or other substance used for painting, pasting, or affixing advertising matter, upon any public street or sidewalk, nor shall any person scatter or throw or permit to be scattered or thrown, any

bills, waste matter, paper, cloth, or materials removed from billboards, on any public or private property.

Section 39. REMOVAL OF NON-CONFORMING SIGNS: Any sign presently complying with existing regulations and overhanging public property, and not in compliance with this ordinance, shall be removed prior to June 1, 1953, and on and after such date it shall be unlawful for any person to have, keep or maintain any sign extending more than five feet over public property except approved signs on marquees as provided for in this ordinance.

Within ten (10) days after the effective date of this ordinance, every person who has contracted for or is constructing or installing a sign not in compliance with this ordinance, shall register said plans and make application for a permit with the Building Inspector of The City of San Diego, and shall proceed thereon as provided for in this ordinance. Otherwise, all signs over public property shall conform to this ordinance.

Section 40. PERMITS REVOCABLE: All permits for signs issued pursuant to this ordinance shall be revocable at any time if, in the discretion of the Council of The City of San Diego, the same is required in the public interest; and all permits shall be issued upon the condition that The City of San Diego shall be held free from any liability on account of the construction, installation, maintenance and/or repair of such signs.

Section 41. ILLEGAL SALE OR CONSTRUCTION; MISDEMEANOR; PENALTY: No person shall sell or offer to sell, or construct, or offer to construct, install, repair, remodel or maintain any sign in violation of this ordinance, and any person violating any of the requirements, regulations or provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not more than Five Hundred Dollars (\$500.00), or by imprisonment

in the City or County Jail for a period not longer than six (6) months, or by both such fine and imprisonment.

Section 42. That Sections 5003a to 5008, both inclusive, of Ordinance No. 13365 of the ordinances of The City of San Diego, adopted on the 7th day of December, 1931, and Chapter 3200, consisting of Sections 3201 to 3236, both inclusive, of Ordinance No. 3674 (New Series) of the ordinances of said City, adopted March 2, 1948, be, and the same are hereby repealed.

BE IT ORDAINED BY the Council of the City of San Diego, as follows:

Section 1. DEFINITIONS: (a) SIGN. The term "SIGN" shall be deemed to mean any arrangement of letters, designs or borders superimposed on, suspended from, or attached to a surface, painted on a surface or incised into a surface. Unlighted architectural configuration, with no advertising, lettering or design shall not be included within the meaning of this definition.

AREA OF SIGN. The area of a sign shall be the sum of the areas enclosed within parallelograms drawn around each letter or design, and the area of the borders of the sign which shall be computed by including the area enclosed by a line drawn around and two inches distant from the border on all sides. If the letters or designs are connected to one another as in script writing, the parallelograms shall be drawn around each group of letters or designs so connected.

If the frame or backing of the letters, designs or borders of a sign form an integral part of the sign, then the sign area shall be the total area of the face of the sign.

Each face of a multi-face sign shall be counted in computing the permitted area of the sign.

(New Series)

AN ORDINANCE AMENDING SECTION 5 OF ORDINANCE
NO. 3778 (NEW SERIES), ADOPTED JUNE 22, 1948.

BE IT ORDAINED, By The Council of The City of San Diego,
as follows:

Section 1. That Section 5 of Ordinance No. 3778 (New Series) of the Ordinances of The City of San Diego, entitled, "An Ordinance providing for the extension of water mains at the expense of applicants therefor, and providing for the refund to such applicants of a proportionate share of the cost to be paid by subsequent applicants for service connections to such mains, and repealing Ordinance No. 2786 (New Series), adopted March 7, 1944 and Ordinance No. 3088 (New Series), adopted October 30, 1945", adopted June 22, 1948, be, and the same is hereby amended to read as follows:

"Section 5. (a) All new subdivisions shall have a complete water distribution system installed before such subdivisions are accepted by the City. The design of such water distribution system shall be prepared by the Water Department and approved by the City Manager. The system shall include a feeder main from the nearest point in the City's water system from which a satisfactory quality of water, in sufficient quantity and at sufficient pressure, can be supplied for the proposed subdivision. The subdivider shall pay the City for the installation of said water distribution system, except as hereinafter provided, in accordance with the regulations of the Water Department. Where the Water Department elects, it may require the subdivider to furnish materials in part payment, under conditions and at current market prices to be established by the Water Department.

(b) Upon receipt of an application for approval of a new subdivision and the filing of a tentative map thereof, which shall contain an accurate description of the property to be served, the Manager shall cause the Water Department to prepare a map showing the area of the new subdivision to be benefited by water service and request such department to make an estimate of costs necessary to be paid for the installation of a water distribution system in said proposed subdivision. In determining the costs of the installation of said water system for said proposed subdivision, the Water Department shall take into consideration the size of the mains necessary to serve all of the area of said subdivision and the size of the feeder main which will be necessary to be installed to supply said subdivision with water, and in this connection determine if the best interests of the City will be served by installing larger mains in order that the City may serve areas outside of the proposed subdivision; further, the Water Department may take into consideration in determining such costs the size of mains necessary to be installed on boundary streets of the proposed subdivision, from which mains, future needs of adjacent territory may be served, and in making such estimates for the mains in said boundaries determine the amount of cost necessary to be deposited by the applicant and the portion of such cost which the City should bear for such installations. Where mains larger in size than 8" are required for the purpose of providing water for the subdivision, the increased cost of such water mains shall be borne by the City. The Water Department then shall furnish to the applicant an estimate of the cost which the applicant is required to deposit for the installation of

the water system necessary for the supplying of water to the proposed subdivision. The amount of such cost thus determined shall be deposited by the applicant with the City. Following the receipt of such deposit, the Manager shall take the necessary steps and cause said water distribution system to be installed in the proposed subdivision either by City forces or by contract.

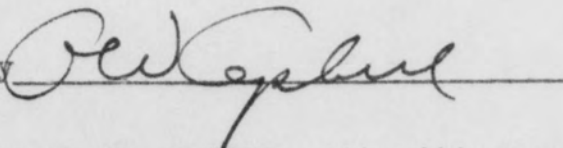

In the event the applicant's deposit for estimated cost of the installation of said water system exceeds the actual cost of such installation, the excess shall be refunded to the applicant; and in the event the deposit is less than the actual cost of installation the applicant shall pay to the City the amount of such deficiency.

(c) Upon request of the Manager, the Purchasing Agent of the City is hereby authorized to purchase any existing water systems heretofore installed by the owner of new subdivisions where the cost of the installation of said water systems has been borne by the owner of said subdivisions and where the owner has been required to install water mains larger than necessary to be installed in order to supply water to the subdivision. The price to be paid by the City for such water distribution system shall be determined by the Water Department, and shall be that amount which represents the difference in cost of mains necessary for serving the subdivision and the mains which were actually installed by the owner of the subdivision by order of the City in order that the City might secure the benefit of the larger sized mains to serve territory in addition to that in the subdivision. In all such cases before the money is actually paid to the owner of said subdivision said owner shall be required

ORDINANCE NO. 4655 (NEW SERIES)

AN ORDINANCE AMENDING SECTION 5 OF ORDINANCE NO. 3778 (NEW SERIES), ADOPTED JUNE 22, 1948.

BE IT ORDAINED, By The Council of The City of San Diego, as follows:

Section 1. That Section 5 of Ordinance No. 3778 (New Series) of the Ordinances of The City of San Diego, entitled, "An Ordinance providing for the extension of water mains at the expense of applicants therefor, and providing for the refund to such applicants of a proportionate share of the cost to be paid by subsequent applicants for service connections to such mains, and repealing Ordinance No. 2786 (New Series), adopted March 7, 1944 and Ordinance No. 3088 (New Series), adopted October 20, 1945," adopted June 22, 1948, be, and the same is hereby amended to read as follows:

"Section 5. (a) All new subdivisions shall have a complete water distribution system installed before such subdivisions are accepted by the City. The design of such water distribution system shall be prepared by the Water Department and approved by the City Manager. The system shall include a feeder main from the nearest point in the City's water system from which a satisfactory quality of water, in sufficient quantity and at sufficient pressure, can be supplied for the proposed subdivision. The subdivider shall pay the City for the installation of said water distribution system, except as

hereinafter provided, in accordance with the regulations of the Water Department. Where the Water Department elects, it may require the subdivider to furnish materials in part payment, under conditions and at current market prices to be established by the Water Department.

(b) Upon receipt of an application for approval of a new subdivision and the filing of a tentative map thereof, which shall contain an accurate description of the property to be served, the Manager shall cause the Water Department to prepare a map showing the area of the new subdivision to be benefited by water service and request such department to make an estimate of costs necessary to be paid for the installation of a water distribution system in said proposed subdivision. In determining the costs of the installation of said water system for said proposed subdivision, the Water Department shall take into consideration the size of the mains necessary to serve all of the area of said subdivision and the size of the feeder main which will be necessary to be installed to supply said subdivision with water, and in this connection determine if the best interests of the City will be served by installing larger mains in order that the City may serve areas outside of the proposed subdivision; further, the Water Department may take into consideration in determining such costs the size of mains necessary to be installed on boundary streets of the proposed subdivision, from which mains, future needs of adjacent territory may be served, and in making such estimates for the mains in said boundaries determine the amount of cost necessary to be deposited by the applicant and the portion of such cost which the City should bear for such installations. Where mains larger in size than 8" are required for the purpose of providing water for the subdivision, the increased cost of such water mains shall be borne by the City. The Water Department then shall furnish to the applicant an estimate of the cost which the applicant is required to deposit for the installation of the water system necessary for the supplying of water to the proposed subdivision. The amount of such cost thus determined shall be deposited by the applicant with the City. Following the receipt of such deposit, the Manager shall take the necessary steps and cause said water distribution system to be installed in the proposed subdivision either by City forces or by contract.

In the event the applicant's deposit for estimated cost of the installation of said water system exceeds the actual cost of such installation, the excess shall be refunded to the applicant; and in the event the deposit is less than the actual cost of installation the applicant shall pay to the City the amount of such deficiency.

(c) Upon request of the Manager, the Purchasing Agent of the City is hereby authorized to purchase any existing water systems heretofore installed by the owner of new subdivisions where the cost of the installation of said water systems has been borne by the owner of said subdivisions and where the owner has been required to install water mains larger than necessary to be installed in order to supply water to the subdivision. The price to be paid by the City for such water distribution system shall be determined by the Water Department, and shall be that amount which represents the difference in cost of mains necessary for serving the subdivision and the mains which were actually installed by the owner of the subdivision by order of the City in order that the City might secure the benefit of the larger sized mains to serve territory in addition to that in the subdivision. In all such cases before the money is actually paid to the owner of said subdivision said owner shall be required to furnish and deliver to the City a good and sufficient quitclaim deed, quitclaiming and conveying to the City all the right, title and interest of said owner of said subdivision in and to any existing water distribution system located in said Subdivision."

Section 2. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

(New Series)

AN ORDINANCE PROPOSING AND SUBMITTING TO THE ELECTORS OF THE CITY OF SAN DIEGO AT THE REGULAR MUNICIPAL PRIMARY ELECTION, TO BE HELD IN SAID CITY ON TUESDAY, THE 13TH DAY OF MARCH, 1951, CERTAIN PROPOSITIONS TO AMEND THE CHARTER OF THE CITY OF SAN DIEGO.

BE IT ORDAINED, By the Council of The City of San Diego, as follows:

Section 1. Pursuant to the provisions of Section Eight of Article Eleven of the Constitution of the State of California, the Council of The City of San Diego, being the legislative body of said City, hereby proposes and submits to the qualified electors thereof, to be voted on at the regular Municipal Primary Election to be held in said City on the 13th day of March, 1951, the following propositions to amend the present Charter of said City:

PROPOSITION NO. 1.

Amend Section 70 of Article VII of the Charter of The City of San Diego to read as follows:

"Section 70. POWER TO FIX SALARIES. The Council shall have the power to fix salaries of the City Manager, the City Clerk, the City Treasurer, the City Auditor and Comptroller, and all other officers under its jurisdiction. All members of Commissions shall serve without compensation except where otherwise provided by State law or this Charter. Except as otherwise provided by law the City Manager and other departmental heads outside of the departments under control of the City Mana-

ger shall have power to recommend salaries and wages subject to the personnel classification and the schedule of salaries fixed by the Civil Service Commission, of all other officers and employees within the total amount contained in the Annual Appropriation Ordinance for personal service in each of the several departments of the City Government. All increases and decreases of salary or wages of officers and employees shall be determined at the time of the preparation and adoption of the budget, and no such increase or decrease shall be effective prior to the fiscal year for which the budget is adopted; provided, however, that if during any fiscal year, the Council should find and determine that because of a significant change in living costs, the salaries and wages fixed for such fiscal year are not comparable to the level of other salaries and wages of other public or private employments for comparable services and as a result, the best interests of the City are not being protected or are in jeopardy, said Legislative Body, upon recommendation of the Manager or other department head, and if funds are available, may revise such salary and wage schedules to the extent necessary to protect the City's interests."

PROPOSITION NO. 2

Amend Section 141 of Article IX of the Charter of The City of San Diego to read as follows:

"Section 141. CITY EMPLOYEES RETIREMENT SYSTEM. The Council of the City is hereby authorized and empowered by ordinance to establish a retirement system and to provide for death benefits for public employees other than those policemen and firemen who were members of a pension system on June 30, 1946, and other

than elective officers and members of commissions who serve without pay. Except as hereinafter provided, no employee shall be retired before he reaches the age of sixty-two years and before he has completed ten years of continuous service. Policemen, firemen and full time life guards, however, who have had ten years of continuous service may be retired at the age of fifty-five years. The Council may also in said ordinance provide:

- (a) For the retirement with benefits of an employee who has become physically or mentally disabled by reason of bodily injuries received in or by reason of sickness caused by the discharge of duty or as a result thereof to such an extent as to render necessary his retirement from active service.
- (b) Death benefits for dependents of employees who are killed in the line of duty or who die as a result of injuries suffered in the performance of duty.
- (c) Retirement with benefits of an employee who, after ten years of service, has become disabled to the extent that he is not capable of performing his duties, or who is separated from City service without fault or delinquency on his part.

Retirement shall be compulsory at the age of sixty-five, except that the Manager or other department head, for the City's benefit, may thereafter continue an employee who has reached such age limit in the City service from year to year up to, but not beyond, the time when such employee reaches the age of seventy-two years."

PROPOSITION NO. 3.

Amend Section 144 of Article IX of the Charter of The City of San Diego, to read as follows:

"Section 144. BOARD OF ADMINISTRATION. The system shall be managed by a Board of Administration which is hereby created, consisting of the City Manager, City Auditor and Comptroller, the City Treasurer, three members of the Retirement System, to be elected from the active membership, a resident official of a life insurance company, an officer of a local bank and a citizen of the City, the latter three to be appointed by the Council. Such appointees shall serve without compensation. Members of the Board, other than ex-officio, shall serve ~~six~~ years or until their successors are elected and qualified, and shall so classify themselves by lot that one term shall expire each year. The members of the existing Board shall serve out their unexpired terms.

The Board of Administration may establish such rules and regulations as it may deem proper; shall elect one of its members president and appoint a secretary and may appoint such other employees as may be necessary. Such appointments, except the actuary, shall be made under the provisions of Article VIII of this Charter.

The Board of Administration shall be the sole authority and judge under such general ordinances as may be adopted by the Council as to the conditions under which persons may be admitted to benefits of any sort under the retirement system; and shall have exclusive control of the administration and investment of such fund or funds as may be established; provided, however, that such board shall not be permitted to invest in any bonds or securities which

are not authorized by General Law for savings banks; and, provided, further, the board may place such funds in the hands of the Funds Commission for investment. Provided, however, that the Auditor and Comptroller shall refuse to allow any warrant drawn for payment of a retirement allowance if, in the opinion of the Auditor and Comptroller such retirement allowance has been granted in contravention of this Article or any ordinances passed under the authority granted herein."

PROPOSITION NO. 4.

Amend Section 153 of Article X of the Charter of The City of San Diego, to read as follows:

"Section 153. INVESTMENT OF FUNDS. The Board of Trustees is hereby authorized to invest any moneys in the Police and Fire Retirement System Fund, in approved United States Government, State of California, municipal or county bonds, or such bonds and securities as are authorized by General Law for investment for savings banks and are recommended by the Funds Commission of The City of San Diego; provided, however, that sufficient money shall always be kept in such fund to meet the pension payments provided for in this Article."

PROPOSITION NO. 5.

Ament Section 163 of Article X of the Charter of The City of San Diego, to read as follows:

"Section 163. PAYMENTS FOR DISABILITY. Whenever any member entitled to the benefits of this system shall become physically or mentally disabled by reason of bodily injuries received in or by reason of sickness caused by the discharge of duty or as a result

thereof to such an extent as to render necessary his retirement from active service, said Board of Trustees, upon determining such necessity for retirement, shall retire such member or employee and cause to be paid to him a pension equal to one-half of the salary attached to the rank held by him for one year or more previous to the time the disability was incurred; and said pension shall increase and decrease in proportion to the salary attached to said rank; provided that such pension shall at no time exceed the sum of two hundred dollars (\$200.00); and, provided further, that the Council of said City may provide by Ordinance that for a time not to exceed one year of such disability, such member shall be entitled to receive in lieu of the benefits herein provided his full salary, payable to him out of the salary funds of the City, minus, however, such Workmen's Compensation Benefits as said member shall have received for such period of time as he is paid his salary. If such disability shall cease he shall, upon the recommendation of the Chief of the Department, be restored to such active duty as he is able to perform, with the rank or rating and salary he held at the time of his retirement, and such pension shall terminate. In the event of the death of such pensioner, the pension shall be paid to his dependents in accordance with the provisions of Section 162. Any pension or relief payment provided for herein shall cease immediately upon the death of the person receiving the same. Any payment made hereunder to dependents of a member shall cease upon the death or marriage of such dependents or upon the attainment of the age of eighteen years by such dependent other than the widow or father or mother."

PROPOSITION NO. 6.

Amend Section 194 of Article XII of the Charter of The City of San Diego, to read as follows:

"Section 194. TIME AND ONE-HALF PAY. Except for employees of the City who are paid twice monthly on the yearly salary basis, not less than one and one-half times the said prevailing or current rate of per diem wages shall be paid for extra work performed by laborers, workmen or mechanics employed by or on behalf of the City upon any public work on Sundays and such legal holidays as shall be designated by the Council of said City by ordinance and for work performed in excess of eight hours in one calendar day in such cases in which such overtime work is permitted by law."

Said propositions shall be presented and printed upon the ballot, and submitted to the voters, in the manner and form set out in Section 2 of this ordinance.

Section 2. The ballot provided at said regular Municipal Primary Election to be held on March 13, 1951, shall be so printed as to state each of the propositions hereinabove set out in Section One of this ordinance in the manner and form following:

Shipbuilders Vote Uniform Wage Bases

BOSTON, Jan. 24 (AP)—Delegates representing 60,000 C.I.O. shipbuilding workers voted today to seek uniform wages and working conditions throughout the industry. They resolved unanimously that "oppressive provisions of contracts are no longer binding."

The resolution, which highlighted the third day of the group's 15th biennial convention said the union "has many such contracts with employers, forced upon our members under the coercion and threat of unemployment, shapeup or lockout."

EARNINGS DROPPED
The resolve said that as wartime shipyard employment of 1,750,000 slumped to only 60,000 in 1950, earnings of shipyard workers dropped from third to thirteenth among the 15 major industries.

"Where a contract, extorted from our members by economic coercion," it added, "makes impossible decent working conditions and a decent standard of living, it cannot, it must not be permitted to stand in the way of the following wage program:

"1—Immediately upon adjournment of this convention, every local shall institute negotiations for such wage increases and such conditions of employment as will equal the highest prevailing for comparable skills in comparable industries.

BE IT ORDAINED, By the Council of The City of San Diego, as follows:

Section 1. Pursuant to the provisions of Section Eight of Article Eleven of the Constitution of the State of California, the Council of The City of San Diego, being the legislative body of said City, hereby proposes and submits to the qualified electors thereof, to be voted on at the regular Municipal Primary Election to be held in said

City on the 13th day of March, 1951, the following propositions to amend the present Charter of said City:

PROPOSITION NO. 1

Amend Section 70 of Article VII of the Charter of The City of San Diego to read as follows:

"Section 70. POWER TO FIX SALARIES. The Council shall have the power to fix salaries of the City Manager, the City Clerk, the City Treasurer, the City Auditor and Comptroller, and all other officers under its jurisdiction. All members of Commissions shall serve without compensation except where otherwise provided by State law or this Charter. Except as otherwise provided by law the City Manager and other departmental heads outside of the departments under control of the City Manager shall have power to recommend salaries and wages subject to the personnel classification and the schedule of salaries fixed by the Civil Service Commission, of all other officers and employees within the total amount contained in the Annual Appropriation Ordinance for personal service in each of the several departments of the City Government. All increases and decreases of salary or wages of officers and employees shall be determined at the time of the preparation and adoption of the budget, and no such increase or decrease shall be effective prior to the fiscal year for which the budget is adopted; provided, however, that if during any fiscal year, the Council should find and determine that because of a significant change in living costs, the salaries and wages fixed for such fiscal year are not comparable to the level of other salaries, and wages of other public or private employments for comparable services and as a result, the best interests of the City are not being protected or are in jeopardy, said Legislative Body, upon recommendation of the Manager or other department head, and if funds are available, may revise such salary and wage schedules to the extent necessary to protect the City's interests."

PROPOSITION NO. 2

Amend Section 141 of Article IX of the Charter of The City of San Diego to read as follows:

"Section 141. CITY EMPLOYEES RETIREMENT SYSTEM. The Council of the City is hereby authorized and empowered by ordinance to establish a retirement system and to provide for death benefits for public employees other than those policemen and firemen who were members of a pension system on June 30, 1946, and other than elective officers and members of commissions who serve without pay. Except as hereinafter provided, no employee shall be retired before he reaches the age of sixty-two years and before he has completed ten years of continuous service. Policemen, firemen and full time life guards, however, who have had ten years of continuous service may be retired at the age of fifty-five years. The Council may also in said ordinance provide:

- (a) For the retirement with benefits of an employee who has become physically or mentally disabled by reason of bodily injuries received in or by reason of sickness caused by the discharge of duty or as a result thereof to such an extent as to render necessary his retirement from active service.
- (b) Death benefits for dependents of employees who are killed in the line of duty or who die as a result of injuries suffered in the performance of duty.
- (c) Retirement with benefits of an employee who, after ten years of service, has become disabled to the extent that he is not capable of performing his duties, or who is separated from City service without fault or delinquency on his part.

Retirement shall be compulsory at the age of sixty-five, except that the Manager or other department head, for the City's benefit, may thereafter continue an employee who has reached such age limit in the City service from year to year up to, but not beyond, the time when such employee reaches the age of seventy-two years."

PROPOSITION NO. 3
Amend Section 144 of Article IX of the Charter of The City of San Diego, to read as follows:

"Section 144. BOARD OF ADMINISTRATION. The system shall be managed by a Board of Administration which is hereby created, consisting of the City Manager, City Auditor and Comptroller, the City Treasurer, three

provide by Ordinance that for a time not to exceed one year of such disability, such member shall be entitled to receive in lieu of the benefits herein provided his full salary, payable to him out of the salary funds of the City, minus, however, such Workmen's Compensation Benefits as said member shall have received for such period of time as he is paid his salary. If such disability shall cease he shall, upon the recommendation of the Chief of the Department, be restored to such active duty as he is able to perform, with the rank or rating and salary he held at the time of his retirement, and such pension shall terminate. In the event of the death of such pensioner, the pension shall be paid to his dependents in accordance with the provisions of Section 162. Any pension or relief payment provided for herein shall cease immediately upon the death of the person receiving the same. Any payment made hereunder to dependents of a member shall cease upon the death or marriage of such dependents or upon the attainment of the age of eighteen years by such dependent other than the widow or father or mother."

PROPOSITION NO. 4

Amend Section 194 of Article XII of the Charter of The City of San Diego, to read as follows:

"Section 194. TIME AND ONE-HALF PAY. Except for employees of the City who are paid twice monthly on the yearly salary basis, not less than one and one-half times the said prevailing or current rate of per diem wages shall be paid for extra work performed by laborers, workmen or mechanics employed by or on behalf of the City upon any public work on Sundays and such legal holidays as shall be designated by the Council of said City by ordinance and for work performed in excess of eight hours in one calendar day in such cases in which such overtime work is permitted by law."

Said propositions shall be presented and printed upon the ballot, and submitted to the voters, in the manner and form set out in Section 2 of this ordinance.

Section 2. The ballot provided at said regular Municipal Primary Election to be held on March 13, 1951, shall be so printed as to state each of the propositions hereinabove set out in Section One of this ordinance in the manner and form following:

PROPOSITION NO. 1. Amend Section 70 of Article VII of the Charter of The City of San Diego.

This amendment authorizes the Council, upon recommendation of the Manager or other department head, to revise salaries of City officers and employees during any fiscal year if the Council determines that due to a significant change of living costs the economic needs of officers and employees are such as will fail to protect or will jeopardize the best interests of the City.
