ORDINANCE NO. 4726  
(New Series)

AN ORDINANCE PROVIDING AN INCREASE OF SALARY FOR OFFICERS AND EMPLOYEES OF THE CITY OF SAN DIEGO, EXCEPTING ELECTIVE OFFICERS, THE CITY MANAGER AND ASSISTANT CITY MANAGER; AND PROVIDING THAT SAID INCREASES SHALL TAKE EFFECT APRIL 1, 1951.

WHEREAS, this Council is advised by the Manager of The City of San Diego and by each of the department heads of said City not under the City Manager, that because of a significant change in living costs the salaries and wages fixed for the fiscal year 1950-1951 for each of the officers and employees in the departments under the supervision and control of the City Manager and in such departments as are not under the supervision and direction of the City Manager, except the salaries of the City Manager, Assistant City Manager and elective officers, are not comparable to the level of other salaries and wages of other public or private employments for comparable services, and that as a result the best interests of the City are not being protected and are now in jeopardy because of the fact that great numbers of said officers and employees are now leaving the employ of the City, and recommend that this Council find as a fact that such conditions exist, and that the best interests of the City and the inhabitants thereof require that this Council take such steps as it deems necessary to protect the interests of the City by providing an increased compensation for such officers and employees who are now underpaid, for the purpose of retaining the employment of such officers and employees, if possible; and

WHEREAS, this Council is of the opinion that the facts contained in the statements of said City Manager and other department heads are true, and that this Council should immediately follow the recommendations of said City Manager

and such department heads, for the purpose of protecting the interests of the City, as suggested by such officers; NOW, THEREFORE,

BE IT ORDAINED By the Council of The City of San Diego, as follows:

Section 1. The Council of The City of San Diego, after due consideration of the recommendation of the City Manager and other department heads not under the supervision of said City Manager that the salaries and wages of the officers and employees of the City other than those of the City Manager, Assistant City Manager and elective officers, are not comparable to the level of other salaries and wages of other public or private employment for comparable services because of the recent significant change in living costs in The City of San Diego, and that as a result the best interests of the City are not being protected and are now in jeopardy, hereby finds that the facts as thus stated by said officers and department heads are true, and that such recommendations should be followed; and that for the purpose of protecting the best interests of the City and its inhabitants this Council is of the opinion that salaries and wages of certain officers and employees of the City should be immediately increased.

Section 2. Effective April 1, 1951, the salary of each and every officer and employee of The City of San Diego in the Unclassified Service, except the salaries of the City Manager, Assistant City Manager and elective officers of said City, as fixed and determined by the terms and provisions of Ordinance No. 4429 (New Series) of the ordinances of said City, entitled, "An Ordinance fixing the salaries of officers and employees in the Unclassified Service of The City of San Diego, and repealing Ordinance No. 4065 (New Series), adopted May 31, 1949," adopted May 29, 1950, is hereby increased ten per cent (10%) to the nearest dollar.

Section 3. Effective April 1, 1951, the salary of the Hydraulic Engineer, as fixed and determined by the terms and provisions of Ordinance No. 4451 (New Series) of the ordinances of said City, entitled, "An Ordinance fixing the salary of the Hydraulic Engineer in the Unclassified Service of The City of San Diego, for the fiscal year 1950-1951," adopted ~~June~~ July 29, 1950, is hereby increased ten per cent (10%) to the nearest dollar.

Section 4. Effective April 1, 1951, the salary or compensation of each and every officer and employee in the Classified Service of The City of San Diego is hereby increased by fixing said salary two grades or "Standard Rate Numbers" higher than that fixed for each position as set forth and enumerated in Section 2 of Ordinance No. 4428 (New Series) of the ordinances of said City, entitled, "An Ordinance establishing a schedule of compensation for officers and employees in the Classified Service of The City of San Diego, providing uniform compensation for like services, and repealing Ordinance No. 4064 (New Series), adopted May 31, 1949," adopted May 29, 1950.

Section 4. This is an ordinance for the immediate preservation of the public peace, property, health and safety of The City of San Diego, for the reasons set forth in the preamble hereof, and shall take effect upon the date that the Charter amendment of Section 70, of Article VII, of the Charter of said City, approved by the electors of said City on March 13, 1951, becomes legally effective.

(NEW SERIES)

**AN ORDINANCE PROVIDING AN INCREASE OF SALARY FOR OFFICERS AND EMPLOYEES OF THE CITY OF SAN DIEGO, EXCEPTING ELECTIVE OFFICERS, THE CITY MANAGER AND ASSISTANT CITY MANAGER, AND PROVIDING THAT SAID INCREASES SHALL TAKE EFFECT APRIL 1, 1951.**

WHEREAS, this Council is advised by the Manager of The City of San Diego and by each of the department heads of said City not under the City Manager, that because of a significant change in living costs the salaries and wages fixed for the fiscal year 1950-1951 for each of the officers and employees in the departments under the supervision and control of the City Manager and in such departments as are not under the supervision and direction of the City Manager, except the salaries of the City Manager, Assistant City Manager and elective officers, are not comparable to the level of other salaries and wages of other public or private employments for comparable services, and that as a result the best interests of the City are now being protected and are now in jeopardy because of the fact that great numbers of said officers and employees are now leaving the employ of the City, and recommend that this Council find as a fact that such conditions exist, and that the best interests of the City and the inhabitants thereof require that this Council take such steps as it deems necessary to protect the interests of the City by providing an increased compensation for such officers and employees who are now underpaid, for the purpose of retaining the employment of such officers and employees, if possible; and

WHEREAS, this Council is of the opinion that the facts contained in the statements of said City Manager and other department heads are true, and that this Council should immediately follow the recommendations of said City Manager and such department heads, for the purpose of protecting the interests of the City, as suggested by such officers; NOW, THEREFORE,

BE IT ORDAINED By the Council of The City of San Diego, as follows:

Section 1. The Council of The City of San Diego, after due consideration of the recommendation of the City Manager and other department heads not under the supervision of said City Manager that the salaries and wages of the officers and employees of the City other than those of the City Manager, Assistant City Manager and elective officers, are not comparable to the level of other salaries and wages of other public or private employment for comparable services because of the recent significant change in living costs in The City of San Diego, and that as a result the best interests of the City are not being protected and are now in jeopardy, hereby finds that the facts as thus stated by said officers and department heads are true, and that such recommendations should be followed; and that for the purpose of protecting the best interests of the City and its inhabitants this Council is of the opinion that salaries and wages of certain officers and employees of the City should be immediately increased.

Section 2. Effective April 1, 1951, the salary of each and every officer and employee of The City of

San Diego in the Unclassified Service, except the salaries of the City Manager, Assistant City Manager and elective officers of said City, as fixed and determined by the terms and provisions of Ordinance No. 4428 (New Series) of the Ordinances of said City, entitled, "An Ordinance fixing the salaries of officers and employees in the Unclassified Service of The City of San Diego, and repealing Ordinance No. 4065 (New Series), adopted May 31, 1949," adopted May 29, 1950, is hereby increased ten per cent (10%) to the nearest dollar.

Section 3. Effective April 1, 1951, the salary of the Hydraulic Engineer, as fixed and determined by the terms and provisions of Ordinance No. 4451 (New Series) of the ordinances of said City, entitled, "An Ordinance fixing the salary of the Hydraulic Engineer in the Unclassified Service of The City of San Diego, for the fiscal year 1950-1951," adopted June 29, 1950, is hereby increased ten per cent (10%) to the nearest dollar.

Section 4. Effective April 1, 1951, the salary or compensation of each and every officer and employee in the Classified Service of The City of San Diego is hereby increased by fixing said salary two grades or "Standard Rate Numbers" higher than that fixed for each position as set forth and enumerated in Section 2 of Ordinance No. 4428 (New Series) of the ordinances of said City, entitled, "An Ordinance establishing a schedule of compensation for officers and employees in the Classified Service of The City of San Diego, providing uniform compensation for like services, and repealing Ordinance No. 4064 (New Series), adopted May 31, 1949," adopted May 29, 1950.

Section 4. This is an ordinance for the immediate preservation of the public peace, property, health and safety of The City of San Diego, for the reasons set forth in the preamble hereof, and shall take effect upon the date that the Charter amendment of Section 70, of Article VII, of the Charter of said City approved by the electors of said City on March 13, 1951, becomes legally effective.

Passed and adopted by the Council of the City of San Diego, California, this 15th day of March, 1951, by the following vote, to-wit:

AN ORDINANCE REGULATING THE REMOVAL OF ANY  
BUILDING OR STRUCTURE IN THE CITY OF SAN  
DIEGO, CALIFORNIA; AND REPEALING ORDINANCE  
NO. 3888 (NEW SERIES), ADOPTED OCTOBER 5,  
1948.

BE IT ORDAINED, by the Council of The City of San Diego,  
as follows:

Section 1. No person except a licensed house mover shall move any building within The City of San Diego except as hereinafter provided. No licensed house mover will be required where a building is to be moved from one part of the lot, or from one lot to another, owned by the same person and where such building is to be moved without crossing any street, alley, public property or the property of another person. Type V Buildings under fourteen (14) feet in height, less than 200 square feet in area, and having a horizontal dimension not exceeding eighteen (18) feet, when entirely supported upon a suitable vehicle, without the assistance of any additional wheels or rollers, may be moved without the services of a licensed house mover.

All house movers must comply with all conditions governing such work or applicable thereto, as laid down in the ordinances of The City of San Diego and must make good all damages or injuries caused by moving of any house or structure. The wheels and rollers shall have sufficient tire or bearing width to prevent any grooving, marring or damaging of the pavement.

Before placing any dwelling, apartment house or hotel upon a lot, the distance as required by law between such building and adjacent structures on the same lot shall be verified and the structure placed accordingly.

Before moving any building or structure, a permit to do so shall first be obtained from the Building Inspector.

The fee for a moving permit shall be based upon the area of the building to be moved and shall be \$5.00 for all buildings up to 500 square feet in area; \$10.00 from 500 square feet up to 1000 square feet in area; and \$20.00 for all buildings 1000 square feet or more in area.

The permit shall limit the time for removal and any delay of time longer than specified in such permit shall be deemed a violation of this Ordinance.

The PERMIT CARD shall be tacked up near the front entrance of the house being moved. Otherwise, if no 'card' be tacked up, the Building Inspector may stop the work. A permit to move a building does not cover a permit for underpinning or repairs. No frame or Type V building shall be moved from without to within Fire Zone No. 1 nor from one part of Fire Zone No. 1 to another. Before moving a building past a fire station, the Fire Department shall be duly notified in advance.

Section 2. MOVING PERMIT. (a) No person shall move any building or structure, or any portion thereof without a written Moving Permit therefor from the Department of Inspection of The City of San Diego. At the time of filing an application for a Moving Permit, the applicant shall pay a \$3.00 examination fee, no part of which fee shall be returned to the applicant.

(b) An application for a Moving Permit shall give the location of the building, location to which it is to be moved, type of construction, alterations, additions, or repairs to be made, and such other pertinent information necessary to fully inform the Department regarding the moving of the building or structure.

Upon receipt of such application, the Department of Inspection shall refer said application to the Planning Commission or Zoning Committee for its approval, to the Police Department for the routing for the moving of the building or structure, and to any other department of the City which may be affected

by such moving, for its report on said application.

(c) No moving permit shall be granted except under the following conditions:

1. The building shall not be an old dilapidated building.
2. The building shall not present any serious rot or fungus infection, nor be seriously infested with termites.
3. The building shall not materially violate any law nor the public peace and welfare.
4. The building shall not seriously jeopardize the neighborhood into which it will be moved.
5. That all agreements and instructions relative to moving will be followed.
6. Petitioner shall file with the Inspection Department detailed plans and specifications, which may be informal in nature so long as the same may be easily interpreted and understood and which said plans and specifications shall include only exterior alterations, additions and repairs, including those required by the report of the Planning Commission or Zoning Committee.

Upon approval of such plans and specifications the petitioner shall file a faithful performance bond or make a cash deposit, as hereinafter specified, in the amount of 10 per cent more than the Building Inspector's estimated cost for such exterior improvement including cost of foundation.

a. The hereinbefore required faithful performance bond may be either of a bonding company or of an individual, provided however, that in the event of an individual bond, it shall have two

good and sufficient sureties who shall execute an affidavit that each is in fact the owner of property over and above exemptions allowable by law in an amount of the principal of said bond. The form of said bond shall have been approved by the City Manager and the City Attorney.

Such bond shall be in joint form and several and shall be conditioned as follows: Every bond executed under the provisions of this section shall inure to the benefit of The City of San Diego and be conditioned upon the faithful completion to the satisfaction of the Building Inspector of the required exterior alterations, additions, repairs and foundation.

No such bond shall be void upon the first recovery thereof but suit may afterwards be brought from time to time and judgment may be recovered thereon by the said City of San Diego against the Principal and sureties of this bond until the whole penalty of such bond is exhausted.

b. The hereinbefore required cash deposit may be either cash, cashier's check or certified check. Such cash deposit shall be made to the City Treasurer and be placed by him in the proper suspense fund. At the time of making such cash deposit the petitioner shall sign a permit authorizing the City of San Diego or its duly authorized agent or contractor to enter upon the premises and to make and complete the required exterior alterations, additions and repairs and to apply all or any part of said cash deposit to pay such cost.

Upon completion of the exterior alterations, additions and repairs and approval by the Building Inspector such money, if any, remaining shall be returned to the petitioner.

c. The foregoing bond or cash deposit may be waived by the Council of The City of San Diego upon petition for such waiver and good cause appearing therefor.

### ORDINANCE NO. 4745 (NEW SERIES)

AN ORDINANCE REGULATING THE REMOVAL OF ANY BUILDING OR STRUCTURE IN THE CITY OF SAN DIEGO, CALIFORNIA: AND THE PLANING ORDINANCE (NEW SERIES), ADDED TO CHAPTER 5, 1945.

BE IT ORDAINED BY THE Council of The City of San Diego, as follows:

Section 1. No person shall move any building or structure of San Diego, California, as provided herein, unless the mover will be accompanied by a licensed house mover, and where such building is to be moved without crossing a street, alley, public property or the property of another person, Type V Buildings under fourteen (14) feet in height, less than 200 square feet in area, and having a horizontal dimension not exceeding eighteen (18) feet, when entirely supported upon a suitable vehicle, without the assistance of any additional wheels or rollers, may be moved without the services of a licensed house mover. All house movers must comply with all conditions governing such work or applicable thereto as laid down in the ordinances of the City of San Diego and must make good all damages or injuries caused by moving of any house or structure. The wheels and rollers shall have sufficient tire or bearing width to prevent any grooving, marring or damaging of the pavement.

Before placing any dwelling, apartment house or hotel upon a lot, the distance as required by law between such building and adjacent structures on the same lot shall be verified and the structure placed accordingly.

Before moving any building or structure, a permit to do so shall first be obtained from the Building Inspector.

The fee for a moving permit shall be based upon the area of the building to be moved and shall be \$5.00 for all buildings up to 500 square feet in area; \$10.00 from 500 square feet up to 1000 square feet in area; and \$20.00 for all buildings 1000 square feet or more in area.

The permit shall limit the time for removal and any delay of time longer than specified in such permit shall be deemed a violation of this Ordinance.

The PERMIT CARD shall be tacked up near the front entrance of the house being moved. Otherwise, if no 'card' be tacked up, the Building Inspector may stop the work. A permit to move a building does not cover a permit for underpinning or repairs. No frame or Type V building shall be moved from without to within Fire Zone No. 1 nor from one part of Fire Zone No. 1 to another. Before moving a building past a fire station, the Fire Department shall be duly notified in advance.

Section 2. MOVING PERMIT. (a) No person shall move any building or structure, or any portion thereof without a written Moving Permit therefor from the Department of Inspection of The City of San Diego. At the time of filing an application for a Moving Permit, the applicant shall pay a \$3.00 examination fee, no part of which fee shall be returned to the applicant.

(b) An application for a Moving Permit shall give the location of the building, location to which it is to be moved, type of construction, alterations, additions, or repairs to be made, and such other pertinent

information necessary to fully inform the Department regarding the moving of the building or structure.

Upon receipt of such application, the Department of Inspection shall refer said application to the Planning Commission or Zoning Committee for its approval, to the Police Department for the routing for the moving of the building or structure, and to any other department of the City which may be affected by such moving, for its report on said application.

(c) No moving permit shall be granted except under the following conditions:

1. The building shall not be an unoccupied building.
2. The building shall not present any serious rot or fungous condition, nor be seriously infested with termites.
3. The building shall not materially violate any law nor the public peace and welfare.
4. The building shall not seriously injurize the neighborhood into which it will be moved.
5. That all agreements and instructions relative to moving will be followed.
6. Petitioner shall file with the Inspection Department detailed plans and specifications, which may be informal in nature so long as the same may be easily interpreted and understood, and which said plans and specifications shall include only exterior alterations, additions and repairs, including those required by the report of the Planning Commission or Zoning Committee. Upon approval of such plans and specifications the petitioner shall file a faithful performance bond or make a cash deposit, as hereinafter specified, in the amount of 10 percent more than the Building Inspector's estimated cost for such exterior improvement including cost of foundation.

a. The hereinbefore required faithful performance bond may be either of a bonding company or of an individual, provided however, that in the event of an individual bond, it shall have two good and sufficient sureties who shall execute an affidavit that each is in fact the owner of property over and above exemptions allowable by law in an amount of the principal of said bond. The form of said bond shall have been approved by the City Manager and the City Attorney.

Such bond shall be in joint form and several and shall be conditioned as follows: Every bond executed under the provisions of this section shall inure to the benefit of The City of San Diego and be conditioned upon the faithful completion to the satisfaction of the Building Inspector of the required exterior alterations, additions, repairs and foundation.

No such bond shall be void upon the first recovery thereof but suit may afterwards be brought from time to time and judgment may be recovered thereon by the City of San Diego against the Principal and sureties of this bond until the whole penalty of such bond is exhausted.

b. The hereinbefore required cash deposit may be either cash, cashier's check or certified check. Such cash deposit shall be made to the City Treasurer and be placed by him in the proper suspense fund. At the time of making such cash deposit the petitioner shall sign a permit authorizing the City of San Diego or its duly authorized agent or contractor to enter upon the premises and to make and complete the required exterior alterations, additions and repairs and to apply all or any part of said cash deposit to pay such cost.

Upon completion of the exterior alterations, additions and repairs and approval by the Building Inspector such money, if any, remaining shall be returned to the petitioner.

c. The foregoing bond or cash deposit may be waived by the Council of The City of San Diego upon petition for such waiver and good cause appearing therefor.

7. That the time for completion of the exterior alterations, additions and repairs as set forth in the previous paragraph shall be that of ninety days from and after the placing of said building

ORDINANCE NO. 4768  
(New Series)

AN ORDINANCE AMENDING SECTION 5 OF ORDINANCE NO. 3778 (NEW SERIES), ADOPTED JUNE 22, 1948, AND REPEALING ORDINANCE NO. 4655 (NEW SERIES), ADOPTED JANUARY 9, 1951.

BE IT ORDAINED By the Council of The City of San Diego, as follows:

Section 1. That Section 5 of Ordinance No. 3778 (New Series) of the ordinances of The City of San Diego, entitled, "An Ordinance providing for the extension of water mains at the expense of applicants therefor, and providing for the refund to such applicants of a proportionate share of the cost to be paid by subsequent applicants for service connections to such mains, and repealing Ordinance No. 2786 (New Series), adopted March 7, 1944, and Ordinance No. 3088 (New Series), adopted October 30, 1945," adopted June 22, 1948, be, and the same is hereby amended to read as follows:

"Section 5. (a) All new subdivisions shall have a complete water distribution system installed before such subdivisions are finally accepted by the City. The Plan, design and size of pipes or mains of such water distribution system must be approved by the Water Department and the City Manager. Such system shall include a feeder main or mains from the nearest point in the City's water system from which a satisfactory quality of water in sufficient quantity and at sufficient pressure can be supplied for the proposed subdivision. The subdivider shall pay for the installation of said water distribution system, including the said feeder main or mains, except as hereinafter provided.

(b) Upon receipt of an application for approval of a new subdivision and the filing of a tentative map thereof, which shall contain an accurate description of the property to be served, the Manager shall cause the Water Department to prepare a plan of the water distribution system necessary to

00248

adequately serve the proposed subdivision. Said system shall include a feeder main or mains. In this connection the Department shall determine whether the best interests of the City will be served by installing larger mains than necessary for the proposed subdivision in order that the City may serve areas outside of the said subdivision. Where mains larger in size than those actually needed for the purpose of providing water for the proposed subdivision, or a larger feeder main or mains are determined to be necessary to serve not only the subdivision but other territory, the increased cost of such water mains, including the larger sized feeder main or mains, shall be borne by the City, as hereinafter provided. The Water Department shall then decide whether it would be in the interests of the City to install said system, including said feeder main or mains, by city forces or public contract. If so decided the Water Department shall then determine the amount of the entire cost of the system, including the feeder main or mains, which the subdivider shall be required to pay under this ordinance. The amount of such cost thus determined shall be deposited by the applicant with the City. If the City's interests will be best served, or in the event of shortage, scarcity or unavailability, the City cannot acquire the materials necessary for the installation of such system, the City may require that the subdivider furnish materials in part payment under conditions and at current market prices to be determined by the City. Following the receipt of such deposit, the Manager shall take the necessary steps and cause said water distribution system to be installed in the proposed subdivision either by city forces or by contract.

In the event the applicant's deposit for estimated cost of the installation of said water system, including the feeder

main or mains, which the subdivider is required to pay, exceeds the actual cost of such installation, the excess shall be refunded to the applicant; and in the event that the deposit is less than the actual cost of the installation the applicant shall pay to the City the amount of such deficiency.

If it is decided that the City will not itself undertake the installation of said water system, including the feeder main or mains, it shall be the duty of the subdivider to install the water system in said subdivision, including the feeder mains, in accordance with the said plan of the Water Department. If the subdivider is required to install larger mains and appurtenances than are actually needed for the particular subdivision the City shall bear the additional cost of the larger sized mains and appurtenances, including any additional cost of installation. The cost to be thus borne by the City shall be paid to the subdivider or person interested in the manner, condition, and at the time provided in subdivision (c) of this section of this ordinance.

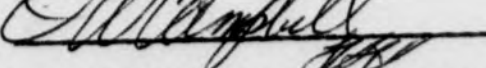

(c) Upon request of the Manager the Purchasing Agent of the City is hereby authorized and directed to purchase any existing water system installed by the owner of new subdivisions pursuant to the terms of this ordinance or otherwise where the cost of the installation of said water system, including the feeder main or mains, has been entirely borne by the owner of said subdivision and where the owner has been required to install water mains, including a feeder main or mains, larger than necessary to be installed in order to supply water to the subdivision. The price to be paid by the City for such water distribution system shall be determined by the Water Department, and shall be that amount which represents the difference in cost of mains and appurtenances necessary for serving the subdivision and the mains and appurtenances which were actually installed by

the owner of the subdivision by order of the City in order that the City might secure the benefit of the larger sized mains to serve territory in addition to that in the subdivision. In all such cases before the money is actually paid said owner shall be required to furnish and deliver to the City a good and sufficient quitclaim deed, quitclaiming and conveying to the City all of the right, title and interest of the legal owner of any existing water distribution system located on public streets, rights of way, highways and public places, either within or without said subdivision.

(d) No subdivision, or map thereof, shall be finally approved or accepted, nor shall any bond or other security given pursuant to any laws, to insure the installation of public improvements or utilities, be exonerated by the Council on behalf of the City until the legal owner, or the person interested, shall have furnished and delivered to said City a good and sufficient quitclaim deed, quitclaiming and conveying to the City all of the right, title and interest of said owner or person interested in and to any water system which has been installed in the public streets, highways, rights of way and public places either within or without said subdivision, pursuant to the requirements of this ordinance."

Section 2. That Ordinance No. 4655 (New Series) of the ordinances of The City of San Diego, entitled, "An Ordinance amending Section 5 of Ordinance No. 3778 (New Series), adopted June 22, 1948," adopted January 9, 1951, be, and the same is hereby repealed.

Section 3. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

(New Series)

AN ORDINANCE APPROVING AND ADOPTING THE PROPOSED AMENDMENT OF SUB-SECTION 1 OF SECTION 1 OF RULE X OF THE RULES OF THE CIVIL SERVICE COMMISSION OF THE CITY OF SAN DIEGO.

WHEREAS, the Civil Service Commission of The City of San Diego has heretofore recommended that this Council approve and adopt a proposed amendment of Sub-section 1, of Section 1, of Rule X of the Rules of the Civil Service Commission; and

WHEREAS, the Council has heretofore conducted a public hearing upon the question of adopting said proposed amendment of said rule on the 3rd day of May, 1951, after notice of such public hearing had been duly published and posted as required by the provisions of the Charter of said City; and

WHEREAS, this Council is now of the opinion that it will be to the best interests of the City and its inhabitants that said proposed amendment be adopted, as recommended by said Civil Service Commission; NOW, THEREFORE,

BE IT ORDAINED By the Council of The City of San Diego, as follows:

Section 1. That the proposed amendment of Sub-section 1 of Section 1 of Rule X of the Rules of the Civil Service Commission of The City of San Diego, in words and figures as follows:

"(1) ANNUAL VACATION:

Full-Time Active Service - Each employee paid at a monthly rate who has had full-time active service during the calendar year previous to that in which vacation is requested, shall be entitled in each calendar year to an annual vacation of fourteen (14) consecutive days, exclusive of Saturdays, Sundays and holidays as defined in the Political

Code of the State of California with full pay for such time as the employee would have been paid if at work for the City for the same period of time, except each employee in the uniformed service of the Fire and Police Departments shall be entitled to eighteen (18) calendar days with full pay.

Part-Time Service - Each employee who has served continuously part-time during the calendar year previous to that in which vacation is requested shall be entitled in each calendar year to an annual vacation on the above basis in the proportion that such part-time employment bears to full-time employment.

Vacation Earned During First Year Of Service - After twelve months of continuous service, each employee who worked only a partial year during the calendar year previous to that in which vacation is requested, shall be entitled to vacation with pay not to exceed one day for each 25 days for which said employee received pay in the previous calendar year, except each employee in the uniformed service of the Fire and Police Departments shall be entitled to vacation with pay not to exceed one and one-half calendar days for each full month for which said employee received pay in the previous calendar year.

Vacation Schedule - The arranging of a vacation schedule shall be the responsibility of the appointing authority; first with particular regard to the needs of the service, and then in so far as is possible with the wishes of the employees. Only for reasons deemed good and sufficient by the appointing authority and Personnel Director will an employee be permitted to split his vacation or to take a partial vacation in order to accumulate the balance to be taken in a subsequent year.

Accumulation Of Vacation - In the event an employee who has served continuously for at least twelve months does not take all the vacation to which he is entitled in any calendar

year, he shall be allowed to accumulate the balance to be taken in a subsequent year; provided that accumulated and annual vacation shall not in any case exceed a total of 42 days of earned vacation. No employee shall be granted vacation with pay for more than 28 days, exclusive of Saturdays, Sundays, and holidays in any calendar year; provided that an employee with ten or more years of continuous service may be permitted to take 35 days of earned vacation in a calendar year.

Entitlement Upon Retirement Or Separation from Service -

Provided further that prior to retirement or upon separation from the service whether voluntarily or involuntarily, an employee shall be entitled to vacation with pay for all the unused vacation which has accrued under the provisions of this rule, and in addition to vacation based upon the length of active service in the year in which the retirement or separation occurs. Vacation earned during the current year shall be computed upon the same basis as for a partial year as set forth in this rule. If an employee fails to take the vacation to which he is entitled prior to the date of his retirement, he shall forfeit all right to such vacation with pay. At the time this rule becomes effective, an employee who has accumulated more than the allowable number of days as provided in this rule, shall be allowed to take such additional days as may be necessary to reduce his vacation so that it will comply with this rule. Failure to take such additional days vacation before January 1, 1952, shall constitute a waiver of all vacation in excess of 42 days as set forth in this rule."

Be, and the same is hereby approved and adopted.

Section 2. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.
