ORDINANCE No. 5250  
(New Series)

AN ORDINANCE AMENDING SECTION 102.18 AND  
SECTION 102.19 OF THE SAN DIEGO MUNICIPAL  
CODE.

WHEREAS, there exists in The City of San Diego a critical shortage of housing because of the influx into San Diego of many aircraft workers and military personnel; and

WHEREAS, owners of property desiring to subdivide said property are now compelled to follow the provisions of the State Law and are thereby delayed for long periods of time in the filing of final maps and the building of homes; and

WHEREAS, the public peace, property, health and safety of the people of The City of San Diego would be promoted by the adoption of this ordinance by providing a method within the City of expediting the filing of final maps in subdivisions;  
NOW, THEREFORE,

BE IT ORDAINED, By the Council of The City of San Diego, as follows:

Section 1. That Subdivision (b) 12 of Section 102.18 of the San Diego Municipal Code regulating final subdivision maps be, and the same is, hereby amended to read as follows:

"12. On all such maps presented to the City Council for approval, there shall be provided proper certificates for the City Clerk to certify the approval of the map by the City Council, and the acceptance or rejection on behalf of the public of all dedications shown thereon."

Section 2. That Section 102.19 of the San Diego Municipal Code relating to improvements in subdivisions be, and the same is, hereby amended to read as follows:

"SEC. 102.19. IMPROVEMENTS

"(a) The subdivider shall improve all land dedicated for streets, highways or other public ways in the manner and to the extent as set forth and required in the resolution of the City Council provided for under the provisions of Section 102.16. In addition to such other improvements as the Council may determine and declare in such resolution, the subdivider shall in every instance be required to set the survey monuments, to place street sign posts at intersections, and to grade the streets to provide convenient access to each lot of said subdivision, before any final map shall be accepted by the City Council.

(b) In event other improvements of all lands dedicated for streets, highways or other public ways, including water mains and sewer mains or sanitary system required by the resolution referred to in subdivision (a) of this Section have not been made, installed and completed at the time the final map is presented to the City Council for acceptance, no such map shall be accepted by the City Council unless the subdivider, prior to or simultaneously with the presentation thereof to the City Council shall have complied with and performed the following requirements, to-wit:

(1) The subdivider shall file with the City Clerk detailed plans and specifications, bearing the approval of the City Engineer, for all of the improvements, including water mains, or sewer mains or sanitary system, not already completed and installed required to be made or installed by the resolution of the Council referred to in Subdivision (a) of

this Section; together with a detailed estimate made or approved by the City Engineer of the cost of such improvements and an estimate of the time reasonably necessary to complete the same.

(2) The subdivider shall enter into a contract with The City of San Diego, approved as to form and legality by the City Attorney, to make, install and complete all the improvements, including water mains and sewer mains or sanitary system not already installed and completed, required by the resolution of the City Council referred to in Subdivision (a) of this Section; and shall accompany the same by a signed or certified copy of his contract, if any, with a contractor for the improvements hereinbefore referred to, and said subdivider shall cause to be filed with the City Clerk a faithful performance bond which shall insure the completion of the improvements, free of liens, in favor of The City of San Diego, in a penal sum equal to City Engineer's estimate of the cost of the said improvements, plus 10%, which said bond shall have been approved as to its form by the City Attorney, and approved by the City Manager.

Surety companies, to be acceptable to the City, shall be on the accredited list of the United States Treasury Department and hold a certificate under the Acts of Congress of August 13, 1894 and March 23, 1910.

Provided however, that in the event that the subdivider desires to deposit cash to be used under

a work progress program plan, in lieu of the faithful performance bond hereinabove required, he may do so by depositing with the City Treasurer or with a responsible escrow agent or trust company, duly licensed under the laws of the State of California, a sum of money in an amount not less than the City Engineer's estimate of the total cost of the improvements, plus 10%. If said deposit is made with an escrow agent or trust company, said depository shall be made a party to the contract hereinabove required between the subdivider and the City.

It shall be provided in said contract that there may be an acceptance of work by the City as it progresses, and a partial withdrawal of the deposit in cash in a manner similar to cash payments under cash contracts, as provided by City Charter and City Ordinance, upon, (1) the certification of the City Engineer that such completed work is acceptable to said City and is in accordance with City requirements, and (2) upon the certification of the City Treasurer that proof of payment of all costs thereof has been filed with said City Treasurer. Said contract shall provide that if said work is not performed within the agreed time, said sum so deposited with the escrow agent or trust company, or so much thereof as shall remain on deposit, shall, upon demand of the City, be forthwith paid by said depository to the City Treasurer, and said sum, or any balance of the deposit made with the City Treasurer, shall be used by the City for the completion of the installation of all public improvements

in said streets, highways and public ways, within the subdivision as required by resolution of the City Council referred to in Subdivision (a) of this Section, unless an extension of time is granted by resolution of Council.

When all improvements have been completed by the said subdivider, or by the City in case of default by the subdivider, as hereinabove mentioned, any balance of the deposit remaining with the City Treasurer shall be delivered by the City Treasurer to said subdivider.

(c) The City Council may by resolution, at the time of acceptance of final map, reject any or all dedications of public streets, highways and public ways made upon the final map and require as a condition to the acceptance of any and all public streets, highways and public ways that the subdivider make, complete and install all public improvements therein.

Any offer of dedication on the final map which has been rejected by the City Council shall remain open and the City Council may, by resolution, at any date and without further action by the subdivider, rescind its former action and accept and open the streets, highways and ways for public use, which acceptance shall be recorded in the office of the County Recorder.

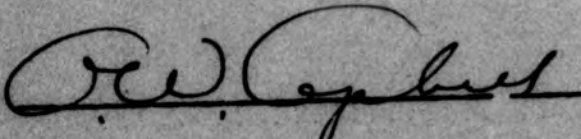

The City may by resolution, direct the issuance of the necessary building permits where a final map has been accepted and the Council has elected not to accept the streets, highways and other ways."

Section 3. This is an ordinance for the preservation of the public peace, health, property and safety of the inhabitants

thereof and is an emergency measure for the reasons set forth in the preamble to this ordinance, and shall therefore take effect and be in force immediately upon its passage.

ORDINANCE NO. 5254  
(New Series)

AN ORDINANCE AMENDING CHAPTER V, ARTICLE 7, OF THE SAN DIEGO MUNICIPAL CODE, BY ADDING THERETO A NEW SECTION, TO BE NUMBERED SECTION 67.70, PROVIDING FOR THE CONTRIBUTION BY PROPERTY OWNERS DESIRING WATER SERVICE TO THE COST OF INSTALLING NEW WATER MAINS AND EXTENSIONS THEREOF, UPON THE BASIS OF BENEFITS CONFERRED BY SAID WATER MAINS TO THE PROPERTY OWNERS, AND CREATING A TRUST FUND IN THE OFFICE OF THE TREASURER WHICH SHALL BE USED ONLY FOR THE PURPOSE OF CONSTRUCTING WATER MAINS IN THE PUBLIC HIGHWAYS AND PUBLIC EASEMENTS OF THE CITY OF SAN DIEGO.

BE IT ORDAINED By the Council of The City of San Diego, as follows:

Section 1. That Chapter V, Article 7, of the San Diego Municipal Code be, and the same is hereby amended by adding thereto a new section, to be numbered Section 67.70, which said section shall read as follows:

"Sec. 67.70. WATER MAINS AND EXTENSIONS IN NEW AREAS. The following procedure for the installation of water mains and extensions thereof is intended as an alternative procedure to any other presently authorized by ordinance or law, and is not intended in any way to be exclusive.

(a) Whenever the Council of The City of San Diego determines that the public interest and necessity demand the acquisition, construction and completion of water mains to undeveloped areas of the City not yet adequately served with water, for the purpose of providing such areas with water service, and appropriates moneys out of the Treasury of the City for such public improvements, no person shall be permitted to connect his property to such water main nor receive water service from the City through such water main until said property owner has paid to the City the proportionate share of the cost of said water main with respect to the property of said property owner to be served; and no application, either by petition or other-

wise, shall be approved by said Council for the installation and completion of a water main under this section unless and until the property owners to be benefited, or a sufficient number thereof, shall have paid to the City, or agreed to pay such proportionate share of the cost of said water main as in the opinion of the Council insures the payment of the cost of the public improvement. Such payments shall be in addition to any other fee prescribed by any ordinance of the City or by the San Diego Municipal Code for the installation and connection of laterals with said water main reaching to the property of the property owner to be served.

(b) Whenever the Council determines that the public interest of the City will be served by the extension of water mains into new areas not ~~fully~~ <sup>adequately</sup> served with water, no person shall be permitted to make a connection with said extension water main until the property owner whose property shall be served by said extension water main shall have paid to The City of San Diego his proportionate share of the cost of said extension water main, together with a proportionate share of the cost of the original water main, and no application for a connection or service from said extension water main shall be approved unless and until said person shall have paid to the City his proportionate share of the cost of the extension water main, together with a proportionate share of the cost of the original water main.

(c) From and after the effective date of this ordinance no new water mains or extensions of existing water mains designed to serve an area of the City not yet <sup>adequately</sup> served by water shall be installed by said City under this section of the Code until the following conditions shall have been performed and the following requirements fulfilled:

(1) Whether initiated by the property owners by petition or initiated by the Council itself by resolution, the Council shall cause a map or plat to be prepared by the City

01009

Engineer and filed with the City Clerk of said City, which map or plat shall show the exterior boundaries of the entire area proposed or designed to be eventually served by the proposed public improvement, or in lieu thereof a written description of the area to be served by said public improvement, together with an estimate of the total cost of the initial improvement.

(2) The adoption of a resolution by the Council which shall prescribe a minimum initial contribution to be paid by the property owners of the area to be benefited by the construction of the initial unit of said public improvement, based upon a percentage of the total estimated cost, which in all cases shall be sufficient in amount to satisfy the Council that the construction cost will be paid.

(3) The approval by the Council by resolution of a sum to be paid by the property owner for each connection with either a water main or any extension thereof, which sum shall be recommended by the City Manager and shall be determined upon an equitable basis, which shall represent the proportionate share that the property owner should bear of the cost of new water main in relation to its entire cost; or if the property owner's connection is to be made with an extension of an existing water main then the sum to be paid by such property owner shall be determined upon an equitable basis so as to provide that such property owner shall pay a proportionate share of the cost of the water main, together with an additional amount which represents his proportionate share of the cost of the extension of such water main.

(4) The same method provided by paragraph (3) for determining the cost to be borne by the property owner for a connection with an extension water main shall apply in case the property owner desires to connect with any new extension of existing water main and previously constructed extensions

thereof, namely, the property owner shall be required to pay his proportionate share of the cost of the original water main, together with his proportionate share of the cost of any or all extensions thereof.

(d) Wherever used in this section the phrase "water mains" shall be defined to mean only new water mains, together with the necessary facilities used in connection therewith, including pumping plants, tanks and similar equipment, which are either in the course of construction at the date this ordinance becomes effective or are constructed thereafter, and are designed to serve undeveloped areas of the City not yet adequately served with water.

Wherever used in this section the phrase "extension water main" is defined to mean any extension of the water main as defined herein and also any extensions of extensions of said water main.

(e) There is hereby created in the office of the City Treasurer a fund to be known as "Water Main Fund," into which fund all moneys received from property owners pursuant to the terms of this section shall be paid, and the moneys in said fund shall be used for no other purpose than the construction of water mains to serve undeveloped areas of the City, or extensions thereof."

Section 2. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.
