In granting or denying the appeal, the City Council shall be subject to the same limitations imposed by the Code or city ordinance upon the Zoning Administrator or upon the Board of Zoning Adjustment.

(10) To authorize construction of garages in embankments as set forth in said rules.

The Zoning Administrator shall investigate applications for conditional use permits and zone variances. (2) The request is reasonable and the adjustment is the minimum adjustment to secure the proper use of the property.

(3) The property use, after utilizing the minor adjustment, will not be injurious to the neighborhood. The decision of the Zoning Administrator must be in writing, accompanied by a written finding of facts relied upon by said Zoning Administrator in making such decision.

**(e) DECISION—UPON APPLICATION FOR ZONE VARIANCE.**

The Board of Zoning Adjustment may grant a variance from the provisions of the Municipal Code or zoning ordinance only when it shall appear from the applicant's statement or from the evidence presented at the public hearing or meeting set to consider such application, that all the following facts exist:

(1) That there are special circumstances or conditions applying to the land or buildings for which the adjustment is sought, which circumstances or conditions are peculiar to such land or buildings and do not apply generally to the land or buildings in the neighborhood. Such conditions shall not have resulted from any act of the applicant subsequent to the adoption of the zoning ordinance.

(2) That the aforesaid circumstances or conditions are such that the strict application of the provisions of the ordinance would deprive the applicant of the reasonable use of the land or buildings, that the granting of the adjustment is necessary for the reasonable use of the land or building and that the adjustment as granted by the City is the minimum adjustment that will accomplish this purpose.

**Section 101.0505. FAILURE TO UTILIZE CONDITIONAL USE PERMIT OR VARIANCES.**

Any conditional use permit or zone variance granted by the City as herein provided shall be conditioned upon the privileges granted being utilized within six (6) months after the effective date thereof. Failure to utilize such conditional use permit or zone variance within such six (6) months period, will automatically void the same. In the event construction work is involved it must actually commence within the stated period and must be diligently prosecuted to completion. If the Board of Zoning Adjustment should find that there has been no construction substantial in character taken under said conditional use permit or zone variance, and that there has been a lapse of work for three (3) months, the said conditional use permit or zone variance shall be void.

However, if the Board of Zoning Adjustment or the City Council grants by zone variance the right to divide land into parcels and creates therefrom two or more new building sites, the limitations of this section shall not apply if there shall have been recorded a writing or plat accomplishing or indicating the authorized division or change within six (6) months of the effective date thereof.

**Section 101.0506. APPEAL TO THE CITY COUNCIL.**

(a) An appeal from the decision of the Board of Zoning Adjustment, affirming or modifying any order, requirement, decision or determination of the Zoning Administrator, or granting or denying any conditional use permit or zone variance, may be taken to the City Council within ten (10) days after the said decision is filed with the City Clerk.
