ORDINANCE NO. _____
(New Series)

AN ORDINANCE ESTABLISHING A SCHEDULE OF COMPENSATION FOR OFFICERS AND EMPLOYEES OF THE CITY OF SAN DIEGO, PROVIDING UNIFORM COMPENSATION FOR LIKE SERVICE IN THE CLASSIFIED SERVICE, FOR THE FISCAL YEAR BEGINNING JULY 1, 1954.

BE IT ORDAINED By the Council of The City of San Diego, as follows:

Section 1. As a schedule of compensation for all officers and employees of The City of San Diego, including the Unclassified and Classified Service, for the fiscal year beginning July 1, 1954, there is hereby adopted and established a Table of Standard Rates of Pay, indicating the minimum and maximum and intermediate range steps for each said standard rate, all as more particularly set forth, enumerated and detailed in Exhibit "A", attached to and made a part of this ordinance.

Section 2. For all positions in the Classified Service of The City of San Diego the rate numbers, providing uniform compensation for like service, as more particularly set forth and detailed in Exhibit "B", attached to this ordinance and made a part hereof, are hereby adopted.

Section 3. As compensation for all officers and employees of The City of San Diego in the Unclassified Service of The City of San Diego the standard rate numbers providing for compensation for such officers and employees as more particularly enumerated, set forth and detailed in Exhibit "C", attached hereto and made a part of this ordinance, are hereby adopted.

Section 4. Except as otherwise provided in the Charter of The City of San Diego, and upon the recommendation of the head of the department or appointing authority, and the approval of the Civil Service Commission, increase in salary

if sufficient funds are available may be made in all positions in the Classified Service included within any of the "Standard Rates" numbered 1 to 49, inclusive, as follows: An increase in salary for such position, unless otherwise provided, may be approximately five per cent (5%) of the existing salary rate per month prescribed for the position, class or grade in which such employee is classified, at the end of six months of continuous service at Step A in the Standard Rate for said position, and at the end of six months of continuous service at Step B in the Standard Rate for said position; and thereafter at the end of each year of continuous service in said position; provided, however, that not more than four (4) such seniority increases may be allowed in the same position; provided, further, that Skilled Trades Apprentices shall be advanced one step within the range of the Standard Rate for the class upon satisfactory completion of each six-month period of required training, subject to the recommendation of the appointing authority and the approval of the Civil Service Joint Apprenticeship Committee and the Civil Service Commission.

Notwithstanding any other provisions in this section, increases in compensation within the limits provided for by any grade may be granted at any time by the City Manager, or other appointing authority, upon the basis of efficiency and seniority record after having first received the approval of the Civil Service Commission therefor.

Section 5. In the event of the termination of employment or service of any officer or employee in the said Unclassified Service, for any cause, during the said fiscal year, the commission, body or officer having the appointing power to fill such vacancy may assign as compensation to be paid the officer or employee appointed to fill such vacancy any one of the intermediate steps of the Standard Rate Number attached to the position to be filled.

01480

That nothing in this section contained shall be construed to authorize the increase or decrease in compensation of any person filling an office or employment in the Unclassified Service of The City of San Diego.

Section 6. For the purpose of computing sick leaves, vacations, leaves of absence, overtime, and terminal severance pay the Auditor and Comptroller is hereby authorized to utilize compilations based upon an eight-hour day and a forty-hour week.

Section 7. The members of the Classified Service, other than firemen and part-time employees, shall receive the foregoing salaries hereinabove provided as compensation in full for work performed by said members of the Classified Service during an average forty-hour week and eight-hour day throughout the fiscal year of 1954-1955, except as hereinafter provided.

Whenever the City Manager, or other appointing authority, certifies to the Civil Service Commission that the City's interest requires an employee, in order to perform the duties assigned to him or to the position he occupies, to work at times unusual for the class of position he occupies, such as to work (1) on an established annual schedule all legal holidays throughout the fiscal year without compensatory time off, except at such time as a legal holiday coincides with a day of rest or (2) to work on an established annual schedule in which the majority of hours of work of said employee are scheduled to be performed before 8:00 A. M. or after 6:00 P. M. of any working day, or to work, on an established annual schedule, a split hour shift in which the hours of work are divided by more than two consecutive hours in a twelve-hour work period, the Civil Service Commission may authorize an increase of compensation for the employee who is required to work under the unusual conditions above described, in which

case such employee shall receive one Standard Rate increase for each of the said unusual conditions which shall be certified by the appointing authority on the official payroll time sheet to the Personnel Director. Such increases in compensation shall be known as Extra Rates and shall be identified and symbolized on all official payrolls and in all records appertaining to said employees' compensation for said fiscal year, by entering, immediately preceding the recorded increased Standard Rate for said employee, a lower case letter of the alphabet which shall identify the reason or reasons for the special increased rate of pay, as follows: "v" shall symbolize the granting of an Extra Rate in pay for the holiday work specified following (1) above; "x" shall symbolize the granting of an Extra Rate in pay for night or split hour shift work as defined in (2) above; "z" shall be used to symbolize the granting of both the foregoing Extra Rates; provided, however, that when one or all of said working conditions are commonly accepted conditions for a class of positions, the Civil Service Commission shall take such working conditions into consideration in establishing the compensation for the class.

In addition to the foregoing provisions for extra compensations the Civil Service Commission, upon request of the City Manager or other department head, may authorize the payment of additional compensation for work performed by employees in excess of the normal day and forty-hour week, or authorize the granting of compensatory time off. In this connection the Commission may authorize the payment of over-time pay up to but not in excess of one and one-half times the regular rate for the employees who are required to work overtime. The employees in the Classified Service who shall be entitled to receive over time payment or compensatory time off, as herein provided, shall be designated by the Civil Service Commission after consultation with

the department heads concerned and in accordance with definitions and procedures to be developed by the Civil Service Commission after collaboration with the appointing authorities, which said definitions and procedures after adoption shall be binding on all appointing authorities.

Section 8. In fixing and approving the Standard Rates for the officers and employees in the Classified Service of the City, as hereinabove set forth, this Council has recognized the necessity to increase certain salaries over those heretofore paid during the preceding fiscal year, and in so doing the Council has intended and does hereby intend, in fixing said rates, that where a standard rate of pay has been increased for the coming fiscal year from that heretofore paid in the past fiscal year, said officer and employee whose rate of pay has thus been increased, shall be entitled to the percentage rate of increase intended, and that such new rate of pay shall be fixed so as to apply to that same step under the new Standard Rate that said employee occupied under the old Standard Rate.

Section 9. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

Whenever the City Manager, or other appointing authority, certifies to the Civil Service Commission that the City's interest requires an employee, in order to perform the duties assigned to him or to the position he occupies, to work at times unusual for the class of position he occupies, such as to work (1) on an established annual schedule all legal holidays throughout the fiscal year without compensatory time off, except at such time as a legal holiday coincides with a day of rest or (2) to work on an established annual schedule in which the majority of hours of work of said employee are scheduled to be performed before 8:00 A.M. or after 6:00 P.M. of any working day, or to work, on an established annual schedule, a split hour shift in which the hours of work are divided by more than two consecutive hours in a twelve-hour work period, the Civil Service Commission may authorize an increase of compensation for the employee who is required to work under the unusual conditions above described, in which case such employee shall receive one Standard Rate increase for each of the said unusual conditions which shall be certified by the appointing authority on the official payroll time sheet to the Personnel Director. Such increases in compensation shall be known as Extra Rates and shall be identified and symbolized on all official payrolls and in all records appertaining to said employees' compensation for said fiscal year, by entering, immediately preceding the recorded increased Standard Rate for said employee, a lower case letter of the alphabet which shall identify the reason or reasons for the special increased rate of pay, as follows:

"v" shall symbolize the granting of an Extra Rate in pay for the holiday work specified following (1) above;

"x" shall symbolize the granting of an Extra Rate in pay for night or split hour shift work as defined in (2) above; "z" shall be used to symbolize the granting of both the foregoing Extra Rates; provided, however, that when one or all of said working conditions are commonly accepted conditions for a class of positions, the Civil Service Commission shall take such working conditions into consideration in establishing the compensation for the class.

In addition to the foregoing provisions for extra compensations the Civil Service Commission, upon request of the City Manager or other department head, may authorize the payment of additional compensation for work performed by employees in excess of the normal day and forty-hour week, or authorize the granting of compensatory time off. In this connection the Commission may authorize the payment of over-time pay up to but not in excess of one and one-half times the regular rate for the employees who are required to work overtime. The employees in the Classified Service who shall be entitled to receive over time payment or compensatory time off, as herein provided, shall be designated by the Civil Service Commission after consultation with the department heads concerned and in accordance with definitions and procedures to be developed by the Civil Service Commission after collaboration with the appointing authorities, which said definitions and procedures after adoption shall be binding on all appointing authorities.

Section 8. In fixing and approving the Standard Rates for the officers and employees in the Classified Service of the City, as hereinabove set forth, this Council has recognized the necessity to increase certain salaries over those heretofore paid during the preceding fiscal year, and in so doing the Council has intended and does hereby intend, in fixing said rates, that where a standard rate of pay has been increased for the coming fiscal year from that heretofore paid in the past fiscal year, said officer and employee whose rate of pay has thus been increased, shall be entitled to the percentage rate of increase intended, and that such new rate of pay shall be step under the apply to that same step under the new Standard Rate that said employee occupied under the old Standard Rate.

Section 9. This ordinance shall take effect and be in force on the thirty-first day from and after its passage. (Exhibit A)

Section 1. That Section 86.20.2 of the San Diego Municipal Code be, and the same is hereby amended to read as follows:

"Section 86.20.2 SAME—AUTHORIZED PARKING PERMITTED.

The Council of The City of San Diego and the Board of Supervisors of the County of San Diego shall have power to provide and define areas in the north and south parking lots of the Civic Center in which officers and employees of The City of San Diego and the County of San Diego shall be permitted to park motor vehicles without restriction as to time, and also may reserve exclusively for the use of officers and employees certain sections of said parking lots as shall be set aside and defined by said Council and said Board of Supervisors. Any such areas reserved exclusively for the use of said officers and employees shall be adequately marked and posted with signs so as to clearly define the areas thus reserved.

It is hereby declared to be unlawful for any person to park any motor vehicle or leave the same unattended in any areas of said Civic Center parking lots which are reserved for exclusive use of officers or employees of the County of San Diego and The City of San Diego; provided however, that this paragraph shall not apply to a person who has been given permission as hereinabove provided to use such reserved spaces so long as the use is within the scope of the permission given (e.g. permission to use the south lot confers no privileges to use the north lot) and the vehicle parked or left unattended has clearly displayed on or behind the windshield thereof the sticker issued in connection with such permission.

The Council of said City and the Board of Supervisors of said County shall also have power, notwithstanding anything in this section contained, to lease for public parking purposes any portion of the parking lots lying immediately north and south of the Civic Center Building between the hours of 6:30 P.M. and 7:30 A.M. of any twenty-four hour period, and at any time on legal holidays, upon such terms and conditions as shall be prescribed by said Council and said Board of Supervisors for the purpose of enabling the general public to utilize said parking lots for parking motor vehicles during such hours as herein specified and on such legal holidays. The Council of said City and the Board of Supervisors of said County shall, however, in any such lease reserve the right for officers and employees of either the County or the City to utilize said parking lots for parking vehicles during such times as said officers and employees are engaged in the performance of their duties on behalf of either said County or said City."

Section 2. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

Those employees who are not members of the Retirement System which is superseded in part hereby at the date of the taking effect of this ordinance, except policemen and firemen who were employed by the City on or before July 1, 1946, shall be given the option of becoming members, as hereinafter provided.

Employees in the Classified Service shall not be compelled to join the Retirement System until the expiration of six months from the date of their employment, except that such employees may at their option join said system immediately upon employment without waiting for the expiration of six months.

Employees in the Classified Service who are employed on a part-time basis may become members of the Retirement System, provided that their employment is regular for at least six months of any one fiscal year, and provided, further, that for such part-time employees they shall be entitled to full benefits hereunder only if they have contributed to the fund such contributions as they would have contributed through a fiscal year if employed for the full year. In all other cases such part-time employees who are entitled to membership shall receive such retirement allowances as may be determined by the Board of Administration based upon their contributions and compensation, subject to all of the provisions of this ordinance.

ARTICLE II

CONTRIBUTIONS OF MEMBERS

Section 5. The Board of Administration shall provide that the normal rates of contribution of members, except

safety members, shall be based on sex and age at the nearest birthday at the time of entrance into the system. One schedule of rates for males and one for females may be adopted. The normal rate of contribution for each member, except a safety member, commencing July 1, 1954, or on a later date of his entrance into this system, shall be such as will provide on the average, that is, assuming that the member has an average salary experience and that the interest rate and mortality table applicable to him are unchanged during his membership, and subject to Section 17, an annuity at age 62 equal to one-one hundred twentieth of his final compensation for each year of current service, according to the tables adopted by the Board for this purpose.

No adjustment shall be included in rates adopted under this section as a result of amendments hereto, changing the time at which members may retire, or the benefits members will receive, because of time during which members have contributed at different rates prior to such adoption.

Section 6. Until revised by the Board, upon the advice of the actuary, the normal rate of contribution of each member, except a safety member, should be that percentage of his earnable compensation shown in the following tables according to age and sex at the time of entry into the Retirement System:

Section 7. The normal rate of contribution established for age 61 is the rate for any member, other than a safety member, who has attained a greater age before entrance into the Retirement System, and that established for age 20 is the rate for any member, other than a safety member, who enters the Retirement System at a lesser age.

Section 8. The contributions hereinabove provided for shall be deducted by the City Auditor and Comptroller from the first salary or wage warrant drawn in each month in favor of each member, and shall be paid to the City Treasurer and placed to the credit of individual member's account.

Section 9. Subject to the rules and regulations prescribed by the Board of Administration any member, other than a safety member, may elect to make additional contributions at rates in excess of his normal contributions, for the purpose of providing additional benefits. The exercise of this privilege by a member, other than a safety member, shall not require the City to make any additional contributions. Upon application the Board shall furnish to the member information concerning the nature and amount of additional benefits to be obtained by the additional contributions. Such additional contributions may be changed or discontinued at any time, but may not be withdrawn except upon termination of membership and then only in the event the employee withdraws all of his normal and additional accumulated contributions.

Section 10. If the service of a member, other than a safety member, is discontinued other than by death or retirement, upon proper application to the Board of Administration he shall have returned to him all of his accumulated contributions, plus compound interest, as determined by the Board, within six months from the date of termination; provided, however, that if said employee so terminating his service is credited with 20 years or more of city service, or has \$500.00 or more in accumulated contributions (including any additional contributions), he shall have the privilege of leaving all of said accumulated contributions (including any additional contributions) with the system, in which event the member will be entitled to service retirement benefits when he has met the age requirements, based on his service and salary prior to the termination of his employment.

Section 11. If any member, other than a safety member, has terminated his services with the City after 10 years of service without fault on his part, or because of reasons beyond his control, he shall have the right at any time within 5 years, if re-employed by the City, to be reinstated in said

system upon such terms and conditions as shall be prescribed by the Board of Administration, which may include, among other things, payment by said employee into the retirement fund of a sum equivalent to that which said employee would have paid during such period of absence if he had continued to be a member, with interest as fixed by the Board. If, however, such employee upon re-employment does not elect to make up the back contributions which he otherwise would have made, his rate of contribution following his re-employment shall be based upon his age at re-employment and credit for service since 1926 shall be granted only for the period during which he made contributions.

ARTICLE III

CONTRIBUTIONS OF SAFETY MEMBERS

Section 12. The Board of Administration shall provide that the normal rates of contribution of safety members shall be based on sex and age at the nearest birthday at the time of entrance into the system. One schedule of rates for males and one for females may be adopted. The normal rate of contribution for each safety member, commencing July 1, 1954, or on a later date of his entrance into this system, shall be such as will provide on the average, that is, assuming that the safety member has an average salary experience and that the interest rate and mortality table applicable to him are unchanged during his membership, and subject to Section 17, an annuity at age 55 equal to one-one hundred twentieth of his final compensation for each year of current service, according to the tables adopted by the Board for this purpose.

No adjustment shall be included in rates adopted under this section as a result of amendments hereto, changing the time at which safety members may retire, or the benefits safety members will receive, because of time during which safety members have contributed at different rates prior to such adoption.

Section 13. Until revised by the Board, upon the advice of the actuary, the rate of contribution of each safety member should be that percentage of his earnable compensation shown in the following tables according to age and sex at the time of entry into the Retirement System:

Section 14. The normal rate of contribution established for age 54 is the rate for any safety member who has attained a greater age before entrance into the Retirement System, and that established for age 20 is the rate for any safety member who enters the Retirement System at a lesser age.

Section 15. The contributions hereinabove provided for shall be deducted by the City Auditor and Comptroller from the first salary or wage warrant drawn in each month in favor of each safety member, and shall be paid to the City Treasurer and placed to the credit of individual safety member's account.

Section 16. Subject to the rules and regulations prescribed by the Board of Administration any safety member may elect to make additional contributions at rates in excess of his normal contributions, for the purpose of providing additional benefits. The exercise of this privilege by a safety member shall not require the City to make any additional contributions. Upon application the Board shall furnish to the safety member information concerning the nature and amount of additional benefits to be obtained by the additional contributions. Such additional contributions may be changed or discontinued at any time, but may not be withdrawn except upon termination of membership and then only in the event the employee withdraws all of his normal and additional accumulated contributions.

Section 17. The actual amount of annuity receivable by a member and safety member upon retirement shall be the actuarial equivalent of his accumulated contributions.

Section 18. If the service of a safety member is discontinued other than by death or retirement, upon proper application to the Board of Administration he shall have returned to him all of his accumulated contributions, plus compound interest as determined by the Board, within six months from the date of termination; provided, however, that if said employee so terminating his service is credited with 20 years or more

of city service, or has \$500.00 or more in accumulated contributions (including any additional contributions), he shall have the privilege of leaving all of said accumulated contributions (including any additional contributions) with the system, in which event the safety member will be entitled to service retirement benefits when he has met the age requirements, based on his service and salary prior to the termination of his employment.

Section 19. If any safety member has terminated his services with the City after 10 years of service without fault on his part, or because of reasons beyond his control, he shall have the right at any time within 5 years, if re-employed by the City, to be reinstated in said system upon such terms and conditions as shall be prescribed by the Board of Administration, which may include, among other things, payment by said employee into the retirement fund of a sum equivalent to that which said employee would have been paid during such period of absence if he had continued to be a member, with interest as fixed by the Board. If, however, such safety member employee upon re-employment does not elect to make up the back contributions which he otherwise would have made, his rate of contribution following his re-employment shall be based upon his age at re-employment and credit for service since 1926 shall be granted only for the period during which he made contributions.

Section 20. For all members, including safety members, who, at the date of the taking effect of this ordinance, are and have been members of the Retirement System which is superseded in part hereby, the Board of Administration shall provide that such members shall, beginning July 1, 1954, contribute to the Retirement Fund that percentage required to be paid at the nearest birthdays of such members at that time.

Section 21. A member who, after July 1, 1954, contributes at the current rate, and who prior to his entrance in

this Retirement System held a position in the city service, and at that time and during that tenure, was not a member of any retirement system, shall have the right to receive credit in this Retirement System for all or any part of the city service he rendered, whether interrupted or not during the time he was in city service before becoming a member if within one year after becoming a member, or prior to July 1, 1955, whichever is later, he elects to pay and thereafter pays, in accordance with such election and prior to retirement, into the Retirement Fund an amount equal to the contributions he would have made to any retirement fund if he had been a member during all of the time for which he has elected to receive credit, computed by paying the accumulated contributions that would have been in his account if he had been a member of the superseded system during his period of employment subsequent to 1926. Such payment may be made by a lump sum or by installment payments over a period of three (3) years, or in such manner and at such time as the Board of Administration may by rule prescribe. No member shall receive credit under this section for any service for which he has not completed payment pursuant to this section before the effective date of his retirement. A member who has elected to make such payment in installments may complete payment thereof by lump sum at any time prior to the expiration of said three (3) years. Any sums paid by a member pursuant to this section shall be considered to be and administered as normal contributions by the member. If any member does not elect to make up his back contributions, as hereinabove provided, he shall receive credit only for current service during the time which he actually made contributions.

If any member under this section dies or is disabled after he has elected to pay into the system the accumulated contributions that would have been in his account if he had been

a member of the superseded system during his period of employment subsequent to 1926, but before completing such payments, then and in that event the Board is authorized to pay to the beneficiary of said deceased member or to said disabled member the death benefit or disability allowance herein provided for, after having first deducted or caused to be deducted from the amount of death benefit or disability allowance a sum equal to that amount which the deceased employee or the disabled employee had failed to pay into the system at the date of death or injury or sickness causing disability.

Section 22. When city service prior to membership was rendered on a part-time basis of at least six months or more the member may receive credit for such proportion of the time he held the part-time position as the time he was actually engaged in the performance of the duties of such position bears to the time required to perform the same duties in a full-time position.

Section 23. A member who elects to receive credit for only a part of such city service shall elect that city service latest in time, and may not receive credit for any portion of such city service prior in time to any city service for which he does not elect to receive credit.

Section 24. "Prior Service" means service prior to January 1, 1927.

Section 25. Except as hereinafter provided credit for prior service, whether interrupted or not, shall be granted to each person who has rendered such service as defined in or pursuant to this ordinance, and who has become a member of this Retirement System within one year after it becomes operative.

Section 26. Prior service shall be credited as a basis for a retirement allowance or benefit only if the membership in this Retirement System remains unbroken until retirement on a retirement allowance or until the granting of the benefit.

01646

Section 27. The following shall not be considered as breaking the continuity of service:

(a) A temporary lay-off because of an illness or for purposes of economy, suspension or dismissal followed by reinstatement or re-employment within one year.

(b) A leave of absence followed by reinstatement or re-employment within one year after the termination of the leave of absence.

(c) A resignation to enter, followed by entrance into, the armed forces of the United States, followed by re-employment by the City within six months after the termination of such service.

(d) Resignation of a member who has elected in writing to come within the provisions of Sections 10 and 18, followed by re-employment before withdrawal of any accumulated contributions.

The withdrawal of accumulated contributions followed by the redeposit of accumulated contributions upon re-entrance into service does not constitute a break in the continuity of service.

Section 28. If any officer or employee not previously included within the field of membership of this system is brought within the field of membership, or if any officer chooses to come within the field of membership subsequent to the establishment of this system, he shall not receive credit for service or for prior service unless he elects within one year after becoming eligible, or July 1, 1955, whichever is later, to pay and thereafter pays, in accordance with such election and prior to retirement, into the retirement fund an amount equal to the contributions he would have made to any retirement fund if he had been a member during all of the time for which he has elected to receive credit, computed by paying the accumulated contributions that would have been in his account if he had been

01647

a member of the superseded system during his period of employment subsequent to 1926. Such payment may be made by a lump sum or by installment payments over a period of three (3) years, or in such manner and at such time as the Board of Administration may by rule prescribe. No member shall receive credit under this section for any service for which he has not completed payment pursuant to this section before the effective date of his retirement. A member who has elected to make such payment in installments may complete payment thereof by lump sum at any time prior to the expiration of said three (3) years. Any sums paid by a member pursuant to this section shall be considered to be and administered as normal contributions by the member. If any officer or employee does not elect to make up his back contributions, as hereinabove provided, he shall receive credit only for current service during the time which he actually made contributions.

If any member under this section dies or is disabled after he has elected to pay into the system the accumulated contributions that would have been in his account if he had been a member of the superseded system during his period of employment subsequent to 1926, but before completing such payments, then and in that event the Board is authorized to pay to the beneficiary of said deceased member or to said disabled member the death benefit or disability allowance herein provided for, after having first deducted or caused to be deducted from the amount of death benefit or disability allowance a sum equal to that amount which the deceased employee or the disabled employee had failed to pay into the system at the date of death or injury or sickness causing disability.

Section 29. The Board of Administration is hereby authorized and vested with power to enact rules and regulations which shall govern the status of members of the Retirement System who either voluntarily or involuntarily enter into the service of the United States Military forces, which rules and regulations

shall safeguard the interest of such members to the extent that they shall not be deprived in any way of any benefit secured by General law of the State because of such absence; provided, however, that such rules and regulations shall provide that although such member shall not be required to make contributions to the Retirement Fund during such absence on Military service, he shall nevertheless not receive credit for full retirement allowance for such period of absence unless such member shall have paid into the Retirement Fund that amount of contributions which said member absent on Military leave would have paid into the fund had he not been absent.

ARTICLE IV.

RETIREMENT FOR SERVICE OF MEMBERS AND SAFETY MEMBERS.

Section 30. The management and control of the Retirement System is vested in the Board of Administration, who shall have authority to adopt such rules and regulations as it may deem proper for the administration of the system. Such Board of Administration is hereby vested with the power and authority to provide a normal retirement allowance for members who have reached the age of 62 years and who have had thirty (30) years of full-time service which shall be at least the equivalent of one-half of their final compensation as defined in Section 3 of this ordinance, which shall be paid at the rate of one-twelfth thereof, monthly; provided, however, that the Board may permit employees to retire at the age of 55 years after twenty (20) years of continuous service with a reduced allowance.

The Board is also authorized to provide a normal retirement allowance for safety members who have reached the age of 55 years and who have had thirty (30) years of full-time service, which shall be at least the equivalent of one-half of their final compensation as defined in Section 3 of this

(b) The prior service pension for a member is a pension derived from the contributions of the City equal to the following: A fraction of one-sixtieth of his final compensation set forth opposite his age at retirement taken to the preceding completed quarter year, in the following table in the column applicable to his sex multiplied by the number of years of prior service with which he is entitled to be credited at retirement:

The service retirement annuity is an annuity which is the actuarial equivalent of the safety member's accumulated contributions at the time of his retirement.

The pension for safety members is a pension derived from the contributions of the City, which, when added to the service retirement annuity that is derived from the accumulated normal contributions of the member, shall equal one-sixtieth of his final compensation, regardless of his age at retirement, for each year of service, upon retirement for service at age 55 with at least twenty years of service, or upon completion of twenty years of service at an age higher than 55, or upon retirement with less than twenty years of service at age 65.

A safety member who is permitted to retire between the ages of 50 and 55 shall receive a reduced pension which is the actuarial equivalent of the value of his pension, based upon his actual years of service, otherwise payable at age 55.

ARTICLE V.

DISABILITY RETIREMENT FOR MEMBERS AND SAFETY MEMBERS

Section 33. Any member, including a safety member, permanently incapacitated from the performance of duty as the result of injury or disease arising out of or in the course of his employment, shall be retired for disability with re-

tirement allowance, regardless of age or amount of service. Any member, including a safety member, permanently incapacitated from any other cause shall be retired regardless of age but with a retirement allowance only after ten years of service.

The Board of Administration shall prescribe rules and regulations setting forth the procedure for the retirement of a member or safety member for disability.

Section 34. Upon retirement for disability a member, including a safety member, who has attained the minimum age at which he may retire for service, shall receive his service retirement allowance, if greater. Upon retirement for non-industrial disability, that is, disability arising from sickness or injuries not arising out of or in the course of his employment, a member, including a safety member, who has attained the minimum age at which he may retire for service, shall receive his reduced service retirement allowance, if greater.

Section 35. Upon retirement of a safety member for industrial disability he shall receive in equal monthly installments a disability retirement allowance of 50% of his final compensation plus an annuity purchased with his accumulated additional contributions, if any, or, if qualified for service retirement, he shall receive his service retirement allowance if such allowance, after deducting such additional annuity, is greater. The disability retirement allowance for a safety member retired because of industrial disability shall be derived from his accumulated normal contributions and the contributions of the City.

Section 36. Every member, including a safety member, retired for disability, for whom a different disability retirement allowance is not prescribed by this ordinance, shall receive a disability retirement allowance which shall consist of:

01654

(a) An annuity which is the actuarial equivalent of his accumulated contributions at the time of retirement.

(b) If in the opinion of the Board his disability is not due to intemperance, willful misconduct or violation of law on his part, a disability retirement pension derived from the contributions of the City.

Section 37. The disability retirement pension shall be such an amount as, with that portion of his annuity provided by his accumulated normal contributions, will make his disability retirement allowance equal to:

(a) 90% of one-sixtieth of his final compensation multiplied by the number of years of service credited to him; or

(b) If the disability retirement allowance computed under subdivision (a) does not exceed one-fourth of his final compensation, 90% of one-sixtieth of his final compensation multiplied by the number of years of service which would be creditable to him were his service to continue to attainment by him of the age for normal retirement, but in such case the retirement allowance shall not exceed one-fourth of such final compensation. This subdivision (b) is not applicable to members who are not entitled at the time of retirement to be credited with at least 10 years of city service.

Section 38. In no event shall disability retirement pension under the last two preceding sections be more than sufficient to make the disability retirement allowance, exclusive of any annuity provided by accumulated additional contributions, exceed the service retirement allowance receivable by the member should he retire at age 62, or a safety member should he retire at age 55.

Section 39. The disability retirement pension shall be derived from the contributions of the City.

Section 40. If in the opinion of the Board the disability is due to intemperance, willful misconduct or violation of law

on the part of the member, including a safety member, and his annuity is less than \$240.00 per year, the Board may pay the member his accumulated contributions in one lump sum in lieu of his annuity.

Section 41. If, prior to attaining the minimum age for voluntary retirement for service applicable to members of his class, a recipient of a disability retirement allowance engages in a gainful occupation not in city service, the Board shall reduce his monthly disability retirement allowance to an amount which, when added to the compensation earned monthly by him, shall not exceed the amount of the maximum compensation earnable by a person holding the position which he held at the time of his retirement, or, if that position has been abolished the maximum compensation earnable by a person holding it immediately prior to its abolition. If his earnings are further altered the Board may further alter his disability retirement pension to the lower of the following amounts:

(a) The amount of the disability retirement pension upon which he was originally retired;

(b) An amount which, when added to the compensation earned by him, shall equal the amount of the maximum compensation earnable by a person holding the position which he held at the time of his retirement, or, if that position has been abolished the maximum compensation earnable by a person holding it immediately prior to its abolition.

When he reaches the minimum age for voluntary retirement for service, applicable to members of his class, his retirement allowance shall be made equal to the amount it would be if not reduced under this section, and shall not again be modified for any cause.

Section 42. The Board of Administration shall prescribe rules and regulations providing for periodical physical ex-

01656

aminations of any member, including a safety member, who has been retired for disability, industrial or non-industrial, and may at any time prior to the time or before such member reaches the minimum age of voluntary retirement order such employee to active duty, in which case said disability retirement allowance shall cease.

ARTICLE VI.

OPTIONAL SETTLEMENTS FOR MEMBERS AND SAFETY MEMBERS

Section 43. In lieu of the retirement allowance for his life alone, a member, including a safety member, may elect, or revoke or change a previous election prior to the approval of the previous election, to have the actuarial equivalent of his retirement allowance as of the date of retirement applied to a lesser retirement allowance, in accordance with one of the optional settlements specified in this ordinance. Said election, or revocation or change thereof, with respect to safety members, shall apply to all of the retirement allowance, if, at the effective date of retirement for service, or for industrial disability, said member has no wife, child or dependent parents who were qualified for continuance of the allowance after the death of said member; or, if at retirement said member has a wife, child or dependent parents who were so qualified, then said election, or revocation, or change thereof, shall apply to the portion of the allowance which would not be continued after the member's death, regardless of dependents.

Section 44. Such election, revocation or change of election shall be made prior to the making of the first payment on account of any retirement allowance. If the member dies after the effective date of retirement, and, with respect to Option 1, after his retirement has been approved and within thirty days from the date upon which his election or change of election is received at the office of the Board of

01657

Administration, his election is of no effect, and if no part of the allowance of the member is automatically continued by this Board after his death, and regardless of election as to optional settlements, his death shall be considered as that of a member before retirement, unless the Board, upon its determination that the election would have been received at the office of this Retirement System more than thirty days prior to the death, but for circumstances not within the control of the member and not based upon any consideration of health, family relationship or other consideration personal to the member, accepts his election.

Optional Settlement 1

Section 45. Optional Settlement 1 consists of the right to have a reduced retirement allowance paid him until his death, and if he dies before he receives in annuity payments the amount of his accumulated contributions at retirement, to have the balance at death paid to his beneficiary or estate.

Section 46. (a) A member, including a safety member, who elects to receive Optional Settlement 1 may further elect by a writing filed with the Board to have all or part of the balance of his accumulated contributions remaining at his death and payable to his beneficiary or estate paid in accordance with either of the following sub-sections:

(1) In monthly installments, fixed in number or amount, and not involving life contingency, subject to such rules as the Board may adopt. Regular interest shall be credited on the unpaid balance of benefits payable.

(2) In equal monthly installments for the life of the beneficiary, with 120 installments certain.

(b) If a member, including a safety member, dies without having made an election under subdivision (a) of this section, his beneficiary, after the death of the member and prior to the payment to him of the balance of the member's

accumulated contributions payable to the beneficiary upon the death of the member, or any part thereof, may elect by a writing filed with the Board to have the said balance paid to him in the manner provided in sub-section (1) of subdivision (a) of this section of this ordinance.

(c) When an election has been made to have all or part of the said balance of accumulated contributions paid in accordance with sub-section (1) or sub-section (2) of subdivision (a) of this section, the first of such installments shall be paid on the first day of the month next following the date when the said balance would otherwise be payable, and one of such installments shall be paid on the first day of each month thereafter. Such monthly installments shall be the actuarial equivalent of the amount of the said balance to be paid in installments on the date that the said balance would otherwise be payable.

No installments shall be commuted and paid in one sum unless the death of the beneficiary occurs during the period certain for which payments of the monthly installments are guaranteed; and in that event only payments due monthly during the remainder of the period certain shall be commuted, and such commutation shall be based on the rate of interest then being used under the Retirement System, and the commuted value shall be paid to the estate of the beneficiary, unless a contingent beneficiary has been named and qualifies to receive the balance of the guaranteed installments.

The Board may provide that any election by a member or by a beneficiary under the provisions of this section is void if the amount of the monthly installment is less than the minimum amount fixed by the Board.

Optional Settlement 2.

Section 47. Optional Settlement 2 consists of the right to have a ^{reduced} retirement allowance paid him until his death and thereafter to his beneficiary for life.

01659

Optional Settlement 3.

Section 48. Optional Settlement 3 consists of the right to have a reduced retirement allowance paid him until his death, and thereafter to have one-half of his reduced retirement allowance paid to his beneficiary for life.

Optional Settlement 4.

Section 49. Optional Settlement 4 consists of such other benefits as are the actuarial equivalent of his retirement allowance that he may select, subject to the approval of the Board, upon the advice of the actuary. However, the actuarial equivalent of benefits under this optional settlement payable to the member's beneficiary shall not exceed the actuarial equivalent of the benefits which would be payable to that beneficiary if the member had elected Optional Settlement 2.

Section 50. The Board of Administration shall prescribe rules and regulations setting forth the procedure to be followed by a member, including a safety member, with respect to the exercise of the options above described.

ARTICLE VII.

DEATH BENEFITS.

Section 51. This system is liable for either the basic or special death benefit upon the death of a member or safety member

(a) While in city service, before the effective date of his retirement, or with respect to

(1) Any member, including a safety member, whose retirement was not compulsory under this ordinance, and

(2) Any member, including a safety member, who has not elected Optional Settlements 2, 3 or 4 under this ordinance, after such effective date and before his retirement is approved; or

(b) While absent on Military service, and who makes contributions, or for whom contributions will be made under this ordinance; or

(c) Within four months after discontinuance of city service because of abolishment of position; or

(d) While physically or mentally incapacitated for the performance of his duty, if such incapacity has been continuous from discontinuance of city service.

Upon the death of a member, including a safety member, while in city service before the effective date of his retirement, or with respect to

(1) Any member, including a safety member, whose retirement was not compulsory; and

(2) Any member who has not elected Optional Settlements 2, 3 or 4 under this ordinance, after such effective date and before his retirement is approved, under circumstances in which this system is not so liable for either the basic or special death benefit, this system is liable for a limited death benefit which consists only of the accumulated contributions of the member with interest payable to his beneficiary or his estate, as determined by the Board.

Section 52. The basic death benefit is payable in all cases where the retirement system is liable under Section 51 for either the basic or a special death benefit and the special death benefit is not payable.

The basic death benefit shall consist of:

(a) The accumulated contributions, including additional accumulated contributions, of the member, with interest as determined by the Board.

(b) An amount, provided from contributions by the City equal to one-twelfth of the annual compensation earnable by the deceased during the 12 months immediately preceding his death, multiplied by the number of completed years of service for which he receives credit as a member of the system, but not to exceed

one-half of such compensation.

Section 53. (a) A member, including a safety member, may elect by a writing filed with the Board to have all or part of the basic death benefit paid in accordance with either of the following sub-sections:

(1) In monthly installments, fixed in number or amount and not involving life contingency, subject to such rules as the Board may adopt. Regular interest shall be credited on the unpaid balance of benefits payable.

(2) In equal monthly installments for the life of the beneficiary, with 120 installments certain.

(b) If a member, including a safety member, dies without having made an election under subdivision (a) of this section, his beneficiary, after the death of the member, including a safety member, and prior to the payment to him of the basic death benefit, or any part thereof, may elect by a writing filed with the Board to have the basic death benefit paid to him in the manner provided in sub-section 1 of subdivision (a) of this section.

(c) When an election has been made to have all or part of the basic death benefit paid in accordance with sub-section (2) of subdivision (a) of this section, the first of such installments shall be paid on the first day of the month next following the date when the basic death benefit would otherwise be payable, and one of such installments shall be paid on the first day of each month thereafter. Such monthly installments shall be the actuarial equivalent of the amount of the basic death benefit to be paid in installments on the date that such basic death benefit would otherwise be payable.

No installment shall be commuted and paid in one sum unless the death of the beneficiary occurs during the period certain for which payments of the monthly installments are guaranteed; and in that event only payments due monthly during

the remainder of the period certain shall be commuted, and such commutation shall be based on the rate of interest then being used under the Retirement System, and the commuted value shall be paid to the estate of the beneficiary, unless a contingent beneficiary has been named and qualifies to receive the balance of the guaranteed installments.

The Board may provide that any election by a member or by a beneficiary under the provisions of this section is void if the amount of the monthly installment is less than the minimum amount fixed by the Board.

Section 54. A special death benefit is payable if the deceased was a safety member, if his death was industrial, as determined by the Industrial Accident Commission, using the same procedure as in workmen's compensation hearing, and if there is a wife or child who qualifies under subdivision (b) of the following section.

Section 55. The special death benefit consists of:

(a) An amount equal to and derived from the same source as the basic death benefit; and

(b) An amount sufficient, when added to the amount equal to the basic death benefit, exclusive of the annuity provided by the deceased's accumulated contributions, to provide, when applied according to tables adopted by the Board, a monthly death allowance equal to one-half of the average compensation earnable by the deceased during the five years immediately preceding his death, payable to the surviving wife to whom he was married prior to sustaining the injury or disease resulting in death, as long as she lives or until her remarriage; or if there is no widow, or if the widow dies or remarries before all children of the deceased member attain age 18, to his children under 18 collectively until every child dies or attains 18. The computation for time prior to entering the

membership category applicable to the deceased at the time of the injury or the onset of the disease causing death shall be based on the compensation earnable by him in the position first held by him in that category.

(c) An annuity which is the actuarial equivalent, assuming monthly payments for life to the surviving wife, of the deceased's accumulated additional contributions at the date of his death.

Section 56. The special death benefit shall begin to accrue on the day next following the date of the member's, including safety member's, death, and shall be paid in monthly installments to the surviving wife and children as prescribed in the preceding section.

Section 57. The basic death benefit or the limited death benefit shall be paid as provided in this ordinance to the beneficiary designated by the member, or if no beneficiary has been so designated, to the estate of the member.

Section 58. If payment of the special death benefit is stopped because of remarriage of the widow or attainment of the age of 18 years by a child, before the sum of the monthly payment made, exclusive of the annuity derived from the accumulated additional contributions of the deceased, equals the basic death benefit, a lump sum equal to the difference shall be paid the remarried widow, or if there is no such widow, to the surviving children of the deceased member, share and share alike. In such event, or if there is no such widow, the accumulated additional contributions of the deceased, as they were at his death, less the annuity paid as derived from such contributions, and plus interest credited to the accumulated additional contributions, shall be paid in the manner provided in this ordinance for the payments of amounts due in the absence of a designated beneficiary.

Section 59. In the absence of an application to the In-

dustrial Accident Commission, filed by a proper party, the Board shall proceed with the payment of the basic death benefit. If an application is filed with the Industrial Accident Commission and the Commission determines that the death was industrial, an amount equal to the basic death benefits paid, if any, shall be deducted from the special death benefit, in accordance with rules adopted by the Board.

Section 60. If a beneficiary is not designated, or if the estate is the beneficiary and the estate would not be probated if no amount were due from this system, all of the amount due by reason of the death of a member or retired member, including a safety member or retired safety member, including retirement allowances accrued but not received prior to death, shall be paid directly without probate to the surviving next of kin of the deceased, or the guardians of such survivors' estates, share and share alike. Such payment shall be made in the same order in which the following groups are listed:

1. Husband or wife,
2. Children,
3. Father and mother,
4. Grandchildren,
5. Brothers and sisters,
6. Nieces and nephews.

Section 61. No payment shall be made to persons included in any group if at the date of payment there are living persons in any of the groups preceding it, as listed. Payment to the persons in any group, upon receipt from them of an affidavit upon a form supplied by the Board, that there are no living individuals in the groups preceding it and that the estate of the deceased will not be probated, is in full discharge of the Board and system on account of the death.

Section 62. If the estate of the deceased member, or a safety member, is his beneficiary, or if no beneficiary has

been designated by him, or if the designated beneficiary cannot be found by the Board, it may in its discretion pay to the funeral director who conducted the funeral, or to any person or organization that has paid the funeral director from his or the organization's funds, all or a portion of any amount payable under this system, but not more than the expenses of the funeral or the portion of such expenses paid by the person or organization, as evidenced by the sworn itemized statement of the funeral director and by such other documents as the Board may require. Payment so made is a full discharge of the Board and system for the amount so paid.

Section 63. The provisions of any law of this state providing for the distribution of estates under the Uniform Simultaneous Death Act, when applicable, shall govern the distribution of money payable under this system, including but not limited to retirement allowance accrued but not received prior to death and refund of member contributions. In applying said act with respect to benefits payable to a beneficiary, membership in the system shall be construed as in the same status as insurance policies.

ARTICLE VIII.

CITY'S CONTRIBUTION

Section 64. Commencing July 1, 1954, the City shall contribute to the Retirement Fund in respect to members, other than safety members, 5.9% of the earnable compensation paid members, other than safety members.

Commencing July 1, 1954, the City shall contribute to the Retirement Fund in respect to safety members 9.0% of the earnable compensation paid safety members.

The foregoing rates of contribution shall be maintained until changed by the Board upon recommendation of the actuary, based upon investigations and studies authorized by Section 66.

The City shall contribute each year over a period of thirty (30) years, a sum sufficient to provide for all of the

01666

of the deficiencies which may have accrued because of the adoption of this ordinance.

Section 65. In addition to the City's contributions as hereinabove provided for the City shall appropriate each year a sum sufficient to meet the actual expenses and costs of operating the system for the fiscal year concerned.

ARTICLE IX.

POWERS AND DUTIES OF BOARD

Section 66. The Board of Administration, as provided above, may make such rules and regulations as it deems proper for the administration of the Retirement System, and subject to this ordinance and those rules the Board may modify benefits for service and disability, and also determine who are employees, and shall be the sole judge of the condition under which persons may be admitted to and continue to receive benefits under this system. The Board shall also have authority to secure and pay reasonable compensation for such medical service and advice as is necessary to discharge its duties respecting matters involving disability or death, or both.

The Board shall keep in convenient form such data as is necessary for the actuarial evaluation of this system as of June 30, 1954, and thereafter at the end of periods not to exceed one year it shall cause to be made an actuarial valuation of the assets and liabilities of the system, and at periods of not to exceed five years said Board shall cause to be made a thorough actuarial investigation of the mortality, service and compensation experience of members and persons receiving benefits, together with an actuarial valuation of the assets and liabilities of the system. From time to time it shall also determine the rate of interest being earned on the retirement fund. The Board shall have authority to employ an actuary and make such contracts with

him as may be necessary to provide for their use and benefit such services as are needed by such Board.

Section 67. On the basis of any or all of such investigations, valuations and determination the Board shall adopt such mortality, service and other tables and interest rates as it deems necessary and make such revisions in rates of contribution of members as it deems necessary to provide the benefits for which the rates for normal contributions are required to be calculated. The decision of the Board or Administration on matters covered by this section, if arrived at in good faith, shall be conclusive.

Section 68. On the basis of such investigation, valuation and determination the Board shall transfer to or from, as the case may be, either or both accumulated investment income in excess of interest credited to contributions and the accumulated contributions of the City, as the case may be, held for the benefit of members on account of current service, amounts necessary to bring the amounts available, in the accounts the Board is required to keep, to meet the obligations of the City on account of benefits that have been granted, including the annuity portion of such benefits, to or on account of retired or deceased members, to the basis of mortality tables and interest rate adopted by the Board.

Section 69. The Board shall credit the contribution accounts of members, including safety members, and the City in the Retirement Fund with interest at a rate to be determined by the Board compounded at each June 30th.

Section 70. At the end of each fiscal year the Board may credit to all contributions held in the Retirement Fund at June 30th of the then current fiscal year such interest in excess of the current rate as it deems proper in the light of the earnings on the Retirement Fund during that fiscal year, but not more than the difference between such earnings and the interest credited at the current rate to contributions during that year. In the calculation of benefits under any mortality table adopted by the Board only the current rate of interest shall be used regardless of any additional interest allowed on contributions under this section.

Section 71. The Board of Administration is hereby authorized in its discretion to hold a hearing for the purpose of determining any question presented to it involving any right, benefit or obligation of a person under this ordinance. Where a hearing is held the Board shall have authority to administer oaths and require testimony to be presented to such Board under oath, and such hearing may be held at such time and place as may be determined by the Board and may be continued from time to time as necessary.

Section 72. Data filed by any member, including a safety member, or beneficiary with the Board is confidential and no individual record shall be divulged by any officer or employee having access to it to any person other than the member to whom the information relates, or his authorized representative, or The City of San Diego. Such information shall be used by the Board for the sole purpose of carrying into effect the provisions of this ordinance.

It is hereby declared to be a misdemeanor for any member of the Board, or officer or employee, to divulge any information to any person other than one authorized by this ordinance to receive such information concerning the data filed or required of any member or beneficiary to be furnished to

such Board in connection with the administration of the Retirement System.

Section 73. The City Attorney shall designate one of his staff to advise and represent the Board of Administration in the administration of the Retirement System.

Section 74. This ordinance shall become effective thirty days from and after its passage with respect to all provisions thereof relating to contributions of employees and the City, the employment of an actuary, the determination of actuarial data sufficient to meet the obligations of the system, but not be applicable with respect to the payment of any retirement allowances or death benefits herein provided for except pursuant to the terms and provisions of Ordinance No. 10792, as amended, until such time as the people of The City of San Diego by proper amendment to Article IX of the Charter authorize the new and revised system herein set forth and authorize by such amendment the contributions to be made by the City herein enumerated. Upon the adoption of such charter amendments the provisions of this ordinance shall be retroactive as to contributions required and benefits conferred since July 1, 1954, but not prior thereto, and any and all benefits, retirement or death, accruing under the terms of this ordinance after July 1, 1954, to any member who shall have retired between the date this ordinance is adopted and the date of the taking effect of the amending charter provisions, shall be paid to such member immediately following the taking effect of said charter amendments. If and in the event the people of The City of San Diego refuse by proper charter amendment to authorize the City contributions and benefits as herein set forth in this ordinance, then and in that event all contributions made by employees over and above the amounts required under the provisions of Ordinance No. 10792 shall be either returned to said employees or credited to their account in the Retirement System authorized by said Ordinance No. 10792.

Upon the taking effect of any charter amendments authorizing the system hereinabove set forth, the Retirement System as authorized by Ordinance No. 10792 shall be superseded by the provisions of this ordinance in all particulars except where this ordinance expressly preserves any of the rights and benefits of the employees under the provisions of said Ordinance No. 10792.

ORDINANCE NO. 6171
(New Series)

AN ORDINANCE AMENDING CHAPTER II, DIVISION 5, ARTICLE 2 (ADMINISTRATIVE CODE) OF THE SAN DIEGO MUNICIPAL CODE BY AMENDING SECTIONS 22.0501, 22.0502, 22.0503, 22.0504, 22.0505, 22.0506 AND 22.0507, AND BY ADDING THERETO SECTIONS 22.0520, 22.0521, 22.0522, 22.0523, 22.0524, 22.0525 AND 22.0526, RELATING TO THE POWERS AND DUTIES OF THE PURCHASING AGENT.

BE IT ORDAINED, by the Council of The City of San Diego as follows:

Section 1. That Chapter II, Division 5, Article 2 (Administrative Code) of the San Diego Municipal Code be, and the same is hereby amended by amending Sections 22.0501, 22.0502, 22.0503, 22.0504, 22.0505, 22.0506 and 22.0507 to read as follows:

"SEC. 22.0501 STOREROOMS - STOCK RECORDS - INVENTORY

The Purchasing Agent may, with the approval of the City Manager, establish and maintain one or more storerooms or warehouses for the keeping of the City's supplies. There shall be kept, in addition to the perpetual inventory required by Section 35 of the Charter, adequate stock records, which shall at all times show the number or amount and the value of all items carried in such storerooms and warehouses, the receipt of all items, the issuance of all items from the storerooms and warehouses as aforesaid to City departments and offices upon requisition therefore, and the charges made thereupon. During the course of, but prior to the end of each fiscal year, the Auditor shall cause an inventory to be taken of all items in the storerooms and warehouses of the City which are then under the supervision of the Purchasing Agent and shall compare such inventory with the stock record to be kept as aforesaid by the Purchasing Agent.

"SEC. 22.0502 PAYMENT - REVOLVING FUND

Whenever articles, commodities, supplies, materials or equipment are purchased and delivered to the storerooms, or warehouses under control of the Purchasing Agent, in anticipation of requisitions from the Revolving Fund of the Central Store, to be repaid

by the several departments, commissions, boards, divisions and offices as they receive such supplies on requisition.

"SEC. 22.0503 DEPARTMENT ESTIMATES OF PROCUREMENT NEEDS.

At such times as contracts for supplies are to be let, the head of each commission, board, department, office or bureau of The City of San Diego shall when requested by the Purchasing agent submit to him an estimate of major articles, commodities, supplies, equipment and materials anticipated to be needed by such commission, board, department, office or bureau, for its regular operation during the ensuing fiscal year, within the limits of the Department's budget.

"SEC. 22.0504 PURCHASE WITHOUT COMPETITIVE BIDDING

The Purchasing Agent shall have the power, at any time, to purchase on behalf of the City, without advertising, notice, or competitive bidding, any necessary or proper articles, commodities, supplies, equipment, or materials when the expenditure therefor is the sum of One Thousand Dollars (\$1,000.00) or less. He shall, however, secure competitive prices on materials so purchased whenever it is feasible to do so.

The Purchasing Agent is prohibited from subdividing any purchase which should logically be made as a single transaction requiring the expenditure of more than One Thousand Dollars (\$1,000.00), into two or more purchases, each involving an expenditure of less than One Thousand Dollars (\$1,000.00) for the purpose of avoiding compliance with the procedure elsewhere in this Code and in the City Charter provided for the making of purchases where the expenditure involved exceeds the sum of One Thousand Dollars (\$1,000.00).

Purchases requiring expenditures in excess of One Thousand Dollars (\$1,000.00) shall be accomplished in accordance with provisions of Sections 35 and 94 of the City Charter.

"SEC. 22.0505 REQUISITIONS

Requisitions for articles, commodities, supplies, materials or equipment by any commission, board, department, office or bureau shall be addressed to the Purchasing Agent, approved by

the head of such commission, board, department, office or bureau, or authorized representative. Purchase Orders issued pursuant to such requisitions shall bear the certificate of the Auditor and Comptroller pursuant to Section 80 of the Charter and shall be reviewed by him for compliance with Section 81 of the Charter.

If the commission, board, department, office or bureau making the requisition has available a sufficient appropriation balance, the Purchasing Agent shall either furnish the items requisitioned from the storerooms or warehouses under his control or shall procure them by purchase. Requisitions presented to the Purchasing Agent by the various City Departments requesting supplies, material or equipment shall contain specifications completely describing the material or equipment required by the using department, by purpose, function, or performance desired, or by an adequate description of the physical characteristics, in such manner that equal competition in the procurement thereof may be secured. Brand name "or equal" may be used for illustrative purposes only. Provided however, that brand names may be specified in the procurement of parts for City Equipment, in which case name and model number of equipment for which parts are to be supplied shall be furnished. Whenever any commission, board, department, office or bureau of the City requires supplies or equipment which another commission, board, department, office or bureau of the City is able to furnish, suitable work order or requisition may be made or transfer without monetary consideration may be effected and such supplies or equipment may be furnished to the requiring department. In such cases, appropriate charges and credits, if any, shall be made to the accounts affected by such transaction.

"SEC. 22.0506 OBSOLETE OR DEPRECIATED PROPERTY - SELLING, DISPOSING

Whenever the City Manager of The City of San Diego, or the head of any commission, board, department or office not under the control of the City Manager, shall give notice, in writing, to the Purchasing Agent of The City of San Diego that certain personal property of the City is so used, obsolete or depreciated as to be

unfit or undesirable for use or retention by the City, the Purchasing Agent shall, if the personal property described in said notice has an actual value less than One Thousand Dollars (\$1,000.00), have power, without advertising for bids, to sell or exchange the same for other property, or otherwise dispose of the same to the best advantage of the City after providing proper competition for such sale when feasible; provided that the word "exchange" as used in this ordinance shall be deemed to include transactions wherein used or depreciated property of the City is transferred as a partial consideration for the transfer to the City of other property, and provided further than when any such personal property has been disposed of, the amount received therefor, either in cash or as a credit, shall be credited to the department or office of the City which requested its disposal, only if the trade-in or sale of such trade-in article or article sold has been contemplated in the current annual budget; otherwise receipts or credits from such trade-ins or sale will be deposited in the General Fund.

Whenever the personal property described in the notice referred to in the preceding paragraph shall have an actual value of One Thousand Dollars (\$1,000.00) or more, the Purchasing Agent shall apply to the Council of The City of San Diego for authority to dispose of the same, and the Purchasing Agent shall be authorized to sell or otherwise dispose of such property, as provided in the preceding paragraph, only when the Council of the City shall, by resolution or ordinance, so direct.

The Purchasing Agent shall within five (5) days after selling or otherwise disposing of personal property pursuant to the terms of this ordinance, report in writing to the City Manager, or the head of any commission, board, department or office not under the control of the City Manager when the proceeds of such sale is less than One Thousand Dollars (\$1,000.00) and to the Council the result of such sale, exchange or other disposal describing the property disposed of and stating the consideration received by the City for

such property when the proceeds of such sale exceeds One Thousand Dollars (\$1,000.00).

"SEC. 22.0507 ELECTION SUPPLIES

The provision of this chapter shall not apply to the purchase of supplies by the City Clerk for the holding of City elections where the procedure for the purchase of such supplies shall be provided for by any other ordinance of The City of San Diego."

Section 2. That Chapter II, Division 5, Article 2 (Administrative Code) of the San Diego Municipal Code be, and the same is hereby amended by adding thereto new Sections to be known as and numbered Sections 22.0520, 22.0521, 22.0522, 22.0523, 22.0524, 22.0525 and 22.0526, and to read as follows:

"SEC. 22.0520 PURCHASING AGENT'S DUTY TO OPEN BIDS.

The Purchasing Agent shall be the officer responsible for the opening, examining and declaring of competitive bids submitted to the City for the acquisition, construction and completion of any public improvement, and for the purchase of materials and supplies, subject however, to the exceptions hereinafter set forth and he is hereby authorized to call public meetings for that purpose.

"SEC. 22.0521 TIME AND PLACE OF OPENING SPECIAL ASSESSMENT BIDS

All bids submitted pursuant to the Improvement Act of 1911 or in the course of any other proceeding whereby all or part of the cost of acquisition or improvement will be paid for by special taxes or assessments levied against the property benefited thereby (hereafter called Special Assessment Bids), shall be opened in a public meeting in the Chambers of the City Council, Room 358, City and County Administration Building (popularly known as the Civic Center), on Fridays (or when Friday is a legal holiday, on the first succeeding week day which is not a holiday), at the hour of 10 a.m., or as soon thereafter as the course of business permits.

All bids and bid bonds submitted pursuant to the Improvement Act of 1911 shall be promptly delivered by the Purchasing Agent to the City Clerk.

"SEC. 22.0522 TIME AND PLACE OF OPENING MAJOR AND MINOR IMPROVEMENT BIDS

All formal bids other than Special Assessment Bids submitted in proceedings governed by statute, by the Charter or by the Municipal Code, shall be opened in a public meeting in the office of the Purchasing Agent on the day and at the time stated in the notice inviting such bids. Where the total or the total estimated amount of any bid exceeds Twenty-five Thousand Dollars (\$25,000.00), all bids in the same proceeding shall be considered Major Improvement Bids. All other bids shall be considered Minor Improvement Bids.

"SEC. 22.0523 EXCEPTIONS TO THE FOREGOING - SPECIAL BID OPENINGS

If the documents in the proceedings pursuant to which the bids are opened specify some officer other than the Purchasing Agent, or some time or place other than that herein provided, and such documents are approved by resolution of the City Council, the bids shall be opened by the officer and at the time and place specified in such documents, as so approved.

"SEC. 22.0524 EXCEPTIONS TO THE FOREGOING - PUBLIC CALAMITY

In the event of public calamity or some unforeseen event (including unusually large attendance) which renders it impossible or highly impracticable to open the bids at the time and place specified, the following special procedures shall govern and their utilization shall in no way detract from or vitiate the validity of the bids or the proceeding in chief.

(a) If, continuously from the time specified for the opening of bids or the move to another room is made, until all bids have been read, a sign is posted at the door of the originally specified room, stating in which alternate room of the Civic Center the bid opening is to be held, and an officer or employee of the City during such interval, remains by such sign to answer inquiries, then, not less than one-quarter hour nor more than one hour after the originally specified time for the opening of bids, such bids may be opened in the alternate room.

(b) If it is impossible or impracticable to utilize the procedure under subsection (a), the bids shall either be returned

to the bidders or be held unopened for a period of forty-eight (48) hours after which they may be opened at any hour (not later than seventy-two (72) hours after the originally specified time) and place within The City of San Diego, provided that theretofore, every reasonable means has been taken to notify the respective bidders of the alternate time and place, and the bids are opened and read in public.

"SEC. 22.0525 MANNER OF OPENING BIDS

A public meeting for purposes of this article is defined to be an assemblage of interested persons gathered in response to a notice specifying the time when and place where certain bids will be opened. So long as opportunity is given for such assemblage and the provisions of this section are complied with, the mere failure of persons to so gather shall not deprive the proceeding of its character as a public meeting.

All bids shall be opened at or immediately after the time noticed for such opening. No bidder or interested person shall be excluded from the meeting at which the bids are opened and in the event no member of the public is in attendance thereat, at least one officer or employee of the City shall be present in addition to the officer opening the bids. Bids shall be unsealed and opened in the presence of those attending. The name of the acquisition or improvement shall be announced audibly to those present followed by the name of the bidder, the name of the surety and the amount of the bond, and the amounts bid on the respective lump or unit items of the bid, provided, however, that except for special assessments bids, a reading of the estimated total may be substituted for the respective lump and unit items. Any person present shall have the right to request a reiteration of announcements made or the supplying of any data omitted and such requests shall be complied with to the extent they do not unreasonably delay or interfere with the bid opening procedure.

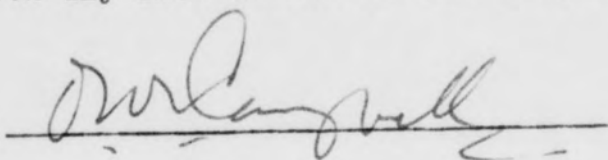

01690

"SEC. 22.0526 REPORT TO COUNCIL ON SPECIAL ASSESSMENT AND MAJOR IMPROVEMENT BIDS.

A report on Special Assessment and Major Improvement Bids shall be made to the City Council at its first regular meeting following the day in which the bids were opened. Provided however, the report on Major Improvement Bids involving the expenditure of Harbor Department funds shall be made to the Harbor Commission in lieu of the City Council."

"SEC. 22.0522 TIME AND PLACE OF OPENING MAJOR AND MINOR IMPROVEMENT BIDS.

All formal bids other than Special Assessment bids submitted in proceedings governed by statute, by the Charter or by the Municipal Code, shall be opened in a public meeting in the office of the Purchasing Agent on the day and at the time stated in the notice inviting such bids. Where the total or the total estimated amount of any bid exceeds Twenty-five Thousand Dollars (\$25,000.00), all bids in the same proceeding shall be considered Major Improvement Bids. "SEC. 22.0524 EXCEPTIONS TO THE FOREGOING—PUBLIC CALAMITY.

In the event of public calamity or some unforeseen event (including unusually large attendance) which renders it impossible or highly impracticable to open the bids at the time and place specified, the following special procedures shall govern and their utilization shall in no way detract from or vitiate the validity of the bids or the proceeding in chief.

(a) If, continuously from the time specified for the opening of bids or the move to another room is made, until all bids have been read, a sign is posted at the door of the originally specified room, stating in which alternate room of the Civic Center the bid opening is to be held, and an officer or employee of the City during such interval, remains by such sign to answer inquiries, then, not less than one-quarter hour nor more than one hour after the originally specified time for the opening of bids, such bids may be opened in the alternate room.

(b) If it is impossible or impracticable to utilize the procedure under subsection (a), the bids shall either be returned to the bidders or be held unopened for a period of forty-eight (48) hours after which they may be opened at any hour (not later than seventy-two (72) hours after the originally specified time) and place within The City of San Diego, provided that therefore, every reasonable means has been taken to notify the respective bidders of the alternate time and place, and the bids are opened and read in public.

"SEC. 22.0525 MANNER OF OPENING BIDS.

A public meeting for purposes of this article is defined to be an assemblage of interested persons gathered in response to a notice specifying the time when and place where certain bids will be opened. So long as opportunity is given for such assemblage and the provisions of this section are complied with, the mere failure of persons to so gather shall not deprive the proceeding of its character as a public meeting.

All bids shall be opened at or immediately after the time noticed for such opening. No bidder or interested person shall be excluded from the meeting at which the bids are opened and in the event no member of the public is in attendance thereat, at least one officer or employee of the City shall be present in addition to the officer opening the bids. Bids shall be unsealed and opened in the presence of those attending. The name of the
