"RULE X - LEAVES OF ABSENCE.

Section 1. ANNUAL, SICK AND SPECIAL LEAVES OF ABSENCE WITH AND WITHOUT PAY:

General Requirements - Employees holding positions in the Classified Service shall be entitled to annual vacation, and shall be allowed sick and special leaves of absence as hereinafter provided. All leaves of absence, whether with or without pay, shall be submitted in writing on forms provided for that purpose, and must meet the approval of the Personnel Director. Extended leaves of absence shall be presented to the Commission for action upon the recommendation of the appointing authority and the Personnel Director. Except in the case of sick leave, the time during which any leave of absence shall be taken by an employee shall be designated by the appointing authority over the unit in which he is employed, and the request for such leave of absence, signed by the employee and by the appointing authority, shall be forwarded to the office of the Commission at least one week in advance of the beginning date of the leave requested. Leaves of absence shall be indicated on the semi-monthly payrolls submitted to the Personnel Director for checking and certification. Failure to submit requests for leaves of absence prior to the date on which payroll warrants are released will result in the withholding of the warrants until such requests have been submitted and approved.

Sick Leave During Probationary Period - During the original probationary period, an employee may be granted sick leave without pay because of illness or injury not incurred on the job, or for reasons deemed good and sufficient by the appointing authority and with the approval of the Personnel Director, but such leave shall not extend the regu-

lar probationary period which the entrance employee must serve.

(1) ANNUAL VACATION:

Full-Time Active Service - On and after January 1, 1955, each employee paid at a monthly rate who has had full-time active service during the calendar year previous to that in which vacation is requested, shall be entitled in each calendar year to an annual vacation of fifteen (15) consecutive days, exclusive of Saturdays, Sundays, and holidays as defined in the Political Code of the State of California, with full pay for such time as the employee would have been paid if at work for the City for the same period of time, except each employee in the uniformed service of the Fire and Police Departments shall be entitled to twenty-one (21) calendar days with full pay.

Part-Time Service - Each employee who has served continuously part-time during the calendar year previous to that in which vacation is requested shall be entitled in each calendar year to an annual vacation on the above basis in the proportion that such part-time employment bears to full-time employment.

Vacation Earned During First Year of Service - After twelve months of continuous service, each employee who worked only a partial year during the calendar year previous to that in which vacation is requested, shall be entitled to vacation with pay not to exceed one day for each 24 days for which said employee received pay in the previous calendar year, except each employee in the uniformed service of the Fire and Police Departments shall be entitled to vacation with pay not to exceed one and three-fourths calendar days for each full month for which said employee received pay in the previous calendar year.

Vacation Schedule - The arranging of a vacation

schedule shall be the responsibility of the appointing authority; first with particular regard to the needs of the service, and then in so far as is possible with the wishes of the employees. Only for reasons deemed good and sufficient by the appointing authority and Personnel Director will an employee be permitted to split his vacation or to take a partial vacation in order to accumulate the balance to be taken in a subsequent year.

Accumulation of Vacation - In the event an employee who has served continuously for at least twelve months does not take all the vacation to which he is entitled in any calendar year, he shall be allowed to accumulate the balance to be taken in a subsequent year; provided that accumulated and annual vacation shall not in any case exceed a total of 45 days of earned vacation. No employee shall be granted vacation with pay for more than 30 days, exclusive of Saturdays, Sundays, and holidays in any calendar year; provided that an employee with ten or more years of continuous service may be permitted to take 35 days of earned vacation in a calendar year.

Entitlement Upon Retirement or Separation from Service. Provided further that prior to retirement or upon separation from the service, whether voluntarily or involuntarily, an employee shall be entitled to vacation with pay for all the unused vacation which has accrued under the provisions of this rule, and in addition, to vacation based upon the length of active service in the year in which the retirement or separation occurs. Vacation earned during the current year shall be computed upon the same basis as for a partial year as set forth in this rule. If an employee fails to take the vacation to which he is entitled prior to the date of his retirement, he shall forfeit all right to such vacation with pay. At the time this rule becomes effective, an employee who has

accumulated more than the allowable number of days as provided in this rule, shall be allowed to take such additional days as may be necessary to reduce his vacation so that it will comply with this rule. Failure to take such additional days vacation before January 1, 1952, shall constitute a waiver of all vacation in excess of ~~42~~⁴⁵ days as set forth in this rule.

(2) SICK LEAVE WITH PAY:

Definition - Sick leave is hereby defined to mean the absence from duty of an employee because of illness or injury, exposure to contagious disease, attendance upon a member of his immediate family requiring the care or attendance of such employee, or death in the immediate family of the employee.

Entitlement - Whenever an employee whose compensation is fixed by the month is compelled to be absent from duty on account of illness or injury, he may after one year of continuous service, be granted a maximum of fifteen (15) calendar days sick leave with pay in any calendar year, except as hereinafter provided. The Commission may in its discretion grant currently earned sick leave with pay in cases of prolonged illness or disability due to injury not incurred on the job.

Death or Illness in Immediate Family - No more than five (5) days sick leave with pay shall be granted an employee because of illness or death in the immediate family.

Accumulation of Sick Leave - All unused sick leave may be accumulative, provided that at no time shall the accumulated and annual sick leave exceed a total of ninety (90) calendar days. No more than ninety (90) calendar days sick leave with pay shall be granted in any calendar year.

Computation of Sick Leave - Employees absent before and after a holiday or before and after a Saturday and Sunday shall be deemed 'not ready and able to have worked' on the holiday

and/or Saturdays and Sundays, or any combination thereof, and shall be charged straight calendar days. If an employee who works regularly Monday through Friday on a 40-hour week, returns to work on Monday, the Saturday and Sunday previous shall not be assessed against his sick leave; similarly if a holiday falls on the day before his return from sick leave, such holiday shall not be assessed against his sick leave. If an employee, whose schedule requires him to work Saturdays, Sundays, and/or holidays, or any combination thereof, on a 40, 44, or 72-hour week, returns from sick leave the day following his scheduled day or days off, such day or days shall not be included in his sick leave.

Proof of Illness - In any request for sick leave with pay for five (5) days or more, the Commission may require a statement in writing signed by a regularly licensed physician, or the submission of other substantiating evidence that the employee is incapacitated and unable to perform his duties.

Transfer of Accrued Vacation and Sick Leave - In the event of a transfer between departments or divisions or a promotion from one department or division to another, the employee's accrued vacation and sick leave shall be assumed by the department or division to which transfer or promotion is made.

Sick Leave With Pay Due to Injury on the Job - Whenever an employee is compelled to be absent from duty on account of injury, regardless of length of service with the City, he shall be entitled to pay for the first seven (7) days following injury, upon satisfactory proof that the injury was incurred in line of duty and without negligence on his part. If the disability is of longer duration than seven (7) days, compensation will be received under the Workmen's Compensation Act, and the uniformed service of the Fire and Police shall receive such other benefits as are prescribed by ordinances

adopted by the Council.

None of the foregoing provision^s of Rule X shall be applicable to employees employed on an hourly basis.

(3) MILITARY LEAVE: In addition to the leaves of absence hereinabove provided for members of the Classified Service, those officers or employees in such service who are also members of the National Guard or Naval Militia, or of the Reserve Corps, or forces in the Federal Military, Naval, Marine or Coast Guard service, shall be entitled to the leaves of absence authorized and provided by the Military and Veterans Code of the State of California, and in addition thereto shall be entitled to the rights and privileges authorized by said Military and Veterans Code with respect to status and re-employment.

(4) COMPULSORY LEAVE: If, in the opinion of the appointing authority, an employee is incapacitated for work on account of illness, such employee may be required to submit himself to a physician designated or approved by the Commission for examination. If the report of the physician shows the employee to be in an unfit condition to perform his duties, the appointing authority shall have the right, subject to the approval of the Commission, to compel such employee to take sufficient leave of absence to fit him to perform his duties.

(5) SPECIAL LEAVE WITHOUT PAY: An employee holding a position in the Classified Service who is mentally or physically incapacitated to perform his duties or who desires to engage in a course of study such as will increase his usefulness on his return to the Classified Service or who for any reason considered good by the appointing authority and the Commission, desires to secure leave from his regular duties, may on written request, approved by the appointing authority and the Commission, be granted special leave of absence without pay for a period not exceeding one year. Provided, that when leave of absence is granted to enable an employee to take a

position in the Unclassified Service, the Commission may upon request grant successive leaves of absence during the actual service of the employee in such unclassified position. An employee asking for special leave without pay shall submit his request in writing stating the reasons why, in his opinion, the request should be granted, the date when he desires the leave to begin, and the probable date of his return. For each separate case of leave without pay, the Commission shall at the time it approves the leave determine whether the employee granted such leave shall be entitled to his former position on his return from such leave, or whether his name shall be placed on the eligible list for the class.

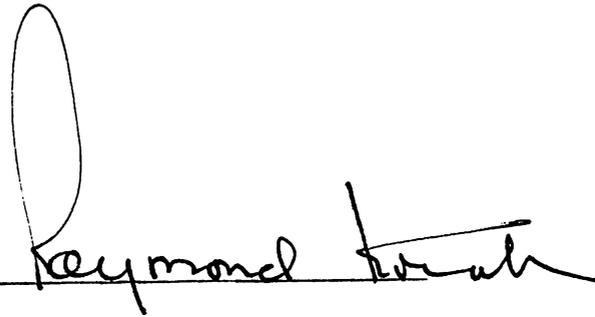

(6) LEAVE TO SERVE ON JURY DUTY: Whenever a permanent employee is required to serve as juror, he shall be granted leave for such purpose upon presentation of jury notice to the appointing authority and the Personnel Director. If funds are available, he may receive full pay for the time he serves on the jury, provided the money which he receives for jury duty is deposited with the City Auditor for the general fund. Request for such leave shall be made on leave of absence forms.

(7) TIME OFF FOR SPECIAL MEETINGS: Whenever it is deemed for the best interests of the City service, officers and employees may be granted time off with pay to attend professional or technical institutes or conferences or such other meetings as may contribute to the effectiveness of their service to the City upon their return to duty. Written request for such time off with reasons therefor must be submitted by the department head subject to the approval of the Personnel Director."

(6) LEAVE TO SERVE ON JURY DUTY: Whenever a permanent employee is required to serve as juror, he shall be granted leave for such purpose upon presentation of jury notice to the appointing authority and the Personnel Director. If funds are available, he may receive full pay for the time he serves on the jury, provided the money which he receives for jury duty is deposited with the City Auditor for the general fund. Request for such leave shall be made on leave of absence forms.

(b) Every person using or otherwise consuming in this City tangible personal property purchased from a retailer is liable for the tax imposed under Section 32.02(a) hereof. His liability is not extinguished until the tax has been paid to this City, except that a receipt from a retailer who is authorized by the City Treasurer, under such rules and regulations as he may prescribe, to collect the tax, given to the purchaser pursuant to Section 32.02(c) hereof, is sufficient to relieve the purchaser from further liability for the tax to which the receipt refers.

(c) Every retailer who is authorized by the City Treasurer to collect the taxes imposed by this section, and who makes sales of tangible personal property for use or other consumption in this City not exempted under other provisions of this article, shall at the time of

making the sales, or the use or other consumption of the tangible personal property is not then taxable hereunder, at the time the use or other consumption becomes taxable, collect the tax from the purchaser. In such event the retailer shall give to the purchaser a receipt therefor, in the manner and form prescribed by the City Treasurer. The tax so collected by the retailer constitutes a debt owed by the retailer to the City, and it shall be unlawful for such retailer to fail to pay the same to the City in the manner and at the time elsewhere specified in this Article."

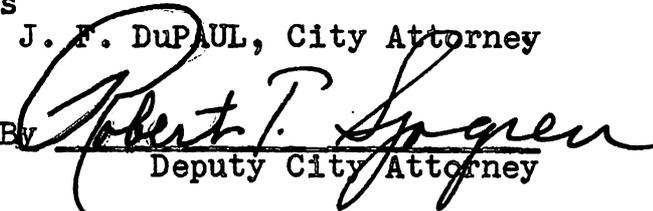

"SEC. 32.07 REVOCATION OF PERMIT - NOTICE AND HEARING - APPEAL TO COUNCIL

Whenever any person fails to comply with any provisions of this article, or of any rule or regulation adopted pursuant thereto, the City Treasurer upon hearing, after giving such person ten (10) days' notice in writing specifying the time and place of hearing, and requiring him to show cause why his permit or permits should not be revoked, may revoke or suspend any one or more of the permits held by such person. The notice may be served personally or by registered mail. The City Treasurer shall not issue a new permit after the revocation of a permit unless he is satisfied that the former holder thereof will thereafter comply with the provisions of this article and the rules and regulations adopted pursuant hereto, and until a fee of \$1.00 is collected therefor; provided, however, that before any such sales tax permit shall be revoked after determination by the City Treasurer that good cause has been shown that such permit should be revoked, said permittee may within five (5) days appeal to the City Council of The City of San Diego from said determination, and the ruling of said City Council thereon shall be final."

"SEC. 91.35 MOVING OF STRUCTURES - EXPIRATION OF PERMITS.

The Moving Permit and the Building Permit covering the

required alterations, repairs, and foundations issued by the Director of Building Inspection under the provisions of this Article shall expire by limitation and become null and void if the work authorized by such permits is not commenced within thirty (30) days from the date of such permits or, if the work so authorized is not completed within ninety (90) days from the date of such permits. Upon application by the Permittee the Director of Building Inspection is authorized to extend such completion date one additional period of sixty (60) days for good cause."

"SEC. 91.36 MOVING OF STRUCTURES - BOND REQUIRED.

No person shall move a structure within the City or cause the same to be done unless he shall first have filed with The City of San Diego a bond in an amount equal to the approved valuation of the cost of the required alterations, repairs, and foundations, plus 25% to insure the satisfactory performance and completion of such work. Such bond shall be issued by a surety company authorized to do business in the State of California. The bond shall be approved by the City Manager and the City Attorney. In lieu of a surety bond the Permittee may post a bond executed by the owner of the premises as principal, and which is secured by a deposit of cash in the amount named above and conditioned as required in the case of a surety bond.

The bond shall be in joint and several form and shall inure to the benefit of The City of San Diego and be conditioned upon the completion of the exterior alterations, repairs, and foundations in accordance with the plans and specifications within the period of time or extension thereof as provided in Section 91.35. The bond shall be conditioned upon the payment to the City of any costs incurred by it in completing such work in accordance with the plans and specifications, or in employing a private contractor to complete such work.

Whenever the City Manager shall find that a default has occurred in the performance of any term or condition of the work authorized by the permit, written notice thereof shall be given to the principal and the surety of the bond. Such notice shall state the work remaining to be done, the estimated cost of completion thereof; and the period of time deemed by the City Manager to be reasonably necessary for the completion of such work. After receipt of such notice the principal or the surety must within the time specified either cause the required work to be performed or, failing therein, deposit with The City of San Diego the estimated cost of doing the work as set forth in the notice, plus an additional sum equal to 25% of such cost.

In the event that the principal or surety fails to complete such work within the time specified in the notice, or fails to deposit the estimated cost plus 25% with the City, the City Manager shall proceed by such method as he deems convenient to cause the required work to be performed and completed. The principal and the surety shall be jointly and severally liable for the cost of completing such work.

If the principal or surety deposits the estimated cost plus 25% as set forth in the notice, the City Manager shall proceed by such method as he deems convenient to cause the required work to be performed and completed. The unexpended money shall be returned to the depositor at the completion of such work, together with an itemized accounting of the cost. The Principal and Surety shall hold the City blameless from any liability in connection with the work so performed by the City, its authorized agent, or contractor employed by the City. The City shall not be liable in connection with such work other than for the expenditure of said money.

If a cash bond has been posted, notice of default as provided above shall be given to the Principal and if

compliance is not had within the time specified, the City Manager shall proceed without delay and without further notice of proceedings whatever to use the cash deposit or any portion of such deposit to cause the required work to be done by contract or otherwise in his discretion. The balance, if any, of such cash deposit shall, upon completion of the work, be returned to the depositor or to his successors or assigns after deducting the cost of the work.

No performance bond shall be required from the State of California, political subdivision thereof, any governmental agency, or any person required to remove a structure declared by a governmental authority to be unsafe or a public nuisance.

"SEC. 91.37 MOVING OF STRUCTURES - INSURANCE REQUIRED.

Every person moving a structure or causing the same to be done shall take out and maintain public liability insurance to protect against loss from liability for damages on account of bodily injury, including death, and to protect against loss for liability or damages to any property caused directly or indirectly by the moving of the structure. Such insurance policy shall be maintained in full force and effect during the moving of the structure in amounts of not less than \$50,000 for one person injured in one accident and not less than \$100,000 for more than one person injured in one accident, and in an amount of not less than \$5,000 with respect to any property damage aforesaid. Proof of insurance, acceptable to and approved by the City Manager and the City Attorney, shall be filed with the City Clerk and shall provide that copies of all cancellation notices shall be sent to the City. The provisions of this section as to insurance shall not be construed as limiting in any way the extent to which the permittee may be held responsible for the payment of damages. No such policy of insurance shall

be required from the State of California, political subdivision thereof, or any governmental agency."

"SEC. 91.38 MOVING OF STRUCTURES - REGULATIONS.

Every person moving a structure shall comply with the following regulations:

(a) No person except a licensed house mover shall move any structure; provided, however, that the owner thereof may move a structure from one part of a lot to another or from one lot to another owned by him and where the structure to be moved will not cross any street, alley, public property, or the property of another person. Type "V" structures under 14 feet in height, less than 200 square feet in area, and having no horizontal dimension exceeding 18 feet when entirely supported upon a suitable vehicle without the assistance of any additional wheels or rollers may be moved without engaging a licensed house mover therefor.

(b) No Type "V" structure shall be moved from outside to inside the City, or within Fire Zone No. 1.

(c) A person moving a structure shall make good all damages or injuries caused by the moving of such structure. The wheels and rollers shall have sufficient tire or bearing width to prevent any grooving, marring, or damaging of any street, alley, or public property.

(d) The permit shall be posted near the front of the structure being moved.

(e) Any structure moved to a storage lot for resale and not sold and moved therefrom within one year after the issuance of the permit authorizing the move to the storage lot shall be removed therefrom or wrecked if declared by a governmental authority to be unsafe or a public nuisance.

(f) Every structure located upon any street shall have an illuminated warning device placed at each corner of such structure and at the end of any projection thereof at all

times between sunset and sunrise.

(g) No person moving a structure shall park such structure on any City street without the approval of the Chief of Police and the Chief of the Fire Department. No such structure shall be parked on a City street where the structures adjacent to it are higher than the structure being moved.

(h) In the event of an emergency requiring the use of City streets for a purpose with which the moving of the structure would interfere, the Chief of Police shall have authority to change the route of the move to avoid such interference.

(i) Failure of the permittee to complete the work authorized by the permits within the completion time specified in the original permit or extension thereof, or failure of the permittee to obtain a sixty day extension period as authorized in this Article when the work has not been completed within the completion time specified in the original permits, or failure of the permittee to make application for new moving and building permits within the completion time specified in the original permits or extension thereof, shall constitute an abandonment of such work. The City or its authorized agent or other person having a contract with the City so to do, shall by such abandonment be authorized to enter upon the premises and to make and complete the required work and to recover such costs from the principal and/or surety."

"SEC. 91.39 MOVING OF STRUCTURES - INTERFERENCE WITH
UTILITY PROPERTY AND FIRE ALARM SYSTEMS.

If the highest point of the structure when loaded and ready for moving is less than twenty feet above the ground surface, the cost of rearranging, protecting, and restoring the equipment of any public utility affected or City of San Diego fire alarm equipment shall be borne by the owner of such equipment, unless such structure is of such dimensions

that such equipment must be protected, moved, or relocated to provide horizontal clearance, in that event the cost of protection, move, or relocation shall be borne by the permittee.

The Chief of Police shall notify each public utility affected that an application for the moving of a structure has been filed and the route of such moving. Within three working days after receipt of such notice any public utility affected shall assent or submit its objections to such route and shall submit to the permittee an estimate of the cost of rearranging, protecting, and restoring its plant and equipment which cost shall be borne by the permittee except as in this section provided.

The Chief of the Fire Department, within three working days after receipt of the application for a moving permit, shall submit to the permittee an estimate of the cost of rearranging, protecting, and restoring any fire alarm equipment which cost shall be borne by the permittee except as in this section provided.

Within three working days of receiving such estimates the permittee shall deposit with each such public utility affected and with The City of San Diego the estimated cost plus a sum not to exceed fifteen per cent of such estimated cost as an allowance for supervision or, in lieu of this if satisfactory to such public utility, a corporate surety bond. Within four working days after notifying the permittee of such cost any public utility affected shall notify the Chief of Police whether the permittee has complied with the requirements of this section.

The Chief of Police shall not approve the application for a moving permit unless all public utilities affected have notified him in writing that the permittee has complied with the provisions of this section, or unless seven

working days have elapsed since the Chief of Police has notified any public utility affected and such public utility has failed to notify him of such compliance.

Upon issuance of the moving permit the Chief of Police shall notify any public utility affected of the time when and the route over which such moving will occur.

Such public utility and/or the Chief of the Fire Department must within thirty days from the completion of the moving and the restoration of the equipment involved present an itemized bill of the actual cost of such rearranging, protecting, and restoring, plus an allowance for supervision not exceeding fifteen per cent of such actual cost. The public utility and/or The City of San Diego shall return to the permittee the unused balance of any cash deposit.

No cash deposit or surety bond, as established in this section, will be required from the State of California, any political subdivision thereof, or any governmental agency." "SEC. 91.40 MOVING AND WRECKING OF STRUCTURES - PERMIT FEES.

The permit fee prescribed in this section shall be paid to the City Treasurer prior to the issuance of the moving or wrecking permit except as hereinafter prescribed.

The permit fee for salvaging or wrecking any structure shall be as follows:

<u>Area of Structure in square feet including overhang and projections</u>	<u>Wrecking permit</u>

500 - 999	5.00
1000 and over	10.00

The permit fee for moving any structure shall be the sum of Ten Dollars (\$10.00) plus an additional surcharge based upon the dimensions, including overhang and projections, of the structure when loaded and ready for moving, as shown in Schedule "A", Surcharge Fees for House Moving Permit; provided, however, that the surcharge fees shall not be required if the structure being moved will not cross any street, alley, or public property.

SEC. 91.31 MOVING AND WRECKING OF STRUCTURES - PERMIT REQUIRED.
No person shall move, salvage or wreck any structure or cause the same to be done without first obtaining and having then in effect a valid moving or wrecking permit therefor for each such structure. If a structure is being moved to a location within the City of San Diego the person moving or causing the same to be done shall make application for and obtain a building permit covering the required alterations, repairs and foundations. No such building permit shall be required for the moving of a structure to a storage lot for resale. A moving permit will be required for the moving of any structure owned by the State of California, any political subdivision thereof, and any governmental agency. No permit shall be required under the provisions of this section to salvage or wreck a Minor Structure. For the purpose of this section Minor Structure shall mean any structure less than 200 square feet in area. No permit shall be issued to relocate any structure which after inspection by the Director of Building Inspection has been determined by him to be so constructed or in such condition as to be structurally unsound; provided however that if the condition of the structure in the judgment of the Director of Building Inspection admits of practicable and effective repair the permit may be issued.

SEC. 91.32 MOVING OF STRUCTURES - MOVE EXAMINATION AND FEE.
A person moving any structure within or into the City, or causing the same to be done, shall file a request for a Move Examination together with the application for the Building Permit, as required in Section 91.31. The Director of Building Inspection and the Planning Director shall examine the old and new locations and structures and shall review the plans and specifications after such examination. The applicant shall be notified by mail of the results of the Move Examination and the City's requirements, if any, in addition to those contained in the plans and specifications. If the applicant does not apply for and obtain the House Moving Permit and Building Permit within ninety (90) days of such notice, he shall be required to request a Move Re-examination and pay the re-examination fee.

The non-refundable fee, payable in advance, for each Move Examination and each Move Re-examination, shall be as follows:
(a) Old location and new location within the City....\$10.00
(b) Old location inside or outside and new location outside the CityNo fee

SEC. 91.33 MOVING OF STRUCTURES - FILING OF APPLICATIONS.
The applicant shall file an application for Moving Permit on a form furnished for that purpose. The applicant shall also complete the application for a Building Permit filed at the time of the request for the Move Examination, and shall correct the plans and specifications in accordance with any additional requirements so that the structure when completed will conform to the requirements of this Code. The application for the Moving Permit shall:
(a) Give the street address and the legal description of the property from which and to which the structure will be moved and the proposed route of such moving.
(b) Be signed by the applicant or his authorized agent, who may be required to submit evidence to indicate such authority.
(c) Be accompanied by a satisfactory performance bond as hereinafter required.
(d) Be accompanied by a policy of public liability and property damage insurance as hereinafter required.
(e) Furnish such other information as may be required by the City Manager.

SEC. 91.34 MOVING OF STRUCTURES - ISSUANCE OF PERMITS.
If the plans and specifications comply with the provisions of this Code and the application for the Moving Permit has been approved by the Chief of Police and the Chief of the Fire Department, the Director of Building Inspection shall issue the Moving Permit and the Building Permit.

SEC. 91.35 MOVING OF STRUCTURES - EXPIRATION OF PERMITS.
The Moving Permit and the Building Permit covering the required alterations, repairs, and foundations issued by the Director of Building Inspection under the provisions of this Article shall expire by limitation and become null and void if the work authorized by such permits is not commenced within thirty (30) days after the date of such permits or, if the work is not completed within the time specified in the permit, the permit shall be null and void.

SEC. 91.36 MOVING OF STRUCTURES - BOND REQUIRED.

No person shall move a structure within the City or cause the same to be done unless he shall first have bonded with The City of San Diego a proved valuation of the cost of the required alterations, repairs, and foundations, plus 25% to insure satisfactory performance and completion of such work. Such bond shall be issued by a surety company authorized to do business in the State of California. The bond shall be approved by the City Manager and the City Attorney in lieu of a surety bond executed by the owner of the premises as principal, and which is secured by a deposit of cash in the amount named above and conditioned as required in the case of a surety bond.

The bond shall be in joint and several form and shall inure to the benefit of The City of San Diego and be conditioned upon the completion of the exterior alterations, repairs, and foundations in accordance with the plans and specifications within the period of time or extension thereof as provided in Section 91.35. The bond shall be conditioned upon the payment to the City of any costs incurred by it in completing such work in accordance with the plans and specifications, or in employing a private contractor to complete such work. Whenever the City Manager shall find that a default has occurred in the performance of any term or condition of the work authorized by the permit, written notice thereof shall be given to the principal and the surety of the bond. Such notice shall state the work remaining to be done, the estimated cost of completion thereof, and the period of time deemed by the City Manager to be reasonably necessary for the completion of such work. After receipt of such notice the principal or the surety must within the time specified either cause the required work to be performed or, failing therein, deposit with The City of San Diego the estimated cost of doing the work as set forth in the notice, plus an additional sum equal to 25% of such cost.

In the event that the principal or surety fails to complete such work within the time specified in the notice, or fails to deposit the estimated cost plus 25% with the City, the City Manager shall proceed by such method as he deems convenient to cause the required work to be performed and completed. The principal and the surety shall be jointly and severally liable for the cost of completing such work. If the principal or surety deposits the estimated cost plus 25% as set forth in the notice, the City Manager shall proceed by such method as he deems convenient to cause the required work to be performed and completed. The unexpended money shall be returned to the depositor at the completion of such work, together with an itemized accounting of the cost. The Principal and Surety shall hold the City blameless from any liability in connection with the work so performed by the City, its authorized agent, or contractor employed by the City. The City shall not be liable in connection with such work other than for the expenditure of said money.

If a cash bond has been posted, notice of default as provided above shall be given to the Principal and if compliance is not had within the time specified, the City Manager shall proceed without delay and without further notice of proceedings whatever to use the cash deposit or any portion of such to cause the required work to be done by contractor or otherwise in his discretion. The balance, if any, of such cash deposit shall, upon completion of the work, be returned to the depositor or to his successors or assigns after deducting the cost of the work. No performance bond shall be required from the State of California, political subdivision thereof, any governmental agency, or any person required to remove a structure declared by a governmental authority to be unsafe or a public nuisance.

SEC. 91.37 MOVING OF STRUCTURES - INSURANCE REQUIRED.
Every person moving a structure or causing the same to be done shall take out and maintain public liability insurance to protect against loss from liability for damages on account of injury, including death, and to protect against loss for liability or damages to any property caused directly or indirectly by the moving of the structure. Such insurance policy shall be maintained in full force and effect during the moving of the structure in amounts of not less than \$50,000 for one person injured in one accident and not less than \$100,000 for more than one person injured in one accident, and in an amount of not less than \$5,000 with respect to any property damage aforesaid. Proof of insurance acceptable to and approved by the City Manager and the City Attorney, shall be filed with the City Clerk and shall provide that copies of all cancellation notices shall be sent to the City. The provisions of this section as to insurance shall not be construed as limiting in any way the extent to which the permittee may be held responsible for the payment of damages. No such policy of insurance shall be required from the State of California, political subdivision thereof, or any governmental agency.

SEC. 91.38 MOVING OF STRUCTURES - REGULATIONS.
Every person moving a structure shall comply with the following regulations:
(a) No person except a licensed mover shall move any structure provided, however, that the owner thereof may move a structure from one part of a lot to another or from one lot to another owned by him and where the structure to be moved will not cross any street, alley, public property, or the property of another person. Type "V" structures under 14 feet in height, less than 200 square feet in area, and ceiling no horizontal dimension exceeding 18 feet when entirely supported upon a suitable vehicle with the assistance of any additional wheels or rollers may be moved without engaging a licensed house mover.

(g) No person moving a structure shall park such structure on any City street without the approval of the Chief of Police and the Chief of the Fire Department. No such structure shall be parked on a City street where the structures adjacent to it are higher than the structure being moved.
(h) In the event of an emergency requiring the use of City streets for a purpose with which the moving of the structure would interfere, the Chief of Police shall have authority to change the route of the move to avoid such interference.
(i) Failure of the permittee to complete the work authorized by the permits within the completion time specified in the original permit or extension thereof, or failure of the permittee to obtain a sixty day extension period as authorized in this Article when the work has not been completed within the completion time specified in the original permits, or failure of the permittee to make application for new moving and building permits within the completion time specified in the original permits or extension thereof, shall constitute an abandonment of such work. The City or its authorized agent or other person having a contract with the City so to do, shall by such abandonment be authorized to enter upon the premises and to make and complete the required work and to recover such costs from the principal and/or surety.

SEC. 91.39 MOVING OF STRUCTURES - INTERFERENCE WITH UTILITY PROPERTY AND FIRE ALARM SYSTEMS.
If the highest point of the structure when loaded and ready for moving is less than twenty feet above the ground surface, the cost of rearranging, protecting, and restoring the equipment of any public utility affected or City of San Diego fire alarm equipment shall be borne by the owner of such equipment, unless such structure is of such dimensions that such equipment must be protected, moved, or relocated to provide horizontal clearance, in that event the cost of protection, move, or relocation shall be borne by the permittee.
The Chief of Police shall notify each public utility affected that an application for the moving of a structure has been filed and the route of such moving. Within four working days after notifying the permittee of such cost any public utility affected shall notify the Chief of Police whether the permittee has complied with the requirements of this section.
The Chief of Police shall not approve the application for a moving permit unless all public utilities affected have notified him in writing that the permittee has complied with the provisions of this section, or unless seven working days have elapsed since the Chief of Police has notified any public utility affected and such public utility has failed to notify him of such compliance.
Upon issuance of the moving permit the Chief of Police shall notify any public utility affected of the time when and the route over which such moving will occur.
Such public utility and/or the Chief of the Fire Department must within thirty days from the completion of the moving and the restoration of the equipment involved present an itemized bill of the actual cost of such rearranging, protecting, and restoring, plus an allowance for supervision not exceeding fifteen per cent of such actual cost. The public utility and/or The City of San Diego shall return to the permittee the unused balance of any cash deposit.

The ranger, who will not be named here, called on 30 years of observation for these opinions: fastest for the first 200 feet of flight, the woodcock; swiftest of the migratory birds traveling cross country, the canvasback duck with the red-head a mile or so behind; fastest off water in attaining full speed, teal; most fleet under a average shooting conditions, bandtail pigeon.

If the Cuyamaca Lake deal falls into a permanent body of water of 2,000-acre feet, there's a plan afoot to make it a gem of a lake and spend upwards of \$200,000 dredging and restocking it.

For the present, the state must reimburse the stockholders who own title to the water, the La Mesa-Spring Valley-Lemon Grove Irrigation District. The way we hear it, the figure is about \$13,000 a year, the value of the water.

There's no fee for that special permit issued to wideopen gunners at Brawley. It's more of a form letter listing ravaged farms which gives the hunter permission to take a station there and shoot.

In connection with the shoot, don't hug the Salton Sea. Widgeon are traveling up to 15 miles inland before alighting on choice alfalfa patches.

Don't know what it proves out Mark T. Saunders of El Cajon got his 7-pound-3-ounce bass on a six-inch mudsucker fished at 40-foot depth in that area of San Vicente behind the boat dock.

And Bill Ingram of National City got his 6 1/2-pound large-mouth on a mudsucker at 20-foot depth, close to the rock at the Harvey Arm.

One other item: Ingram got the hookup at 9 a.m., and Saunders got his at 4:30 p.m.

If nothing else, it proves that bass are unpredictable.

It's too bad, but that pollution in the lower bay which has destroyed the eelgrass and deflated brant hunting, is a local issue and does not fall within the purview of the Water Pollution Control Board which met here yesterday.

LOS ANGELES, Feb. 2 (AP)—The Thomas Cup matches between the United States and Canada for the American zone badminton championship will be played in Winnipeg March 11-12.

Don Richardson, chairman of the cup committee of the American Badminton Association, and Claude Welcome, local committee member, made the announcement today.

The winner of the American zone title will meet the Asiatic zone champions in Malaya May 31. Further elimination matches will determine the team which will challenge the international champion Malayan team for the Thomas trophy, emblematic of the world title.

U.S. TEAM PICKED

In previous Thomas Cup matches in 1948 and 1952, the United States defeated Canada and went on to compete in the inter-zone competition, losing each time to Malaya.

Personnel of the United States team includes Joe Alston, Carl Loveday, Dick Mitchell, Wynn Rogers and Robert Williams, all from Southern California and all members of the 1952 team.

Alternates include Manny, Armendariz, Burbank; Bill Berry, San Diego; Ronnie Palmer, Redlands, Calif.; Don Davis, Seattle, and Ted Moehlman, St. Louis.

Henry, Celaya Set For Cesta Action

TIJUANA — Jai alai play opens for the week tonight at the Fronton Palace here, with an 11-game card billed for the ladies' night show.

The first game starts at 7:30 o'clock.

Henry and Celaya come off the infirmary list tonight. Henry has been out for two weeks because of a bad virus infection. Celaya is still nursing a sore arm, his pay flipper now being pronounced fit.

The Lucio-Bala duo is tabbed to win the night's feature, the eighth game. This tilt will now return to its former status of seven teams, six points.

BE IT ORDAINED by the Council of The City of San Diego as follows:

Section 1. That Section 22.0902 of the San Diego Municipal Code be and the same is hereby amended to read as follows:

"SEC. 22.0902 SALES OF REAL PROPERTY

Except as otherwise provided in Charter, or herein, the Council shall have power to sell the real property of the City as follows:

No real property belonging to the City shall be sold except in pursuance of a resolution passed by an affirmative vote of five members of the Council, which shall contain the following:

- (a) The reason for selling such real property;
- (b) A description of the real property to be sold;
- (c) A statement of the value of such real property as disclosed by an appraisal made by a qualified real estate appraiser, who may be a professional appraiser or a qualified employee of The City of San Diego, together with the minimum amount the Council will consider for the sale of each parcel of property.

All sales shall be made either at public auction or by sealed bids or by a combination of such methods, whichever shall be authorized by the City Manager, after publication of notice thereof for at least five consecutive days in the official newspaper, which notice shall contain a statement of the minimum price set by the Council for each parcel of property to be sold.

The Council shall have the right to reject any and all bids herein provided for.

Real property belonging to the City may be put up for sale upon recommendation of the City Manager, approved by the City Council, or at the request of any person desiring to purchase City property.

Any person making such request for sale of City property shall accompany such request by a deposit of \$100.00 to cover all costs pertaining to the sale, including the cost of a title report and as a guarantee that the depositor will be at the sale, in the case of sale by auction, or will submit a sealed bid, and will bid not less than the minimum amount fixed by the Council, pursuant to subdivision (c) of this Section. Said deposit shall be in the form of a certified check or cashier's check, and delivered to the Property Supervisor who shall make disposition thereof as hereinafter provided.

In the event said person becomes the actual purchaser of the property at the sale held pursuant to his request, the Property Supervisor shall place said One Hundred Dollars (\$100.00) deposit in the City treasury, and the same shall be applied on the purchase price; provided, however, that if the City does not have a merchantable title to such real property or if at the sale the same has been sold at a higher price than that bid by such depositor the City Council shall by resolution direct the Property Supervisor to return said deposit to the person from whom the same was received; provided further, that if at the sale no bid is received equal to or greater than the minimum amount fixed by the Council, the Council shall by resolution direct the Property Supervisor to place said deposit in the City treasury to the credit of the General Fund.

The public auction or the sale by sealed bids shall be conducted by the Property Supervisor, and shall be held in

At or before the making of a bid at such auction the bidder must identify himself to and register his name and address with the Property Supervisor; before any bid can be accepted, the bidder must have deposited with the Property Supervisor a certified check or cashier's check in an amount not less than 10 per cent of his bid; the amount so deposited shall be applied on the purchase price of the bid. In the case of sale by sealed bids, such bids must be accompanied by certified check or cashier's check in an amount not less than 10 per cent of the bid; the amount so deposited shall be applied on the purchase price of the bid. In the case of a combination of sealed bids and public auction there shall first have been deposited with the City by one or more certified checks or cashier's checks an amount not less than ten percent (10%) of the combined bid before it can be accepted. In any case the unpaid balance shall be due and payable within five (5) days after notification that the duly executed deed of the type specified in notice of sale is ready for delivery. Failure or inability to make such final payment shall terminate the bidder's rights and the amount of his deposit shall be forfeited to, and become the property of the City.

In the event that any bidder does not complete the payment of his bid, the Council may accept the bid of another bidder provided such bidder deposits the amount of his bid with the Property Supervisor of said City."
