WHEREAS, the City Manager has recommended that revenue bonds in the sum of \$6,000,000 be authorized and issued for the aforesaid purposes, and this Council has heretofore found and hereby finds that there exists a need for such public improvements and a need for the financing of the same by the issuance and sale of said revenue bonds, and a need for the exercise of the power provided by Section 90.1 of the Charter of said City; NOW, THEREFORE,

BE IT ORDAINED By the Council of The City of San Diego,  
as follows:

Section 1. Finding of Need. That there exists, and this Council hereby finds that there exists a need for the expansion, extension, replacement of parts of, and betterment of the water impounding, treating and distribution system of said City and a need to provide therefor, and a need to provide for the payment of the cost of such public improvements by the issuance and sale of \$6,000,000 principal amount of bonds payable in whole from the revenues derived from said waterworks system, and a need for the exercise of the power provided by Section 90.1 of the Charter, and said bonds shall be payable only from a special fund which shall consist of such revenues of the Water Department as are in excess of the amount needed to operate and maintain the Water Department.

Section 2. Authorization of Issue. That revenue bonds of The City of San Diego (hereinafter sometimes called the "bonds" and any one of which may be called herein a "bond") in the principal sum of \$6,000,000 be, and the same are hereby authorized to be issued and sold under and pursuant to Section 90.1 of the Charter of said City for the purpose of providing moneys to pay the cost of <sup>to</sup> and/provide for the expansion, extension, replacement of parts of, and betterment of the water impounding, treating and distribution system of said City.

Section 3. Description of Bonds. Said bonds shall be in the principal amount of \$6,000,000, shall be six thousand in number, numbered 1 to 6000, inclusive, and shall be of the denomination of \$1,000 each. Said bonds shall be designated WATERWORKS REVENUE BONDS, ELECTION 1955, shall be dated May 1, 1955, and shall be payable in consecutive numerical order \$300,000 annually on May 1 of each year from May 1, 1956, to May 1, 1975, both inclusive.

01020

Section 4. Interest Rate and Place of Payment. Said bonds shall bear interest at a rate or rates to be hereafter fixed by resolution or resolutions, and said interest shall be payable semiannually. Each bond shall bear interest until the principal sum thereof has been paid; provided, however, that if at the maturity date of any bond, or if the same is redeemable and has been duly called for redemption, funds are available in the proper fund for the payment thereof or for the redemption thereof in full accordance with the terms of this ordinance, said bond shall then cease to bear interest. The maximum rate of interest to be paid on said bonds shall be five per cent (5%) per annum. Said bonds and the interest thereon shall be payable in lawful money of the United States of America at the office of the Treasurer of The City of San Diego, in said City, or at any fiscal agency of The City of San Diego in Los Angeles, California, or in New York, New York, or in Chicago, Illinois, at the option of the holder.

Section 5. Execution of Bonds. The Mayor and the Treasurer of said City are hereby authorized and directed to sign all of said bonds and the City Clerk of said City is hereby authorized and directed to countersign said bonds and to affix thereto the corporate seal of said City, and the Treasurer of said City is hereby authorized and directed to sign the interest coupons of said bonds. All of said signatures except that of the City Clerk may be by printed, lithographed or engraved facsimile.

Section 6. Disposition of Proceeds of Bonds. There is hereby established a separate fund in the City Treasury for the purpose of insuring the application of the proceeds of the sale of the bonds to the purposes set forth in Section 2 hereof, for which the same are to be issued. Such separate fund is hereby designated WATERWORKS REVENUE BONDS, 1955.

(hereinafter sometimes referred to as "Construction Fund"). The Treasurer shall immediately upon receipt of the proceeds of the bonds place the same in the Construction Fund. The money set aside and placed in the Construction Fund shall remain therein until from time to time expended for the objects and purposes set forth in Section 2 hereof; provided, however, that money may be paid or transferred from the Construction Fund in furtherance of the purpose of its establishment to any other such separate fund established for a like purpose in connection with the bonds, and may be temporarily invested in bonds which are direct obligations of The United States of America, maturing <sup>within</sup> 18 months from the date of investment, and such proceeds and the interest thereon shall be applied exclusively to the objects and purposes set forth in Section 2 of this ordinance.

Section 7. Revenue Bond Fund. The revenue bonds to be issued under this ordinance shall not constitute an indebtedness of The City of San Diego, but shall constitute obligations which shall be payable, principal and interest, only from a special fund which shall consist of such revenues of the Water Department as are in excess of the amount needed to operate and maintain the Water Department, and said special fund is hereby designated "WATER DEPARTMENT REVENUE BOND FUND (hereinafter sometimes called "Revenue Bond Fund"). Neither the principal of nor interest on any bond issued hereunder shall under any circumstances ever become an obligation chargeable or enforceable against any of the tax revenues of The City of San Diego or any other revenues of said City except such revenues as are expressly specified in each bond for the payment of such bond and the interest thereon, to-wit, revenues of the Water Department which are in excess of the amount needed to operate and maintain the Water Department, and no bond issued hereunder or any interest payable thereon shall ever under any circumstances create or

01022

impose any obligation upon the City itself or the tax revenues of said City, or any revenue of the City other than the revenues herein pledged to secure the payment of the principal and interest of the bonds, to-wit: such revenues of the Water Department as are in excess of the amount needed to operate and maintain the Water Department.

Section 8. Bond Service Fund. There is hereby established a fund in the City Treasury to insure the payment when due or payable of the principal of and interest on the bonds. Said fund shall be known as the WATERWORKS REVENUE BONDS, 1955, BOND SERVICE FUND (hereinafter sometimes referred to as the "Bond Service Fund") and shall constitute a subdivision of said Revenue Bond Fund. After the sale and delivery of the bonds and so long as any of said bonds are outstanding, on the first day of each calendar month there shall be set aside and transferred from the Water Department Revenue Bond Fund to the Bond Service Fund sums in equal aliquot parts for each half year so that at least the full amount required to pay, as it becomes due, the interest on the bonds, and any maturity or installment of principal of the bonds shall be set aside in the Bond Service Fund at least one month prior to the date the installment of interest or principal becomes due. Such transfer on the first day of the first calendar month subsequent to the date of delivery must be of a sum at least sufficient, together with other transfers of the same amount made on the first day of each calendar month thereafter, to provide in said Bond Service Fund one month prior to the maturity of the first installment of principal the full amount of such principal and to provide in said Bond Service Fund one month prior to the maturity of the first installment of interest the full amount of such interest. Such sums shall be set aside, transferred to and placed in the Bond Service Fund in such time that the next

maturing installment of interest and principal on the bonds shall be set aside in the Bond Service Fund in cash at least one month prior to the time the maturity or installment of principal or interest becomes due.

Any amounts required to be set aside, transferred to and placed in the Bond Service Fund may be prepaid, in whole or in part, by being earlier set aside, transferred to and placed in the Bond Service Fund, and in that event the monthly transfer, or any part thereof, which has been so prepaid need not be made at the time appointed therefor. In any event, at least one month prior to the due date of any maturity or installment of principal or interest on the bonds all sums required for the payment thereof must be in such Bond Service Fund.

Such sums shall be so set aside out of the Water Department Revenue Bond Fund and not out of any other fund or moneys of the City. The Council directs that such sums be so set aside through transfers or payments made in such amounts as may be necessary to comply with the foregoing provisions of this Section.

Money set aside and placed in said Bond Service Fund shall remain therein until from time to time expended for the payment of such principal and interest, and shall not be used for any other purpose whatever, except that any such money so set aside and placed in said Bond Service Fund which at any time may be in excess of the amount which at that time is required by the terms of this section to be in the Bond Service Fund in cash may be temporarily invested in any authorized direct obligations of the United States maturing not later than 18 months from the date of investment, but such investment shall not affect the obligation of the City to cause the full amount required by the terms of this section to be available in said Bond Service Fund in cash at the time required by the terms of this section. All moneys remaining

in said Bond Service Fund in excess of the amount required to accomplish the purpose of its establishment shall be transferred to the Water Department Revenue Bond Fund.

The bonds and interest coupons shall recite that they are payable from the Water Department Revenue Bond Fund, but said bonds and coupons, notwithstanding such recital, shall be paid from the Bond Service Fund which is derived from said Water Department Revenue Bond Fund and is a subdivision thereof.

Section 9. Flow of Funds. All revenues of the Water Department shall be deposited in the Water Department Fund. Such revenues shall include all revenues for the use of the public improvements, to-wit, the waterworks of the City or any part thereof, and all services (including water and all other services) furnished the people by the operation of such waterworks. From such Water Department Fund there shall be paid the amount needed to operate and maintain the Water Department. All such revenues in the Water Department Fund as are in excess of the amount needed to operate and maintain the Water Department shall be transferred to the WATER DEPARTMENT REVENUE BOND FUND, which shall consist of such revenues so transferred. Such transfers to said Revenue Bond Fund shall be made monthly on the first day of each month, and in any event in such time that all amounts required to be transferred from said Revenue Bond Fund to the Bond Service Fund shall be made at the time and in the manner required by this ordinance. In any calendar month after the transfer of the amount required to be paid into said Bond Service Fund has been made, any balance remaining in said Revenue Bond Fund may be used as directed by the City Council for any purposes of the Water Department authorized by the Charter and may also be used for the payment of all or any portion of the tax of The Metropolitan Water District of Southern California which the Council may elect to pay out of funds of the City;

and out of any surplus remaining in said Revenue Bond Fund there may be transferred as directed by the City Council to the General Fund of the City a sum or sums sufficient to repay any moneys paid by the City that year for the redemption of general obligation water bonds and the payment of interest thereon, and also a sum or sums in payment of the reasonable costs of services and facilities furnished to the Water Department by other City departments, and out of said surplus the City Council may transfer to the Redemption Fund and use for the purpose of calling and redeeming, prior to maturity, any bonds of this issue which are subject to call and redemption prior to maturity; provided, however, that nothing contained in this paragraph shall authorize or permit any payment or transfer of funds which would reduce the sum in said Revenue Bond Fund to an amount insufficient to pay the principal and interest of the bonds as they become due, and said Revenue Bond Fund shall at all times be maintained in a sum sufficient to make payments therefrom of the principal and interest of said bonds (including payments into the Bond Service Fund) in time, form and manner as provided in this ordinance. Moneys in the Revenue Bond Fund may be temporarily invested in any authorized direct obligations of the United States maturing not later than 18 months from the date of investment.

Section 10. Equality of Bonds. Bonds of this issue shall be equally secured by a pledge, charge and lien upon the revenues of the Water Department in excess of the amount needed to operate and maintain the Water Department, without priority for number, date of sale, date of execution, or date of delivery, and the payment of the interest on and principal of such bonds shall be and is secured by an exclusive pledge, charge and lien upon all of the revenues of the Water Department in excess of the amount needed to operate and maintain the Water Department, and such revenues and any interest

earned on such revenues shall constitute a trust fund for the security and payment of the interest on and principal of said bonds, and so long as any of the bonds or interest thereon are unpaid, or so long as provision for the full payment and discharge thereof at maturity or upon redemption prior to maturity through the setting apart in the Bond Service Fund or in the Redemption Fund or in a special trust fund to insure the payment or redemption thereof (as the case may be) of money sufficient for the purpose has not been made, said revenues may be applied only as authorized by this ordinance.

Section 11. Redemption. None of the bonds issued hereunder shall be subject to call or redemption prior to maturity from the proceeds of refunding bonds. Redemption of any of the bonds issued hereunder may be made only from revenues of the Water Department which under the provisions of Section 9 of this ordinance are transferred to the Water Department Revenue Bond Fund. The bonds maturing on or prior to May 1, 1960, shall not be subject to call or redemption prior to maturity. The bonds maturing on or after May 1, 1961, or any of them, may be called before maturity and redeemed, at the option of the City Council of the City, on May 1, 1960, or on any interest payment date thereafter prior to maturity, at a redemption price equal to 100.5% of the principal amount thereof, plus 1/4 of 1% of such principal amount for each whole twelve months' period and for any remaining fraction of a twelve months' period from the date fixed for redemption to the maturity date of such bond, but the redemption price, including premium payable at any time upon redemption, shall not exceed 104% of such principal amount. All or any of the bonds subject to call may be called for redemption at any one time. If less than all of the bonds are redeemed at any one time, such bonds shall be redeemed only in inverse order of maturity and number, beginning with the highest num-

bered bond. The interest payment date on which bonds are to be presented for redemption is hereinafter sometimes called the "redemption date."

Section 12. Notice of Redemption. Notice of the intended redemption shall be published by one insertion in the San Diego City official newspaper published in The City of San Diego, California, and in a financial newspaper or journal of national circulation published in the City of New York, New York, the publication to be at least thirty (30) days but not more than sixty (60) days prior to the redemption date. The notice of redemption shall (a) state the redemption date; (b) state the redemption price; (c) state the numbers and dates of maturity of the bonds to be redeemed, provided, however, that whenever any call includes all of the bonds of a maturity the numbers of the bonds of such maturity need not be stated; (d) require that such bonds be surrendered with all interest coupons maturing subsequent to the redemption date (except that no coupons need be surrendered on bonds registered as to both principal and interest) at the office of the Treasurer of The City of San Diego, in said City, or at any fiscal agency of The City of San Diego in Los Angeles, California, or in New York, New York, or in Chicago, Illinois; (e) require that bonds which at the time of call are registered so as to be payable other than to bearer shall be accompanied by appropriate instruments of assignment duly executed in blank; and (f) give notice that further interest on such bonds will not accrue after the designated redemption date.

If any of the bonds designated for redemption shall be registered so as to be payable otherwise than to bearer, the Treasurer shall, on or before the date of the ~~first~~ publication of said notice of redemption, mail a similar notice, postage prepaid, to the respective registered owners thereof

at the addresses appearing on the bond registry books.

The actual receipt by the holder of any bond (hereinafter referred to as "bondholder") of notice of such redemption shall not be a condition precedent to redemption, and failure to receive such notice shall not affect the validity of the proceedings for the redemption of such bonds or the cessation of interest on the date fixed for redemption. The notice or notices required by this section shall be given by the Treasurer. A certificate by the Treasurer that notice of call and redemption has been given to holders of registered bonds as herein provided shall be conclusive as against all parties, and no bondholder whose registered bond is called for redemption may object thereto or object to the cessation of interest on the redemption date fixed by any claim or showing that he failed to actually receive such notice of call and redemption.

Section 13. Redemption Fund. Prior to the time the City Council determines to call and redeem any of said bonds there shall be established in the City Treasury a redemption fund to be described or known as WATERWORKS REVENUE BONDS, ELECTION 1955, REDEMPTION FUND (hereinafter sometimes called the "Redemption Fund"), and prior to the redemption date there must be transferred from the Revenue Bond Fund and set aside in said Redemption Fund moneys available for the purpose and sufficient to redeem, at the premiums payable as in this ordinance provided, the bonds designated in such notice for redemption. Said moneys must be set aside in said fund solely for that purpose and shall be applied on or after the redemption date to payment (principal and premium) for the bonds to be redeemed upon presentation and surrender of such bonds and (except as to bonds registered as to both principal and interest) all interest coupons maturing after the redemption date, and shall be used only for that purpose. Any interest coupon due on or prior to the redemption date

shall be paid from the Bond Service Fund provided in this ordinance upon presentation and surrender thereof. Each bond presented (unless such bond be registered as to both principal and interest) must have attached thereto or presented therewith all interest coupons maturing after the redemption date. If after all of the bonds have been redeemed and cancelled or paid and cancelled there are moneys remaining in said Redemption Fund, said moneys shall be transferred to the Water Department Fund.

Section 14. Effect of the Notice of Redemption. When notice of redemption has been given, substantially as provided in Section 12 hereof, and when the amount necessary for the redemption of the bonds called for redemption (principal and premium) is set aside for that purpose in the Redemption Fund, as provided in Section 13 hereof, the bonds designated for redemption shall become due and payable on the date fixed for redemption thereof, and upon presentation and surrender of said bonds and (except as to bonds registered as to both principal and interest) all interest coupons maturing after the redemption date, at the place specified in the notice of redemption and, if any of said bonds be registered, upon the appropriate assignment thereof in blank, such bonds shall be redeemed and paid at said redemption price out of the Redemption Fund, and no interest will accrue on such bonds called for redemption or on any interest coupons thereof after the redemption date specified in such notice, and the holders of said bonds so called for redemption after such redemption date shall look for the payment of such bonds and the premium thereon only to said Redemption Fund. All bonds redeemed and all interest coupons thereof shall be cancelled forthwith by the Treasurer and shall not be reissued.

All interest coupons pertaining to any redeemed bonds, which coupons have matured on or prior to the time fixed for redemption, shall continue to be payable to the respective

holders thereof but without interest thereon. All unpaid interest payable at or prior to the date fixed for redemption upon bonds registered in such manner that the interest is payable only to the registered owners shall continue to be payable to the respective registered owners of such bonds, or their order, but without interest thereon.

Section 15. Bond and Coupon Forms. Said bonds shall be payable to bearer, shall be issued in negotiable form and shall be negotiable, and the form of said bonds and the interest coupons thereof shall be substantially as follows:

UNITED STATES OF AMERICA  
STATE OF CALIFORNIA  
THE CITY OF SAN DIEGO  
WATERWORKS REVENUE BOND, ELECTION 1955

No. \_\_\_\_\_ \$1,000

THE CITY OF SAN DIEGO (hereinafter sometimes called "City" or "the City"), a municipal corporation situated in the County of San Diego, State of California, FOR VALUE RECEIVED, hereby promises to pay to bearer, on May 1, 19\_\_, out of the Water Department Revenue Bond Fund and not out of any other fund or moneys of the City, upon presentation and surrender of this bond, the sum of ONE THOUSAND DOLLARS, with interest thereon at the rate of \_\_\_\_\_ per cent (\_\_\_\_%) per annum, payable semiannually on the first days of May and November of each and every year from the date hereof until this bond is paid, upon presentation and surrender of the respective interest coupons hereto attached; provided, however, that if at the maturity date of this bond or, if the same is redeemable and shall be duly called for redemption then at the date fixed for redemption, funds are available for the payment or redemption thereof, as provided in the ordinance hereinafter mentioned, this bond shall then cease to bear interest. Both principal and interest and any premium upon the redemption hereof are payable in lawful money of the United States of America

at the office of the Treasurer of The City of San Diego in said City, or at any fiscal agency of The City of San Diego in Los Angeles, California, or in New York, New York, or in Chicago, Illinois, at the option of the holder hereof.

This bond does not constitute an indebtedness of The City of San Diego but is an obligation payable, principal, interest, and any premium upon the redemption thereof, only from a special fund, to-wit, the Water Department Revenue Bond Fund (hereinafter sometimes called "Revenue Bond Fund"), which consists of such revenues of the Water Department as are in excess of the amount needed to operate and maintain the Water Department, (and neither the principal of) this bond nor interest thereon, shall under any circumstances ever become an obligation chargeable or enforceable against any of the tax revenues of The City of San Diego or any other revenues of said City except such revenues as are expressly specified in this bond for the payment of such bond and the interest thereon. All revenues of the Water Department are deposited in the Water Department Fund, and all revenues in such Water Department Fund in excess of the amount needed to operate and maintain the Water Department are to be paid into said Revenue Bond Fund.

This is one of a duly authorized issue of bonds of the City designated "The City of San Diego Waterworks Revenue Bonds, Election 1955" (hereinafter called "the bonds," and any one of which may be called a "bond"), all of which have been issued pursuant to Section 90.1 of the Charter of said City (hereinafter sometimes called the "Charter") for the purpose of providing moneys for the expansion, extension, replacement of parts of, and betterment of the water impounding, treating and dis-

tribution system (hereinafter sometimes called "waterworks system" or "waterworks") of said City. The creation of said issue and the terms and conditions of the bonds are provided for by the ordinance of said City authorizing the bonds and designated Ordinance No.

6402 (New Series) (hereinafter sometimes called "the ordinance" or "said ordinance"). Said ordinance and this bond and the coupons thereof are to be construed in accordance with the laws of the State of California.

So long as any of the bonds or interest coupons thereof are outstanding and unpaid, or so long as provision for the full payment and discharge thereof at maturity or upon redemption prior to maturity, through the setting apart in the Bond Service Fund or in the Redemption Fund or in a special trust fund to insure the payment or redemption thereof (as the case may be) of money sufficient for that purpose has not been made, the City covenants with the bondholders in accordance with the provisions of said Section 90.1 of the Charter as follows:

(1) That during the life of this bond and until the principal hereof, together with the interest thereon, is fully paid the Council of said City (hereinafter sometimes called the "Council") will fix such charges or fees for the use of such public improvements (being the waterworks system of said City) and the services furnished the people by the operation of such public improvements, to-wit, water or other services, as will produce moneys sufficient in amount to insure the payment in full of the principal and interest of such bond when due and the cost in full of the maintenance and operation of said public improvements (namely, the waterworks system) during the life of said bond;

(2) That no additional bonds shall be issued pursuant

to the Charter of said City or under any law of the State of California, having any priority in payment of principal or interest out of the revenues of the Water Department of said City over bonds of this issue;

(3) That no additional bonds payable out of said revenues or which may be paid out of said revenues shall be issued unless first, the net income of the Water Department before depreciation and bond service, as shown by the books of the City for the latest prior fiscal year with respect to which such books have been examined and reported upon by an independent certified public accountant or firm of certified public accountants employed by the City, shall have amounted to (i) at least twice the amount of interest to accrue in that one of the fiscal years ending thereafter in which the interest so to accrue will be greatest, and (ii) at least 1-1/4 times the aggregate of the amount of interest to accrue and payments of principal required to be made in that one of the fiscal years ending thereafter in which such aggregate will be the greatest, on all indebtedness to be outstanding immediately subsequent to the incurring of such additional indebtedness;

(4) That the waterworks of the City shall not be sold or leased or otherwise disposed of, as a whole, or substantially as a whole, unless such sale, lease or other disposition be so arranged as to provide for a continuance of payments into the Water Department Revenue Bond Fund sufficient in amount to permit payment therefrom in full of the principal of and interest on all bonds of this issue or to provide for such payments into some other fund charged with such payments;

(5) That the revenues from the waterworks pledged or otherwise made available to secure payment of the principal

of and interest on the bonds shall not be pledged or any lien or charge placed thereon, or disposed of or used except as authorized by the terms of said ordinance;

(6) That the City will not enter into any agreement which impairs the operation of the waterworks, or any part of it necessary to secure adequate revenues to pay principal and interest of the bonds, or which otherwise would impair the rights of the bondholders with respect to the revenues or the operation of the waterworks;

(7) That the City will operate the waterworks in an efficient and economical manner and will operate, maintain and preserve the waterworks system in good repair and working order;

(8) That the City will cause the books and accounts of the Water Department to be audited annually by an independent certified public accountant or firm of certified public accountants and will make available for inspection by the bondholders at the office of the City Clerk and the office of the City Treasurer a copy of the report of such accountants, and will also furnish a copy thereof upon request to any bondholder.

This bond is not subject to call or redemption prior to maturity out of the proceeds of refunding bonds; but unless this bond matures on or prior to May 1, 1960, it is redeemable prior to maturity from revenues derived from the waterworks in accordance with the provisions for redemption endorsed hereon.

This bond and the coupons hereto attached are negotiable instruments and shall be negotiable by delivery.

IT IS HEREBY CERTIFIED AND RECITED that any and all acts, conditions and things required to exist, to happen and to be performed precedent to and in the incurring of the indebtedness evidenced by this bond and in the issuance

of this bond exist, have happened, and have been performed in due time, form and manner, as required by the Constitution and statutes of the State of California and the Charter of The City of San Diego, and that this bond, together with all other indebtedness of the City pertaining to the aforesaid Water Department, is within every debt and other limit prescribed by the Constitution and statutes of the State of California and the Charter of the City.

IN WITNESS WHEREOF, The City of San Diego has caused this bond to be signed by the Mayor and the Treasurer of said City, by their facsimile signatures, countersigned by the City Clerk of said City, and sealed with the corporate seal of said City, and the interest coupons hereto attached to be signed by the Treasurer of said City by his facsimile signature, and has caused this bond to be dated the first day of May, 1955.

Treasurer of The City of San  
Diego, California

On the reverse side of the coupon there shall be printed substantially the following:

If the bond to which this coupon is attached is redeemable and is duly called for redemption on a date prior to the maturity date of this coupon, this coupon will be void.

Substantially the following provisions for redemption shall be printed on the reverse side of the bond:

#### PROVISIONS FOR REDEMPTION

Unless this bond matures on or prior to May 1, 1960, it is redeemable in the manner, from the fund, and subject to the terms and provisions, and with the effect, set forth in the ordinance, at the option of the City Council of The City of San Diego, on May 1, 1960, or on any interest payment date thereafter prior to maturity, upon notice published once at least thirty (30) days prior to the redemption date in a newspaper in The City of San Diego, California, and

in a financial newspaper or journal of national circulation published in New York, New York, at a redemption price equal to 100.5% of the principal amount thereof, plus 1/4 of 1% of such principal amount for each whole twelve months' period and for any remaining fraction of a twelve months' period from the date fixed for redemption to the maturity date of this bond, but not exceeding 104% of such principal amount.

Section 16. Lost, Destroyed or Mutilated Bonds. In the event any bond or coupon pertaining thereto is lost, destroyed, or mutilated, the Council will cause to be issued a new bond similar to the original to replace the same, in such manner and upon such reasonable terms and conditions as it may from time to time determine and prescribe by resolution.

Section 17. Cancellation of Bonds. All bonds and coupons surrendered to any fiscal agency of The City of San Diego in Los Angeles, California, or in New York, New York, or in Chicago, Illinois, for payment upon maturity or for redemption shall upon payment therefor be cancelled immediately and forthwith transmitted to the Treasurer of The City of San Diego. All of the bonds and interest coupons surrendered to the Treasurer for payment or for redemption shall upon payment therefor be cancelled immediately. All of the cancelled bonds and interest coupons shall remain in the custody of the Treasurer until destroyed pursuant to due authorization.

Section 18. Finding on Covenants. The Council authorizes the insertion of Covenant (1) in said bonds under the express authority of Section 90.1 of the Charter. All other covenants in said bonds are such as will tend to insure the safety of said bonds for investment purposes and are inserted in each bond under the authority of said Section 90.1.

Section 19. Proceedings Constitute Contract. After the bonds have been issued and delivered the provisions of this ordinance and of the resolutions and orders providing for

the sale of the bonds and awarding the bonds and finally fixing the interest rate or rates thereon shall constitute a contract between the City and the bondholders and shall be ir-repealable, and the provisions thereof shall be enforceable by any bondholder for the equal benefit and protection of all bondholders similarly situated by mandamus, accounting, mandatory injunction or any other suit, action or proceeding at law or in equity that is now or may hereafter be authorized under the laws of the State of California in any court of competent jurisdiction. Said contract is made under and is to be construed in accordance with the laws of the State of California.

No remedy conferred hereby upon any bondholder is intended to be exclusive of any other remedy, but each such remedy is cumulative and in addition to every other remedy, and may be exercised without exhausting and without regard to any other remedy conferred by the laws of the State of California. No waiver of any default or breach of duty or contract by any bondholder shall affect any subsequent default or breach of duty or contract or shall impair any rights or remedies on said subsequent default or breach. No delay or omission of any bondholder to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed as a waiver of any such default or acquiescence therein. Every substantive right and every remedy conferred upon the bondholders may be enforced and exercised as often as may be deemed expedient.

Section 20. Sale of Bonds. The bonds may be issued and sold as a whole or from time to time in such amounts and maturities as the Council may determine by resolution. Bonds shall be sold only after notice inviting bids thereon has been published once in the city official newspaper, said publication to be not less than ten days prior to the date for re-

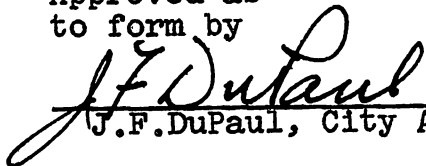

ceiving bids. The Council by resolution may fix and determine all of the terms upon which bids will be received. The bonds shall be awarded to the best bidder; provided, however, that the Council may reject any or all bids.

Section 21. Fixing Interest Rates. The City Council may fix the interest rate or rates on said bonds or any part thereof by resolution or resolutions. Prior to the award of bonds to a purchaser any such resolution or resolutions may be repealed. The resolution fixing the rate upon which bonds are awarded to a purchaser shall be irrevocable.

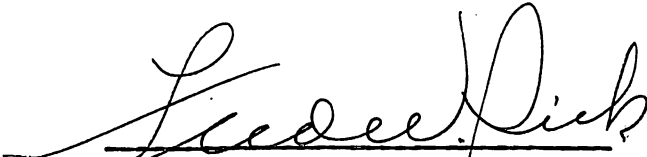

Section 22. Effective Date. This ordinance shall not become effective until approved by a majority vote of the electors of the City voting at a special election. Said special election shall be held on March 8, 1955. If approved by such majority vote this ordinance shall take effect upon the date the City Clerk certifies the result of the canvass to the Council.

## ORDINANCE NO. 6402 (NEW SERIES)

AN ORDINANCE OF THE CITY OF SAN DIEGO PROVIDING FOR THE EXPANSION, EXTENSION, REPLACEMENT OF PARTS OF, AND BETTERMENT OF THE WATERWORKS SYSTEM OF THE CITY OF SAN DIEGO AND TO PAY THE COST THEREOF AUTHORIZING AND PROVIDING FOR THE ISSUANCE AND SALE OF \$6,000,000 OF REVENUE BONDS PAYABLE FROM SUCH REVENUES OF SAID WATERWORKS SYSTEM AS ARE IN EXCESS OF THE AMOUNT NEEDED TO OPERATE AND MAINTAIN THE WATER DEPARTMENT; THIS ORDINANCE NOT TO TAKE EFFECT UNTIL APPROVED BY A MAJORITY VOTE OF THE ELECTORS OF SAID CITY.

WHEREAS, The City of San Diego (hereinafter sometimes called "City," or "the City"), a municipal corporation operating under the provisions of a freholders charter (hereinafter sometimes called "Charter"), owns and operates a water impounding, treating and distribution system (hereinafter sometimes called "waterworks" or "waterworks system");

WHEREAS, moneys are required to provide for the expansion, extension, replacement of parts of, and betterment of the water impounding, treating and distribution system of the City of San Diego, and the Council of said City proposes to provide for the payment of the cost of such public improvements by the issuance and sale of revenue bonds payable in whole from the revenues derived from the Water Department, and payable only from a special fund which shall consist of such revenues of the Water Department as are in excess of the amount needed to operate and maintain the Water Department; and

WHEREAS, the City Manager has recommended that revenue bonds in the sum of \$6,000,000 be authorized and issued for the aforesaid purposes, and this Council has heretofore found and hereby finds that there exists a need for such public improvements and a need for the financing of the same by the issuance and sale of said revenue bonds, and a need for the exercise of the power provided by Section 90.1 of the Charter of said City; NOW, THEREFORE, BE IT ORDAINED By the Council of The City of San Diego, as follows: Section 1. Finding of Need. That there exists, and this Council hereby finds that there exists a need for the expansion, extension, replacement of parts of, and betterment of the water impounding, treating and distribution system of said City and a need to provide therefor, and a need to provide for the payment of the cost of such public improvements by the issuance and sale of \$6,000,000 principal amount of bonds payable in whole from the revenues derived from said waterworks system, and a need for the exercise of the power provided by Section 90.1 of the Charter, and said bonds shall be payable only from a special fund which shall consist of such revenues of the Water Department as are in excess of the amount needed to operate and maintain the Water Department.

Section 2. Authorization of Issue. That revenue bonds of The City of San Diego (hereinafter sometimes called the "bonds" and any one of which may be called herein a "bond") in the principal sum of \$6,000,000 be, and the same are hereby authorized to be issued and sold under and pursuant to Section 90.1 of the Charter of said City for the purpose of providing moneys to pay the cost of and to provide for the expansion, extension, replacement of parts of, and betterment of the water impounding, treating and distribution system of said City.

Section 3. Description of Bonds. Said bonds shall be in the principal amount of \$6,000,000, shall be six thousand in number, numbered 1 to 6000, inclusive, and shall be of the denomination of \$1,000 each. Said bonds shall be designated WATERWORKS REVENUE BONDS, ELECTION 1955, shall be dated May 1, 1955, and shall be payable in consecutive numerical order \$300,000 annually on May 1 of each year from May 1, 1956, to May 1, 1975, both inclusive.

Section 4. Interest Rate and Place of Payment. Said bonds shall bear interest at a rate or rates to be hereafter fixed by resolution or resolutions, and said interest shall be payable semiannually. Each bond shall bear interest until the principal sum thereof has been paid; provided, however, that if at the maturity date of any bond, or if the same is redeemable and has been duly called for redemption, funds are available in the proper fund for the payment thereof or for the redemption thereof in full accordance with the terms of this ordinance, said bond shall then cease

sufficient, together with other transfers of the same amount made on the first day of each calendar month thereafter, to provide in said Bond Service Fund one month prior to the maturity of the first installment of principal the full amount of such principal and to provide in said Bond Service Fund one month prior to the maturity of the first installment of interest the full amount of such interest. Such sums shall be set aside, transferred to and placed in the Bond Service Fund in such time that the next maturing installment of interest and principal on the bonds shall be set aside in the Bond Service Fund in cash at least one month prior to the time the maturity or installment of principal or interest becomes due.

Any amounts required to be set aside, transferred to and placed in the Bond Service Fund may be prepaid, in whole or in part, by being earlier set aside, transferred to and placed in the Bond Service Fund, and in that event the monthly transfer, or any part thereof, which has been so prepaid need not be made at the time appointed therefor. In any event, at least one month prior to the due date of any maturity or installment of principal or interest on the bonds all sums required for the payment thereof must be in such Bond Service Fund.

Such sums shall be so set aside out of the Water Department Revenue Bond Fund and not out of any other fund or moneys of the City. The Council directs that such sums be so set aside through transfers or payments made in such amounts as may be necessary to comply with the foregoing provisions of this Section.

Money set aside and placed in said Bond Service Fund shall remain therein until from time to time expended for the payment of such principal and interest, and shall not be used for any other purpose whatever, except that any such money so set aside and placed in said Bond Service Fund which at any time may be in excess of the amount which at that time is required by the terms of this section to be in the Bond Service Fund in cash may be temporarily invested in any authorized direct obligations of the United States maturing not later than 18 months from the date of investment, but such investment shall not affect the obligation of the City to cause the full amount required by the terms of this section to be available in said Bond Service Fund in cash at the time required by the terms of this section. All moneys remaining in said Bond Service Fund in excess of the amount required to accomplish the purpose of its establishment shall be transferred to the Water Department Revenue Bond Fund.

The bonds and interest coupons shall recite that they are payable from the Water Department Revenue Bond Fund, but said bonds and coupons, notwithstanding such recital, shall be paid from the Bond Service Fund which is derived from said Water Department Revenue Bond Fund and is a subdivision thereof.

Section 9. Flow of Funds. All revenues of the Water Department shall be deposited in the Water Department Fund. Such revenues shall include all revenues for the use of the public improvements, to-wit, the waterworks of the City or any part thereof, and all services (including water and all other services) furnished the people by the operation of such waterworks. From such Water Department Fund there shall be paid the amount needed to operate and maintain the Water Department. All such revenues in the Water Department Fund as are in excess of the amount needed to operate and maintain the Water Department shall be transferred to the WATER DEPARTMENT REVENUE BOND FUND, which shall consist of such

the highest numbered bond. The interest payment date on which bonds are to be presented for redemption is hereinafter sometimes called the "redemption date."

Section 12. Notice of Redemption. Notice of the intended redemption shall be published by one insertion in the San Diego City official newspaper published in The City of San Diego, California, and in a financial newspaper or journal of national circulation published in the City of New York, New York, the publication to be at least thirty (30) days but not more than sixty (60) days prior to the redemption date. The notice of redemption shall (a) state the redemption date; (b) state the redemption price; (c) state the numbers and dates of maturity of the bonds to be redeemed, provided, however, that whenever any call includes all of the bonds of a maturity the numbers of the bonds of such maturity need not be stated; (d) require that such bonds be surrendered with all interest coupons maturing subsequent to the redemption date (except that no coupons need be surrendered on bonds registered as to both principal and interest) at the office of the Treasurer of The City of San Diego, in said City, or at any fiscal agency of The City of San Diego in Los Angeles, California, or in New York, New York, or in Chicago, Illinois; (e) require that bonds which at the time of call are registered so as to be payable other than to bearer shall be accompanied by appropriate instruments of assignment duly executed in blank; and (f) give notice that further interest on such bonds will not accrue after the designated redemption date.

If any of the bonds designated for redemption shall be registered so as to be payable otherwise than to bearer, the Treasurer shall, on or before the date of the publication of said notice of redemption, mail a similar notice, postage prepaid, to the respective registered owners thereof at the addresses appearing on the bond registry books.

The actual receipt by the holder of any bond (hereinafter referred to as "bondholder") of notice of such redemption shall not be a condition precedent to redemption, and failure to receive such notice shall not affect the validity of the proceedings for the redemption of such bonds or the cessation of interest on the date fixed for redemption. The notice or notices required by this section shall be given by the Treasurer. A certificate by the Treasurer that notice of call and redemption has been given to holders of registered bonds as herein provided shall be conclusive as against all parties, and no bondholder whose registered bond is called for redemption may object thereto or object to the cessation of interest on the redemption date fixed by any claim or showing that he failed to actually receive such notice of call and redemption.

Section 13. Redemption Fund. Prior to the time the City Council determines to call and redeem any of said bonds there shall be established in the City Treasury a redemption fund to be described or known as WATERWORKS REVENUE BONDS, ELECTION 1955, REDEMPTION FUND (hereinafter sometimes called the "Redemption Fund"), and prior to the redemption date there must be transferred from the Revenue Bond Fund and set aside in said Redemption Fund moneys available for the purpose and sufficient to redeem, at the premiums payable as in this ordinance provided, the bonds designated in such notice for redemption. Said moneys must be set aside in said fund solely for that purpose and shall be applied on or after the redemption date to payment (principal and premium) for the bonds to be redeemed upon presentation and surrender of such bonds and (except as to bonds registered as to both principal and interest) all interest coupons maturing after the redemption

Department as are in excess of the amount needed to operate and maintain the Water Department, and neither the principal of this bond nor interest thereon shall under any circumstances ever become an obligation chargeable or enforceable against any of the tax revenues of The City of San Diego or any other revenues of said City except such revenues as are expressly specified in this bond for the payment of such bond and the interest thereon. All revenues of the Water Department are deposited in the Water Department Fund, and all revenues in such Water Department Fund in excess of the amount needed to operate and maintain the Water Department are to be paid into said Revenue Bond Fund.

This is one of a duly authorized issue of bonds of the City designated "The City of San Diego Waterworks Revenue Bonds, Election 1955" (hereinafter called "the bonds," and any one of which may be called a "bond"), all of which have been issued pursuant to Section 90.1 of the Charter of said City (hereinafter sometimes called the "Charter") for the purpose of providing moneys for the expansion, extension, replacement of parts of, and betterment of the water impounding, treating and distribution system (hereinafter sometimes called "waterworks system" or "waterworks") of said City. The creation of said issue and the terms and conditions of the bonds are provided for by the ordinance of said City authorizing the bonds and designated Ordinance No. 6402 (New Series) (hereinafter sometimes called "the ordinance" or "said ordinance"). Said ordinance and this bond and the coupons thereof are to be construed in accordance with the laws of the State of California.

So long as any of the bonds or interest coupons thereof are outstanding and unpaid, or so long as provision for the full payment and discharge thereof at maturity or upon redemption prior to maturity, through the setting apart in the Bond Service Fund or in the Redemption Fund or in a special trust fund to insure the payment or redemption thereof (as the case may be) of money sufficient for that purpose has not been made, the City covenants with the bondholders in accordance with the provisions of said Section 90.1 of the Charter as follows:

(1) That during the life of this bond and until the principal hereof, together with the interest thereon, is fully paid the Council of said City (hereinafter sometimes called the "Council") will fix such charges or fees for the use of such public improvements (being the waterworks system of said City) and the services furnished the people by the operation of such public improvements, to-wit, water or other services, as will produce moneys sufficient in amount to insure the payment in full of the principal and interest of such bond when due and the cost in full of the maintenance and operation of said public improvements (namely, the waterworks system) during the life of said bond;

(2) That no additional bonds shall be issued pursuant to the Charter of said City or under any law of the State of California, having any priority in payment of principal or interest out of the revenues of the Water Department of said City over bonds of this issue;

(3) That no additional bonds payable out of said revenues or which may be paid out of said revenues shall be issued unless first, the net income of the Water Department before depreciation and bond service, as shown by the books of the City for the latest prior fiscal year with respect to which such books have been examined, and reported upon by an independent certified public accountant or firm of

Substantially the following provisions for redemption shall be printed on the reverse side of the bond:

PROVISIONS FOR REDEMPTION Unless this bond matures on or prior to May 1, 1960, it is redeemable in the manner, from the fund, and subject to the terms and provisions, and with the effect, set forth in the ordinance, at the option of the City Council of The City of San Diego, on May 1, 1960, or on any interest payment date thereafter prior to maturity, upon notice published once at least every ten days prior to the redemption in a newspaper in The City of San Diego, California, and in a financial newspaper or journal of national circulation published in New York, New York, at a redemption price equal to 100.5% of the principal amount thereof, plus 1/4 of 1% of such principal amount for each whole twelve months' period and for any remaining fraction of a twelve months' period from the date fixed for redemption to the maturity date of this bond, but not exceeding 104% of such principal amount.

Section 16. Lost, Destroyed or Mutilated Bonds. In the event any bond or coupon pertaining thereto is lost, destroyed, or mutilated, the Council will cause to be issued a new bond similar to the original to replace the same, in such manner and upon such reasonable terms and conditions as it may from time to time determine and prescribe by resolution.

Section 17. Cancellation of Bonds. All bonds and coupons surrendered to any fiscal agency of The City of San Diego in Los Angeles, California, or in New York, New York, or in Chicago, Illinois, for payment upon maturity or for redemption shall upon payment therefor be cancelled immediately and forthwith transmitted to the Treasurer of The City of San Diego. All of the bonds and interest coupons surrendered to the Treasurer for payment or for redemption shall upon payment therefor be canceled immediately. All of the canceled bonds and interest coupons shall remain in the custody of the Treasurer until destroyed pursuant to due authorization.

Section 18. Finding on Covenants. The Council authorizes the insertion of Covenant (1) in said bonds under the express authority of Section 90.1 of the Charter. All other covenants in said bonds are such as will tend to insure the safety of said bonds for investment purposes and are inserted in each bond under the authority of said Section 90.1.

Section 19. Proceedings Constitute Contract. After the bonds have been issued and delivered the provisions of this ordinance and of the resolutions and orders providing for the sale of the bonds and awarding the bonds and finally fixing the interest rate or rates thereon shall constitute a contract between the City and the bondholders and shall be irrevocable, and the provisions thereof shall be enforceable by any bondholder for the equal benefit and protection of all bondholders similarly situated by mandamus, accounting, mandatory injunction or any other suit, action or proceeding at law or in equity that is now or may hereafter be authorized

under the laws of the State of California in any court of competent jurisdiction. Said contract is made under and is to be construed in accordance with the laws of the State of California.

No remedy conferred hereby upon any bondholder is intended to be exclusive of any other remedy, but each such remedy is cumulative and in addition to every other remedy, and may be exercised without exhausting and without regard to any other remedy conferred by the laws of the State of California. No waiver of any default or breach of duty or contract by any bondholder shall affect any subsequent default or breach of duty or contract or shall impair any rights or remedies on said subsequent default or breach. No delay or omission of any bondholder to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed as a waiver of any such default or acquiescence therein. Every substantive right and every remedy conferred upon the bondholders may be enforced and exercised as often as may be deemed expedient.

Section 20. Sale of Bonds. The bonds may be issued and sold in whole or from time to time in such amounts and maturities as the Council may determine by resolution. Bonds shall be sold only after notice of public bids thereon has been published once in the city official newspaper, said publication to be not less than ten days prior to the date for receiving bids. The Council by resolution may fix and determine all of the terms upon which bids will be received. The bonds shall be awarded to the best bidder; provided, however, that the Council may reject any or all bids.

Section 21. Fixing Interest Rates. The City Council may fix the interest rate or rates on said bonds or any part thereof by resolution or resolutions. Prior to the award of bonds to a purchaser any such resolution or resolutions may be repealed. The resolution fixing the rate upon which bonds are awarded to a purchaser shall be irrevocable.

Section 22. Effective Date. This ordinance shall not become effective until approved by a majority vote of the electors of the City voting at a special election. Said special election shall be held on March 8, 1955. If approved by such majority vote this ordinance shall take effect upon the date the City Clerk certifies the result of the canvass to the Council.

WHEREAS, on the 8th day of February, 1955, at ten o'clock A. M., at a regular meeting of the City Council of said City said hearing was held, and it was found that no protests were filed against such proposed annexation; NOW, THEREFORE,

(New Series)

AN ORDINANCE PROPOSING AND SUBMITTING TO THE ELECTORS OF THE CITY OF SAN DIEGO AT THE MUNICIPAL GENERAL ELECTION TO BE HELD IN SAID CITY ON TUESDAY, THE 19TH DAY OF APRIL, 1955, CERTAIN PROPOSITIONS TO AMEND THE CHARTER OF THE CITY OF SAN DIEGO.

BE IT ORDAINED By the Council of The City of San Diego,  
as follows:

Section 1. Pursuant to the provisions of Section Eight of Article Eleven of the Constitution of the State of California, the Council of The City of San Diego, being the legislative body of said City, hereby proposes and submits to the qualified electors thereof, to be voted on at the Municipal General Election to be held in said City on the 19th day of April, 1955, the following propositions to amend the present Charter of said City:

PROPOSITION     A    

Amend Section 35, Article V, of the Charter of The City of San Diego to read as follows:

"Section 35. The Purchasing Agent shall make all purchases of supplies, materials and equipment required by the various departments or offices of the City, except as may be otherwise provided by the Council or this Charter. He shall prepare in consultation with the administrative officers of the City standard specifications for all supplies, materials and equipment necessary for use by the various Departments or offices of the City.

Insurance for the protection of the City and its Departments and properties, the premiums for which are in excess of \$1,000.00 per year, may be purchased with or without competitive bids upon authorization therefor by resolution of the City Council.

In purchasing any supplies, materials and equipment required by the various Departments or offices of the City, if the cost of said supplies, materials and equipment exceeds in amount the sum of \$5,000.00, no such purchase shall be made without advertising for sealed proposals therefor. Notices calling for such sealed proposals shall be published for one day in the official newspaper of the City, and a contract let for such purpose only after the expiration of ten days following said advertising. If the cost of the said supplies, materials and equipment required by said City exceeds the sum of \$1,000.00, but is not in excess of \$5,000.00, the said purchase may be made by said Purchasing Agent without advertising for sealed proposals, but not until said Purchasing Agent has secured competitive prices from merchants or other persons interested in making the sale to said City and not until the Purchasing Agent has been authorized by the Council to make such purchase. Purchases of supplies,

materials and equipment required by the various Departments or offices of the City which do not exceed the sum of \$1,000.00 in cost may be made by the Purchasing Agent directly upon the request of the department interested.

The Council shall by ordinance provide for the sale, exchange or other disposal by the Purchasing Agent of any surplus, used, obsolete or depreciated personal property belonging to the City.

The Council by resolution may order the purchase without advertising for bids of surplus commodities from the United States of America, or any agency thereof, or from any other public corporation, state or municipal, or any agency thereof. The Council may also authorize said Purchasing Agent to sell to any other public corporation, state or municipal, any supplies, material and equipment which said City may have been able to purchase in quantity at a reduced price.

Supplies shall be furnished upon requisition either from the stores under the control of the Purchasing Agent or by purchase, and whenever so purchased shall be paid for by the Department or office furnished therewith. It shall be the duty of the Purchasing Agent to inspect or cause to be inspected all purchases, and reject any of those which are not up to the standard specifications provided therefor, and he shall not approve any bid or voucher for articles which are not in conformity with specifications, or which are at variance with any contract. The Purchasing Agent shall not furnish supplies to any Department or office unless there be to the credit thereof an available unencumbered balance sufficient to pay for such supplies.

Materials, supplies or equipment not needed by a Department or office, but necessary to another Department or

office, may be transferred by the Purchasing Agent and a proper record made of the transaction. He shall have charge of such storerooms and warehouses of the City as the Manager may provide or the Council by ordinance may authorize. The Council may, upon recommendation of the Manager, authorize the Purchasing Agent to purchase materials, supplies, or equipment in common use by the Departments and offices in large quantities and store the same until requisitioned by the Departments or offices for use. The Council shall provide a sufficient revolving fund in the annual appropriation ordinance of an adequate amount for the purpose of creating a store's account and stock for future supply of the Departments and offices when needed.

The Purchasing Agent shall prepare a perpetual inventory account of all materials, supplies, equipment, and other purchases, and include thereon a list of all real and personal property belonging to the City, and may require the Departments to furnish him with an inventory of all personal property on hand at the beginning of the budget year or at the end of the fiscal year; he shall file the original of such inventory account with the City Clerk and deliver a copy to the Auditor and Comptroller, and retain a copy for his office; once each year, or more often if required by the Auditor and Comptroller or upon demand of the Council, said Purchasing Agent shall amend and revise said inventory account so as to keep said inventory account up to date. He shall keep a record of all sources of supply, of all quotations received, of all awards made, of all inspections, of all requisitions filed, and of all vendors furnishing commodities to the City. He shall perform such other duties as may be prescribed by general law or ordinance or by the Manager."

PROPOSITION B.

Amend Article X of the Charter of The City of San Diego to read as follows:

"ARTICLE X.

Section 1. Notwithstanding any language in Article IX of this Charter to the contrary the City Council shall, upon the taking effect of this amendment, by ordinance provide for the transfer into the City Employees' Retirement System of all members of the Police and Fire Departments of The City of San Diego who were regularly employed and members of their respective Pension systems on June 30, 1946; provided, however, that in any such ordinance said Council shall provide as follows:

(1) A minimum retirement allowance of \$200.00 per month when a member has completed the required number of years of service as provided in this Charter, and who at the effective date of the ordinance is receiving a monthly salary of at least \$400.00.

(2) For retirement of members of the Police Department who entered the service of the department on or prior to the 8th day of May, 1941, and who have served for 20 years or more in the aggregate as a member or employee in any rank or capacity in said department, regardless of age, and for the retirement of members of the Police Department who entered the service of the department subsequent to the 8th day of May, 1941, after completion of 25 years of service in the aggregate.

(3) For retirement of members of the Fire Department who entered the service of the Department on or prior to January 1, 1936, and who have served for 20 years or more in the aggregate as a member or employee in any rank or capacity in said department, regardless of age, and for the retirement of members of the Fire Department who entered the

service of the department subsequent to the 1st day of January, 1936, after completion of 25 years of service in the aggregate.

(4) Each member of either the Fire or Police Department who is entitled to retire after 20 years of aggregate service with the City shall receive a pension credit of 2-1/2% of his final compensation for each year completed at the effective date of said ordinance, but in no case shall such credit exceed 50% of such final compensation. For each year completed after the effective date of said ordinance the member shall be credited with 1/60th of his final compensation. The pension credits specified above will not be allowable until after such member shall have reached the age of 50 years. No member of either department who is entitled to retire after 20 years as above and who has had 20 years of service in the aggregate shall receive less than the following: \$200.00 per month as retirement allowance, together with such additional amount per month as will represent the actuarial equivalent of that portion of the contributions of such member contributed after his 20th year of service but before his attainment of age 50.

(5) Members of the Fire and Police Departments who are not eligible for retirement until the completion of 25 years of service in the aggregate shall receive a pension credit of 2% of their final compensation for each year completed at the effective date of said ordinance, provided that such credit shall not exceed 50% of such final compensation, and in addition thereto shall be entitled to credits of 1/60th of their final compensation for each year completed after the effective date of the ordinance. The pension credits specified in this paragraph will not be allowable until after such member shall have reached the age of 55 and has completed 20 years of aggregate service in the de-

partment, provided, however, that such member may be permitted to retire at the age of 50 years after 20 years of aggregate service in the department with a reduced allowance, as provided in Article IX and the ordinance passed pursuant thereto.

Except as to those members who are forced to retire because of disability or who die, 'Final Compensation' within the meaning of paragraphs 4 and 5 hereof shall be the highest average compensation received during any five consecutive years of service, limited, however, to the following monthly maximums for members who retire: During the first year after the ordinance is adopted, \$400.00; during the second year, \$500.00; during the third year, \$600.00; during the fourth year, \$700.00; during the fifth year, \$800.00; and after the end of the fifth year there shall be no ceiling considered in determining the amount of the final compensation.

As to those members who are compelled to retire because of disability or who die after the ordinance becomes effective 'Final Compensation' shall be defined as above, but with the following monthly maximums: For death or disability occurring during the first year, after the ordinance is adopted, \$500.00; during the second year, \$600.00; during the third year, \$700.00; during the fourth year, \$800.00; during the fifth year, \$900.00; and after the end of the fifth year no ceiling shall be considered in determining the amount of the final compensation.

(6) No member of either the Fire or Police Departments transferred pursuant to the provisions of this Article of the Charter shall be required to contribute in excess of 8% of his total salary; and each member so transferred shall be classed as a safety member of a special class and shall be entitled to all of the service credit earned by such member in the Police and Fire Retirement System up to the date of transfer without further contributions from said member

because of absences prior thereto while serving in the armed forces of the United States.

(7) The membership of the Board of Administration created by Article IX of the Charter, upon the taking effect of this amendment, shall be increased to the extent of one additional member to represent the Police Department and one additional member to represent the Fire Department, such members to be chosen by the members of the respective departments.

Immediately upon the taking effect of the ordinance making the transfer of members into the City Employees' Retirement System, all of the provisions of Article IX not inconsistent with the hereinabove provided, together with any ordinance passed pursuant thereto, shall be applicable to such transferred members, and the Police and Fire Retirement System heretofore created in 1947 is abolished, and except as prescribed by this amendment all benefits therein authorized are cancelled.

All moneys in the Police and Fire Retirement Fund at the date of the taking effect of the ordinance transferring said members are hereby transferred to the City Employees' Retirement Fund.

Nothing herein contained shall be construed in any way so as to affect the vested rights of members of the Police and Fire Departments who have been heretofore retired by virtue of any retirement or pension system of The City of San Diego."

In addition to the directions which the Election Code of The City of San Diego require to be printed on the ballot it shall contain the following directions to the voters:

"To vote on any measure stamp a cross in the voting square after the word 'YES,' or after the word 'NO.'

Electors voting at said election shall indicate their choice on the said propositions by stamping a cross in the voting square at the right of the word "YES," or in the voting square at the right of the word "NO." If an elector shall have stamped a cross in the voting square after the printed word "YES" his vote shall be counted in favor of the adoption of said proposition; if he shall stamp a cross after the printed word "NO" his vote shall be counted against the adoption of the same.

In all particulars not recited in this ordinance the ballot to be used at said Municipal General Election as to its form shall conform to the provisions of the Election Code of The City of San Diego.

Section 3. The City Clerk of said City is hereby directed to cause such proposed amendments to be published once in the official newspaper of said City, to-wit: The San Diego Union, and in each edition thereof during the day of publication, within fifteen days after the passage and adoption of this ordinance, which said publication shall be not less than forty nor more than sixty days prior to the date of said election; and said City Clerk is further directed to cause copies of such proposed amendments to be printed in convenient pamphlet form and in type of not less than ten-point, and to cause copies thereof to be mailed to each of the qualified electors of said City, and said City Clerk shall, until the day fixed for the election upon such amendments, advertise in said The San Diego Union, being the official newspaper of said City, and a newspaper of general circulation published in said City, a notice that copies of said amendments may be had upon appli-

cation therefor to the City Clerk of said City.

Section 4. The City Clerk of said City is further directed to cause this ordinance to be published once in the City official newspaper, to-wit: The San Diego Union.

ORDINANCE NO. \_\_\_\_\_  
(New Series)

AN ORDINANCE AMENDING SECTION 64.25 OF THE SAN DIEGO MUNICIPAL CODE, PROVIDING AN ALTERNATE PROCEDURE AND COSTS PAYMENTS FOR INSTALLATION OF TRUNK LINE SEWERS, SEWAGE PUMP STATIONS AND APPURTENANT STRUCTURES.

BE IT ORDAINED, by the Council of The City of San Diego, as follows:

That Section 64.25 of the San Diego Municipal Code be, and the same is hereby amended to read as follows:

Section 64.25 TRUNK LINE SEWERS, SEWAGE PUMP STATIONS AND APPURTENANT STRUCTURES.

The following procedure for the installation of trunk line sewers and extensions thereof is intended as an alternative procedure to any other presently authorized by ordinance or law, and is not intended in any way to be exclusive.

(a) Whenever the Council of The City of San Diego determines that the public interest and necessity demand the acquisition, construction and completion of trunk line sewers, to areas of the City not yet adequately served with sewers, for the purpose of providing such areas with sewer service, and appropriates moneys out of the Treasury of the City for such public improvements, no person shall be permitted to connect his property to such trunk line sewer nor receive sewer service from the City through such trunk line sewer until said property owner has paid to the City the proportionate share of the cost of said trunk line sewer with respect to the property of said property owner to be served; and no application, whether by petition or otherwise, shall be approved by said Council for the installation and completion of a trunk line sewer under this section unless and

until the property owners to be benefited, or a sufficient number thereof, shall have paid to the City, or agreed to pay such proportionate share of the cost of said trunk line sewer as in the opinion of the Council insures the payment of the cost of the public improvement. Such payments shall be in addition to any other fee prescribed by any ordinance of the City or by the San Diego Municipal Code for the installation and connection of laterals with said trunk line sewer reaching to the property of the property owner to be served.

(b) Whenever the Council determines that the public interest of the City will be served by the extension of trunk line sewers into areas not then adequately served with sewers, no person shall be permitted to make a connection with said extension trunk line sewer until the property owner whose property shall be served by said extension trunk line sewer shall have paid to The City of San Diego his proportionate share of the cost of said extension trunk line sewer, together with a proportionate share of the cost of the original trunk line sewer, and no application for a connection or service from said extension trunk line sewer shall be approved unless and until said person shall have paid to the City his proportionate share of the cost of the extension trunk line sewer, together with a proportionate share of the cost of the original trunk line sewer.

(c) From and after the effective date of this ordinance no new trunk line sewers or extensions of existing trunk line sewers designed to serve an area of the City inadequately served by sewers shall be installed by said City under this section of the Code until the following conditions shall have been performed and the following requirements fulfilled:

(1) Whether initiated by the property owners by petition

or initiated by the Council itself by resolution, the Council shall cause a map or plat to be prepared by the City Engineer and filed with the City Clerk of said City, which map or plat shall show the exterior boundaries of the entire area proposed or designed to be eventually served by the proposed public improvement, or in lieu thereof a written description of the area to be served by said public improvement, together with (a) an estimate of the total cost or (b) actual cost, of the initial improvement.

(2) The adoption of a resolution by the Council which shall prescribe a minimum initial contribution to be paid by the property owners of the area to be benefited by the construction of the initial unit of said public improvement, based upon a percentage of the total estimated cost, which in all cases shall be sufficient in amount to satisfy the Council that the construction cost will be paid.

(3) The approval by the Council by resolution of a sum to be paid by the property owner for each connection with either a new trunk line sewer or any extension thereof, which sum shall be recommended by the City Manager and shall be determined upon an equitable basis, which shall represent the proportionate share that the property owner should bear of the cost of new trunk line sewer in relation to its entire cost; or if the property owner's connection is to be made with an extension of an existing trunk line sewer then the sum to be paid by such property owner shall be determined upon an equitable basis so as to provide that such property owner shall pay a proportionate share of the cost of the main trunk line sewer, together with an additional amount which represents his proportionate share of the cost of the extension of such main trunk line sewer.

(4) The same method provided in paragraph (3) for determining the cost to be borne by the property owner for a connection with an extension trunk line sewer shall apply in case the property owner desires to connect with any new extension of existing main trunk line sewers and previously constructed extensions thereof, namely, the property owner shall be required to pay his proportionate share of the cost of the original trunk line sewer, together with his proportionate share of the cost of any or all extensions thereof.

(d) Wherever used in this section the phrase "trunk line sewers" shall be defined to mean and include trunk line sewers, sewage pump stations and appurtenant structures which are either in the course of construction at the date this ordinance becomes effective or are constructed thereafter, and are designed to serve areas of the City not adequately served with sewers.

Wherever used in this section the phrase "extension trunk line sewers" shall be defined to mean and include any extension of "trunk line sewers" as defined herein and also any extensions of extensions of said trunk line sewers.

(e) There is hereby created in the office of the City Treasurer a fund to be known as "Trunk Line Sewer Fund," into which fund all moneys received from property owners pursuant to the terms of this section shall be paid, and the moneys in said fund shall be used for no purpose other than the construction of trunk line sewers to serve areas of the City not adequately served with sewers.

Section 2. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.
