ORDINANCE NO. 6605
(NEW SERIES)

AN ORDINANCE GRANTING TO THE ZOOLOGICAL SOCIETY OF SAN DIEGO THE RIGHT TO OCCUPY, MAINTAIN AND OPERATE THE ZOOLOGICAL GARDENS IN BALBOA PARK, AND COMMITTING TO SAID SOCIETY THE CUSTODY, CARE AND MAINTENANCE OF ZOOLOGICAL EXHIBITS THEREIN; REPEALING AND CANCELLING CERTAIN ORDINANCES AND AGREEMENTS.

WHEREAS, the Zoological Society of San Diego, hereinafter in this ordinance referred to as the "Society", is a non-profit corporation organized and existing for the purposes of zoological work and the operation and maintenance of zoological exhibits in Balboa Park, in The City of San Diego, for the instruction, education and entertainment of visitors to said park; and

WHEREAS, as the result of the very efficient work and efforts of said Society over a period of years and the donation to it from time to time by public spirited persons of large sums of money, services and materials, together with the gift to the Society of numerous valuable mammals, birds and reptiles and other animals, there has been gathered together and developed in Balboa Park one of the finest zoological gardens in the United States, which are of immense benefit and value to The City of San Diego and its inhabitants; and

WHEREAS, pursuant to understandings and agreements between said Society and the City, the Society for many years has devoted itself to the development, care and maintenance of said zoological gardens and exhibits at its own expense and out of its own revenues, save and except comparatively small appropriations made from time to time by the City, which said appropriations have not at any time been and are not now sufficient to defray more than a fractional part of the expense involved in the development, care, operation and maintenance of said gardens and exhibits; and

WHEREAS, said Society, pursuant to said understandings and agreements, has been permitted by the City to occupy certain designated areas of Balboa Park for the purpose of conducting

therein its zoological work and activities, as aforesaid; to fence said areas, and to erect necessary buildings, structures, cages, runways and other necessary improvements, chiefly at the Society's own expense, and to charge an admission fee to said zoological gardens, the revenues therefrom being devoted by the Society to improvement, care, maintenance and operation thereof; and

WHEREAS, the Society has for many years been engaged and is now engaged in a comprehensive educational and research program; and

WHEREAS, the Society, by reason of its long experience in zoological work, the trained capable personnel at its command, and the nation-wide esteem in which it is held, is exceptionally well qualified to continue the further improvements and maintenance of said gardens and exhibits; and

WHEREAS, the City Council and said Society desire to occupy an additional area within Balboa Park for the purpose of constructing and operating thereon a Children's Zoo; and

WHEREAS, the City Council and said Society desire to clarify and specifically set forth the rights, responsibilities, duties, and obligations, respectively, of the City and of said Society with regard to said zoological gardens and exhibits; NOW, THEREFORE,

BE IT ORDAINED By the Council of The City of San Diego as follows:

Section 1. That the occupancy and use by the Society of that certain portion of Balboa Park heretofore allocated to and set aside for the use of said Society by the City, which said area is completely enclosed by fencing and known as "The Zoological Gardens", more particularly shown on City of San Diego Engineering Department Drawing Numbered 12242-L, be, and the same are hereby ratified, confirmed and approved, together with its control and

jurisdiction over all buildings, structures and equipment within said area used or usable by said Society in and about or connected with its zoological work in the maintenance and operation of zoological gardens and zoological exhibits therein, upon the terms and conditions hereinafter in this ordinance set forth; provided, however, that the area labeled "Children's Zon" shown on said Engineering Drawing shall be developed within five years of the date of this Ordinance and shall be maintained as a special attraction in accordance with plans submitted to and approved by the City Manager. In the event such development and maintenance is not performed, the City shall have the right to delete said "Children's Zoo" area or any part thereof not so developed or maintained, from the provisions of this Ordinance.

Section 2. That the Society shall have the right to charge an admission fee to the premises referred to in Section 1 hereof in an amount which first shall have been approved by Resolution of the City Council; and to furnish and charge for transportation facilities within said grounds, and to operate or let concessions therein for the sale of refreshments, curios, souvenirs and other merchandise ordinarily available to visitors to zoological gardens and exhibits of similar character; provided, however, that all revenues derived by the Society from such sources shall be expended by it in and about the development, operation and maintenance of said gardens and exhibits, and for research and education.

Section 3. That the City does hereby hire to said Society all of the birds, animals and reptiles which the City owns and which are now located in said above-described area and which are now in the care and custody of said Society, upon the following terms and conditions, to-wit:

(a) The Society shall assume the responsibility and obligation to conduct, operate and maintain said Zoological Gardens and exhibits in a careful, efficient manner, to the end that the same shall at all times be and remain in at least as good condition as

they are at the present time.

(b) That all donations to the Society of money, materials or zoological exhibits shall by the Society be devoted to the development, improvement, care, maintenance and operation of said gardens and exhibits, and for research and education, (provided, however, that nothing herein contained shall prevent the Society from setting aside bequests, legacies and donations of moneys or securities or moneys received from the sale or rental of properties donated or bequeathed in special funds or trust funds and of using the income or principal therefrom, at the discretion of the Society, for the purposes herein set forth), and that all the costs and expenses thereof, or involved therein, shall be defrayed by the Society out of its own revenues, save and except such portion of said costs and expenses as may be paid from the special tax levy of two cents (2¢) on each one hundred dollars of assessed valuation levied by the City under the provisions of Section 77a of the City Charter.

(c) The title to all animals, birds or reptiles hereafter acquired by the Society by purchase or donation for exhibition in said gardens shall be immediately vested in The City of San Diego, and shall thereupon be subject to the provisions of this Ordinance.

(d) The Society may sell or exchange any excess or undesirable specimens of the zoological exhibits covered by this Ordinance, provided that such specimens received by the Society in exchange shall likewise immediately vest in the City and become subject to the provisions of this Ordinance.

(e) All moneys derived by the City from the special tax levy required by Section 77a of the City Charter to be used exclusively for the maintenance in Balboa Park of zoological exhibits shall be retained by the City until disbursed by requisitions drawn by the Society and approved by the Park and Recreation Director or the City Manager.

(f) The Society shall at all times protect and save harmless the City from and against all claims for damages on account of injury to persons or property occurring within said zoological gardens or by reason, directly or indirectly, of the maintenance therein of said zoological exhibits; it being expressly intended by this provision to exempt and absolve The City of San Diego from any such liability whatsoever in any way connected with the maintenance and operation of said Zoological Gardens and exhibits, and that the Society shall assume full and complete responsibility in the premises. In this connection the City Council shall have the right to require that the Society furnish and maintain at its own expense for the benefit of the City a policy of insurance in such amount as the Council may by resolution determine.

(g) The books and records of the said Society shall be open at all times to inspection by said City, or its duly authorized representative, and said Society shall file annually with the City Council of said City at the close of each fiscal year, to-wit: June 30th, reports of receipts and expenditures for the preceding fiscal year, and the City shall audit or cause to be audited the aforesaid reports of receipts and expenditures within ninety (90) days after the same shall have been filed, as hereinbefore provided.

The provisions of this paragraph shall not be changed or modified except as to the date of the filing of said reports and the making of said audits, and then only insofar as provision for annual reports and audits is retained.

Section 4. That said Society shall upon its written acceptance of this Ordinance agree to be bound by all of the terms, provisions and conditions hereof.

Section 5. That Ordinance No. 1845 (New Series, adopted May 14, 1940; Ordinance No. 2742 (New Series), adopted November 23, 1943; Ordinance No. 5021 (New Series), adopted December 18, 1951; and Ordinance No. 6063 (New Series), adopted

April 15, 1954, be, and the same are hereby repealed.

Section 6. That the agreement filed in the office of the City Clerk as Document No. 325962, January 20, 1951, and amendatory agreement thereof filed March 23, 1953 under Document No. 337225, be, and the same are hereby cancelled.

ORDINANCE NO. 6610
(New Series)

AN ORDINANCE AMENDING SECTIONS 22.0902 and
22.0903 OF THE SAN DIEGO MUNICIPAL CODE
REGULATING THE SALE OF CITY-OWNED REAL PROPERTY

BE IT ORDAINED by the Council of The City of San Diego as follows:

Section 1. That Section 22.0902 and 22.0903 of the San Diego Municipal Code be and the same are hereby amended to read as follows:

"SEC. 22.0902 SALES OF REAL PROPERTY

Except as otherwise provided in the City Charter, the Council shall sell the real property of the City in compliance with the requirements herein established.

No real property belonging to the City shall be sold except in pursuance of a resolution passed by an affirmative vote of five members of the Council, which shall contain the following:

- (a) The reason for selling such real property;
- (b) A description of the real property to be sold;
- (c) A statement of the value of such real property as disclosed by an appraisal made by a qualified real estate appraiser, who may be a professional appraiser or a qualified employee of The City of San Diego, together with the minimum amount the Council will consider for the sale of each parcel of property.
- (d) A statement that the City will or will not pay a real estate broker's commission under the provisions of Section 22.0905 for the sale of such real property.
- (e) A statement that the property will be sold by negotiation, or by public auction, or by sealed bids, or by a combination of public auction and sealed bids.

All sales shall be made either at public auction or by sealed bids or by a combination of such methods, whichever shall be recommended by the City Manager, after publication of notice thereof for at least five consecutive days in the official newspaper, which notice shall contain a statement of the minimum price set by the Council for each parcel of property to be sold; provided, however, that when the City Council by resolution determines that it would be in the best interests of The City of San Diego to waive the requirements of sale by public auction and by sealed bids, property zoned for industrial uses under the provisions of Division 4, Article 1, Chapter X of this Code, may be sold by negotiation with the prospective purchaser without complying with the publication requirements herein contained.

The Council shall have the right to reject any and all bids herein provided for.

Real property belonging to the City may be put up for sale upon recommendation of the City Manager approved by the City Council, or at the request of any person desiring to purchase City property.

Any person making such request for sale of City property shall concurrently therewith deposit with the City an amount of money designated by the Property Supervisor as sufficient to cover all costs pertaining to the sale, including the cost of a title report and as a guarantee that the depositor will be at the sale, in the case of sale by auction, or will submit a sealed bid, and will bid not less than the minimum amount fixed by the Council, pursuant to subdivision (c) of this Section. Said deposit shall be in the form of a certified check or cashier's check, and delivered to the Property Supervisor who shall make disposition thereof as hereinafter provided.

In the event said person becomes the actual purchaser of the property at the sale held pursuant to his request,

The Property Supervisor shall place said sum to be deposited in the City treasury, and the same shall be applied on the purchase price; provided, however, that if the City does not have a merchantable title to such real property or if at the sale the same has been sold at a higher price than that bid by such depositor the City Council shall by resolution direct the Property Supervisor to return said deposit to the person from whom the same was received; provided further, that if at the sale no bid is received equal to or greater than the minimum amount fixed by the Council, the Council shall by resolution direct the Property Supervisor to place said deposit in the City treasury to the credit of the General Fund.

The public auction or the sale by sealed bids shall be conducted by the Property Supervisor, and shall be held in the office of the Property Supervisor or at the site of the property to be sold, or in the Council Chamber in the presence of and during a session of the Council of The City of San Diego. The location of such auction sale shall be determined by the City Manager.

At or before the making of a bid at such auction the bidder must identify himself to and register his name and address with the Property Supervisor; before any bid can be accepted, the bidder must have deposited with the Property Supervisor a certified check or cashier's check in an amount not less than 10 per cent of his bid; the amount so deposited shall be applied on the purchase price of the bid. In the case of sale by sealed bids, such bids must be accompanied by certified check or cashier's check in an amount not less than 10 per cent of the bid; the amount so deposited shall be applied on the purchase price of the bid. In case of a combination of sealed bids and public auction

there shall first have been deposited with the City by one or more certified checks or cashier's checks an amount not less than ten percent (10%) of the combined bid before it can be accepted. In any case the unpaid balance shall be due and payable within five (5) days after notification that the duly executed deed of the type specified in notice of sale is ready for delivery. Failure or inability to make such final payment shall terminate the bidder's rights and the amount of his deposit shall be forfeited to, and become the property of the City.

In the event that any bidder does not complete the payment of his bid, the Council may accept the bid of another bidder provided such bidder deposits the amount of his bid with the Property Supervisor of said City.

"SEC. 22.0903 REAL ESTATE AGENT - REGISTRATION

That whenever the City Council shall by resolution have determined to offer a parcel or parcels of City-owned real estate for sale at public auction, or by sealed bids, or by a combination of such methods and by such resolution have determined to pay a real estate broker's commission in connection with the sale of such property, pursuant to the provisions of Section 22.0902 of this Code, any regularly licensed real estate broker maintaining an office within The City of San Diego having a client willing and able to make a bona fide bid at such sale at least equal to the minimum amount which the Council shall have set in its resolution authorizing the sale, may at any time not later than the day preceding the date fixed for such sale, register with the Property Supervisor his name and address and the name and address of his client."

Failure to submit requests for leaves of absence prior to the date on which payroll warrants are released will result in the withholding of the warrants until such requests have been submitted and approved.

Section 2. ANNUAL VACATION:

(1) FULL-TIME ACTIVE SERVICE: Each employee paid at a monthly rate who has had full-time active service during the calendar year previous to that in which vacation is requested, shall be entitled in each calendar year to an annual vacation of 15 consecutive days, exclusive of Saturdays, Sundays and holidays as defined in the Government Code of the State of California with full pay for such time as the employee would have been paid if at work for the City for the same period of

time, except each employee in the uniformed service of the Fire and Police Departments shall be entitled to 21 calendar days with full pay, and in addition thereto shall be granted the following holidays with pay, namely: New Year's Day, Memorial Day, Labor Day, Thanksgiving Day, and Christmas Day, when said days are legal holidays as defined by the Government Code of the State of California, or shall receive compensatory time off in lieu of said holidays.

(2) PART-TIME SERVICE: Each employee who has served continuously part-time during the calendar year previous to that in which vacation is requested shall be entitled in each calendar year to the regular number of days vacation, payable at their usual part-time rate of pay.

(3) VACATION EARNED DURING FIRST YEAR: After twelve months of continuous service, each employee who worked only a partial year during the calendar year previous to that in which vacation is requested, shall be entitled to vacation with pay not to exceed one day for each 24 days for which said employee received pay in the previous calendar year, except each employee in the uniformed service of the Fire and Police Departments shall be entitled to vacation with pay not to exceed one and three-fourths calendar days for each full month for which said employee received pay in the previous calendar year.

(4) VACATION SCHEDULE: The arranging of a vacation schedule shall be the responsibility of the appointing authority, first with particular regard to the needs of the service, and then in so far as is possible with the wishes of the employees. Only for reasons deemed good and sufficient by the appointing authority will an employee be permitted to split his vacation or to take a partial vacation in order to accumulate the balance to be taken in a subsequent year.

(5) ACCUMULATION OF VACATION: In the event an employee who has served continuously for at least twelve months does not take all the vacation to which he is entitled in any calendar

year, he shall be allowed to accumulate the balance to be taken in a subsequent year, provided that accumulated and annual vacation shall not in any case exceed a total of 45 days of earned vacation. No employee shall be granted vacation with pay for more than 30 days, exclusive of Saturdays, Sundays, and holidays in any calendar year; provided that an employee with ten or more years of continuous service may be permitted to take 35 days of earned vacation in a calendar year.

(6) ENTITLEMENT UPON RETIREMENT OR SEPARATION: Provided further that prior to retirement or upon separation from the service, whether voluntarily or involuntarily, an employee shall be entitled to vacation with pay for all the unused vacation which has accrued under the provisions of this rule, and in addition to vacation based upon the length of active service in the year in which the retirement or separation occurs. Vacation earned during the current year shall be computed upon the same basis as for a partial year as set forth in this rule. If an employee fails to take the vacation to which he is entitled prior to the date of his retirement, he shall forfeit all right to such vacation with pay.

Section 3. SICK, INJURY AND EMERGENCY LEAVES OF ABSENCE:

(1) SICK LEAVE DEFINITION: Sick leave is hereby defined to mean the necessary absence from duty of an employee because of non-service-connected illness, injury or exposure to contagious disease suffered by the employee.

(2) SICK LEAVE PROVISIONS: Whenever an employee whose compensation is fixed by the month is compelled to be absent from duty on account of non-service-connected illness, injury or exposure to contagious disease he may after the first 6 months of continuous service be granted a maximum of 7 calendar days of sick leave with pay, and after one year of continuous service be granted a maximum of 15 calendar days of sick leave with pay in any calendar year, except as herein provided. The

Commission may, in its discretion, grant currently earned sick leave with pay in cases of prolonged illness or disability due to injury not incurred on the job.

(3) SICK LEAVE DURING PROBATIONARY PERIOD: During the original six month probationary period an employee may be granted sick leave without pay because of illness or injury not incurred on the job, or for reasons deemed good and sufficient by the appointing authority and Commission, but such leave shall not extend the regular probationary period which the entrance employee must serve.

(4) EMERGENCY LEAVE DEFINITION: Emergency leave is hereby defined to mean the necessary absence from duty of an employee because of emergency illness of a member of his immediate family requiring the attendance of the employee upon said member until professional or other attendance can be obtained, or the necessary absence from duty of an employee because of the death of a member of his immediate family.

(5) EMERGENCY LEAVE PROVISIONS: An employee whose compensation is fixed by the month may be granted emergency leave with pay chargeable to his accumulated sick leave credits not to exceed a total of 5 calendar days for any one case of illness or death in the immediate family.

(6) ACCUMULATION OF SICK LEAVE: All unused sick leave may be accumulative, provided that at no time shall the accumulated and annual sick leave exceed a total of 90 calendar days. No more than 90 calendar days' sick leave with pay shall be granted in any calendar year.

(7) COMPUTATION OF SICK LEAVE: Employees absent before and after a holiday or before and after a Saturday and Sunday shall be deemed not ready and able to have worked on the holiday and/or Saturdays and Sundays, or any combination thereof, and shall be charged straight calendar days. If an employee who works regularly Monday through Friday on a 40-hour week returns to work on Monday, the Saturday and Sunday previous

shall not be assessed against his sick leave; similarly if a holiday falls on the day before his return from sick leave, such holiday shall not be assessed against his sick leave. If an employee whose schedule requires him to work Saturdays, Sundays, and/or holidays, or a combination thereof, on a 40, 44, or any other hours of work week, returns from sick leave the day following his scheduled day or days off, such day or days shall not be included in his sick leave.

(8) NON-APPLICABILITY: None of the foregoing provisions of Rule X shall be applicable to employees employed on an hourly basis.

(9) INJURY LEAVE: An employee, regardless of length of service with the City, who is compelled to be absent from duty because of service-connected injury suffered without fault on his part shall be entitled to full pay for the first 7 days of absence.

For a service-connected injury suffered while performing the duties of his position, which compels an employee to be absent from City service, such employee may be granted a leave of absence with full pay for such length of time as is recommended by the department head and approved by the Civil Service Commission, but in no case for a longer period of time than one year; provided, however, that the City Auditor shall deduct from any amount of compensation authorized to be paid hereunder such sums which such employee may have received because of such injury under Workmen's Compensation Law or the City Employees' Retirement System provisions.

(10) EVIDENCE OF CAUSE OF ABSENCE: In all cases of leaves of absence because of sickness, injury, or illness or death in the immediate family, the employee may be required to furnish to the Commission or the appointing authority, as the case may be, satisfactory evidence substantiating the facts justifying such leave of absence. Failure to furnish such evidence upon

request shall be sufficient reason for denying the leave of absence with pay.

Section 4. TRANSFER OF VACATION AND SICK LEAVE CREDITS:

In the event of a transfer between departments or divisions or a promotion from one department or division to another, the employee's accrued vacation and sick leave shall be assumed by the department or division to which transfer or promotion is made.

Section 5. MILITARY LEAVE: In addition to the leaves of absence hereinabove provided for members of the Classified Service, those officers or employees in such service who are also members of the National Guard or Naval Militia, or of the Reserve Corps, or forces in the Federal Military, Naval, Marine or Coast Guard Service, shall be entitled to the leaves of absence authorized and provided by the Military and Veterans' Code of the State of California, and in addition thereto shall be entitled to the rights and privileges authorized by said Military and Veterans' Code with respect to status and re-employment. For those officers or employees of The City of San Diego who have been employed for at least one year in regular City employment, who serve either the United States or State of California in time of emergency or war, and who are not entitled to compensation or vacation under the Military and Veterans' Code of this State, the City shall provide and pay such officer or employee compensation for a period of time not to exceed 30 days.

Section 6. COMPULSORY LEAVE: If, in the opinion of the appointing authority, an employee is incapacitated for work on account of illness, such employee may be required to submit himself to a physician designated or approved by the Commission for examination. If the report of the physician shows the employee to be in an unfit condition to perform his duties, the appointing authority shall have the right to compel such employee to take sufficient leave of absence to fit him to

perform his duties. Evidence of such action shall be forthwith transmitted to the Personnel Director.

Section 7. SPECIAL LEAVE WITHOUT PAY: An employee holding a position in the Classified Service who is mentally or physically incapacitated to perform his duties or who desires to engage in a course of study such as will increase his usefulness on his return to the Classified Service, or who for any reason considered good by the appointing authority and the Commission, desires to secure leave from his regular duties, may on written request, approved by the appointing authority and the Commission, be granted special leave of absence without pay for a period not exceeding one year. Provided, that when leave of absence is granted to enable an employee to take a position in the Unclassified Service, the Commission may upon request grant successive leaves of absence during the actual service of the employee in such unclassified position. An employee asking for special leave without pay shall submit his request in writing stating the reasons why, in his opinion, the request should be granted, the date when he desires the leave to begin, and the probable date of his return. For each separate case of leave without pay the Commission shall at the time it approves the leave determine whether the employee granted such leave shall be entitled to his former position on his return from such leave, or whether his name shall be placed on the eligible list for the class.

Section 8. LEAVE TO SERVE ON JURY DUTY: Whenever a permanent employee is required to serve as juror, he shall be granted leave for such purpose upon presentation of jury notice to the appointing authority and the Personnel Director. If funds are available he may receive full pay for the time he serves on the jury, provided the money which he receives for jury duty is deposited with the City Auditor for credit to the proper fund. Request for such leave shall be made on leave of absence forms.

~~made-on-leave-of-absence-forms.~~

Section 9. ABSENCE FOR SPECIAL MEETINGS: Whenever it is deemed for the best interests of the City service, officers and employees may be granted the right to leave their regular duties for the purpose of attending professional or technical institutes or conferences, or such other meetings as may contribute to the effectiveness of their service to the City upon their return to duty, subject to the approval of the appointing authority or City Council, whichever is applicable. Evidence of such authorized absence shall be furnished by the department head to the Personnel Director. "

Section 2. After the effective date of this ordinance the foregoing Rule X shall be codified in the San Diego Municipal Code as Sections 23.1101, 23.1102, 23.1103, 23.1104, 23.1105, 23.1106, 23.1107, 23.1108 and 23.1109.

All leaves of absence, whether with or without pay, except compulsory leave, shall be submitted in writing on forms provided for that purpose, and must meet the approval of the Appointing Authority and Commission. Extended leaves of absence shall be presented to the Commission for action upon the recommendation of the appointing authority and the Personnel Director. Except in the case of sick or emergency leave the time during which any leave of absence shall be taken by an employee shall be designated by the appointing authority over the unit in which he is employed, and the request for such leave of absence, signed by the employee and by the appointing authority, shall be forwarded to the office of the Commission at least one week in advance of the beginning date of the leave requested. Leaves of absence shall be indicated on the semi-monthly time sheets submitted to the Personnel Director for checking and certification. Failure to submit requests for leaves of absence prior to the date on which payroll warrants are released will result in the withholding of the warrants until such requests have been submitted and approved.

Section 2. ANNUAL VACATION:

(1) FULL-TIME ACTIVE SERVICE: Each employee paid at a monthly rate, who has had full-time active service during the calendar year previous to that in which vacation is requested, shall be entitled in each calendar year to an annual vacation of 15 consecutive days, exclusive of Saturdays, Sundays and holidays as defined in the Government Code of the State of California with full pay for such time as the employee would have been paid if at work for the City for the same period of time, except each employee who has performed service of the San Diego Police Department shall be entitled to 21 calendar days with full pay, and in addition thereto shall be granted the following holidays with pay, namely: New Year's Day, Memorial Day, Labor Day, Thanksgiving Day, and Christmas Day. If an employee fails to take the vacation to which he is entitled prior to the date of his retirement, he shall forfeit all right to such vacation with pay.

Section 3. SICK, INJURY AND EMERGENCY LEAVES OF ABSENCE:

(1) SICK LEAVE DEFINITION: Sick leave is hereby defined to mean the necessary absence from duty of an employee because of non-service-connected illness, injury or exposure to contagious disease suffered by the employee.

(3) SICK LEAVE DURING PROBATIONARY PERIOD: During the original six month probationary period an employee may be granted sick leave without pay because of illness or injury not incurred on the job, or for reasons deemed good and sufficient by the appointing authority and Commission, but such leave shall not extend the regular probationary period, which the employee must complete.

Request for such leave shall be made on leave of absence forms.

SECTION 9. Evidence of such authorized absence shall be furnished by the department head to the Personnel Director.

"STORAGE, HANDLING, TRANSFER AND SALE OF FLAMMABLE LIQUIDS AND LIQUEFIED PETROLEUM GASES AT PETROLEUM MARINE FACILITIES IN THE TIDELAND AREAS.

"SEC. 55.08 PETROLEUM MARINE FACILITIES - DEFINITIONS

(a) TIDELANDS shall mean all tide and submerged lands, whether filled or unfilled, situated below the line of mean high tide within the Bay of San Diego, except such lands which have heretofore or which hereafter may be transferred to the exclusive control of the United States of America.

Tidelands shall also mean all tide and submerged lands, whether filled or unfilled, situated below the line of mean high tide in or adjacent to Mission Bay Park.

(b) FIRE CHIEF shall mean the Chief of the Fire Department or his deputies.

(c) PORT DIRECTOR shall mean the Port Director of the Bay of San Diego with respect to the tidelands in the Bay of San Diego, or the City Manager with respect to the tidelands of Mission Bay Park, and shall include officers, agents and deputies of said persons.

(d) CLOSED CONTAINER shall mean a container as herein defined, so sealed by means of a lid or other device that neither liquid nor vapor will escape from it at ordinary temperatures.

(e) CONTAINER shall mean any can, bucket, barrel, drum or portable tank, except stationary tanks, tank vehicles and tank cars.

(f) FLAMMABLE LIQUID shall mean any liquid having a flash point below 200°F. and having a vapor pressure not exceeding 40 pounds per square inch (absolute) at 100°F. Flammable liquids shall be divided into two classes as follows:

(1) Class I shall include those having flash points at or below 100°F.

(2) Class II shall include those having flash points above 100°F.

(g) FLASH POINT shall mean the minimum temperature in degrees Fahrenheit at which a flammable liquid will give off flammable vapor as determined by appropriate test procedure and apparatus as specified below. The flash point of flammable liquids having a flash point below 175°F. shall be determined in accordance with the Standard Method of Test for Flash Point by Means of the Tag Closed Tester (A.S.T.M. D-56-52) as published in the book of American Society for Testing Materials Standards (1952). The flash point of flammable liquids having a flash point of 175°F. or higher shall be determined in accordance with the Standard Method Test for Flash Point by Means of the Pensky-Martens Closed Tester (A.S.T.M. D-93-52) as published in the Book of American Society for Testing Materials Standards (1952).

(h) LIQUEFIED PETROLEUM GAS shall mean petroleum hydrocarbons or mixtures thereof, in liquid or gaseous state, having a vapor pressure in excess of 26 psi gage (40 psi absolute) at a temperature of 100°F.

D323-52) as published in the Book of American Society for Testing Materials Standards (1952). This method is also the standard of the American Standards Association (A.S.A. Z11.44-1952).

"SEC. 55.08.1 PETROLEUM MARINE FACILITIES - PERMIT REQUIRED

No person shall store, handle, sell, or transfer flammable liquids or liquefied petroleum gas at petroleum marine facilities, or construct or erect facilities for a petroleum marine facility without first obtaining a permit from the Fire Chief.

"SEC. 55.08.2 PETROLEUM MARINE FACILITIES - SPECIAL PERMIT - COUNCIL AUTHORIZATION REQUIRED

The City Council, upon application thereto, by resolution, may authorize the Fire Chief to issue a special permit for the storage, handling, sale or transfer of flammable liquids or liquefied petroleum gas at a petroleum marine facility in existence at the time of adoption of this section, which installation does not meet the requirements of this section and when failure to issue such permit would result in undue hardship to the operation of such installation, provided, however, that the operation under such special permit will not constitute a distinct hazard to life or property.

"SEC. 55.08.3 PETROLEUM MARINE FACILITIES - APPLICATION FOR PERMIT.

Every applicant for such permit to store, handle, sell or transfer flammable liquids or liquefied petroleum gas at a petroleum marine facility shall file with the Fire Chief and Port Director his written application which will state the name and address of the applicant, a description of the property, its location, street and number where the installation exists or is to be erected, existing or proposed fire protection devices and systems to be provided and the name and address of the contractor who is to perform any new work. The application shall include or be accompanied by plans, diagrams and specifications showing the character, manner and kind of installation.

"SEC. 55.08.4 PETROLEUM MARINE FACILITIES -
ISSUANCE OF PERMIT, SUSPENSION AND
REVOCATION

On receipt of the application, the Fire Chief and Port Director shall issue such permit if the Fire Department investigation discloses that the facts as set forth in the application are true, the safety conditions in and about the premises wherein and whereupon it is proposed to construct such installation and the installation itself conforms to the requirements of this code and the laws of the State of California and there will be no above ground bulk storage of flammable liquids. Where above ground bulk storage of flammable liquids is proposed in conjunction with a petroleum marine facility, the application shall be submitted to the City Council for approval.

A violation of permit requirements shall be grounds for denial of such permit, or, if previously issued, grounds for suspension or revocation.

"SEC. 55.08.5 PETROLEUM MARINE FACILITIES -
STORAGE AND DIKING REGULATED

The storage of flammable liquids and liquefied petroleum gas at petroleum marine facilities shall be subject to the following rules and regulations:

(a) Storage of flammable liquids at petroleum marine facilities shall be in closed containers or tanks outside of any building.

(b) Storage of flammable liquids at marine service stations shall be underground in approved tanks except as hereinafter provided.

(c) Not to exceed 5 gallons of Class I flammable liquids may be stored above ground, in closed containers, and outside of any building at marine service stations, except the Fire Chief may approve the use of one approved type 60-gallon gasoline buggy for dispensing flammable liquids at a marine service station.

(d) No person shall install, maintain, transport, store, dispense, or use any liquefied petroleum gas except in accordance with the provisions of The City of San Diego Municipal Code and the Liquefied Petroleum Gases Safety Orders issued by the Department of Industrial Relations of the State of California. When not in actual use, liquefied petroleum gas cylinders must be provided with shields or guards, in place, to prevent accidental damage to valves and fittings. The storage or filling of leaking or damaged containers or containers other than those meeting the requirements of orders 4933 and 4934 of the California Administrative Code, Title 8, is prohibited.

(e) Containers, tanks, equipment and apparatus, which by reason of accepted principles or standard tests, conducted by recognized national authorities or technical or scientific organizations, are suitable for the purpose intended or are listed or labelled by the Underwriters Laboratories, Inc., shall be considered as meeting the requirements of this section.

(f) All above-ground tanks at petroleum marine facilities shall be diked so as to provide sufficient net impounding basin capacity to retain the volume of the largest tank plus 10 percent of the volume of all other tanks served by these impounding means.

(g) Dikes shall be constructed of concrete designed to be liquid tight and to withstand the full hydraulic head. If the floor of the diked area is pervious, it shall be sealed.

(h) Provision shall be made for draining water from diked areas. The drains shall normally be kept closed and locked and shall be designed so that, when in use, they shall not permit flammable liquids to enter natural water courses, public sewers, public drains, the Bay of San Diego, or Mission Bay Park.

(i) The bottom of the impounding basin shall be smoothly graded and sloped toward a well defined sump. The slope shall be sufficient to prevent puddling of liquids but not less than one percent.

(j) Provision must be made for the prompt removal of flammable liquid spillages from within impounding basins. Such facilities must be provided on the demand of the Fire Chief or the Port Director.

"SEC. ^{55.08.6} PETROLEUM MARINE FACILITIES - INSTALLATION REGULATED

The installation and maintenance of tanks, piping, valves, fittings and pumps at petroleum marine facilities shall be subject to the following rules and regulations:

(a) Tanks and piping for flammable liquids, both above ground and underground, shall be protected from external corrosion in accordance with generally accepted good practice.

(b) Tanks and pipe systems shall be substantially supported and protected against physical damage and excessive stresses. A valve shall be provided in each line at or near the approach to the pier or wharf, whereby supply from shore may be cut off.

(c) Not more than two flexible connections shall be provided in any line leading from a pier or wharf to a float. An approved valve shall be provided on the pier or wharf to stop flow to the float in the event of rupture of such flexible connections.

(d) Pumps supplying flammable liquids at petroleum marine facilities shall be located on shore or on a pier of solid fill type. Unless fabricated with steel cases, pumps shall not be permitted within dikes surrounding above ground tanks.

(e) All commodity piping at petroleum marine facilities shall be of welded and flanged steel construction except that screwed piping, 2 inches and smaller in nominal size may be permitted if approved in writing by the Fire Chief. Cast

iron valves, flanges, fittings and accessories and valves or fittings made of low melting materials such as bronze, brass and aluminum shall not be used. This section shall not apply to liquid petroleum gases held for storage or sale.

"SEC. 55.08.7 PETROLEUM MARINE FACILITIES -
DISPENSING METHODS AND DEVICES
REGULATED

(a) Wharves, piers, or floats at petroleum marine facilities shall be used exclusively for the dispensing or transfer of petroleum products to or from marine craft except that transfer of essential ships stores is permitted at marine terminals and marine fueling stations.

(b) Dispensing of flammable liquids at marine fueling depots shall at all times be under the direct control of a competent person.

(c) Dispensing of Class I flammable liquids at marine fueling depots into the fuel tanks of marine craft shall be only by means of hoses equipped with a self-closing nozzle and with a valve, which must be held open manually while making the delivery. The nozzle shall be bonded to the fill opening or contact shall be maintained between the nozzle and the fill opening during the entire time that fuel is flowing from the nozzle.

(d) Dispensing of Class II flammable liquids at marine fueling depots into the tanks of marine craft may be by means of piping or a hose equipped with a ferrule and spout of such size that it will fit into the fill opening of the tank. Where deck piping is available on the craft, direct connection between the hose and such piping may be used. A shut-off valve in the fuel line shall be provided at an easily accessible location on the pier, wharf, or float. A competent person, acquainted with the operation of the system shall remain in the immediate vicinity. For the purpose of this section, this shall mean that such person shall

remain in clear sight of the operation, not more than 25 feet distant from the valve.

(e) Hoses used for dispensing or transferring flammable liquids at petroleum marine facilities, when not in use, shall be reeled, racked, stored in troughs or channels or otherwise protected from mechanical damage.

(f) Transfer of flammable liquids to or from any marine craft shall not be made except at a petroleum marine facility. In the event of an emergency, the Fire Chief and Port Director concurrently may authorize the transfer of flammable liquids at other locations.

(g) Liquefied petroleum gas cylinders shall not be filled or discharged at any petroleum marine facility without first obtaining concurrent written permission from the Fire Chief and Port Director.

(h) No vessel or craft other than tugs essential to its handling, shall be made fast to any other vessel or craft occupying a berth at any petroleum marine facility.

(i) When flammable liquids are transferred between ship and shore facilities at marine terminals, provision shall be made at the wharf connection to prevent or to contain any spillage or leakage.

(j) Petroleum products shall not be spilled or discharged into the waters of or onto the tidelands adjacent to the harbor or bay.

(k) Piping on petroleum marine facility piers, wharfs, and floats shall be grounded to water. Boat owners or operators shall not offer their craft for fueling unless the tanks being filled are properly vented to dissipate all fumes to the outside atmosphere.

"SEC. 55.08.8 PETROLEUM MARINE FACILITIES-FIRE PREVENTION
REGULATED

(a) All petroleum marine facilities shall be maintained in a neat and orderly manner and no accumulations of combust-

ble or flammable trash or rubbish shall be permitted.

(b) Covered metal cans shall be provided for the temporary storage of combustible rubbish and debris.

(c) No residence mooring of small craft shall be permitted at any pier, wharf, or float of any petroleum marine facility.

(d) No construction, maintenance, repair, or reconditioning work involving the use of open flames or arc or spark producing devices shall be performed on any petroleum marine facility or within 100 feet of the water boundaries of any petroleum marine facility including piers, wharfs, or floats except, the Fire Chief may grant permission in writing to make emergency repairs provided no fueling is done at the pier during the course of such emergency repairs.

(e) All electrical equipment installed and used in petroleum marine facilities must be in accordance with the Electrical Code of The City of San Diego.

(f) Smoking or open flames are prohibited at any marine fueling depot or marine terminal, and signs indicating this prohibition shall be posted conspicuously about the premises; EXCEPT smoking may be permitted in non-hazardous areas designated as such by the Fire Chief.

(g) There shall be prominently displayed at the face of each wharf, pier or float at marine fueling depots, at such an elevation as to be clearly visible from the decks of marine craft being fueled, a sign, not less than 14 inches by 20 inches, which shall bear the following or equivalent wording:

WARNING

LAW REQUIRES THAT OPEN FIRES AND OPEN LIGHTS
BE EXTINGUISHED AND ELECTRICAL EQUIPMENT BE
SHUT OFF WHILE FUELING IS IN PROGRESS.

(h) At marine terminals, means of communication acceptable to the Fire Chief and the Port Director shall be provided between the wharf connections and the tankage.

"SEC. 55.08.9 PETROLEUM MARINE FACILITIES -
FIRE FIGHTING EQUIPMENT REQUIRED

(a) At every petroleum marine facility, means shall be available for calling the Fire Department. Such means may consist of a proprietary alarm system, a fire department alarm box within 100 feet, or a telephone.

(b) Piers, docks and wharves at petroleum marine facilities shall be equipped with proprietary water mains of sufficient capacity and adequate size to permit delivery of water in the required number of combination fog and straight stream nozzles through the required lengths of hose at flowing pressures of not less than 75 psig at the nozzle.

(c) Water mains on piers, docks and wharves at petroleum marine facilities shall be equipped with fixed first aid hose stations as follows:

- (1) Marine Service Stations: Not less than one.
- (2) Marine Fueling Depots: Not less than two.
- (3) Marine Terminals: Not less than two.

Such first aid hose stations shall be fitted with at least 100 feet of either 1-inch nominal size hard hose or 1-1/2-inch nominal size double cotton-jacketed rubber lined fire hose equipped with national standard threads. Each such hose shall be equipped with an approved combination straight stream and fog nozzle. The hose shall be permanently connected to the water line, with nozzle attached, and shall be reeled or racked within an approved cabinet painted red. Such hose stations shall be marked FOR FIRE ONLY and shall be used for no other purpose except periodic testing.

(d) Water mains on piers, docks and wharves extending more than 200 feet off shore at petroleum marine facilities shall be equipped with standpipes located not more than 200

feet apart. Each standpipe shall be fitted with a hose hydrant gate valve of 2-1/2-inch nominal diameter. Valves shall be fitted with 2-1/2-inch National Standard Threads and shall be provided with caps and chains for thread protections. Where such standpipes are provided, the proprietary water main size and capacity shall be sufficient to supply water at not less than 75 psig. flowing pressure at 300 G.P.M.

(e) The Fire Chief may require delivery and pressure tests before approving any proprietary water main system.

(f) Pick-headed axes shall be provided on piers, docks or wharves at petroleum marine facilities as follows:

- (1) Marine Service Station: One on the float or each other location at which mooring lines usually are attached.
- (2) Marine Fueling Depots: One at or within 25 feet of each mooring bitt.
- (3) Marine Terminal: One at or within 25 feet of each mooring bitt or bollard and one on the outside of the wharf office or house.

(g) Dry chemical fire extinguishers in 20-lb. size, or the equivalent, shall be provided on piers, docks or wharves at petroleum marine facilities as follows:

- (1) Marine Service Stations: One on the float, one on the pier at the head of the gangway to the float and one at the office on the outside wall nearest the float. Where the office is within 25 feet of the head of the gangway or is on the float, the extinguisher at the head of the gangway need not be provided.
- (2) Marine Fueling Depots: One at each hose station and one at the office.
- (3) Marine Terminals: At least two within 50 feet of each riser or group of risers for flammable liquid handling and one at the office or dock house.

(h) While transferring fuels at marine terminals, means of communication acceptable to the Fire Chief and the Port Director shall be provided between wharf risers and the tankage.

(i) At marine terminal facilities other than piers, docks, and wharves, fire protection suitable for the hazard and

acceptable to the Fire Chief shall be provided within the limits of recognized good practice. Compliance with the provisions of the appropriate standards of the National Board of Fire Underwriters shall be prima-facie evidence of recognized good practice.

(j) At existing petroleum marine facilities, the Fire Chief may approve existing fire fighting facilities which provide substantially the same level of fire protection as that required by this code."

or transfer flammable liquids or li-
quefied petroleum gas at petroleum

exists or is to be erected, existing or
proposed fire protection devices and
systems to be provided and the name
and address of the contractor who is
to perform any new work. The appli-
cation shall include or be accompan-
ied by plans, diagrams and specifica-
tions showing the character, manner
and kind of installation.

"SEC. 55.08.4 PETROLEUM MARINE
FACILITIES - ISSUANCE OF PER-
MIT, SUSPENSION AND REVOCATION.

On receipt of the application, the
Fire Chief and Port Director shall
issue such permit if the Fire Depart-
ment investigation discloses that the
facts as set forth in the application
are true, the safety conditions in and
about the premises wherein and
whereupon it is proposed to construct
such installation and the installation
itself conforms to the requirements
of this code and the laws of the
State of California and there will be
no above ground bulk storage of flam-
mable liquids. Where above ground
bulk storage of flammable liquids is
proposed in conjunction with a petro-
leum marine facility, the application
shall be submitted to the City Council
for approval.

A violation of permit requirements
shall be grounds for denial of such
permit, or, if previously issued,
