BE IT ORDAINED, by the Council of The City of San Diego, as follows:

Section 1. That Section 64.32 of the San Diego Municipal Code, be, and the same is hereby amended to read as follows:

"SEC. 64.32 SEWER SERVICE CHARGE ESTABLISHED

"In addition to other fees, assessments or charges provided by the Municipal Code, the owner or occupant of any parcel of real property used for domestic purposes, including such commercial uses as the furnishing of lodging by the operation of hotels, auto courts, apartment houses, bungalow courts, housing units, or the rentals of property for lodging purposes, and for all purposes for which no other sewer service charge is provided, and which parcel of property is connected with the sewer system and/or water system of The City of San Diego, shall pay a sewer service charge based upon the average monthly water consumption of such parcel of real property. The average monthly water consumption shall be determined by computing to the nearest one hundred (100) cubic feet the monthly average of the readings of the next preceding calendar months December, January, February and March. The monthly domestic sewer service charge shall be an amount equal to Twelve Cents (\$0.12) per 100 cubic feet of the average monthly water consumption, but in no case shall be less than fifty per cent (50%) of the minimum monthly water charge as established by this Code. The sewer service charge for premises used for domestic purposes and newly connected to the sewer system, for which no average monthly water

consumption can be computed, shall be fifty per cent (50%) of the minimum monthly water charge as established by this Code.

The sewer service charge for premises which are under the commercial or industrial water rate shall be thirty per cent (30%) of the gross bill for water service as computed in accordance with the rates established by this Code for water supplied, but in no case shall be less than fifty per cent (50%) of the minimum monthly water charge as established by this Code.

A. The City Manager shall have the power to prescribe reasonable sewer service charges other than herein established and to establish rules and regulations for the granting of variances from the sewer service charges herein established for property connected with the sewer service and/or the water service of The City of San Diego. Such rules, regulations and sewer service charges shall be effective when approved by resolution of the City Council. The City Manager shall have the power to grant variances from the sewer service charges as established hereinabove upon his own initiative or when the owner or occupant of any premises applies therefor as hereinafter provided and one or more of the following situations exist:

(1) Where the sewage from any plant, building or premises of an industrial or commercial character shall be substantially different in volume or type from the average sewage entering the sewer system of the City. For the purpose of this subsection, "average sewage" shall be: In volume, 70 gallons of sewage for each 100 gallons of water consumed on any plant, building or premises of an industrial or commercial character, and In type, 300 parts per million of suspended solids and 300 parts per million of biochemical oxygen demand.

(2) Where the water supplied to the real property connected with the sewer system is received from a source other than The City of San Diego water system; provided that the sewer service charge for such property shall as nearly as possible be equivalent to the sewer service charge established under this section for similar property supplied with water from The City of San Diego water system.

(3) Where a substantial portion of the premises is used for an industrial, commercial, recreational, horticultural or agricultural purpose of such a nature that the water supplied to such premises is not entirely or substantially discharged into the sewer system.

(4) Where a fire service connection to the municipal water system is installed.

(5) Where the premises are not connected to the sewer system of The City of San Diego and it is not physically possible or reasonably feasible financially to connect such premises with the City sewer system.

(6) Where the premises are used for domestic purposes as defined in this section and the owner or occupant thereof applies in writing for a change to the Industrial and Commercial Sewer Service Charge, such change shall be effective upon the bill next following the filing of such application.

B. The owner or occupant of any premises subject to the sewer service charge may apply in writing to the City Manager for a reclassification of such premises under the provisions of Paragraphs A(1), A(2), A(3), A(4), or A(5); provided, however, that no rebate upon such reclassification shall be allowed for a period more than ninety (90) days

preceding the filing of such application. The applicant shall furnish substantial engineering and factual data to support the applicant's contention that the premises should be reclassified as provided in this section. The decision of the City Manager shall be final and conclusive.
