Whenever the City Engineer finds that a default has occurred in the performance of any term or condition of work authorized by a permit, he shall give written notice of such default to the principal and surety of the bond. Such notice shall state the work remaining to be done, the estimated cost of completion and the time estimated by the City Engineer to be necessary for the completion of the work. After receipt of such notice, the principal or the surety must, within the time specified, either complete the work satisfactorily or deposit with the City of San Diego an amount equal to the City Engineer's estimate of the completion cost plus an additional sum equal to 25% of such cost.

(b) In the event that the principal or surety fails to complete such work within the time specified in the notice, or fails to deposit the estimated cost plus 25% with the City, the City Engineer may cause the required work to be completed. The principal and the surety shall be liable for the cost of completing such work.

(c) If the principal or surety deposits the estimated cost plus 25% as set forth in the notice, the City Engineer shall cause the required work to be completed. The unexpended money shall be returned to the depositor at the completion of such work, together with an itemized accounting of the cost. The principal and surety shall hold the City blameless from any liability in connection with the work so performed by the City or Contractor employed by the City. The City shall not be liable in connection with such work other than for the expenditure of said money.

(d) In lieu of a surety bond, the permittee may post a cash deposit with the City Treasurer in an amount equal to the required bond. Notice of default as provided above shall be given to the principal and if the default is not corrected within the time specified, the City Engineer shall proceed without delay and without further notice of proceedings whatever to use the cash deposit or any portion of such deposit to complete the required work. The balance, if any, of such cash deposit shall, upon completion of the work, be returned to the depositor or to his successors or assigns after deducting the cost of the work.

**SEC. 62.0206 TYPE AND AMOUNT OF PERFORMANCE BOND.**

An annual and continuing bond may be an amount of \$5,000.00, \$10,000.00, \$25,000.00 or any larger amount in multiples of \$25,000.00.
