Section 1. That Section 64.32 of the San Diego Municipal
Code, be, and the same is hereby amended to read as follows:

"SEC. 64.32 SEWER SERVICE CHARGE ESTABLISHED.

In addition to other fees, assessments or charges
provided by the Municipal Code, the owner or occupant of
any parcel of real property used for domestic purposes,
including such commercial uses as the furnishing of
lodging by the operation of hotels, auto courts, apart-
ment houses, bungalow courts, housing units, or the
rentals of property for lodging purposes, and for all
purposes for which no other sewer service charge is
provided, and which parcel of property is connected
with the sewer system and/or water system of The City of
San Diego, shall pay a sewer service charge based upon
the average monthly water consumption of such parcel
of real property. The average monthly water consump-
tion shall be determined by computing to the nearest
one hundred (100) cubic feet the monthly average of the
readings of the next preceding calendar months December,
January, February and March. The monthly domestic sewer
service charge shall be an amount equal to Twelve Cents
(\$0.12) per 100 cubic feet of the average monthly water
consumption, but in no case shall be less than fifty
per cent (50%) of the minimum monthly water charge as
established by this Code. The sewer service charge for
premises used for domestic purposes and newly connected
to the sewer system, for which no average monthly water

consumption can be computed, shall be fifty per cent (50%) of the minimum monthly water charge as established by this Code.

The sewer service charge for premises which are under the commercial or industrial water rate shall be thirty per cent (30%) of the gross bill for water service as computed in accordance with the rates established by this Code for water supplied, but in no case shall be less than fifty per cent (50%) of the minimum monthly water charge as established by this Code.

A . The City Manager shall have the power to prescribe reasonable sewer service charges other than herein established and to establish rules and regulations for the granting of variances from the sewer service charges herein established for property connected with the sewer service and/or the water service of The City of San Diego. Such rules, regulations and sewer service charges shall be effective when approved by resolution of the City Council. The City Manager shall have the power to grant variances from the sewer service charges as established hereinabove upon his own initiative or when the owner or occupant of any premises applies therefor as hereinafter provided and one or more of the following situations exist:

(1) Where the sewage from any plant, building or premises of an industrial or commercial character shall be substantially different in volume or type from the average sewage entering the sewer system of the City. For the purpose of this subsection, "average sewage" shall be : In volume, 70 gallons of sewage for each 100 gallons of water consumed on any plant, building or premises of an industrial or commercial character, and in type, 300 parts per million of suspended solids and 300 parts per million of biochemical oxygen demand.

(2) Where the water supplied to the real property connected with the sewer system is received from a source other than The City of San Diego water system; provided that the sewer service charge for such property shall as nearly as possible be equivalent to the sewer service charge established under this section for similar property supplied with water from The City of San Diego water system.

(3) Where a substantial portion of the premises is used for an industrial, commercial, recreational, horticultural or agricultural purpose of such a nature that the water supplied to such premises is not entirely or substantially discharged into the sewer system.

(4) Where a fire service connection to the municipal water system is installed.

(5) Where the premises are not connected to the sewer system of The City of San Diego and it is not physically possible or reasonably feasible financially to connect such premises with the City sewer system.

(6) Where the premises are used for domestic purposes as defined in this section and the owner or occupant thereof applies in writing for a change to the Industrial and Commercial Sewer Service Charge, such change shall be effective upon the bill next following the filing of such application.

(7) Upon an application for a sewer service charge rate review from a domestic water consumer, where such water service is serving one or more family living units, and where a substantial portion of the water consumed is not disposed of into the sewage system

and/or when it is used for horticultural or agricultural purposes, a maximum of 15 H.C.F. of water per month shall be used as a basis for establishing the monthly sewer service charge for the first unit, and a maximum of 10 H.C.F. of water per month shall be used as a basis for establishing the monthly sewer service charge for each additional family living unit served on such premises. The domestic sewer service charge rate of 12 ¢ per H.C.F. per month applied to the sum of said quantities, as determined by the number of family living units, shall establish the monthly sewer service charge for the property, provided, however, that no rebate, as a result of said application, shall be allowed for a period of more than 90 days preceding the filing of such application.

B. The owner or occupant of any premises subject to the sewer service charge may apply in writing to the City Manager for a reclassification of such premises under the provisions of Paragraphs A(1), A(2), A(3), A(4), or A(5); provided, however, that no rebate upon such reclassification shall be allowed for a period more than ninety (90) days preceding the filing of such application. The applicant shall furnish substantial engineering and factual data to support the applicant's contention that the premises should be reclassified as provided in this section. The decision of the City Manager shall be final and conclusive.

Section 2. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

Fourth: The rights and privileges granted by this ordinance are made upon the further condition that said spur track shall be at all times subject to regulation of the Council of said City. That nothing herein contained shall be so construed as to prevent the Council from altering, amending or repealing this grant, or amending or repealing this ordinance in any and all respects.

Fifth: That said City of San Diego shall have the right to use said spur track at any time, without cost to said City.

Sixth: That the permission granted by this ordinance shall be revocable at the will of the Council of said City.
