BE IT ORDAINED, by the Council of The City of San Diego, as follows:

Section 1. That Sections 102.02, 102.16, 102.17, 102.18, 102.18.3 and 102.19 of the San Diego Municipal Code be, and they are hereby amended to read as follows:

"SEC. 102.02 TENTATIVE AND FINAL MAPS REQUIRED.

The Subdivider of land shall file a tentative subdivision map with the Planning Department, and, except as otherwise provided in Section 102.02.1, a final subdivision map with the City Engineer, which shall in all respects, be in full compliance with the provisions of this Code, and with the provisions of the Subdivision Map Act of the State of California, and any amendments thereto; provided, however, that where there is a conflict with regulations contained herein, the provisions of this Code shall prevail.

"SEC. 102.16 TENTATIVE MAP.

Each subdivider shall file with the Planning Commission a tentative map consisting of a reproducible tracing and subdivider's statement of accompanying data made in accordance with the requirements of this Chapter, and shall supply Planning Department with as many copies of the tentative map and subdivider's statement as Planning Director may require. The time of filing a tenta-

01249

tive map shall be construed to be the time at which the map, together with the required data is received in the office of the Planning Director. The tentative map shall not be received by the Planning Department until the required fee or deposit required under Section 102.16.4 for tentative maps has been paid.

The Planning Director shall indicate date of filing upon all copies of the tentative map and accompanying data.

"SEC. 102.17 SURVEY

1. Subsequent to the approval of the tentative map thereof, and prior to the filing with the City Engineer of the final map, or Record of Survey Map, each subdivision shall be surveyed accurately in accordance with the tentative map and all required alterations and changes; provided, however, that where the map is exclusively a reversion to acreage, such survey shall not be required.

2. The procedure and practice of all survey work done upon such subdivision shall conform to the accepted standards of the engineering profession. All subdivisions recorded by Record of Survey Map in lieu of subdivision map shall be processed through the City Engineer in the same manner as a subdivision map, including field survey. The City Engineer or a qualified representative may be designated as a Deputy County Surveyor.

3. Monuments. Permanent monuments shall be set at boundary corners of each subdivision and along the boundary lines at intervals of not more than one thousand (1000) feet. Such monuments shall be concrete monuments or iron pipes or a lead plug with copper tack and disc set in portland cement concrete sidewalk, curb or pavement.

For the purpose of this Article, a permanent monument shall be no less substantial than the following:

(1) A cylinder of reinforced concrete six inches in diameter not less than two (2) feet in length, set two (2) feet in the ground with the center point marked by a copper disc firmly set in the top; or (2) An iron pipe with a minimum two-inch inside diameter not less than two (2) feet in length, centered with a lead or cement plug, at least three (3) inches in depth, copper tack and disc, and driven at least two (2) feet into the ground; the top of such monument shall be flush with the surface of the ground; or (3) a lead plug with copper tack and disc set flush with the surface in portland cement concrete sidewalk, curb or pavement.

Monuments at block corners and at all angle points and points of curves of street and alley property lines, where portland cement concrete sidewalks, curbs or pavement exist or will be constructed as part of the subdivision requirements, shall be lead plugs with copper tack and disc set flush with the surface at an offset, to be measured radially or at right angles to the property line, in said sidewalks, curb or pavement. Where no such concrete work exists, and none will be required to be constructed, monuments shall be set at the true corners and points and shall not be less substantial than steel rods one-half inch in diameter, not less than eighteen (18) inches in length, and driven at least eighteen (18) inches into the ground.

Lot corners along street and alley property lines where portland cement concrete sidewalks, curbs or pavement exist, or will be constructed as part of the subdivision requirements shall be identified with lead plugs with copper tack and disc set flush with the surface at an offset, to be measured radially or at right angles to the

property line, in said sidewalk, curb or pavement. In case the side line of a lot is not radial or at right angles to the property line, a monument of the same character as that specified below where no concrete work exists, shall also be set at the true lot corner. Where no such concrete work exists, and none will be required to be constructed, all lot corners shall be marked with a two-inch cedar stake twelve (12) inches long, centered with a copper tack, driven at least ten (10) inches into the ground; or by a one-half inch steel rod or pipe, twelve (12) inches long, driven at least ten (10) inches into the ground.

In addition to the above monuments along street and alley property lines, concrete control monuments shall be set as part of the subdivision improvement work. The total number of control monuments shall be not less than one per eight hundred feet of street length within the subdivision, but the exact number, their character and locations shall be as directed by the City Engineer, and each monument with its tie dimensions and index number shall be shown on the subdivision map.

The original field notes or a copy thereof, certified by the surveyor, shall be filed in the office of the City Engineer.

"SEC. 102.18 FINAL MAP

1. Subdivider shall submit a final map to the City Engineer with such copies as the City Engineer may require, together with a copy of the corrected tentative map thereof, as approved by the Planning Commission, within one year after the City Council has by resolution approved said tentative map; the City Council by resolution may extend the approval

of the tentative map, not to exceed one additional year; any failure to record a final map within one year from the approval or conditional approval of the tentative map or any extension thereof granted by the City Council shall terminate all proceedings. Before a final map may thereafter be recorded, a new tentative map shall be submitted.

2. The final map shall conform to the approved tentative map and to the requirements and conditions contained in the resolution approving the tentative map and shall comply with all the provisions of this Article and the Subdivision Map Act of the State of California and any amendments thereto.

3. The final map shall be clearly and legibly drawn in black waterproof india ink upon good tracing cloth, except that affidavits, certificates and acknowledgments may be permanently and legibly stamped or printed with opaque ink which will not wear off; or final map may be a transparent linen reproduction with dense black lines of equivalent quality and permanence.

4. The size of the final map sheets shall be eighteen inches high by twenty-six inches wide (18" x 26"), including a blank margin of one inch all around, and the scale of the drawing shall be 100 feet to one inch, or 50 feet to one inch.

5. If the number of map sheets, excepting title sheets, exceeds five, a key map on a reduced scale, showing the subdivision boundary, the streets and the sheet layout, shall be included as part of the map.

6. The description of the property being subdivided must appear on the title sheet, but need not be by metes and bounds and may be general in character, and the subdivision boundary must be outlined in transparent blue waterproof drawing ink on the back of each sheet of the map tracing.

"SEC. 102.18.3 FINAL MAP - PROCEDURE

1. The City Engineer shall check the final map or the Record of Survey map, submitted in lieu of final subdivision map, for correctness of mathematical data and computations and the setting of monuments.

2. One copy of the corrected final subdivision map or Record of Survey map, and the legal description thereof shall be referred by the City Engineer to the City Attorney for examination and approval. The City Attorney shall examine the map for sufficiency of affidavits, legal descriptions and other checking to insure compliance with the applicable provisions of law.

3. The corrected final subdivision map or Record of Survey Map together with two (2) copies thereof shall be referred to the Planning Commission. Planning Commission shall examine the map for compliance with the tentative map and approved changes thereof. When the City Planning Commission is satisfied from a study of the map and a field inspection that the subdivision complies with the provisions of this Article and the State laws, it may, by a majority vote, approve said map and recommend its adoption by the City Council.

4. After the final map has been signed by the Chairman and the Secretary of the Planning Commission, it shall be forwarded to the City Attorney to submit to the City Council.

"SEC. 102.19 FINAL MAPS - IMPROVEMENTS

1. Subdivider shall improve all land for streets, highways and other public ways in the manner and to the extent set forth and required in resolution of City Council approving the tentative subdivision map and shall set survey monuments as required by the Code.

2. Prior to any construction of improvements required by Subsection 1, subdivider shall file with the City Clerk detailed Plans and Specifications, approved by the City Engineer, for all the public improvements required in Subsection 1 to be made or installed in the streets or public ways, within or without said subdivision.

3. In the event the improvements required in Subsection 1 have not been made, installed and completed at the time the final map is presented to the City Council for acceptance, such map shall not be accepted by the City Council unless the subdivider, prior to or simultaneously with the presentation of said final map to the City Council shall have complied with and performed the following requirements:

(a) Subdivider shall, in addition to filing detailed Plans and Specifications required by Subsection 2, file a detailed estimate made or approved by the City Engineer of the cost of such improvements and an estimate of the time reasonably necessary to complete the same.

(b) Subdivider shall enter into a contract with the City of San Diego to make, install and complete within one year of the date of execution thereof, all the improvements not already installed and completed, required under Subsection 1 of this section, and shall cause to be filed with the City Clerk a faithful performance bond in favor of The City of San Diego in a penal sum equal to the City Engineer's estimate of the cost of said improvements, plus 10%, which bond shall insure the completion of the required public improvements and shall have been

approved by the City Attorney as to form, and approved by the City Manager. Said bond need not cover the cost of any improvements for which a permit has been issued under Chapter VI, Article 2 of this Code.

(c) In the event that subdivider desires to submit cash in lieu of a faithful performance bond, he may do so by depositing with the City, a sum of money equal to the City Engineer's estimate of the cost of said improvements, plus 10%. (NEW SERIES)**

AN ORDINANCE AMENDING CHAPTER X, ARTICLE 2 OF THE SAN DIEGO MUNICIPAL CODE BY AMENDING SECTIONS 102.02, 102.16, 102.17, 102.18, 102.18.3 AND 102.19 THEREOF AND BY ADDING THERETO THREE NEW SECTIONS TO BE KNOWN AS AND NUMBERED SECTIONS 102.16.4, 102.18.4 AND 102.19.1, AND REPEALING SECTION 102.21 THEREOF, RELATING TO SUBDIVISION REQUIREMENTS.

BE IT ORDAINED, by the Council of The City of San Diego, as follows:

Section 1. That Sections 102.02, 102.16, 102.17, 102.18, 102.18.3 and 102.19 of the San Diego Municipal Code be, and they are hereby amended to read as follows:

"SEC. 102.02 TENTATIVE AND FINAL MAPS REQUIRED.

The Subdivider of land shall file a tentative subdivision map with the Planning Department, and, except as otherwise provided in Section 102.02.1, a final subdivision map with the City Engineer, which shall in all respects, be in

full compliance with the provisions of this Code, and with the provisions of the Subdivision Map Act of the State of California, and any amendments thereto; provided, however, that where there is a conflict with regulations contained herein, the provisions of this Code shall prevail.

"SEC. 102.16 TENTATIVE MAP.

Each subdivider shall file with the Planning Commission a tentative map consisting of a reproducible tracing and subdivider's statement of accompanying data made in accordance with the requirements of this Chapter, and shall supply Planning Department with as many copies of the tentative map and subdivider's statement as Planning Director may require. The time of filing a tentative map shall be construed to be the time at which the map, together with the required data is received in the office of the Planning Director. The tentative map shall not be received by the Planning Department until the required fee or deposit required under Section 102.16.4 for tentative maps has been paid.

The Planning Director shall indicate date of filing upon all copies of the tentative map and accompanying data.

"SEC. 102.17 SURVEY

1. Subsequent to the approval of the tentative map thereof, and prior to the filing with the City Engineer of the final map, or Record of Survey Map, each subdivision shall be surveyed accurately in accordance with the tentative map and all required alterations and changes; provided, however, that where the map is exclusively a reversion to acreage, such survey shall not be required.

2. The procedure and practice of all survey work done upon such subdivision shall conform to the accepted standards of the engineering profession. All subdivisions recorded by Record of Survey Map in lieu of subdivision map shall be processed through the City Engineer in the same manner as a subdivision map, including field survey. The City Engineer or a qualified representative may be designated as a Deputy County Surveyor.

3. Monuments. Permanent monuments shall be set at boundary corners of each subdivision and along the boundary lines at intervals of not more than one thousand (1000) feet. Such monuments shall be concrete monuments or iron pipes or a lead plug with copper tack and disc set in portland cement concrete sidewalk, curb or pavement.

For the purpose of this Article, a permanent monument shall be no less substantial than the following: (1) A cylinder of reinforced concrete six inches in diameter not less than two (2) feet in length, set two (2) feet in the ground with the center point marked by a copper disc firmly set in the top; or (2) An iron pipe with a minimum two-inch inside diameter not less than two (2) feet in length, centered with a lead or cement plug, at least three (3) inches in depth, copper tack and disc, and driven at least two (2) feet into the ground; the top of such monument shall be flush with the surface of the ground; or (3) a lead plug with copper tack and disc set flush with the surface in portland cement concrete sidewalk, curb or pavement.

Monuments at block corners and at all angle points and points of curves of street and alley property lines, where portland cement concrete sidewalks, curbs or pavement exist or will be constructed

ferred by the City Engineer to the City Attorney for examination and approval. The City Attorney shall examine the map for sufficiency of affidavits, legal descriptions and other checking to insure compliance with the applicable provisions of law.

3. The corrected final subdivision map or Record of Survey Map together with two (2) copies thereof shall be referred to the Planning Commission. Planning Commission shall examine the map for compliance with the tentative map and approved changes thereof. When the City Planning Commission is satisfied from a study of the map and a field inspection that the subdivision complies with the provisions of this Article and the State laws, it may, by a majority vote, approve said map and recommend its adoption by the City Council.

4. After the final map has been signed by the Chairman and the Secretary of the Planning Commission, it shall be forwarded to the City Attorney to submit to the City Council.

"SEC. 102.19 FINAL MAPS—IMPROVEMENTS

1. Subdivider shall improve all land for streets, highways and other public ways in the manner and to the extent set forth and required in resolution of City Council approving the tentative subdivision map and shall set survey monuments as required by the Code.

2. Prior to any construction of improvements required by Subsection 1, subdivider shall file with the City Clerk detailed Plans and Specifications, approved by the City Engineer, for all the public improvements required in Subsection 1 to be made or installed in the streets or public ways, within or without said subdivision.

3. In the event the improvements required in Subsection 1 have not been made, installed and completed at the time the final map is presented to the City Council for acceptance, such map shall not be accepted by the City Council unless the subdivider, prior to or simultaneously with the presentation of said final map to the City Council shall have complied with and performed the following requirements:

(a) Subdivider shall, in addition to filing detailed Plans and Specifications required by Subsection 2, file a detailed estimate made or approved by the City Engineer of the cost of such improvements and an estimate of the time reasonably necessary to complete the same.

(b) Subdivider shall enter into a contract with the City of San Diego to make, install and complete within one year of the date of execution thereof, all the improvements not already installed and completed, required under Subsection 1 of this section, and shall cause to be filed with the City Clerk a faithful performance bond in favor of The City of San Diego in a penal sum equal to the City Engineer's estimate of the cost of said improvements, plus 10 per cent, which bond shall insure the completion of the required public improvements and shall have been approved by the City Attorney as to form, and approved by the City Manager. Said bond need not cover the cost of any improvements for which a permit has been issued under Chapter VI, Article 2 of this Code.

(c) In the event that subdivider desires to submit cash in lieu of a faithful performance bond, he may do so by depositing with the City, a sum of money equal to the City Engineer's estimate of the cost of said improvements, plus 10 per cent. In that event, the subdivider shall agree in the contract with the City heretofore provided for, that if the said work is not performed within the agreed time or within an extension of time authorized by City Council Resolution, and the subdivider is, by City Council Resolution, declared to be in default of his contract, said sum of money so deposited shall be used by the City for the completion of the public improvements referred to in Subsection 1 hereof. Upon completion and acceptance by the City of the improvements, the deposit or any portion remaining with the City Treasurer, shall be returned by the City to the subdivider.

4. In the event subdivider desires to install improvements in public streets, or rights of way, he shall have the option of complying with the provisions of Subsection 3 of this section, or complying with the provisions of Chapter VI, Article 2, San Diego Municipal Code.

(c-2) It shall further be unlawful for any person, firm, association or corporation to have or to keep in storage any explosive or inflammable gases whatsoever, or empty containers which previously contained such products, on any float, wharf, pier or other harbor facility in the designated anchorage areas, except by special permission of the Port Director and then only in such areas as he may designate. The Port Director may order the removal of such products from any area at any time in the interests of public safety.

(c-3) The Port Director may require the installation of fire protection equipment acceptable to the Port Director and the Fire Department at any location where the storage, handling, keeping, use or sale of gasoline, distillate, or any liquid petroleum product, explosive or inflammable gas is authorized. The Port Director shall require the installation of fire protection equipment acceptable to the Port Director and the Fire Department at all floats, wharves, piers, and other harbor facilities, including those under lease or otherwise under the control of Yacht Clubs, Associations or other persons, when five or more craft are regularly berthed at or assigned to such floats, wharves, piers, and other harbor facilities. Said Fire protection equipment shall be installed at the head, i.e., shore end, of said floats, wharves, piers, and other harbor facility in such manner and location as may be designated by the Port Director, and all fire protection equipment so installed shall be maintained in such a condition and to such standards as may be set forth by the Fire Department. The cost, installation and maintenance of said fire protection equipment shall be borne by lessees, Yacht Clubs, Associations or other persons using said floats,

wharves, piers or other harbor facilities in common. Duly authorized representatives of the Harbor Department and the Fire Department may inspect said fire protection equipment at such time and intervals they deem advisable.

(e) Floats, wharves, piers and other harbor facilities may be maintained by the Harbor Department, and such harbor facilities shall be available for the loading and unloading of passengers, supplies, boating gear and for similar purposes, and in such manner as will best serve the public use thereof and avoid congestion and the blocking of other facilities. However, the loading and unloading of passengers, supplies, boating gear, shall not be construed so as to include the handling of commercial cargo, in any manner which is unlawful and strictly prohibited. The Port Director shall have the authority to control the use of any and all facilities and to regulate the time and manner of said use for the purpose of maintaining said facilities available to the public.

(f) It shall be unlawful for any person to obstruct, the free and easy access to and departure from any portion of any public float, wharf, pier or other harbor facility at any time. It shall be unlawful to obstruct the land side of any public facility with automobile or any other vehicle or gear and the Port Director shall cause to be impounded at the expense of the owner any automobile or

other vehicle or gear which shall obstruct such public facilities.

(g) It shall be unlawful to allow vessels, boats, materials, garbage, refuse, timbers or waste matter of any description to remain upon the shore lines of the designated anchorage areas and any person violating this provision shall be subject to the penalty provided hereinafter, and in addition thereto, the Port Director may remove same with or without notice, at his option, and any cost of removing the same may be recovered by the City of San Diego against any guilty party, in any Court of competent jurisdiction.

(h) It shall be unlawful for any vessel to pump, discharge or dump into the waters of the designated anchorage areas, oil, spirits, gasoline, distillate, or any petroleum product, or any inflammable material whatsoever, or to deposit any refuse matter, rubbish or articles of any offensive nature upon any float, wharf, pier or upon any shoreline, roadway or parkway.

(i) No person, firm, corporation or association shall build or cause to be built or extended, any public or privately owned, float, wharf, pier, landing, bulkhead, seawall or structure of any sort whatsoever, nor make, or cause, any filling to be made of any description in the designated anchorage areas, nor shall any dredging or excavating be done within said areas for the benefit or use of any private person, firm, corporation or association unless plans showing the proposed work shall first have been submitted to the Port Director and approved by the Harbor Commission and a permit issued therefore.

(j) It shall be unlawful for any person to throw,

discharge, deposit or leave, or cause, suffer or procure to be thrown, discharged, deposited or left, either from out of any vessel or from the shore, any trash, cans or rubbish of any description whatever upon the waters of the designated anchorage areas.

(k) It shall be the duty of every owner or other person in charge of a vessel in the designated anchorage areas to apprise themselves of weather conditions and to heed storm warnings, and to take such steps as are necessary under the circumstances to insure the safety of such vessels in the event of unusual tide and weather conditions. It shall likewise be the duty of every owner or other person in charge of a vessel in the designated anchorage areas to inspect the moorings, lines, bilges and appurtenances of such vessels at reasonable intervals, in order to preclude hazards common to vessels, and to insure seaworthiness.

(l) It shall be unlawful for any vessel to make fast or moor to any can buoy, nun buoy, spar buoy or any other officially designated aid to navigation.

(m) It shall be unlawful for any person to drive or operate a vessel upon the waters of the designated anchorage areas in so reckless a manner as to indicate either a willful or wanton disregard for the safety of persons or property.

(o) It shall be unlawful for any person to conduct or take part in any race, demonstration or exhibit of any kind that interferes with the free use of the designated anchorage areas, unless a written permit for such event

designating the prescribed area to be used had first been procured from the Port Director.

(p) When the Port Director shall learn that any wharf, dock or pier, in the designated anchorage areas is in a defective or dangerous condition so that life or property is endangered thereby, the Port Director shall immediately notify the owner thereof, his agent, lessee, or any other person or persons having charge of the same in writing, of the defective and dangerous condition thereof, requiring such person or persons to immediately repair the same or to put up fences or other barrier to prevent persons from using or going upon the same. If the owner, lessee, or other person or persons having charge of wharves, docks or piers shall fail or neglect to repair or to put up fences or other barriers to prevent persons from using or going upon such defective or dangerous wharves, docks, or piers, then the Port Director may put up fences or such other barriers as he may deem necessary for the protection of the public, and charge the cost and expense of the same to such owner, lessee, agent, person or persons having charge of such wharf, dock or pier, and it shall be unlawful for any person or persons whatsoever to interfere with or molest in any manner whatsoever any fence or barrier which may have been constructed for the purpose of preventing the use of the wharves, docks or piers aforesaid.

If any wharf, or any portion thereof, or any material on such wharf, shall fall into the waters of the designated anchorage areas, it shall be the duty of the owner, agent or lessee of such wharf to forthwith remove such material from the waters of said area, and if they shall fail to do so, then the Port Director may remove or cause the same to be removed and the cost of such removal by the Port

Director shall be recovered from the owner, agent, or lessee of such wharf in a civil action brought by the City of San Diego.

(q) It shall be unlawful for any person to wilfully or carelessly destroy, damage, disturb, deface or interfere with any buoy, float, life preserver sign, notice or any other municipal property whatsoever under the jurisdiction of the Harbor Commission.

No person shall either individually, or in association with one or more persons, wilfully injure or tamper with any boat, vessel, yacht, or other watercraft, in the designated anchorage areas, or break or remove any part or parts of or from such boats, vessels, yachts, or other watercraft, without the consent of the owner.

No person shall, with intent to commit malicious mischief, injury or other crime, climb into or upon any boat, vessel, yacht, or other watercraft moored, tied or anchored in the designated anchorage areas.

No person shall climb into or upon any boat, vessel, yacht, or other watercraft moored, tied or anchored in the designated anchorage areas without the consent of the owner or operator of said boat.

Floods On Rio Grande

BROWNSVILLE, Tex., Oct. 16 (AP)—An estimated 10,000 citizens of low-lying Mexican border towns gathered in order to see higher ground today as the swollen Rio Grande clawed its way through reinforced levees.

And on the U.S. side, headwaters up to five inches thick failed to drain as fast as the swollen river, sent another 120 persons to a temporary evacuation center.

8,000 EVACUATED

The 8,000 inhabitants from Rio Grande City, were evacuated when flood water from the Rio San Juan backed up and flooded streets.

At Reynosa, across from Del Rio, another estimated 30 persons were homeless after workmen destroyed the levee on an irrigation canal, backing up from the Rio Grande into the canal.

The Texas Department of Public Safety said 120 persons were removed from their homes in Elsa, Tex., after water from heavy rain washed into houses. Schools in the area closed.

RIVER STILL RISING

The Rio Grande, fed by heavy releases from upstream Falcon Reservoir and continued heavy rains, continued to roar on toward the Gulf of Mexico today, as much as five feet above flood stage at some points.

The weather bureau said the Rio San Juan in Mexico continued to increase its discharge into the Rio Grande and the main river was expected to hit 27 feet — a foot above flood stage — at Rio Grande City tomorrow.

Druggist's Error Nearly Fatal

TOKYO, Oct. 15 (UPI) — A frantic air and sea search today saved from possible death seven Japanese sailors who were about to use a deadly poison to wash their dishes.

The search began when a druggist mistakenly sold the sailors some poisonous potassium cyanide instead of caustic soda for dishwashing. The druggist called the owners of the Kofuku Maru, but it was at sea and could not be reached. A fishing vessel reached the ship in time.

a. The salaries of the Superintendent of the San Diego City and County Administration Building and Grounds, together with the maintenance and operation of the Civic Center Site and elevators in said Administration Building shall be shared equally by the City and the County.

b. The entire cost of additions, alterations, improvements or fixtures acquired or installed by either said County or said City primarily for its own use and benefit, save and except the cost of any labor which may be performed in connection therewith by the personnel of the Administration Building and Grounds Department, shall be borne by the party acquiring or installing the same.

c. The entire cost of additions, alterations, improvements, fixtures or capital outlays acquired or installed for the common use and benefit of both said County and said City, or the general public, shall be shared equally by said City and said County.

The following allocations of space are hereby established and determined: The space occupied by the offices of County Assessor and County Tax Collector shall, without regard to the legal status of said offices, be considered as County space. Space occupied by the Superintendent of the San Diego City and County Administration Building and Grounds for office, carpenter and paint shops, space occupied by the Governmental Reference Library, coffee shop and press room, shall be considered as occupied by said County and said City on an equal basis. Public corridor space, rest room space, and all other space in the building which is not capable of being readily allocated as either County or City space, shall likewise be considered as occupied by said County and said City, respectively, on the same comparative basis as the aggregate space in said building occupied by said County bears to such space occupied by said City. d. The cost of maintaining and operating any building space on the Civic Center Site or in the vicinity of the San Diego City and County Administration Building wholly owned by the City or the County shall be borne by the jurisdiction affected. Section 4. An annual budget of proposed expenditures for maintenance and operation of said building and Civic Center Site shall be prepared by the Superintendent of the San Diego City and County Administration Building and Grounds pursuant to county budget laws, analyzed by the City and County administrative offices, submitted to and reviewed by the Administration Building Control Committee, and submitted to both the Council of said City and the Board of Supervisors of said County for approval. The budget shall set forth the estimated proportions of expenditure for maintenance and support and improvements to be borne by each agency in accordance with Section 3 of this ordinance, using the floor space ratio existing at the time of budget preparation. Said City and said County shall, after approval of said budget, appropriate their respective portions of the budget requirements.

Section 5. The funds appropriated for the maintenance, operation and improvement of the San Diego City and County Administration Building and the Civic Center Site shall be expended as directed by the Administration Building Control Committee. The procedures for expenditure of funds shall be in accordance with County laws, rules and regulations, and the responsibility and liability for accounting, purchasing, custody and disbursement of funds and property in connection with the maintenance and operation of said building and grounds shall be exercised by the proper administrative officers of said County in like manner as with other County property and funds. Subject to audit by the County Auditor and Controller and the City Auditor and Comptroller, the Superintendent of the San Diego City and County Administration Building and Grounds shall bill said City monthly and said City shall pay monthly for its proportion of disbursements made in accordance with the allocation and sharing of costs between said County and said

Section 9. If in the exercise of its functions the Administration Building Control Committee requires a service or the performance of work which the City of San Diego can and will perform, the Administration Building Control Committee, in its discretion, may contract with the City of San Diego for the performance of such service or work.

Section 10. Notwithstanding any provision to the contrary herein contained, this ordinance shall become inoperative and without force or effect unless the Board of Supervisors of the County of San Diego shall not later than November 1, 1958, adopt an ordinance containing substantially the same provisions.
