ORDINANCE NO. 8304
(New Series)

AN ORDINANCE ESTABLISHING A SCHEDULE OF COMPENSATION FOR OFFICERS AND EMPLOYEES OF THE CITY OF SAN DIEGO.

BE IT ORDAINED, By the Council of The City of San Diego, as follows:

Section 1. As a schedule of compensation for all officers and employees of The City of San Diego, including the Unclassified and Classified Services, there is hereby adopted and established a Table of Standard Rates of Pay for bi-weekly salaries, containing minimum, maximum and intermediate range steps for each standard rate. Said compensation schedule is attached hereto as Exhibit "A".

The "Equivalent Monthly Rates" set forth in Exhibit "A" are for comparative and information purposes.

Section 2. "COMPENSATION", as used in this ordinance, means the remuneration paid in cash out of City funds controlled by the Council of The City of San Diego, plus the monetary value, as determined by the department head with the approval of the Civil Service Commission, of such housing, lodging, fuel, public utility services, or other advantages similar in character, furnished to an officer or employee in payment of his services.

For purposes of deduction for contributions of officers and employees required by law, the City Auditor and Comptroller shall use the amount fixed in the standard rate hereinafter set forth without regard to the monetary value of the advantages herein enumerated furnished to the officer or employee in payment of his services. Warrants issued for compensation to such officers and employees by such City Auditor and Comptroller shall be for the amount set forth in the standard rate attached to the position minus the monetary value of the advantages fur-

nished said employee as compensation, as determined above.

Section 3. For all positions in the Classified Service of The City of San Diego the Standard Rate Numbers, providing uniform compensation for like service, attached hereto as Exhibit "B", are hereby adopted. Increases in compensation within the range limits of the Standard Rate Number attached to the position may be granted by the appointing authority upon the basis of efficiency and seniority after first receiving the approval of the Civil Service Commission therefor.

Section 4. For all positions in the Unclassified Service of The City of San Diego the Standard Rate Numbers, attached hereto as Exhibit "C", are hereby adopted.

The compensation for officers and employees in the Unclassified Service shall be determined and set by the appointing authority at any one of the range steps of the Standard Rate Numbers attached to the position in said Exhibit "C".

Increases in compensation for officers and employees in the Unclassified Service, within the range limits of the Standard Rate Number attached to the position, may be granted by the appointing authority upon the basis of efficiency and seniority after first receiving the approval of the City Council therefor.

Section 5. For the purpose of computing vacations, leaves of absence, overtime, and terminal severance pay, the Auditor and Comptroller is hereby authorized to utilize compilations based upon an eight-hour day and a forty-hour week.

Section 6. The members of the Classified Service, other than firemen and part-time employees, shall receive the salaries provided herein as compensation in full for work performed by them during an average forty-hour week and eight-hour day throughout the fiscal year, except as hereinafter provided.

The Civil Service Commission shall establish and supervise a uniform extra compensation plan which shall provide overtime pay not to exceed one and one-half times an eligible employee's regular rate of pay, or time off in lieu, and shall provide for extra compensation of one Standard Rate whenever an eligible employee is required for a significant period to work at times substantially unusual for his class of employment, such as (1) working a night shift in which the majority of the hours of work scheduled for said employee throughout any pay period are before 8:00 A.M. or after 6:00 P.M. or (2) on a long-term schedule, working a shift regularly split by more than two consecutive hours or such other work schedule as may be determined by the Civil Service Commission and the City Manager or non-managerial appointing authority to be substantially unusual for the class of employment. An eligible employee who is required to work under more than one of the unusual conditions indicated above shall receive one Standard Rate increase for each of said unusual conditions which shall be certified by the appointing authority on the official payroll time sheets to the Personnel Director. Such increases in compensation shall be identified and symbolized on all official payrolls and all records pertaining to said employees' compensation. When one or more of the said working conditions are commonly accepted conditions for the class of employment, the Civil Service Commission shall take such working conditions into consideration in establishing the compensation for the class.

The employees in the Classified Service who shall be entitled to receive overtime compensation, as herein provided, shall be designated by the Civil Service Commission after consultation with the City Manager and non-managerial department

heads and in accordance with definitions and procedures developed by the Civil Service Commission in collaboration with the said appointing authorities, which said definitions and procedures shall be binding on all appointing authorities.

In addition to the foregoing provisions for extra compensations, an employee who has been released from work and has left the work premises shall, if he is called back to duty, be paid for the reasonable estimate of the time required for him to travel from and to his residence and the work area, and for the time he actually works. The total time of call-back pay, including travel time, shall not be less than two hours, and shall be computed at the employee's regular rate or at one and one-half times said rate, if the employee is eligible for premium overtime pay.

Section 7. In fixing and approving the Standard Rates for the officers and employees of the City this Council has recognized the necessity to increase certain salaries heretofore paid, and in so doing the Council has intended and does hereby intend, in fixing said rates, that where a standard rate of pay has been increased from that heretofore paid, said officer and employee whose rate of pay has thus been increased, shall be entitled to the percentage rate of increase intended, and that such new rate of pay shall be fixed so as to apply to that same step under the new Standard Rate that said employee occupied under the old Standard Rate.

Section 8. There is hereby created a class to be known as "Terminal Employee." Any employee, Classified or Unclassified, taking terminal leave prior to termination of City service shall be transferred to the class of "Terminal Employee" as of the date said terminal leave commences. Upon transfer to said class each employee shall be paid at the rate and step established for the position occupied by him at the

time of his transfer. Such employee shall be an employee of the department in which he was serving at the time of his transfer.

Section 9. The compensation schedule established by Ordinance No. 8118 (New Series) is hereby continued in force and effect through the pay period ending July 7, 1960. The compensation schedule established by this ordinance shall become effective with the pay period commencing July 8, 1960.

THE SAN DIEGO UNION

ORDINANCE NO. 8304
(NEW SERIES)

AN ORDINANCE ESTABLISHING A SCHEDULE OF COMPENSATION FOR OFFICERS AND EMPLOYEES OF THE CITY OF SAN DIEGO.

BE IT ORDAINED, By the Council of The City of San Diego, as follows:

Section 1. As a schedule of compensation for all officers and employees of The City of San Diego, including the Unclassified and Classified Services, there is hereby adopted and established a Table of Standard Rates of Pay for bi-weekly salaries, containing minimum, maximum and intermediate range steps for each standard rate. Said compensation schedule is attached hereto as Exhibit "A."

The "Equivalent Monthly Rates" set forth in Exhibit "A" are for comparative and information purposes.

Section 2. "COMPENSATION," as used in this ordinance, means the remuneration paid in cash out of City funds controlled by the Council of The City of San Diego, plus the monetary value, as determined by the department head with the approval of the Civil Service Commission, of such housing, lodging, fuel, public utility services, or other advantages similar in character, furnished to an officer or employee in payment of his services.

For purposes of deduction for contributions of officers and employees required by law, the City Auditor and Comptroller shall use the amount fixed in the standard rate hereinafter set forth without regard to the monetary value of the advantages herein enumerated furnished to the officer or employee in payment of his services. Warrants issued for compensation to such officers and employees by such City Auditor and Comptroller shall be for the amount set forth in the standard rate attached to the position minus the monetary value of the advantages furnished said employee as compensation, as determined above.

Section 3. For all positions in the Classified Service of The City of San Diego the Standard Rate Numbers, providing uniform compensation for like service, attached hereto as Exhibit "B," are hereby adopted. Increases in compensation within the range limits of the Standard Rate Number attached to the position may be granted by the appointing authority upon the basis of efficiency and seniority after first receiving the approval of the Civil Service Commission therefor.

Section 4. For all positions in the Unclassified Service of The City of San Diego the Standard Rate Numbers, attached hereto as Exhibit "C," are hereby adopted.

The compensation for officers and employees in the Unclassified Service shall be determined and set by the appointing authority at any one of the range steps of the Standard Rate Numbers attached to the position in said Exhibit "C."

Increases in compensation for officers and employees in the Unclassified Service, within the range limits of the Standard Rate Number attached to the position, may be granted by the appointing authority upon the basis of efficiency and seniority after first receiving the approval of the City Council therefor.

Section 5. For the purpose of computing vacations, leaves of absence, overtime, and terminal severance pay, the Auditor and Comptroller is hereby authorized to utilize compilations based upon an eight-hour day and a forty-hour week.

Section 6. The members of the Classified Service, other than firemen and part-time employees, shall receive the salaries provided herein as compensation in full for work performed by them during an average forty-hour week and eight-hour day throughout the fiscal year, except as hereinafter provided.

The Civil Service Commission shall establish and supervise a uniform extra compensation plan which shall provide overtime pay not to exceed one and one-half times an eligible employee's regular rate of pay, or time off in lieu, and shall provide for extra compensation of one Standard Rate whenever an eligible employee is required for a significant period to work at times substantially unusual for his class of employment, such as (1) working a night shift in which the majority of the hours of work scheduled for said employee throughout any pay period are before 8:00 A.M. or after 6:00 P.M. or (2) on a long-term schedule, working a shift regularly split by more than two consecutive hours or such other work schedule as may be determined by the Civil Service Commission and the City Manager or non-managerial appointing authority to be substantially unusual for the class of employment. An eligible employee who is required to work under more than one of the unusual conditions indicated above shall receive one Standard Rate increase for each of said unusual conditions which shall be certified by the appointing authority on the official payroll time sheets to the Personnel Director. Such increases in compensation shall be identified and symbolized on all official payrolls and all records pertaining to said employees' compensation. When one or more of the said working conditions are commonly accepted conditions for the class of employment, the Civil Service Commission shall take such working conditions into consideration in establishing the compensation for the class.

The employees in the Classified Service who shall be entitled to receive overtime compensation, as herein provided, shall be designated by the Civil Service Commission after consultation with the City Manager and non-managerial department heads and in accordance with definitions and procedures developed by the Civil Service Commission in collaboration with the said appointing authorities, which said definitions and procedures shall be binding on all appointing authorities.

In addition to the foregoing provisions for extra compensations, an employee who has been released from work and has left the work premises shall, if he is called back to duty, be paid for the reasonable estimate of the time required for him to travel from and to his residence and the work area, and for the time he actually works. The total time of call-back pay, including travel time, shall not be less than two hours, and shall be computed at the employee's regular rate or at one and one-half times said rate, if the employee is eligible for premium overtime pay.

Section 7. In fixing and approving the Standard Rates for the officers and employees of the City this Council has recognized the necessity to increase certain salaries heretofore paid, and in so doing the Council has intended and does hereby intend, in fixing said rates, that where a standard rate of pay has been increased from that heretofore paid, said officer and employee whose rate of pay has thus been increased, shall be entitled to the percentage rate of increase intended, and that such new rate of pay shall be fixed so as to apply to that same step under the new Standard Rate that said employee occupied under the old Standard Rate.

Section 8. There is hereby created a class to be known as "Terminal Employee." Any employee, Classified or Unclassified, taking terminal leave prior to termination of City service shall be transferred to the class of "Terminal Employee" as of the date said terminal leave commences. Upon transfer to said class each employee shall be paid at the rate and step established for the position occupied by him at the time of his transfer. Such employee shall be an employee of the department in which he was serving at the time of his transfer.

Section 9. The compensation schedule established by Ordinance No. 8118 (New Series) is hereby continued in force and effect through the pay period ending July 7, 1960. The compensation schedule established by this ordinance shall become effective with the pay period commencing July 8, 1960.

Section 10. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

Crash Starts Forest Fire

SAN BERNARDINO, July 6 (UPI)—A single-engine Navy attack dive bomber crashed today in the San Bernardino Mountains and started a forest fire.

The plane, stationed at Moffett Air Force Base near San Francisco, carried only its pilot. Sheriff's officers and the coroner said the plane burned after crashing and there was no sign of life. The scene was at the 7,000-foot level of Holcomb Valley, 20 miles northeast of here.

U.S. Forest Service crews immediately began work to control the fire, which spread rapidly over five acres five miles north of Big Bear Lake.

Ejector Saves 2 In Jet Crash

SANTA ANA, July 6 (UPI) — A Marine jet trainer crashed moments after takeoff today. A new type ejector saved its two occupants.

The subsonic fighter took off from El Toro Marine Base. Witnesses said it exploded and crashed in a bean field a mile from the base.

Aboard were Lt. Harold G. Haffner, 25, of Sidney, Mont., and Donald B. Grimes, 23, of Bakersfield.

A spokesman said the ejector shot them 70 feet into the air and opened their parachutes.

Section 90.2.

Unless the context otherwise requires, the definitions contained in this section shall govern the construction thereof.

"This section" as used in this section means this Section 90.2.

"Sewer system" as used in this section means all sanitary sewers, sewer works, sewage treatment and disposal works and facilities of the city for the collection, transmission, treatment or disposal of sewage and comprises the entire system of sewers and sewer works and facilities of the city and includes all parts thereof, whether physically connected to other parts of the system or otherwise, and shall include all additions thereto, whether physically connected to other parts of the system or otherwise, and all extensions and improvements of the sewer system or any part thereof. Nothing herein shall preclude the construction of facilities for the reclamation of water from sewage in the sewer system and the city may at any time determine whether such facilities or any portion thereof shall be

constructed and operated as a part of the sewer system or as a part of the water system, or otherwise.

"Sewer service charges" as used in this section means charges, fees, tolls, rates and rentals established or imposed by the city for service by or for the use of the sewer system or any part thereof.

"Revenues" as used in this section means all sewer service charges received, and any sums received by the city from other cities, districts or public corporations (including the United States of America and the State of California) under contracts providing for the transmission, treatment or disposal of sewage from such other cities, districts or public corporations through or by means of the sewer system or any part thereof, and all other income and revenue derived by the city from the operation of the "sewer system" or any part thereof. "Revenues" shall not be construed to include taxes or assessments levied by the city.

"Sewer Revenue Fund" as used in this section means the Sewer Revenue Fund heretofore established into which revenues from the sewer system have been paid, and said fund has been, is and shall be derived from "revenues."

Subsection 1. Revenue bonds to provide money for the acquisition and construction of sewer mains, interceptor sewers, pumping plants, trunk sewers, outfall sewers, sewer works, sewage treatment plants, works and facilities, and sewage disposal works or facilities which

01493

will be additons to, extensions and improvements of the sewer system, and for the reconstruction or replacement of parts of the sewer system, including all necessary equipment, appurtenances and appurtenant work and the acquisition of all lands, easements and property necessary therefor and for facilities for the reclamation of water from sewage in the sewer system (if such reclamation facilities are to be constructed and operated as a part of the sewer system) may be issued as provided in this section. Any issue of revenue bonds may be for any or all of said purposes. To any extent necessary or convenient, any of the sewers, plants, works or facilities or any part thereof may be located outside the city.

Subdivision A. Revenue bonds issued under this section shall not constitute an indebtedness of the city but shall constitute obligations which shall be payable, principal and interest, and any premiums upon the redemption thereof prior to maturity, only from the Sewer Revenue Fund; provided, however, that this shall not preclude the payment or redemption thereof from the proceeds of refunding bonds issued to refund said revenue bonds, or the use of accrued interest and premiums paid upon the sale and delivery of the revenue bonds for the payment of principal thereof or interest thereon, or the payment out of the proceeds of any bonds of the whole or a part of the interest

01494

accruing on said bonds during the period of acquisition and construction of the work to be paid for out of such proceeds and for the first six months thereafter.

Subdivision B. Refunding revenue bonds for the purpose of refunding any revenue bonds issued under this section may be issued as provided in this section and shall be payable from the Sewer Revenue Fund. No restriction or limitations upon or procedure for the issuance of bonds in other sections of this charter shall apply to revenue bonds issued under this section (including refunding revenue bonds) and this section shall constitute complete authority for the issuance of such revenue bonds (including such refunding revenue bonds) and any action or proceeding not required by this section shall not be necessary for the valid authorization and issuance of such revenue bonds. No revenue bond issued under this section or any interest payable thereon shall be or become an obligation chargeable or enforceable against any of the tax revenues of the city or any other revenues of said city except such revenues as are required under the provisions of this section to be paid into the Sewer Revenue Fund.

Subdivision C. The limitations upon bonded indebtedness of The City of San Diego contained in Sections 76 and 90 of this charter or in any other section or provision thereof shall not apply to revenue bonds issued under this section or under any provisions of this charter or under any general law of the State of California where such revenue bonds are payable

exclusively from a special fund derived from revenues obtained from any public utility or improvement of the city and are not payable from taxes levied by the city and such revenue bonds shall not be deemed indebtedness of the city within the meaning of the debt limitation provisions contained in Sections 76 and 90 of this charter or in any other section thereof.

Subsection 2. To provide money for the purpose of the acquisition and construction of sewer mains, interceptor sewers, pumping plants, trunk sewers, outfall sewer, sewer works, sewage treatment plant, works and facilities, sewage disposal works and facilities and submarine ocean outfall sewer, which will be additions to, extensions and improvements of the sewer system, including for the foregoing all necessary equipment, appurtenances and appurtenant work and including the acquisition of all lands, easements and property necessary therefor, and including reconstruction or replacement of parts of sewers and reconstruction of sewer facilities necessary for any of the foregoing, the Council is hereby authorized to issue, in one issue or in separate issues or series from time to time, under this section, revenue bonds in total principal amount not to exceed $42,500,000. The maximum rate of interest on said bonds shall not exceed six per cent per annum, payable semiannually. Revenue bonds, if any, issued under this section in excess of said sum of $42,500,000 shall be authorized by proceedings taken in the manner hereinafter provided under Subsection 3.

Subsection 3. Except as provided in Subsection 2 above and except refunding sewer revenue bonds, revenue bonds payable from the Sewer Revenue Fund shall be authorized in the manner provided in this Subsection 3.

The first step in the proceedings shall be a recommendation by the City Manager that bonds be issued hereunder, which recommendation shall state generally the purposes of the revenue bond issue and the principal amount thereof. Such recommendation need not be in any particular form. After the recommendation by the City Manager has been received by the Council it may adopt an ordinance finding the need for the issuance of revenue bonds under this section for the purposes set forth in the recommendation of the City Manager. The Council, by said ordinance, shall submit to the qualified voters of the city at an election held for that purpose the question of issuing revenue bonds pursuant to this section to provide moneys for the purposes stated in the recommendation of the City Manager.

The Council, by a vote of two-thirds of the members thereof, may adopt a resolution stating that it determines to proceed under this section without a recommendation by the City Manager. Any such resolution also shall state generally the purposes of the proposed revenue bond issue and the principal amount thereof and in the event such resolution is adopted the recommendation of the City Manager shall not be required and the ordinance shall find the need for the issuance of revenue bonds under this section for the purposes stated in the resolution and the purposes stated in the proposition

submitted to the qualified voters of the city shall be the purposes stated in such resolution. In the event the Council adopts a resolution to proceed without the recommendation by the City Manager, the ordinance calling the election may be adopted only by a vote of at least two-thirds of the members of the Council and at a meeting subsequent to that at which the resolution was adopted.

Subdivision A. The ordinance calling the election also shall:

(1) state the purposes for which the bonds are proposed to be issued;

(2) state the principal amount of the bonds;

(3) state the maximum rate of interest on the bonds, which shall not exceed six per cent per annum, payable semiannually;

(4) call the election and fix the election date;

(5) fix the manner of holding the election;

(6) fix the manner of voting for or against the issuance of the bonds.

In all particulars not stated in said ordinance the election shall be held and the votes canvassed in the manner provided by law for general municipal elections in the city.

Subdivision B. The proposition shall be submitted at a special election called for that purpose and any special election called for the purpose of voting upon a proposition to issue bonds under this section may be consolidated with any city or other election at

which all of the qualified voters residing within the city are entitled to vote. Such consolidation may be made in the manner authorized under the Elections Code of the State of California or under the Elections Code of the city.

Subdivision C. The ordinance shall be published once a week for two succeeding weeks in the official newspaper of the city, the first publication to be at least 21 days prior to the election. No other notice of such election need be given. If a majority of the voters voting on the proposition of issuing the bonds vote in favor of the issuance thereof bonds in an amount not exceeding the amount stated in the ordinance calling the election may be issued.

No error, irregularity or omission in the election or in any of the proceedings prior thereto which does not affect the substantial rights of the people of the city or the electors voting at the election at which any revenue bonds are authorized under this section shall invalidate the election.

Subsection 4. The Council may issue all bonds authorized at an election in one issue or in two or more series and may fix different dates and maturities for the bonds of each series. It may issue all bonds authorized by Subsection 2 hereof in one issue or in two or more issues or series and may fix different dates and maturities for the bonds of each issue or series. The bonds of any issue or series issued under this section may be serial bonds or term bonds or any combination thereof with such maturities as may be determined by the Council, but

no bond shall run more than forty (40) years from its date.

Any ordinance providing for the issuance of bonds hereunder shall recite the objects and purposes for which the bonds are to be issued, fix the principal amount of the bonds to be issued pursuant to such ordinance, the maximum rate of interest to be payable thereon, not to exceed six per cent per annum, payable semiannually, the date of said bonds, and the maturities thereof.

Said bonds shall be issued in negotiable form and shall be negotiable. The recitals of regularity of proceedings in any revenue bond issued and sold under this section shall be conclusive evidence of compliance with the provisions of this section and of the validity of such bonds, and no bona fide purchaser of any such bond containing the recital permitted by this section shall be required to see to the existence of any fact or to the performance of any condition or to the taking of any proceeding required prior to the actual issuance and delivery of said bonds or to the application of the purchase price paid for said bonds.

Subdivision A. REVENUE BONDS - TERMS AND CONDITIONS: In any ordinance providing for the issuance of revenue bonds under this section, the Council may fix the terms and conditions thereof (including covenants) and may in any article, section, sentence or clause thereof make such provision (including covenant) as it may deem necessary or desirable to facilitate the

issuance and sale of the bonds or for the protection or security of the holders thereof, including, without affecting the generality of the foregoing, any or all of the following:

(1) The denomination or denominations of the bonds, the medium of payment thereof, the place or places of payment thereof, which may be within or without the State of California, the form of said bonds (including recitals of regularity) and of interest coupons pertaining thereto, the form, denomination and conditions of any temporary bonds or interim certificates, and the manual (one signature must be manual) and facsimile signatures to be affixed to said bonds (definitive or temporary) or interim certificates, and the facsimile signature to be affixed to interest coupons;

(2) The terms and conditions under which said bonds or any part thereof may be paid and redeemed before maturity (including the premiums, if any, payable upon bonds redeemed prior to maturity), exchanged, registered, transferred, or negotiated;

(3) Covenants or provisions relating to rates (called in this section Sewer Service Charges). Such sewer service charges shall be fixed by the Council of said city and, with reasonable allowances for contingencies, must be at least sufficient, together with other revenues, if any, payable into the Sewer Revenue Fund, to provide revenues sufficient to pay, as the same become due, principal and interest of all revenue bonds payable out of said Sewer Revenue Fund (including all payments required to be made into reserve and sinking funds, if any, for said revenue bonds) and all other obligations payable from the

Sewer Revenue Fund, and the necessary expenses of maintaining and operating the "sewer system." The ordinance may also state the extent, if any, to which such sewer service may be furnished or rendered to the city free or to the United States of America, the State of California, or to any city or other public corporation or body at lower rates than otherwise charged;

(4) The collection, deposit and safekeeping of the revenues and the permissible uses thereof; provided, however, that the cost of maintenance and operation of the sewer system (and only such cost) shall be payable from the Sewer Revenue Fund prior to the payment of principal and interest of the revenue bonds or the setting aside in the bond service, sinking, redemption, reserve, or other fund, monthly or otherwise, of funds therefor;

(5) The special fund or funds to be established and maintained for the payment of principal and interest of the bonds; including reserve, sinking, bond service, redemption, and trust funds, and any revenue bond payable from the Sewer Revenue Fund may be paid from any such special fund set up therefor; the permissible investments of moneys in said funds, or any thereof; the accounts and records to be kept, audits thereof and examination thereof by bondholders and others;

(6) Carrying of insurance upon any sewers, sewage treatment plant or plants or sewage disposal works against any or all risks, and in case of loss the application of the insurance proceeds;

(7) Prohibition against or limitations upon the sale, lease or other disposition or transfer of the sewer system or any substantial part thereof, and the use of any funds derived from any sale, lease or other disposition or transfer permitted under the terms of said ordinance;

(8) Limitations upon the issuance of any additional bonds payable from the Sewer Revenue Fund, but no bond shall be issued pursuant to this section or under any other provision of this charter or any other law having any priority in payment of principal or interest out of such fund or out of any revenues payable into such fund over any revenue bonds theretofore issued and payable out of said fund;

(9) Provisions whereby the consent or agreement of a stated percentage or number of the holders of the bonds may bind all holders to modifications of provisions of any ordinance, resolution or order authorizing or providing for the issuance of such bonds or the sale thereof, or to a refunding of said bonds and to calls or exchanges in connection with such refunding;

(10) For the issuance of a duplicate in the manner and upon such terms and conditions as the Council may determine, in the event any bond, temporary bond, coupon or interim certificate of any such issue is lost, destroyed or mutilated;

(11) Any other provision (including covenant) valid under the Constitution of the State of California and the United States of America.

Such ordinance shall be subject to referendum in the manner that other ordinances of the City are subject to referendum.

Any ordinance providing for the issuance of any revenue bonds under this section and all other ordinances, resolutions or orders in the proceeding for the issuance of said bonds shall constitute a contract with the holders of the bonds and may be enforced by any holder by mandamus, injunction or any applicable legal action, suit, proceeding or other remedy.

Subsection 5. LIMITATIONS. Revenue bonds issued under this section shall be issued substantially in compliance with the following limitations:

(a) No bond shall run more than forty years from its date;

(b) Said bonds shall be designated "Sewer Revenue Bonds" and each bond shall state on its face that it does not constitute an indebtedness of the City but is an obligation payable, principal and interest, and premiums, if any, upon the redemption thereof only from the Sewer Revenue Fund. Such statement shall not preclude the payment or redemption thereof from the funds or moneys specified in Subdivision A of Subsection 1;

(c) Said bonds shall be sold only at public sale following such notice as the Council by resolution or order may prescribed; provided, however, that if no bid or no satisfactory bid is received pursuant to such notice

the Council may reject all bids received, if any, and may thereafter sell such bonds at public or private sale; provided, further, that the provisions of this subsection shall not apply to the exchange of any refunding bonds for outstanding bonds. Any such revenue bonds may be sold at a fixed rate of interest or the bidders may be invited to state the rate or rates of interest at which they will purchase said bonds, but no rate of interest on any of the bonds shall exceed the maximum rate stated in the ordinance calling the election to vote upon the issuance of said bonds or as to bonds authorized by Subsection 2 hereof the maximum rate stated in said Subsection 2. If the bidders are invited to state the interest rate or rates, then upon the acceptance of a bid the Council shall by resolution or order, which shall not be subject to referendum, fix such interest rate or rates as have been bid by the successful bidder as the rate or rates of interest on the bonds sold;

(d) Said bonds shall be sold for not less than par and accrued interest to date of delivery. The proceeds from the sale (except premium and accrued interest which shall be paid into the bond service or other fund designated or established for the payment of principal and interest of the bonds) shall be paid into the construction fund designated by the ordinance providing for issuance of such bonds and shall be applied exclusively to the objects and purposes set forth in such ordinance; provided, however, (1) that the Sewer Revenue Fund from which the bonds are payable may be

reimbursed from such proceeds for expenditures for purposes for which the bonds were issued made from such Sewer Revenue Fund after the issuance of the bonds has been authorized by the voters or as to bonds authorized by Subsection 2 hereof, after the date this amendment becomes effective; (2) that said proceeds may be used for the payment of interest on said bonds during the period of acquisition and construction and for the first six months thereafter; and (3) that when the objects and purposes for which the bonds are issued have been accomplished any remaining unexpended funds derived from the sale of said bonds shall be used for the payment of principal and interest of said revenue bonds or for the redemption of any callable bonds thereof.

Subsection 6. Refunding revenue bonds payable from the Sewer Revenue Fund may be issued for the payment or redemption of any revenue bonds issued pursuant to this section and such refunding bonds may be issued in principal amount sufficient to refund the outstanding bonds proposed to be refunded thereby, including payment of interest to maturity on any noncallable bonds to be refunded and of accrued interest to date of redemption and of any premiums payable upon redemption of bonds which by their terms are subject to call and redemption prior to maturity, and all expenses of such refunding. Refunding revenue bonds may be authorized, issued and sold substantially in the manner provided for the issuance and sale of other revenue bonds hereunder or may be exchanged for the outstanding bonds

to be refunded upon such terms and conditions as may be stated in the ordinance authorizing such refunding bonds, except that no election shall be necessary to authorize the issuance of refunding bonds hereunder and the first step in the proceeding shall be the ordinance of issuance. The ordinance providing for the issuance of refunding bonds shall be subject to referendum in the same manner as other ordinances of the city.

Subsection 7. To the extent that any provision of any ordinance authorizing the issuance of revenue bonds pursuant to this section or any provision of any ordinance, resolution or order pertaining to such revenue bonds adopted pursuant to the authority of this section is inconsistent with any of the provisions of any other section of this charter the provisions of such ordinance, resolution or order shall control so long as any of the bonds or coupons to which the same pertain are outstanding and unpaid. No bond shall be deemed to be outstanding and unpaid within the meaning of this section if moneys for the purpose of paying the same or redeeming the same prior to maturity and sufficient therefor have been irrevocably set aside in a bond service fund, sinking fund, redemption fund, or other trust fund created to insure the payment or redemption thereof.

The Council is authorized to take any and all steps necessary or convenient for the authorization,

issuance and sale of revenue bonds under this section and for the payment or redemption thereof.

Subsection 8.

Subdivision A. The Council may at any time establish and provide for the collection of sewer service charges and must establish and provide for the collection of such sewer service charges as are required by any ordinance providing for the issuance of revenue bonds under this section. Sewer service charges shall not be deemed taxes or assessments within the meaning of any section of this charter and shall not be enforceable by any lien upon real property. "Sewer service charges" may be collected with water rates, fees or charges (herein called "water rates") of The City of San Diego. The Council may provide and covenant that where the city furnishes water to the property receiving sewer service the sewer service charges shall be collected with and not separately from the water rates of said city and that all charges shall be billed upon the same bill and collected as one item and may also provide and covenant that in the event of nonpayment of any part of the bill for the sewer service charge and water rate, the water service shall be shut off within such time as may be or shall have been prescribed by the Council. Delinquent sewer service charges may be collected by suit in any court of competent jurisdiction. The Council may provide additional methods of collecting sewer service charges. The Council also may prescribe and establish penalties for the nonpayment of sewer service charges. The Council may take any and all steps to establish and provide for the collection of sewer service charges.

Subdivision B. All revenues shall be paid into the Sewer Revenue Fund and shall be used only for the following purposes: (1) paying the cost of maintenance and operation of the sewer system; (2) paying principal and interest (including payments into any reserve or sinking fund) and premiums, if any, upon redemption, of sewer revenue bonds issued under this section and payable from said Sewer Revenue Fund; (3) paying all or any part of the cost and expense of extending, reconstructing or improving the sewer system or any part thereof or making additions to such system; (4) transferring from any surplus in the Sewer Revenue Fund to the Capital Outlays Fund, at one time or from time to time, all or any part of the sums expended from said Capital Outlays Fund after July 1, 1960, for any purpose for which revenue bonds may be issued under this section; (5) paying from any surplus in the Sewer Revenue Fund principal or interest, or both, or any part thereof, of general obligation bonds heretofore or hereafter issued for any purpose for which revenue bonds may be issued under this section.

Any ordinance providing for the issuance of revenue bonds hereunder may contain covenants defining, limiting or restricting the use of moneys in said Sewer Revenue Fund and said covenants shall control so long as any bonds issued under said ordinance are outstanding and unpaid within the meaning of this section.

Subdivision C. Interest (including interest

on investments) on the Sewer Revenue Fund or on any fund created by or under the authority of this section shall be credited to the particular fund.

Subsection 9.

Subdivision A. The City may issue general obligation bonds for sewer purposes. General obligation bonds of the city may also be issued to refund any revenue bonds, principal, interest and premium, if any, issued under this section, if authorized by a two-thirds vote of the qualified electors of the city voting upon the question of the issuance thereof at an election called and held for that purpose. Such election may be called by ordinance in the same manner as any other special election is called under the charter of the city.

The city may expend funds derived from taxes for the acquisition and construction of sewers, and to the extent that may legally be done under this section may expend funds derived from taxes for the maintenance and operation of sewers, but no funds derived from taxes shall be considered revenues as in this section defined and no such funds derived from taxes shall be paid into the Sewer Revenue Fund and no revenue bond issued under this section or any interest thereon shall be or become an obligation chargeable or enforceable against any of the tax revenues of the city.

Subdivision B. The city may levy special assessments for the acquisition and construction of sewers or sewer works and such assessments shall not be construed as "revenues" as defined in this section and shall not be paid into the Sewer Revenue Fund.

Nothing in this section shall be construed to restrict the power of the city to consent to the formation or organization of special districts for the purpose of collection, transmission, treatment or disposal of sewage within portions of the city which are not at that time served by the city sewer system and which in the opinion of the Council cannot conveniently be served by or through the city sewer system. Before any such district is formed or organized which includes territory of the city therein the consent of the city to the inclusion therein of such territory shall be manifested by ordinance of the Council. The Council shall have authority to provide reasonable terms and conditions under which the portion of the city may be included in said district and upon which the district may operate its facilities within The City of San Diego.

Nothing in this section shall be construed as implying any doubt of the power of the city to establish and collect service charges for service by or for the use of sewers under its general charter powers.

Subsection 10. This section and every part thereof shall be liberally construed to promote the objects thereof and to carry out its intents and purposes.

the city.

Subdivision A. Revenue bonds issued under this section shall not constitute an indebtedness of the city but shall constitute obligations which shall be payable, principal and interest, and any premiums upon the redemption thereof prior to maturity, only from the Sewer Revenue Fund; provided, however, that this shall not preclude the payment or redemption thereof from the proceeds of refunding bonds issued to refund said revenue bonds, or the use of accrued interest and premiums paid upon the sale and delivery of the revenue bonds for the payment of principal thereof or interest thereon, or the payment out of the proceeds of any bonds of the whole or a part of the interest accruing on said bonds during the period of acquisition and construction of the work to be paid for out of such proceeds and for the first six months thereafter.

Subdivision B. Refunding revenue bonds for the purpose of refunding any revenue bonds issued under this section may be issued as provided in this section and shall be payable from the Sewer Revenue Fund. No restriction or limitations upon or procedure for the issuance of bonds in other sections of this charter shall apply to revenue bonds issued under this section (including refunding revenue bonds) and this section shall constitute complete authority for the issuance of such revenue bonds (including such refunding revenue bonds) and any action or proceeding not required by this section shall not be necessary for the valid authorization and issuance of such revenue bonds. No revenue bond issued under this section or any interest payable thereon shall be or become an obligation chargeable or enforceable against any of the tax revenues of the city or any other revenues of said city except such revenues as are required under the provisions of this section to be paid into the Sewer Revenue Fund.

Subdivision C. The limitations upon bonded indebtedness of The City of San Diego contained in Sections 76 and 90 of this charter or in any other section or provision thereof shall not apply to revenue bonds issued under this section or under any provisions of this charter or under any general law of the State of California where such revenue bonds are payable exclusively from a special fund derived from revenues obtained from any public utility or improvement of the city and are not payable from taxes levied by the city and such revenue bonds shall not be deemed indebtedness of the city within the meaning of the debt limitation provisions contained in Sections 76 and 90 of this charter or in any other section thereof.

Subsection 2. To provide money for the purpose of the acquisition and construction of sewer mains, interceptor sewers, pumping plants, trunk sewers, outfall sewer, sewer works, sewage treatment plant, facilities, sewage disposal facilities and submarine sewer, which will [illegible] extensions and improvements of the sewer system, and the foregoing all necessary equipment, appurtenances and appurtenant work and including the acquisition of all lands, easements and property necessary therefor, and including reconstruction or replacement of parts of sewers and reconstruction of sewer facilities necessary for any of the foregoing, the Council is hereby authorized to issue, in one issue or in separate issues or series from time to time, under this section, revenue bonds in total principal amount not to exceed $42,500,000. The maximum rate of interest on said bonds shall not exceed six per cent per annum, payable semiannually. Revenue bonds, if any, issued under this section in excess of said sum of $42,500,000 shall be authorized by proceedings taken in the manner hereinafter provided under Subsection 3.

Subsection 3. Except as provided in Subsection 2 above and except refunding sewer revenue bonds, revenue bonds payable from the Sewer Revenue Fund shall be authorized in the manner provided in this Subsection 3.

The first step in the proceedings shall be a recommendation by the City Manager that bonds be issued hereunder, which recommendation shall state generally the purposes of the revenue bond issue and the principal amount thereof. Such recommendation need not be in any particular form. After the recommendation by the City Manager has been received by the Council it may adopt an ordinance finding the need for the issuance of revenue bonds under this section for the purposes set forth in the recommendation of the City Manager. The Council, by said ordinance, shall submit to the qualified voters of the city at an election held for that purpose the question of issuing revenue bonds pursuant to this section to provide moneys for the purposes stated in the recommendation of the City Manager.

The Council, by a vote of two-thirds of the members thereof, may adopt a resolution stating that it determines to proceed under this section without a recommendation by the City Manager. Any such resolution also shall state generally the purposes of the proposed revenue bond issue and the principal amount thereof and in the event such resolution is adopted the recommendation of the City Manager shall not be required and the ordinance shall find the need for the issuance of revenue bonds under this section for the purposes stated in the resolution and the purposes stated in the proposition submitted to the qualified voters of the city shall be the purposes stated in such resolution. In the event the Council adopts a resolution to proceed without the recommendation by the City Manager, the ordinance calling the election may be adopted only by a [illegible]

num, payable semiannually, the date of said bonds, and the maturities thereof.

Said bonds shall be issued in negotiable form and shall be negotiable. The recitals of regularity of proceedings in any revenue bond issued and said under this section shall be conclusive evidence of compliance with the provisions of this section and of the validity of such bonds, and no bona fide purchaser of any such bond containing the recital permitted by this section shall be required to see to the existence of any fact or to the performance of any condition or to the taking of any proceeding required prior to the actual issuance and delivery of said bonds or to the application of the purchase price paid for said bonds.

Subdivision A. REVENUE BONDS—TERMS AND CONDITIONS. In any ordinance providing for the issuance of revenue bonds under this section, the Council may fix the terms and conditions thereof (including covenants) and may in any article, section, sentence or clause thereof make such provision (including covenant) as it may deem necessary or desirable to facilitate the issuance and sale of the bonds or for the protection or security of the holders thereof, including, without affecting the generality of the foregoing, any or all of the following:

(1) The denomination or denominations of the bonds, the medium of payment thereof, the place or places of payment thereof, which may be within or without the State of California, the form of said bonds (including recitals of regularity) and of interest coupons pertaining thereto, the form, denomination and conditions of any temporary bonds or interim certificates, and the manual (one signature must be manual) and facsimile signatures to be affixed to said bonds (definitive or temporary) or interim certificates, and the facsimile signature to be affixed to interest coupons;

(2) The terms and conditions under which said bonds or any part thereof may be paid and redeemed before maturity (including the premiums, if any, payable upon bonds redeemed prior to maturity), exchanged, registered, transferred, or negotiated;

(3) Covenants or provisions relating to rates (called in this section Sewer Service Charges). Such sewer service charges shall be fixed by the Council of said city and, with reasonable allowances for contingencies, must be at least sufficient, together with other revenues, if any, payable into the Sewer Revenue Fund, to provide revenues sufficient to pay, as the same become due, principal and interest of all revenue bonds payable out of said Sewer Revenue Fund (including all payments required to be made into reserve and sinking funds, if any, for said revenue bonds) and all other obligations payable from the Sewer Revenue Fund and the necessary expenses of maintaining and operating the "sewer system." The ordinance may also state the extent, if any, to which such sewer service may be furnished or rendered to the city free or to the United States of America, the State of California, or to any city or other public corporation or body at lower rates than otherwise charged;

(4) The collection, deposit and safekeeping of the revenues and the permissible uses thereof; provided, however, that the cost of maintenance and operation of the sewer system (and only such cost) shall be payable from the Sewer Revenue Fund prior to the payment of principal and interest of the revenue bonds or the setting aside in the bond service, sinking, redemption, reserve, or other fund, monthly or otherwise, of funds therefor;

(5) The special fund or funds to be established and maintained for the payment of principal and interest of the bonds; including reserve, sinking, bond service, redemption, and trust funds, and any revenue bond payable from the Sewer Revenue Fund may be paid from any such special fund set up therefor; the permissible investments of moneys in said funds, or any thereof; the accounts and records to be kept, audits thereof and examination thereof by bondholders and others;

(6) Carrying of insurance upon any sewers, sewage treatment plant or plants or sewage disposal works against any or all risks, and in case of loss the application of the insurance proceeds;

(7) Prohibition against or limitations upon the sale, lease or other disposition or transfer of the sewer system or any substantial part thereof, and the use of any funds derived from any sale, lease or other disposition or transfer permitted under the terms of said ordinance;

(8) Limitations upon the issuance of any additional bonds payable from the Sewer Revenue Fund, but no bond shall be issued pursuant to this section or under any other provision of this charter or any other law having any priority in payment of principal or interest out of such fund or out of any revenues payable into such fund over any revenue bonds theretofore issued and payable out of said fund;

(9) Provisions whereby the consent or agreement of a stated percentage or number of the holders of the bonds may bind all holders to modifications of provisions of any ordinance, resolution or order authorizing or providing for the issuance of such bonds or the sale thereof, or to a refunding of said bonds and to calls or exchanges in connection with such refunding;

(10) For the issuance of a duplicate in the manner and upon such terms and conditions as the Council may determine, in the event any bond, temporary bond, coupon or interim certificate of any such issue is lost, destroyed or mu-

needs for expenditures for purposes for which the bonds were issued made from such Sewer Revenue Fund after the issuance of the bonds has been authorized by the voters or as to bonds authorized by Subsection 2 hereof, after the date this amendment becomes effective; (2) that said proceeds may be used for the payment of interest on said bonds during the period of acquisition and construction and for the first six months thereafter; and (3) that when the objects and purposes for which the bonds are issued have been accomplished any remaining unexpended funds derived from the sale of said bonds shall be used for the payment of principal and interest of said revenue bonds or for the redemption of any callable bonds thereof.

Subsection 6. Refunding revenue bonds payable from the Sewer Revenue Fund may be issued for the payment or redemption of any revenue bonds issued pursuant to this section and such refunding bonds may be issued in principal amount sufficient to refund the outstanding bonds proposed to be refunded thereby, including payment of interest to maturity on any noncallable bonds to be refunded and of accrued interest to date of redemption and of any premiums payable upon redemption of bonds which by their terms are subject to call and redemption prior to maturity, and all expenses of such refunding. Refunding revenue bonds may be authorized, issued and sold substantially in the manner provided for the issuance and sale of other revenue bonds hereunder or may be exchanged for the outstanding bonds to be refunded upon such terms and conditions as may be stated in the ordinance authorizing such refunding bonds, except that no election shall be necessary to authorize the issuance of refunding bonds hereunder and the first step in the proceeding shall be the ordinance of issuance. The ordinance providing for the issuance of refunding bonds shall be subject to referendum in the same manner as other ordinances of the city.

Subsection 7. To the extent that any provision of any ordinance authorizing the issuance of revenue bonds pursuant to this section or any provision of any ordinance, resolution or order pertaining to such revenue bonds adopted pursuant to the authority of this section is inconsistent with any of the provisions of any other section of this charter the provisions of such ordinance, resolution or order shall control so long as any of the bonds or coupons to which the same pertain are outstanding and unpaid. No bond shall be deemed to be outstanding and unpaid within the meaning of this section if moneys for the purpose of paying the same or redeeming the same prior to maturity and sufficient therefor have been irrevocably set aside in a bond service fund, sinking fund, redemption fund, or other trust fund created to insure the payment or redemption thereof.

The Council is authorized to take any and all steps necessary or convenient for the authorization, issuance and sale of revenue bonds under this section and for the payment or redemption thereof.

Subsection 8.

Subdivision A. The Council may at any time establish and provide for the collection of sewer service charges and must establish and provide for the collection of such sewer service charges as are required by any ordinance providing for the issuance of revenue bonds under this section. Sewer service charges shall not be deemed taxes or assessments within the meaning of any section of this charter and shall not be enforceable by any lien upon real property. "Sewer service charges" may be collected with water rates, fees or charges (herein called "water rates") of The City of San Diego. The Council may provide and covenant that where the city furnishes water to the property receiving sewer service the sewer service charges shall be collected with and not separately from the water rates of said city and that all charges shall be billed upon the same bill and collected as one item and may also provide and covenant that in the event of nonpayment of any part of the bill for the sewer service charge and water rate, the water service shall be shut off within such time as may be or shall have been prescribed by the Council. Delinquent sewer service charges may be collected by suit in any court of competent jurisdiction. The Council may provide additional methods of collecting sewer service charges. The Council also may prescribe and establish penalties for the nonpayment of sewer service charges. The Council may take any and all steps to establish and provide for the collection of sewer service charges.

Subdivision B. All revenues shall be paid into the Sewer Revenue Fund and shall be used only for the following purposes: (1) paying the cost of maintenance and operation of the sewer system; (2) paying principal and interest (including payments into any reserve or sinking fund) and premiums, if any, upon redemption, of sewer revenue bonds issued under this section and payable from said Sewer Revenue Fund; (3) paying all or any part of the cost and expense of extending, reconstructing or improving the sewer system or any part thereof or making additions to such system; (4) transferring from any surplus in the Sewer Revenue Fund to the Capital Outlays Fund, at one time or from time to time, all or any part of the sums expended from said Capital Outlays Fund after July 1, 1960, for any purpose for which revenue bonds may be issued under this section; (5) paying from any surplus in the Sewer Revenue Fund principal or interest, or both, or any part thereof, of general obligation bonds heretofore or hereafter issued for any

every part thereof shall be liberally construed to promote the objects thereof and to carry out its intents and purposes.

If the application of any subsection, subdivision, paragraph, sentence, clause or word of this section to any person or circumstance is held invalid the application of such subsection, subdivision, paragraph, sentence, clause or word to any other person or in any other circumstance shall not be affected thereby. If any part of this section is held invalid the remainder of the section shall remain in full force and effect.

That the manner and form in which said proposed amendment shall be presented on the ballot and submitted to the voters of The City of San Diego at the election is set out in Section 3 of this ordinance.

Section 2. That the polls for said election shall be opened at seven o'clock A.M. of the day of said election and shall remain open continuously from said time until seven o'clock P.M. of the same day, when said polls shall be closed, except as provided in Section 5784 of the Elections Code of the State of California.

Section 3. This election being consolidated with the statewide general election and the Board of Supervisors being authorized to canvass the returns and only one form of ballot being authorized, the method of voting upon said proposed charter amendment shall be as provided in the Elections Code of the State of California, and on the ballots to be used at said special municipal election, in addition to any other matters required by law, there shall be printed substantially the following:

The maximum rate of interest on said bonds shall not exceed six per cent per annum, payable semiannually. Revenue bonds, if any, issued under this section in excess of said sum of $42,500,000 shall be authorized by proceedings taken in the manner hereinafter provided under Subsection 3.

Subsection 3. Except as provided in Subsection 2 above and except refunding sewer revenue bonds, revenue bonds payable from the Sewer Revenue Fund shall be authorized in the manner provided in this Subsection 3.

The first step in the proceedings shall be a recommendation by the City Manager that bonds be issued hereunder, which recommendation shall state generally the purposes of the revenue bond issue and the principal amount thereof. Such recommendation need not be in any particular form. After the recommendation by the City Manager has been received by the Council it may adopt an ordinance finding the need for the issuance of revenue bonds under this section for the purposes set forth in the recommendation of the City Manager. The Council, by said ordinance, shall submit to the qualified voters of the city at an election held for that purpose the question of issuing revenue bonds pursuant to this section to provide moneys for the purposes stated in the recommendation of the City Manager.

In the event the Council adopts a resolution to proceed without the recommendation by the City Manager, the ordinance calling the election may be adopted only by a vote of at least two-thirds of the members of the Council and at a meeting subsequent to that at which the resolution was adopted.

Subdivision A. The ordinance calling the election also shall:

(1) state the purposes for which the bonds are proposed to be issued;

(2) state the principal amount of the bonds;

(3) state the maximum rate of interest on the bonds, which shall not exceed six per cent per annum, payable semiannually;

(4) call the election and fix the election date;

(5) fix the manner of holding the election;

(6) fix the manner of voting for or against the issuance of the bonds.

In all particulars not stated in said ordinance the election shall be held and the votes canvassed in the manner provided by law for general municipal elections in the city.

Subdivision B. The proposition shall be submitted at a special election called for that purpose and any special election called for the purpose of voting upon a proposition to issue bonds under this section may be consolidated with any city or other election at which all of the qualified voters residing within the city are entitled to vote. Such consolidation may be made in the manner authorized under the Elections Code of the State of California or under the Elections Code of the city.

Subdivision C. The ordinance shall be published once a week for two succeeding weeks in the official newspaper of the city, the first publication to be at least 21 days prior to the election. No other notice of such election need be given. If a majority of the voters voting on the proposition of issuing the bonds vote in favor of the issuance thereof bonds in an amount not exceeding the amount stated in the ordinance calling the election may be issued.

No error, irregularity or omission in the election or in any of the proceedings prior thereto which does not affect the substantial rights of the people of the city or the electors voting at the election at which any revenue bonds are authorized under this section shall invalidate the election.

Subsection 4. The Council may issue all bonds authorized at an election in one issue or in two or more series and may fix different dates and maturities for the bonds of each series. It may issue all bonds authorized by Subsection 2 hereof in one issue or in two or more issues or series and may fix different dates and maturities for the bonds of each issue or series. The bonds of any issue or series issued under this section may be serial bonds or term bonds or any combination thereof with such maturities as may be determined by the Council, but no bond shall run more than forty (40) years from its date.

Any ordinance providing for the issuance of bonds hereunder shall recite the objects and purposes for which the bonds are to be issued, fix the principal amount of the bonds to be issued pursuant to such ordinance, the maximum rate of interest to be payable thereon, not to exceed six per cent per annum payable semiannually and the date or dates upon which any bonds to be issued thereunder shall be payable, and may contain provisions as to the redemption of bonds in advance of their regular maturity dates, with or without premium, and may contain any other provisions not inconsistent with the provisions of this section.

Subsection 5. COVENANTS. Any ordinance providing for the issuance of revenue bonds hereunder shall contain covenants as to: (a) the purposes to which the proceeds of sale of the bonds may be applied and the use and disposition thereof; (b) the collection, deposit, custody and disposition of the revenues and the safekeeping, investment and application of all moneys in all funds and accounts established for the bonds; (c) the purpose to which moneys in said funds and accounts may be applied; (d) the rates and charges for sewer service and the collection thereof sufficient to provide moneys in each fiscal year adequate to pay the principal of and interest on the bonds payable in such year and to make all other payments provided for in such ordinance; (e) the issuance of additional bonds payable from the Sewer Revenue Fund and the terms and conditions upon which such additional bonds may be issued; (f) the operation, maintenance, repair and administration of the sewer system and all revenue producing properties connected therewith; (g) the insurance to be carried thereon and the use and application of insurance proceeds; (h) the books of account and the annual audit thereof and the rights of bondholders to such audit; (i) the terms and conditions upon which the bonds may be declared due before maturity and the rights of the bondholders upon such declaration; (j) the terms and conditions upon which any trustee or bondholders may exercise any of the rights or remedies provided for in such ordinance; (k) the defeasance of the rights and obligations of the City thereunder; and (l) any other matters, of like or different character, which in any way affect the security or protection of the bonds.

Subsection 6. SEWER SERVICE CHARGES. The Council shall fix, establish, maintain and collect such rates, fees or charges for the services and facilities furnished by the sewer system, and shall revise from time to time whenever necessary, as will provide revenues sufficient to pay the following:

(1) The cost of maintaining and operating the sewer system. The ordinance may also state the extent, if any, to which such sewer service may be furnished or rendered to the city free or in the United States of America, the State of California, or to any city or other public corporation or body at lower rates than otherwise charged;

(4) The collection, deposit and safekeeping of the revenues and the permissible uses thereof; provided, however, that the cost of maintenance and operation of the sewer system (and only such cost) shall be payable from the Sewer Revenue Fund prior to the payment of principal and interest of the revenue bonds or the setting aside in the bond service, sinking, redemption, reserve, or other fund, monthly or otherwise, of funds therefor;

(5) The special fund or funds to be established and maintained for the payment of principal and interest of the bonds; including reserve, sinking, bond service, redemption, and trust funds, and any revenue bond payable from the Sewer Revenue Fund may be paid from any such special fund set up therefor; the permissible investments of moneys in said funds, or any thereof; the accounts and records to be kept, audits thereof and examination thereof by bondholders and others;

(6) Carrying of insurance upon any sewers, sewage treatment plant or plants or sewage disposal works against any or all risks, and in case of loss the application of the insurance proceeds;

(7) Prohibition against or limitations upon the sale, lease or other disposition or transfer of the sewer system or any substantial part thereof, and the use of any funds derived from any sale, lease or other disposition or transfer permitted under the terms of said ordinance;

(8) Limitations upon the issuance of any additional bonds payable from the Sewer Revenue Fund, but no bond shall be issued pursuant to this section or under any other provision of this charter or any other law having any priority in payment of principal or interest out of such fund or out of any revenues payable into such fund over any revenue bonds theretofore issued and payable out of said fund;

(9) Provisions whereby the consent or agreement of a stated percentage or number of the holders of the bonds may bind all holders to modifications of provisions of any ordinance, resolution or order authorizing or providing for the issuance of such bonds or the sale thereof, or to a refunding of said bonds and to calls or exchanges in connection with such refunding;

(10) For the issuance of a duplicate in the manner and upon such terms and conditions as the Council may determine, in the event any bond, temporary bond, coupon or interim certificate of any such issue is lost, destroyed or mutilated;

(11) Any other provision (including covenant) valid under the Constitution of the State of California and the United States of America.

Such ordinance shall be subject to referendum in the manner that other ordinances of the City are subject to referendum.

Any ordinance providing for the issuance of any revenue bonds under this section and all other ordinances, resolutions or orders in the proceeding for the issuance of said bonds shall consitute a contract with the holders of the bonds and may be enforced by any holder by mandamus, injunction or any applicable legal action, suit, proceeding or other remedy.

Subsection 5. LIMITATIONS. Revenue bonds issued under this section shall be issued substantially in compliance with the following limitations:

(a) No bond shall run more than forty years from its date;

(b) Said bonds shall be designated "Sewer Revenue Bonds" and each bond shall state on its face that it does not constitute an indebtedness of the City but is an obligation payable, principal and interest, and premiums, if any, upon the redemption thereof only from the Sewer Revenue Fund. Such statement shall not preclude the payment or redemption thereof from the funds or moneys specified in Subdivision A of Subsection 1;

(c) Said bonds shall be sold only at public sale following such notice as the Council by resolution or order may prescribe; provided, however, that if no bid or no satisfactory bid is received pursuant to such notice the Council may reject all bids received, if any, and may thereafter sell such bonds at public or private sale; provided, further, that the provisions of this subsection shall not apply to the exchange of any refunding bonds for outstanding bonds. Any such revenue bonds may be sold at a fixed rate of interest or the bidders may be invited to state the rate or rates of interest at which they will purchase said bonds, but no rate of interest on any of the bonds shall exceed the maximum rate stated in the ordinance calling the election to vote upon the issuance of said bonds or as to bonds authorized by Subsection 2 hereof the maximum rate stated in said Subsection 2. If the bidders are invited to state the interest rate or rates, then upon the acceptance of a bid the Council shall by resolution or order, which shall not be subject to referendum, fix such interest rate or rates as have been bid by the successful bidder as the rate or rates of interest on the bonds sold;

(d) Said bonds shall be sold for not less than par and accrued interest to date of delivery. The proceeds from the sale (except premium and accrued interest which shall be paid into the bond service or other fund designated or established for the payment of principal and interest of the bonds) shall be paid into the construction fund designated by the ordinance providing for issuance of such bonds and shall be applied exclusively to the objects and purposes set forth in such ordinance; provided, however, (1) that the Sewer Revenue Fund from which the bonds are payable may be reimbursed from such proceeds for any moneys paid therefrom for any purpose in connection with the bonds, and (2) that any accrued interest received upon the delivery of the bonds may be applied to the payment of the first interest to become due on the bonds;

(e) Said bonds shall be executed in the manner provided by law and delivered to the purchaser as rapidly as may be practicable after the sale thereof upon payment of the purchase price, and the Council shall take any and all steps necessary or convenient for the authorization, issuance and sale of revenue bonds under this section and for the payment or redemption thereof.

Subsection 8.

Subdivision A. The Council may at any time establish and provide for the collection of sewer service charges and must establish and provide for the collection of such sewer service charges as are required by any ordinance providing for the issuance of revenue bonds under this section. Sewer service charges shall not be deemed taxes or assessments within the meaning of any section of this charter and shall not be enforceable by any lien upon real property. "Sewer service charges" may be collected with water rates, fees or charges (herein called "water rates") of The City of San Diego. The Council may provide and covenant that where the city furnishes water to the property receiving sewer service the sewer service charges shall be collected with and not separately from the water rates of said city and that all charges shall be billed upon the same bill and collected as one item and may also provide and covenant that in the event of nonpayment of any part of the bill for the sewer service charge and for water rate, the water service shall be shut off within such time as may be or shall have been prescribed by the Council. Delinquent sewer service charges may be collected by suit in any court of competent jurisdiction. The Council may provide additional methods of collecting sewer service charges. The Council also may prescribe and establish penalties for the nonpayment of sewer service charges. The Council may take any and all steps to establish and provide for the collection of sewer service charges.

Subdivision B. All revenues shall be paid into the Sewer Revenue Fund and shall be used only for the following purposes: (1) paying the cost of maintenance and operation of the sewer system; (2) paying principal and interest (including payments into any reserve or sinking fund) and premiums, if any, upon redemption, of sewer revenue bonds issued under this section and payable from said Sewer Revenue Fund; (3) paying all or any part of the cost and expense of extending, reconstructing or improving the sewer system or any part thereof or making additions to such system; (4) transferring from any surplus in the Sewer Revenue Fund to the Capital Outlays Fund, at one time or from time to time, all or any part of the sums expended from said Capital Outlays Fund after July 1, 1960, for any purpose for which revenue bonds may be issued under this section; (5) paying from any surplus in the Sewer Revenue Fund principal or interest, or both, or any part thereof, of general obligation bonds heretofore or hereafter issued for any purpose for which revenue bonds may be issued under this section.

Any ordinance providing for the issuance of revenue bonds hereunder may contain covenants defining, limiting or restricting the use of moneys in said Sewer Revenue Fund and said covenants shall control so long as any bonds issued under said ordinance are outstanding and unpaid within the meaning of this section.

Subdivision C. Interest (including interest on investments) on the Sewer Revenue Fund or on any fund created by or under the authority of this section shall be credited to the particular fund.

Subsection 9.

Subdivision A. The City may issue general obligation bonds for sewer purposes. General obligation bonds of the city may also be issued to refund any revenue bonds, principal, interest and premium, if any, issued under this section, if authorized by a two-thirds vote of the qualified electors of the city voting upon the question of the issuance thereof at an election called and held for that purpose. Such election may be called by ordinance in the same manner as any other special election is called under the charter of the city.

The city may expend funds derived from taxes for the acquisition and construction of sewers, and to the extent that may legally be done under this section may expend funds derived from taxes for the maintenance and operation of sewers, but no funds derived from taxes shall be considered revenues as in this section defined and no such funds derived from taxes shall be paid into the Sewer Revenue Fund and no revenue bond issued under this section or any interest thereon shall be or become an obligation chargeable or enforceable against any of the tax revenues of the city.

Subdivision B. The city may levy special assessments for the acquisition and construction of sewers or sewer works and such assessments shall not be construed as "revenues" as defined in this section and shall not be paid into the Sewer Revenue Fund.

Nothing in this section shall be construed to restrict the power of the city to consent to the formation or organization of special districts for the purpose of collection, transmission, treatment or disposal of sewage within portions of the city which are not at that time served by the city sewer system and which in the opinion of the Council cannot conveniently be served by or through the city sewer system. Before any such district is formed or organized which includes territory of the city therein the consent of the city to the inclusion therein of such territory shall be manifested by ordinance of the Council. The Council shall have authority to provide reasonable terms and conditions under which the portion of the city may be included in said district and upon which the district may operate its facilities within The City of San Diego.

Nothing in this section shall be construed as implying any doubt of the power of the city to establish and collect service charges for service by or for the use of sewers under its general charter powers.

Subsection 10. This section and ...

...for the issuance of sewer revenue bonds payable from said fund, and makes changes therein and additions thereto; revises purposes for which sewer revenue bonds may be issued; provides more flexibility in bond maturities; authorizes the Council to issue not to exceed $42,500,000 of sewer revenue bonds payable from the Sewer Revenue Fund for the purposes stated in Subsection 2 of the amendment; and authorizes additional sewer revenue bonds payable from said fund to be issued when authorized by a majority vote of the qualified voters voting on the proposition of issuing such additional bonds.

NO

Section 4. Said proposition shall be designated on the ballot by a letter printed on the left margin of the square containing the description of the measure, as provided in Section 3831 of the Elections Code of the State of California.

Section 5. A cross (+) placed in the voting square after the word "YES" in the manner hereinbefore provided shall be counted in favor of the proposed amendment. A cross (+) placed in the voting square after the word "NO" in the manner hereinbefore provided shall be counted against the proposed amendment.

Section 6. That said special municipal election hereby called to be held in The City of San Diego on the 8th day of November, 1960, shall be and is hereby ordered consolidated with the statewide general election to be held on said date, and within The City of San Diego the precincts, polling places and officers of election for the special municipal election hereby called shall be the same as those provided for said statewide general election.

Said Board of Supervisors of the County of San Diego has heretofore ordered the consolidation of this special municipal election with the statewide general election and said Board of Supervisors is authorized hereby to canvass the returns of the special municipal election hereby called and declare the results thereof and within The City of San Diego the election shall be held and conducted, the returns canvassed, and the results declared in all respects as if there were only one election, and only one form of ballot, namely, the ballots used at such general election, shall be used. Said Board of Supervisors shall certify the result of the canvass of the returns of such special municipal election to the Council of The City of San Diego, who shall thereupon declare the result thereof.

Section 7. That only qualified voters of The City of San Diego shall be permitted to vote at the special municipal election hereby called.

Section 8. The City Clerk of said City is hereby directed to cause such proposed amendment to be published once in the official newspaper of said City, to wit, The San Diego Union, and in each edition thereof during the day of publication. Said publication shall be not less than 40 nor more than 60 days prior to the date of said election. Said City Clerk is further directed to cause copies of such proposed charter amendment to be printed in convenient pamphlet form and in type of not less than 10-point and shall cause copies thereof to be mailed to each of the qualified electors of said City, and said City Clerk shall, until the day fixed for the election upon such charter amendment, advertise in The San Diego Union, being the official newspaper of said City and a newspaper of general circulation in said City, a notice that copies of said amendment may be had upon application therefor to the City Clerk of said City.

Section 9. The City Clerk is further directed to cause this ordinance to be published once in the City official newspaper, to wit, The San Diego Union. No other notice of such election need be given.

Section 10. This ordinance shall take effect and be in force from and after its passage.

Grain Summary

CHICAGO (AP)—A light general demand firmed up grain futures all along the line in the early afternoon Wednesday with soybeans leading the advances.

Brokers in most pits said the demand appeared to stem largely from speculative dealers, possibly reflecting a belief that the market could be due for more general support.

Soybeans posted gains of about a cent while the grains moved up small fractions. However, trade was not more than moderate and included a limited participation by export interests.

Batista, the dictator whom Castro overthrew.

KENNEDY ACCUSED Nixon of distorting his statement regarding the possibility of the U.S. expressing regrets to Russia over the U2 incident.

Kennedy said he believes that "in cases where international custom calls for the expression of a regret—if that would have kept the summit going—in my judgment it was a proper action. It is not appeasement, it is not soft."

Nixon, in reply, held to his campaign theme that "when the President of the United States is doing something that is right, something that is for the purpose of defending the security of the country against surprise attack he can never express regrets or apologize to anybody."

Kennedy indicated he thought it would be strategically wise to abandon the Chinese Nationalist offshore islands of Quemoy and Matsu "but not at the point of a Communist gun."

Nixon disagreed. He said the islands are not important, "it is the principle involved." He pointed out that South Korea also was supposed to be indefensible, but that the U.S. went to war there. He said "abandoning the islands could start a chain reaction."

In this regard Nixon accused Kennedy of the "same kind of woolly thinking that led to the Korean disaster."

"I would never tolerate it as president. I would hope that Senator Kennedy would change his mind if he should be elected," Nixon declared.

ORDINANCE NO. 8369
(NEW SERIES)

AN ORDINANCE OF THE CITY OF SAN DIEGO, CALIFORNIA, PROVIDING FOR THE ISSUANCE OF HARBOR IMPROVEMENT BONDS, 1960, OF SAID CITY IN THE AMOUNT OF $3,600,000.

WHEREAS, pursuant to Ordinance No. 8286 (New Series) of The City of San Diego, California, a special municipal election was duly and regularly held in said city on the 7th day of June, 1960, at which election there was submitted to the qualified voters of said city the following bond proposition, to wit:

> THE CITY OF SAN DIEGO HARBOR IMPROVEMENT BOND PROPOSITION: Shall The City of San Diego incur a bonded indebtedness in the principal sum of $3,600,000 for the purpose of the acquisition, construction and completion by said City of a certain municipal improvement, to wit: additions to and improvements (not including repairs) of the 10th Avenue Marine Terminal for the receipt, handling, storage and shipping of cargo, freight and property, such additions and improvements consisting of a warehouse, truck terminal, railroad tracks, cranes and all access roads, paving, utilities, drains, sewers, apparatus, equipment and appurtenances and appurtenant work necessary or convenient therefor?

and

WHEREAS, said proposition received the affirmative vote and assent of more than two-thirds of all of the qualified voters of said city voting on said proposition, and said city is now authorized to issue bonds in the amount and for the purpose set forth in said proposition; NOW, THEREFORE,

BE IT ORDAINED By the Council of The City of San Diego as follows:

Section 1. That bonds of The City of San Diego, California, in the principal sum of $3,600,000 be issued and sold for the purpose set forth in the bond proposition in the recitals hereof. Said bonds shall be designated "HARBOR IMPROVEMENT BONDS, 1960", shall be 3,600 in number, numbered 1 to 3,600, both inclusive, and shall be of the denomination of $1,000 each. Said bonds shall be dated November 1, 1960, and shall be payable in consecutive numerical order $90,000 on November 1 in each of the years 1961 to 1965, inclusive, $150,000 on November 1 in each of the years 1966 to 1982, inclusive, and $200,000 on November 1 in each of the years 1983 to 1985, inclusive.

It is hereby found and determined that said term of years within which said bonds are payable does not exceed the estimated period of usefulness of the municipal improvement for which said bonds are to be issued.

Said bonds shall bear interest at a rate or rates to be hereafter fixed by resolution but not to exceed 5% per annum, payable annually the first year and semiannually thereafter. Said bonds and the interest thereon shall be payable in lawful money of the United States of America at the office of the Treasurer of The City of San Diego, in said City, or, at the option of the holder thereof, at any fiscal agency of The City of San Diego in San Diego, California, or in Los Angeles, California, or in San Francisco, California, or in Chicago, Illinois, or in New York, New York.

01670

Section 2. That the Mayor and the Treasurer of said city are hereby authorized and directed to sign all of said bonds by their printed, lithographed or engraved facsimile signatures, and the City Clerk of said city is hereby authorized and directed to countersign said bonds and to affix thereto the corporate seal of said city, and the Treasurer of said city is hereby authorized and directed to sign the interest coupons of said bonds by his printed, lithographed or engraved facsimile signature, and to number said interest coupons of each of said bonds consecutively.

Section 3. That the proceeds of the sale of said bonds (except premium, if any, and accrued interest) shall forthwith be turned over to and placed in the municipal treasury of The City of San Diego to the credit of a fund hereby created and designated "HARBOR IMPROVEMENT BONDS, 1960, CONSTRUCTION FUND," and the moneys in said fund shall be applied exclusively to the acquisition, construction and completion of the municipal improvement described in the bond proposition in the recitals hereof, except as provided in Section 90, subdivision (d) of the Charter of said city.

Section 4. That any premium or accrued interest received from the sale of said bonds shall forthwith be turned over to and placed in said treasury in the interest and redemption fund hereinafter created. That for the purpose of paying the principal and interest

of said bonds, the Council of The City of San Diego shall, at the time of making the general tax levy after incurring the bonded indebtedness, and annually thereafter until said bonds are paid or until there is a sum on the treasury of said city set apart for that purpose sufficient to meet all payments of principal and interest on said bonds as they become due, levy and collect a tax sufficient to pay the interest on said bonds and such part of the principal thereof as will become due before the proceeds of a tax levied at the next general tax levy will be available. Said tax shall be in addition to all other taxes levied for municipal purposes and shall be levied and collected as other city taxes, and shall forthwith be turned over and paid into a fund of the city to be known as "HARBOR IMPROVEMENT BONDS, 1960, INTEREST AND REDEMPTION FUND." To the extent that any part of the sum hereby required to be raised by any annual tax levy is appropriated, pursuant to charter provision or otherwise, from any fund or funds of the city and placed in said Interest and Redemption Fund or set aside in any other fund for the purpose of paying principal and interest of the bonds which otherwise would be paid from said tax levy, the amount to be raised by that annual tax levy may be reduced, and if all of the sums required to be raised by any annual tax levy have been appropriated and placed in said Interest and Redemption Fund or set aside in any other fund for the purpose of paying the principal and interest of the bonds which otherwise would be paid from such annual tax levy, that annual tax levy need

not be made. Said Interest and Redemption Fund shall be used for no other purpose than the payment of said bonds and interest thereon until said bonds and interest are fully paid. Any sum appropriated and set aside in any other fund for the payment of principal and interest of the bonds shall be used only for the payment of that principal and interest of the bonds for which it was so appropriated and set aside.

Section 5. That said bonds and the coupons for the interest thereon shall be issued in substantially the following form:

WHEREAS, said proposition received the affirmative vote and assent of more than two-thirds of all of the qualified voters of said city voting on said proposition, and said city is now authorized to issue bonds in the amount and for the purpose set forth in said proposition; NOW, THEREFORE,

BE IT ORDAINED By the Council of The City of San Diego as follows:

Section 1. That bonds of The City of San Diego, California, in the principal sum of $3,600,000 be issued and sold for the purpose set forth in the bond proposition in the recitals hereof. Said bonds shall be designated "HARBOR IMPROVEMENT BONDS, 1960", shall be 3,600 in number, numbered 1 to 3,600, both inclusive, and shall be of the denomination of $1,000 each. Said bonds shall be dated November 1, 1960, and shall be payable in consecutive numerical order $90,000 on November 1 in each of the years 1961 to 1965, inclusive, $150,000 on November 1 in each of the years 1966 to 1982, inclusive, and $200,000 on November 1 in each of the years 1983 to 1985, inclusive.

It is hereby found and determined that said term of years within which said bonds are payable does not exceed the estimated period of usefulness of the municipal improvement for which said bonds are to be issued.

Said bonds shall bear interest at a rate or rates to be hereafter fixed by resolution but not to exceed 5% per annum, payable annually the first year and semiannually thereafter. Said bonds and the interest thereon shall be payable in lawful money of the United States of America at the office of the Treasurer of The City of San Diego, in said City, or, at the option of the holder thereof, at any fiscal agency of The City of San Diego in San Diego, California, or in Los Angeles, California, or in San Francisco, California, or in Chicago, Illinois, or in New York, New York.

Section 2. That the Mayor and the Treasurer of said city are hereby authorized and directed to sign all of said bonds by their printed, lithographed or engraved facsimile signatures, and the City Clerk of said city is hereby authorized and directed to countersign said bonds and to affix thereto the corporate seal of said city, and the Treasurer of said city is hereby authorized and directed to sign the interest coupons of said bonds by his printed, lithographed or engraved facsimile signature, and to number said interest coupons of each of said bonds consecutively.

Section 3. That the proceeds of the sale of said bonds (except premium, if any, and accrued interest) shall forthwith be turned over to and placed in the municipal treasury of The City of San Diego to the credit of a fund hereby created and designated "HARBOR IMPROVEMENT BONDS, 1960, CONSTRUCTION FUND," and the moneys in said fund shall be applied exclusively to the acquisition, construction and completion of the municipal improvement described in the bond proposition in the recitals hereof, except as provided in Section 90, subdivision (d) of the Charter of said city.

Section 4. That any premium or accrued interest received from the sale of said bonds shall forthwith be turned over to and placed in said treasury in the interest and redemption fund hereinafter created. That for the purpose of paying the principal and interest of said bonds, the Council of The City of San Diego shall, at the time of making the general tax levy after incurring the bonded indebtedness, and annually thereafter until said bonds are paid or until there is a sum on the [illegible] placed in said Interest and Redemption Fund or set aside in any other fund for the purpose of paying principal and interest of the bonds which otherwise would be paid from said tax levy, the amount to be raised by that annual tax levy may be reduced, and if all of the sums required to be raised by any annual tax levy have been appropriated and placed in said Interest and Redemption Fund or set aside in any other fund for the purpose of paying the principal and interest of the bonds which otherwise would be paid from such annual tax levy, that annual tax levy need not be made. Said Interest and Redemption Fund shall be used for no other purpose than the payment of said bonds and interest thereon until said bonds and interest are fully paid. Any sum appropriated and set aside in any other fund for the payment of principal and interest of the bonds shall be used only for the payment of that principal and interest of the bonds for which it was so appropriated and set aside.

Section 5. That said bonds and the coupons for the interest thereon shall be issued in substantially the following form:

British source said today it might be possible for both the U.S. base and the federal capital to be located on the site.

The three-power conference is set to review the British-American Treaty of 1941 granting the United States a 99-year lease on the bases in return for 50 destroyers.

Williams said the fact the United States had agreed to discuss the future of the bases showed agreement in principle of the need for a change in the treaty relationship.

The U.S. delegation is headed by Ambassador John Hay Whitney.

The American bases encompass about 42 square miles on the islands of Trinidad and Tobago. However only the 18-square-mile base at Chaguaramas on Trinidad is used.

The other areas are deactivated but could be reoccupied on 48-hour notice in an emergency. The United States is sole judge of the emergency.
