Section 303 (b) is amended to read as follows:

Sec. 303 (b) PLAN-CHECKING FEE. When plans are required by this Code, a plan-checking fee shall be paid to the Director of Building Inspection at the time of filing application. Such plan-checking fee shall not exceed one-third (1/3) nor be less than thirty per cent (30%) of the fee set forth in the schedule of subsection (a) of this Section. A fee for each building permit shall be paid to the Director of Building Inspection in the amount set forth in the schedule of this section except that when a plan-checking fee as required herein has been paid, the total fee for a building permit shall be reduced by the amount of such plan-checking fee. The amount of a plan-checking fee shall be applied to reduce the total fee only when the building permit is issued to authorize work described in the application for which such plan-checking fee was paid. Plan-checking fees shall not be refunded.

Following the payment of fees and the issuance of a plan-check fee receipt, but prior to the issuance of a building permit therefor, the Director of Building Inspection may authorize a change in street number or a correction in the description of the site when it is determined that the application was submitted in error and written request for such correction has been made by the original applicant or the authorized agent of the original applicant.

Plans and applications submitted for checking, under the provisions of this Code, for which no permit is issued and on which no action is taken by the applicant within two hundred forty (240) days following the date

of application, shall expire by limitation, become null and void, and may thereafter be returned to the applicant or destroyed by the Director of Building Inspection. Extension of the effective period of time permitted by this section for action by the applicant and the issuance of a building permit based on application and plans submitted under the provisions of this Code, may be granted by the Director of Building Inspection upon written request for such extension received from the applicant therefor and a showing that, in fact, circumstances beyond the control of the applicant have prevented action being taken. Extension of time shall not exceed an additional one hundred twenty (120) days.

Plans submitted for checking shall be made to comply with all effective provisions of this Code and any applicable ordinances as adopted or amended. A supplementary plan-checking fee shall be paid to the Director of Building Inspection when it is found that the valuation stated on the application is less than the total value determined in accordance with Section 91.06.

When plans submitted for checking, and for which a plan-checking fee has been paid, are thereafter altered or revised, plans indicating the extent, together with details of such alterations or revisions shall be submitted to the Director of Building Inspection for approval and a plan-checking fee determined in the manner set forth above shall be paid at the time of submitting such altered or revised plans. Additional plan-checking fees shall be in an amount determined by the valuation of all members or portions of the structure which are redesigned and shall be without deduction for any portions of the original design which are replaced or omitted.

Section 303 (c) is added to read as follows:

Sec. 303 (c) RE-INSPECTION FEE. Whenever any construction work required by this Code to be inspected by the Building Official is found to be faulty or defective upon the first inspection thereof requested by the permittee, a fee of two dollars and fifty cents (\$2.50) shall be paid to the City Treasurer for each re-inspection which is made necessary by any of the following:

1. Failure to provide access on the date for which inspection is requested.
2. Re-inspection caused by extensive substitution or alteration of approved plans which has not been approved by the Building Official, and which would have required such approval.
3. Failure to provide substantial completion of the work for which inspection is requested.

Section 303 (d) is added to read as follows:

Sec. 303 (d) RECORD OF FEES. The Inspection Department shall keep an account of all fees received, giving the name of the person under whose account the same were paid, the date, and amount thereof, together with the location to which such fees relate; and such records or any other records or plans of the Inspection Department need not be kept or retained longer than two years.

Section 4506 of the Uniform Building Code is hereby entirely deleted.

Section 5210 is hereby amended to read as follows:

Sec. 5210 AWNINGS AND CANOPIES. Class I and Class II Plastics may be used in awnings and canopies, and all such awnings and canopies shall be constructed in accordance with the provisions of Chapter 54.

Chapter 54 is hereby added to the Uniform Building Code to read as follows:

Chapter 54 REGULATION OF AWNINGS, CANOPIES, AND ENTRANCE CANOPIES.

Sec. 5401 PERMITS. Building and other permits as specified herein shall be required as provided by Sec. 301.

Sec. 5402 AWNINGS.

(a) Definition. Awnings shall be construed herein to mean shelters over doors or windows in exterior walls of buildings which are totally supported by the building wall.

(b) Allowable Projection Over Public Property. Awnings shall not project over public property more than two-thirds (2/3) of the distance from the property line to the nearest curb in front of the building site or more than eight feet (8'), whichever is less.

(c) Height. All parts of an awning which project over public property shall be at least eight feet (8') above the public property below it. No part of an awning shall be more than twenty feet (20') above the public property below it.

EXCEPTION: No part of a valance attached to an awning shall be less than seven feet (7') above the public way below it.

(d) Construction. Awnings shall be constructed so that they may be either (1) readily folded or retracted against the face of the supporting wall, or (2) readily detached from the supporting wall. Awning coverings may be fabricated of approved cloth, approved plastic, or corrosion-resistant metal. Back boards of awnings may be constructed of wood.

9 Operating equipment for folding or retracting or collapsing an awning shall be so designed and constructed that the awning may be retracted, folded, or collapsed against the supporting exterior wall. An awning and its operating equipment, when in a retracted, folded or collapsed position, shall not project more than twelve inches (12") beyond the face of the wall to which it is attached.

Valances attached to awnings shall not project above the roof of the awning at the point of attachment to the roof.

Boxed sides shall not extend above the roof of the awning at the point of attachment to the roof unless a continuous opening of at least two inches (2") is provided between roof section of the awning and the sides.

Awnings which project into any portion of the site used for servicing of motor vehicles or equipment, or where flammable liquids or materials are stored or handled, shall be completely constructed of non-combustible materials.

The angle of pitch of an awning roof shall not be more than sixty degrees (60°) nor less than fifteen degrees (15°) from the horizontal except that cylindrical roofs are permitted.

The length parallel to the face of the supporting wall of a single section of detachable awning shall not exceed twenty feet (20').

Detachables shall be equipped with approved quick-release devices which permit the awning to be readily detached and removed from the building in an emergency.

Folding or retractable awnings shall be designed to support twice their own weight. Detachable awnings shall have frames designed to resist a wind load of ten (10) pounds per square foot in any direction.

(e) Location. No awning shall be installed in such a way as to interfere with the use of any doorway. No awning shall obstruct the use of fire escapes, fire ladders, or other means of egress from upper floors. EXCEPTION: If awnings are placed under a fire escape equipped with a vertical drop ladder, provision shall be made for a thirty-inch by thirty-inch (30" x 30") opening through the awning top at the ladder location. This opening may be closed by a removable, snap-on cover of the same material as the awning roof; however, any covering for a drop ladder opening in a detachable awning must be of an approved design and installation.

(f) Signs. No lettering, signs, symbols, or advertising material shall be placed on any portion of an awning except that one line of lettering, numerals, symbols, or designs, stating the name and/or address of the business, not exceeding eight (8) inches in height, may be applied on the surface of the valance provided the property is located in a zone in which signs are permitted to project more than sixteen (16) inches beyond the face of the building to which they are attached.

(g) Maintenance. All awnings shall be maintained in a safe and undamaged condition.

(h) Identification. Every awning shall bear an identifying label giving the name and address of the manufacturer.

¶ Sec. 5403 ENTRANCE CANOPIES

(a) Definition. Entrance canopies shall be construed herein to mean movable shelters attached to the exterior wall of a building which are either totally or partially self-supporting and which are used only as a roof over an entrance into a building for pedestrian protection from the elements.

(b) Location. One entrance canopy on each street-frontage of a building may be located on public property between the nearest curb in front of the building site and an entrance to the building. The length on public property of such a canopy shall not exceed sixteen feet (16'). No portion of such a canopy shall interfere with or block the visibility of any traffic control device nor extend within six inches (6") of the curb face. In all cases, canopy supports shall be located so as to provide a minimum of two feet (2') of clearance between the supports and the face of curb but no support shall obstruct in any manner a six foot (6') wide pedestrian right of way. The location of every entrance canopy shall be approved by the City Engineer before a permit is issued therefor.

No part of any entrance canopy shall extend within an area bounded by the side lot line nearest to the canopy and an imaginary line drawn parallel thereto and five feet (5') nearer the canopy.

Entrance canopies located on public property shall be installed and maintained at the sole cost, risk and responsibility of the owner and any successor in interest who shall hold the City harmless from all loss and any claims, liability or damages arising therefrom or with respect thereto.

A property owner, upon written notice by the City, shall remove a canopy from the public property within thirty (30) days of such notice, or the City Engineer may cause such work to be done and the costs thereof shall become a lien on the property.

(c) Construction. All entrance canopy frames and

supporting structural members shall be constructed of corrosion-resistant metal designed to support a live load of five (5) pounds per square foot and a wind load of ten (10) pounds per square foot in any direction. Entrance canopy roof coverings may be constructed of approved cloth, approved plastic, or corrosion-resistant metal. Entrance canopies which are more than sixteen (16) feet in total length or which project into any portion of a site used for servicing motor vehicles or equipment, or where flammable liquids or materials are stored or handled, shall be constructed entirely of non-combustible materials.

Entrance canopies larger than sixteen feet (16') in length shall be constructed in sections, and no such section shall exceed sixteen feet (16') in length.

The width of any entrance canopy measured parallel to the adjoining building shall not exceed twelve feet (12').

All entrance canopies shall be equipped with approved quick-release devices which permit the canopy to be readily detached from the wall or other supporting structures or materials.

No entrance canopy shall be constructed or installed in such a manner as to interfere with the use of any doorway. No entrance canopy shall obstruct the use of fire escapes, fire ladders or other means of egress from upper floors.

Where an entrance canopy is placed under a fire escape equipped with a vertical drop ladder, provision shall be made for a thirty-inch by thirty-inch (30" x 30") opening through the canopy roof at the ladder location. This opening may be closed by a cover capable of being readily removed and constructed of the same material as the canopy roof.

Valances attached to entrance canopies shall not project above the canopy roof at the point of attachment to the roof.

Boxed sides shall not extend above the roof of the canopy at the point of attachment to the roof unless a continuous opening of at least two inches (2") is provided between roof section of the canopy and the sides.

(d) Maximum and Minimum Heights. All portions of an entrance canopy must be at least eight feet (8') above any public way below.

EXCEPTION: No portion of a valance attached to an entrance canopy shall be less than seven feet (7') in height above the public way below.

No portion of any entrance canopy shall extend in height above its base more than the allowances set forth below:

1. On buildings of Type III, Type IV or Type V construction, no part of any entrance canopy shall extend above the ceiling level of the first floor of the building to which it is attached.

2. On buildings of Type I or Type II construction, no part of any entrance canopy shall extend above the ceiling level of the second floor of the building to which it is attached.

In all instances in which any part of any entrance canopy shall extend more than sixteen feet (16') above its base, written permission of the Chief of the Fire Department approving the excess extension shall be first obtained. Where a permit is required, the written permission shall be filed with the plans submitted to obtain a permit.

(e) Signs. No lettering, signs, symbols, or advertising material shall be placed on any portion of an entrance canopy except that, (a) one line of lettering, numerals, symbols, or designs, stating the name and/or address of the business, not exceeding eight (8) inches in height, may be applied on the surface of the valance provided the property is located in a zone in which signs are permitted to project

more than sixteen (16) inches beyond the face of the building to which they are attached, and (b) a monogram or symbol, not exceeding sixteen (16) inches in height, may be applied to the face of the boxed-end which is parallel to the face of the building provided the property is located in a zone in which signs are permitted to project more than sixteen (16) inches beyond the face of the building to which they are attached.

(f) Illumination. Entrance canopies shall not be lighted or illuminated by any light source directly attached thereto.

(g) Maintenance. All entrance canopies shall be maintained in a safe and undamaged condition and in accordance with the provisions of this section.

(h) Identification. Every entrance canopy shall bear an identifying label giving the name and address of the manufacturer.

Section 2. A violation of any provision or the failure to comply with any of the requirements established by this ordinance shall constitute a misdemeanor. Any person convicted of such violation or such failure shall be punishable by a fine of not more than Five Hundred Dollars (\$500.00) or by imprisonment in the City Jail for a period of not more than six months or by both fine and imprisonment. The provisions of Section 11.12 of the San Diego Municipal Code shall apply.

Section 3. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

(b) Time is of the essence of this franchise. The Grantee shall not be relieved of its obligation to promptly comply with any provision hereof by any failure of the City

to enforce prompt compliance with the same or any other provision.

(c) Any right or power conferred, or duty imposed upon any officer, employee, department or board of the City is subject to transfer by operation of law to any other officer, employee, department or board of the City.

(d) The Grantee shall have no recourse whatsoever against the City for any loss, cost, expense or damage arising out of any provision or requirement of this franchise or the enforcement thereof.

(e) This franchise does not relieve the Grantee of any requirement of the City Charter or of any ordinance, rule, regulation or specification of the City, including, but not limited to, any requirement relating to street work, street excavation permits, or the use, removal or relocation of property in streets.

(f) Provisions of this ordinance shall be construed in accordance with Sections 103, 103.1, 104 and 105 of the Charter of The City of San Diego.

Section 6. LIMITATIONS UPON GRANT.

(a) No privilege or exemption is granted or conferred by this franchise except those specifically prescribed herein.

(b) The said franchise and privilege shall be subordinate to any existing franchise or lawful occupancy of any public highway, street, road or other public property for the purpose of erecting, operating and maintaining poles, lines, conduits, cables, pipe lines and other necessary fixtures used in connection with the purpose of said existing franchise or franchises or any extension thereof.

(c) This franchise is a privilege to be held in personal trust by the original Grantee. It cannot in any

event be transferred in part, and it is not to be sold, transferred, leased, assigned, or disposed of as a whole, either by forced sale, merger, consolidation or otherwise, without prior consent of the City expressed by ordinance, and then only under such conditions as may be therein prescribed; provided, however, that no such consent shall be required for any transfer in trust, mortgage, or other hypothecation, as a whole, to secure an indebtedness.

Section 7. RIGHTS RESERVED TO CITY.

(a) There is hereby provided and reserved to the City every right and power which is required to be herein reserved or provided by any provision of the Charter of the City or of any ordinance of the City, and the Grantee by its acceptance of this franchise agrees to be bound thereby and to comply with any action or requirement of the City in its exercise of any such right or power.

(b) Neither the granting of this franchise nor any provision hereof shall constitute a waiver or bar to the exercise of any governmental right or power of the City.

(c) This franchise shall be nonexclusive and neither the granting of this franchise nor any of the provisions contained herein shall prevent the City from granting any identical or similar franchise to any person or corporation other than the Grantee, either within or without the designated area.

Section 8. ESTABLISHMENT OF SERVICE.

Installation of a CATV System shall be commenced within one hundred eighty (180) days after the effective date of this franchise, and extensions and service pursued with due diligence thereafter. That in the portions undeveloped on the effective date of this franchise and within the service area, installation

of the CATV System shall be completed by the date on which the City accepts the public improvements for new subdivisions. Failure to so commence and diligently pursue to completion shall be grounds for termination of this franchise.

Section 9. ABANDONMENT OF SERVICE.

(a) After the Grantee shall have established service pursuant to this franchise in the franchise area, such service shall not be suspended or abandoned unless such suspension or abandonment be authorized by the City Council.

(b) Whenever the Grantee shall file with the City Council a written application alleging that public interest, convenience and necessity no longer require that the Grantee furnish service as authorized or required by, or pursuant to this franchise, in any service area, the City Council shall, at a public hearing, take evidence upon that question and shall make a finding with respect thereto. Notice of such hearing shall be given by the Grantee to each subscriber in such area at least fifteen (15) days prior thereto. If the City Council shall find that public interest, convenience and necessity no longer require that the Grantee furnish such service, then the City Council shall, after hearing as provided herein, authorize suspension or abandonment of such service upon such reasonable terms and conditions as may be prescribed by the City Council.

Section 10. REGULATION OF RATES AND SERVICE.

(a) The City Council shall have the power and right at all times for the duration of this franchise and privilege to require Grantee to conform to reasonable rules and regulations adopted by the City Council, including the power to regulate and establish reasonable rates and charges by Grantee for services rendered under this franchise and privilege. The establishment of such rules and regulations shall be discretionary with the City Council.

(b) The said CATV System shall be installed and maintained in accordance with the accepted standards of the industry to the effect that the subscriber shall receive the best signal to his TV set. The City shall establish, in accordance with the practice of the television industry, minimum acceptable standards of signal quality. The provisions of this subsection are a "material provision hereof" as these words are used in Section 4(b)(2) hereof.

(c) The said CATV System shall include, but not be limited to, the broadcast signal of all television stations located within the San Diego Metropolitan Area.

STREET WORK

Section 11. LOCATION OF FRANCHISE PROPERTY.

Franchise property shall be constructed or installed only at such locations and in such manner as shall be approved by the City Engineer, acting in the exercise of reasonable discretion.

Section 12. REMOVAL OR ABANDONMENT OF FRANCHISE PROPERTY.

(a) In the event that the use of any franchise property is discontinued for any reason for a continuous period of twelve (12) months or that franchise property has been installed in any street without complying with the requirements of this franchise, or the franchise has been terminated, cancelled or has expired, the Grantee shall promptly remove from the street all such property other than any which the City Engineer may permit to be abandoned in place. In the event of any such removal, the Grantee shall promptly restore the street or other area from which such property has been removed to a condition satisfactory to the City Engineer.

(b) Franchise property to be abandoned in place shall be abandoned in such manner as the City Engineer shall prescribe. Upon permanent abandonment of any franchise property in place, the Grantee shall submit to the City Manager an

instrument, satisfactory to the City Attorney, transferring to the City the ownership of such property.

Section 13. CHANGES REQUIRED BY PUBLIC IMPROVEMENTS.

The Grantee shall, at its expense, protect, support, temporarily disconnect, relocate in the same street, alley, or public place, or remove from any street, alley or public place, any franchise property when required by the City Engineer by reason of traffic conditions, public safety, street vacation, freeway and street construction, change or establishment of street grade, installation of sewers, drains, water pipes, power lines, signal lines, and tracks or any other type of structures or improvements by governmental agencies when acting in a governmental or proprietary capacity, or any other structures or public improvements; provided, however, that Grantee shall in all such cases have the privileges and be subject to the obligations to abandon franchise property in place, as provided in Section 9.

Section 14. FAILURE TO PERFORM STREET WORK.

Upon failure of the Grantee to commence, pursue or complete any work required by law or by the provisions of this franchise to be done in any street, within the time prescribed and to the satisfaction of the City Engineer, the City Engineer may, at his option, cause such work to be done and the Grantee shall pay to the City the cost thereof in the itemized amounts reported by the City Engineer to the Grantee, within thirty (30) days after receipt of such itemized report.

COMPENSATION AND GUARANTEE TO THE CITY

Section 15. ANNUAL PAYMENTS TO THE CITY.

(a) By its acceptance of this franchise, the Grantee agrees to pay to the City annually in lawful money of the United States two per cent (2%) of the total gross receipts collected or received, or in any manner gained or derived by the Grantee in each calendar year, or portion thereof, during the term of this franchise, from the properties, operations

and business referred to in Section 2 hereof.

(b) Checks for all such payments shall be made payable to the City Treasurer, and shall be submitted to the City Treasurer on or before March 1 of each year for the previous calendar year or portion thereof.

(c) Each payment shall be accompanied by a statement, in duplicate, verified by the Grantee or by a general officer or other duly authorized representative of the Grantee, showing in such form and detail as the City Manager may require from time to time the facts material to a determination of the amount due.

(d) The payment made to the City by the Grantee pursuant to this section for any calendar year shall be in lieu of any license, fee or business tax prescribed by the City for the same period, but only to the extent of such payment.

Section 16. FAITHFUL PERFORMANCE BOND.

The Grantee shall within the period specified in Section 4(c) file with the City Clerk and, at all times thereafter, maintain in full force and effect an acceptable corporate surety bond, in duplicate, in the amount of FIVE THOUSAND DOLLARS (\$5,000.00), effective for the entire term of this franchise, and conditioned that in the event the Grantee shall fail to comply with any one or more of the provisions of this franchise then there shall be recoverable jointly and severally from the principal and surety of such bond any damages suffered by the City as a result thereof, including the full amount of any compensation, indemnification, or cost of removal or abandonment of property as prescribed by Sections 12, 15 or 17 hereof which may be in default, up to the full amount of the bond; said condition to be a continuing obligation for the duration of this franchise and thereafter until the Grantee has liquidated all of its obligations with the City that may have arisen from the acceptance of this franchise by the Grantee

or from its exercise of any privilege herein granted.

Neither the provisions of this Section 16, any bond accepted by the City pursuant thereto, nor any damages recovered by the City thereunder shall be construed to excuse faithful performance by the Grantee or to limit the liability of the Grantee under this franchise or for damages, either to the full amount of the bond or otherwise.

Section 17. INDEMNIFICATION TO CITY.

The Grantee shall indemnify the City, its officers and its employees, against all claims, demands, actions, suits and proceedings by others and against all liability to others, and against any loss, cost and expense resulting therefrom, including reasonable attorneys' fees, arising out of the exercise or enjoyment of this franchise, irrespective of the amount of the bond designated in Section 16 hereof.

Section 18. INSPECTION OF PROPERTY AND RECORDS.

(a) At all reasonable times the Grantee shall permit any duly authorized representative of the City Engineer and/or the City Auditor to examine all franchise property, together with any appurtenant property of the Grantee situated within or without the City, and to examine and transcribe any and all maps and other records kept or maintained by the Grantee or under its control which treat of the operations, affairs, transactions or property of the Grantee with respect thereto. If any of such maps or records are not kept in the City, or upon reasonable request made available in the City, and if the City Engineer and/or the City Auditor shall determine that an examination thereof is necessary or appropriate to the performance of any of his duties, then all travel and maintenance expense necessarily incurred in making such examination shall be paid by the Grantee.

(b) The Grantee shall prepare and furnish to the City

KODAK

Engineer and/or the City Auditor, at the times and in the form prescribed by the City Engineer and/or the City Auditor, such reports with respect to its operations, affairs, transactions or property as may be reasonably necessary or appropriate to the performance of any of the duties of the City Engineer and/or the City Auditor in connection with this franchise. Such reports may include, but are not limited to, a complete set of as-built records and plans of all facilities installed within the franchise service area.

Section 19. Notwithstanding any other provisions contained herein, this franchise is granted solely and exclusively under Sections 103, 103.1, 104 and 105 of the Charter of The City of San Diego and under no other authority.

Section 20. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

Section 4. DURATION OF GRANT.

(a) This franchise shall be effective on the thirty-first (31st) day after the publication of the enacting ordinance, provided the Grantee has filed with the City Clerk within twenty (20) days after such date of publication written instrument, addressed to the Council, accepting this franchise and agreeing to comply with all of the provisions hereof.

In no event shall payments under the franchise either be reduced below one per cent (1%) of the total gross annual receipts of the Grantee or be increased in excess of three per cent (3%) of the total gross annual receipts of the Grantee.

Failure of Grantee to comply with the conditions precedent as stated hereinabove in Section 4(c) within one hundred eighty (180) days after such date of publication shall, at the option of the City, cause this franchise to be forfeited.

CONSTRUCTION OF FRANCHISE SECTION 5. INTERPRETATION.

Unless otherwise specifically prescribed herein, the following provisions shall govern the interpretation and construction of this franchise:

(a) When not inconsistent with the context, words used in the present tense include the future, words in the plural number include the singular number, and words in the singular number include the plural number.

(b) Time is of the essence of this franchise. The Grantee shall not be relieved of its obligation to promptly comply with any provision hereof by any failure of the City to enforce prompt compliance with the same or any other provision.

(c) This franchise is a privilege to be held in personal trust by the original Grantee. It cannot in any event be transferred in part, and it is not to be sold, transferred, leased, assigned, or disposed of as a whole, either by force of a sale, merger, consolidation or otherwise without prior consent of the City expressed by ordinance, and then only under such conditions as may be therein prescribed; provided, however, that no such consent shall be required for any transfer by trust, mortgage or other hypothecation, as a whole, to secure an indebtedness.

Section 7. RIGHTS RESERVED TO CITY.

(a) There is hereby provided and reserved to the City every right and power which is required to be herein reserved or provided by any provision of the Charter of the City or of any ordinance of the City, and the Grantee by its acceptance of this franchise agrees to be bound thereby and to comply with any action or requirement of the City in its exercise of any such right or power.

(b) Neither the granting of this franchise nor any provision hereof shall constitute a waiver or bar to the exercise of any street, right or power of the City, or the franchise has been terminated, cancelled or has expired, the Grantee shall promptly remove from the street all such property other than any which the City Engineer may permit to be abandoned in place, the Grantee shall promptly restore the street or other area from which such property has been removed to a condition satisfactory to the City Engineer.

Section 12. REMOVAL OR ABANDONMENT OF FRANCHISE PROPERTY.

(a) In the event that the use of any franchise property is discontinued for any reason for a continuous period of twelve (12) months or that franchise property has been installed in any street in such manner as to conflict with the requirements of this franchise, or the franchise has been terminated, cancelled or has expired, the Grantee shall promptly remove from the street all such property other than any which the City Engineer may permit to be abandoned in place, the Grantee shall promptly restore the street or other area from which such property has been removed to a condition satisfactory to the City Engineer.

Section 8. ESTABLISHMENT OF SERVICE.

Installation of a CATV System shall be commenced within one hundred eighty (180) days after the effective date of this franchise, and extensions and service pursued with due diligence thereafter. That in the portions undeveloped on the effective date of this franchise and within the service area, installation of the CATV System shall be completed by the date on which the City accepts the public improvements for new subdivisions. Failure to so commence and diligently pursue to completion shall be grounds for termination of this franchise.

Section 9. ABANDONMENT OF SERVICE.

(a) After the Grantee shall have established service pursuant to this franchise in the franchise area, such service shall not be suspended or abandoned unless such suspension or abandonment is authorized by the City Council.

(b) Whenever the Grantee shall file with the City Council a written application alleging that public interest, convenience and necessity no longer require that the Grantee furnish service as authorized or required by, or pursuant to this franchise, in any service area, the City Council shall, at a public hearing, take evidence upon that question and shall make a finding with respect thereto. Notice of such hearing shall be given by the Grantee to each subscriber in such area at least fifteen (15) days prior thereto. If the City Council shall find that public interest, convenience and necessity no longer require that the Grantee furnish such service, then the City Council shall, after hearing as provided herein, authorize suspension or abandonment of such service upon such reasonable terms and conditions as may be prescribed by the City Council.

Section 10. REGULATION OF RATES AND SERVICE.

(a) The City Council shall have the power and right at all times for the duration of this franchise and privilege to require Grantee to conform to reasonable rules and regulations adopted by the City

Council, including the power to regulate and establish reasonable rates and charges by Grantee for services rendered under this franchise and privilege. The establishment of such rules and regulations shall be discretionary with the City Council.

(b) The said CATV System shall be installed and maintained in accordance with existing standards of the industry to the effect that the subscriber shall receive the best signal to his TV set. The City shall establish, in accordance with the practice of the television industry, minimum acceptable standards of signal quality. The provisions of this subsection are a "material provision hereof" as these words are used in Section 4(b)(2) hereof.

(c) The said CATV System shall include, but not be limited to, the broadcast signal of all television stations located within the San Diego Metropolitan Area.

Section 11. LOCATION OF FRANCHISE PROPERTY.

Franchise property shall be constructed or installed only at such locations and in such manner as shall be approved by the City Engineer, acting in the exercise of reasonable discretion.

Section 13. CHANGES REQUIRED BY PUBLIC IMPROVEMENTS.

The Grantee shall, at its expense, protect, support, temporarily disconnect, relocate in the same street, alley, or public place, or remove from any street, alley or public place, any franchise property when required by the City Engineer by reason of traffic conditions, public safety, street vacation, freeway and street construction, change or establishment of street grade, installation of sewers, drains, water pipes, power lines, signal lines, and tracks or any other type of structures or improvements by governmental agencies when acting in a governmental or proprietary capacity, or any other structures or public improvements; provided, however, that Grantee shall in all such cases have the privileges and be subject to the obligations to abandon franchise property in place, as provided in Section 9.

Section 14. FAILURE TO PERFORM STREET WORK.

Upon failure of the Grantee to commence, pursue or complete any work required by law or by the provisions of this franchise to be done in any street, within the time prescribed and to the satisfaction of the City Engineer, the City Engineer may, at his option, cause such work to be done and the Grantee shall pay to the City the cost thereof in the itemized amounts reported by the City Engineer to the Grantee within thirty (30) days after receipt of such itemized report.

Section 15. ANNUAL PAYMENTS TO THE CITY.

(a) By its acceptance of this

franchise, the Grantee agrees to pay to the City annually in lawful money of the United States two per cent (2%) of the total gross receipts collected or received, or in any manner gained or derived by the Grantee in each calendar year, or portion thereof, during the term of this franchise, from the properties, operations and business referred to in Section 2 hereof.

(b) Checks for all such payments shall be made payable to the City Treasurer, and shall be submitted to the City Treasurer on or before March 1 of each year for the previous calendar year or portion thereof.

(c) Each payment shall be accompanied by a statement, in duplicate, verified by the Grantee or by a general officer or other duly authorized representative of the Grantee, showing in such form and detail as the City Manager may require from time to time the facts material to a determination of the amount due.

(d) The payment made to the City by the Grantee pursuant to this section for any calendar year shall be in lieu of any license, fee or business tax prescribed by the City for the same period, but only to the extent of such payment.

Section 16. FAITHFUL PERFORMANCE BOND.

The Grantee shall within the period specified in Section 4(c) file with the City Clerk and, at all times thereafter, maintain in full force and effect an acceptable corporate surety bond, in duplicate, in the amount of FIVE THOUSAND DOLLARS (\$5,000.00), effective for the entire term of this franchise, and conditioned that in the event the Grantee shall fail to comply with any one or more of the provisions of this franchise then there shall be recoverable jointly and severally from the principal and surety of such bond any damages suffered by the City as a result thereof, including the full amount of any compensation, indemnification, or cost of removal or abandonment of property as prescribed by Sections 12, 15 or 17 hereof which may be in default, up to the full amount of the bond; said condition to be a continuing obligation for the duration of this franchise and thereafter until the Grantee has liquidated all of its obligations with the City that may have arisen from the acceptance of this franchise by the Grantee or from its exercise of any privilege herein granted.

Neither the provisions of this Section 16, any bond accepted by the City pursuant thereto, nor any damages recovered by the City thereunder shall be construed to excuse faithful performance by the Grantee or to limit the liability of the Grantee under this franchise or for damages, either to the full amount of the bond or otherwise.

Section 17. INDEMNIFICATION TO CITY.

The Grantee shall indemnify the City, its officers and its employees, against all claims, demands, actions, suits and proceedings by others and against all liability to others and against any loss, cost and expense resulting therefrom, including reasonable attorneys' fees, arising out of the exercise or enjoyment of this franchise, irrespective of the amount of the bond designated in Section 16 hereof.

Section 18. INSPECTION OF PROPERTY AND RECORDS.

(a) At all reasonable times the Grantee shall permit any duly authorized representative of the City Engineer and/or the City Auditor to examine all franchise property, together with any appurtenant property of the Grantee situated within or without the City, and to examine and transcribe any and all maps and other records kept or maintained by the Grantee or under its control which treat of the operations, affairs, transactions or property of the Grantee with respect thereto. If any of such maps or records are not kept in the City, or upon reasonable request made available in the City, and if the City Engineer and/or the City Auditor shall determine that an examination thereof is necessary or appropriate to the

performance of any of his duties, then all travel and maintenance expense necessarily incurred in making such examination shall be paid by the Grantee.

(b) The Grantee shall prepare and furnish to the City Engineer and/or the City Auditor, at the times and in the form prescribed by the City Engineer and/or the City Auditor, such reports with respect to its operations, affairs, transactions or property as may be reasonably necessary or appropriate to the performance of any of the duties of the City Engineer and/or the City Auditor in connection with this franchise. Such reports may include, but are not limited to, a complete set of as-built records and plans of all facilities installed within the franchise service area.

Section 19. Notwithstanding any other provisions contained herein, this franchise is granted solely and exclusively under Sections 103, 103.1, 104 and 105 of the Charter of The City of San Diego and under no other authority.

Section 20. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

Any person desiring to install, construct or reconstruct a septic tank, settling tank, cesspool or other subsurface sewage disposal unit or system shall file with the Director of Public Health a written application for a permit for such installation, construction or reconstruction. A separate application and permit for each installation shall be required. The inspection fee shall be Ten Dollars (\$10.00), which fee shall be paid to the Director of Public Health. The application shall contain the following information and such other information as the Director of Public Health may require:

Street name and number of the premises where the installation is to be made; the name and address of the owner; the name and address of the contractor who is to perform the work; the size and type of the septic tank, settling tank, cesspool or other subsurface sewage disposal unit or system to be installed and the number of people it is to serve. The application shall include or be accompanied by a plan or diagram showing the character and kind of installation to be made and the manner and location in which the work is to be done.

"SEC. 44.0214 CESSPOOL, SEPTIC TANK, SUBSURFACE DISPOSAL SYSTEM--ISSUANCE OF CONSTRUCTION PERMITS, SUSPENSION AND REVOCATION

On receipt of the application and fee the Director of Public Health may issue such Construction Permit if the Health Department investigation discloses that the facts set forth in such application are true, and that the health conditions in and about the premises wherein and whereon it is proposed to construct such installation and the installation itself comply with all the building and health regulations of The City of San Diego and the State of California. A violation of such requirements shall be grounds for denial of such Construction Permit, or, if previously issued, grounds for suspension or revocation.

"SEC. 44.0215 CESSPOOL, SEPTIC TANK, SUBSURFACE DISPOSAL SYSTEM--CHANGE OF LOCATION OR SUPPLEMENTAL PERMIT

(a) Permits issued pursuant to this Division shall be void one year from the date of issuance. Permits shall not be transferable from one person to another.

(b) A permittee to whom there has been issued pursuant to this Division a permit for an installation to be made at a particular location may apply for a supplemental permit authorizing such work to be performed at a different location provided that no work has been commenced at the location specified in the original permit, and provided further that such supplemental installation complies with all the building and health regulations of The City of San Diego and the State of California. The application for a supplemental permit shall be made on a form prescribed and furnished by the Director of Public Health. On receipt of such application and a fee of Three Dollars (\$3.00), the Director of Public Health may issue a supplemental permit authorizing the performance of work at the substituted location.

"SEC. 44.0216 CESSPOOL, SEPTIC TANK, SUBSURFACE DISPOSAL SYSTEM--CONSTRUCTION APPROVAL

As soon as the septic tank, settling tank, cesspool or other subsurface sewage disposal unit or system is installed and ready to receive its cover, the person to whom the permit for such unit or system was issued shall notify the Health Department that such unit or system is ready for inspection. As soon thereafter as practical, the Director of Public Health shall make an inspection of the work. If the unit or system is approved, an inspection certificate shall be posted in a conspicuous place upon the property where the unit or system is located, which inspection certificate shall note the date and approval and the signature of the person making the inspection. No such installation shall be covered prior to its approval as herein required.

"SEC. 44.0217 CESSPOOL, SEPTIC TANK, SUBSURFACE DISPOSAL SYSTEM--REINSPECTION--FEE

When an inspection has been ordered and the work is found to be not ready for inspection and approval, the Director of Public Health shall cause an official notice to be posted on the job stating the changes necessary in order that the work will comply with the requirements of the Municipal Code of The City of San Diego. As soon thereafter as practicable, the owner or contractor shall cause the changes to be made and, upon completion thereof, shall notify the Department that the unit or system is ready for reinspection. As soon thereafter as practicable, the Director of Public Health shall make a reinspection. If, upon reinspection, the work is approved, a certificate to that effect shall be posted as hereinabove specified. The fee for each reinspection shall be Five Dollars (\$5.00), which fee shall be paid to the Director of Public Health.

"SEC. 44.0218 CESSPOOL, SEPTIC TANK, SUBSURFACE DISPOSAL SYSTEM--PERCOLATION TEST--WHEN REQUIRED

The Director of Public Health may require the applicant for such Construction Permit to furnish a report of an engineer, registered in the State of California, showing that soil percolation tests have been made by that engineer on the site of the proposed subsurface sewage disposal system and the results of such tests. If the Director of Public Health determines that the location, area, soil porosity, ground water level, density of population in the area, the number of persons to be served, or other conditions would cause the operation of such installation to create an unsanitary condition affecting the public health, such permit shall not be issued. In such cases the Construction Permit fee shall be refunded.

"SEC. 44.0219 CESSPOOL, SEPTIC TANK, SUBSURFACE DISPOSAL SYSTEM--LOCATION

Any subsurface sewage disposal unit or system or part thereof hereafter constructed or installed shall be so situated that it will be a 'safe distance' from any source of water supply as determined by the Director of Public Health. In determining what is a 'safe distance' the Director shall consider: The source of possible pollution, the type of soil, surface and subsurface, the type and source of water supply, the geological formation of the ground, the direction of surface drainage, and the depth and direction of ground water flow.

Under no circumstances shall any part of such subsurface sewage disposal unit or system, except the house sewer line, be located closer than fifty feet (50') from any water supply.

No part of such subsurface sewage disposal unit or system, except the house sewer line, shall be located

less than five feet (5') from every building or structure or less than five feet (5') from every property line.

"SEC. 44.0220 CESSPOOL, SEPTIC TANK, SUBSURFACE DISPOSAL SYSTEM--MINIMUM LOT AREA

No septic tank, settling tank, cesspool or other subsurface sewage disposal system or unit shall be installed or constructed on a lot or parcel containing an area of less than five thousand (5,000) square feet; provided, however, that where the lot area is less than five thousand (5,000) square feet but more than four thousand (4,000) square feet, the Director of Public Health may waive the minimum area requirement if the Director determines that the operation of such installation will not be detrimental to public health."

Section 2. That Sections 93.1701, 93.1702, 93.1703, 93.1704 and 93.1713 of the San Diego Municipal Code are hereby repealed.

Section 3. A violation of any provision or the failure to comply with any of the requirements established by this ordinance shall constitute a misdemeanor. Any person convicted of such violation or such failure shall be punishable by a fine of not more than Five Hundred Dollars (\$500.00) or by imprisonment in the City jail for a period of not more than six (6) months or by both fine and imprisonment. The provisions of Section 11.12 of the San Diego Municipal Code shall apply.

Section 4. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

"SEC. 102.0201.4 TENTATIVE MAP PROCEDURE - GENERAL

1. Following receipt of a full set of tentative maps and the required fee or deposit, the Planning Director shall indicate the date of filing (i.e., the date upon which the fee or deposit was received) upon all copies of the tentative map and the accompanying statements of data, if any. Thereafter, within five (5) days of the date of filing, he shall transmit an appropriate number of prints of the tentative map and statements of data to the City Engineer, Utilities Director, Park and Recreation Director, School Superintendent affected, or other department and public or semi-public agency which he deems to have a direct responsibility or interest in the consideration of said tentative map.

2. As soon as practicable following filing, the Planning Director shall determine whether the tentative map is to be considered at a meeting of the Committee (see Section 102.0204).

3. As soon as practicable following filing, the Planning Director shall determine, according to policies established by the Planning Commission, whether the tentative map is possessed of sufficient public or community interest to justify the holding of a public hearing by the Planning Commission prior to action being taken on the map. In the event that a public hearing is held, written notice shall be mailed to the subdivider and to the owners of all property within three hundred (300) feet of the exterior boundaries of the property involved at least ten (10) days prior to the date of hearing. The last known name and address of each owner as shown on the records of the County Assessor shall be used for the aforementioned notice.

4. Within a period of not more than twenty-one (21) days from the receipt of a copy of the tentative map, each department or agency to whom such copy shall have been transmitted shall file with the Planning Director its approval of such tentative map or a report specifying the changes and improvements necessary to make such tentative map conform to the standards and policies of said department or agency.

"SEC. 102.0201.5 TENTATIVE MAP PROCEDURE - FINAL MAPS AND RECORDS OF SURVEY TO BE RECORDED

1. Unless request has been made that the tentative map be considered for filing as a division plat and the Planning Director has determined (following receipt of the various departmental reports) that such map meets the criteria set forth in Section 102.0502, processing of the tentative map shall proceed as authorized herein. The procedure for further processing of tentative maps to be filed as division plats shall be as outlined in Section 102.0201.6.

2. Upon presentation of the Planning Director's report, which shall include the concise summaries of the detailed departmental and agency reports as prepared and submitted by each of the reporting departments or agencies, the Commission shall consider the tentative map and, within fifty (50) days after the date of filing, unless such time is extended by agreement with the subdivider or unless the tentative map has been submitted in conjunction with a petition for change of zone, either approve, conditionally approve, or disapprove said tentative map. In the event that the Commission fails to take action within the time stipulated, the tentative map shall be deemed approved. The Planning Commission may extend consideration a maximum of thirty (30) days upon mailing written notice to subdivider prior to expiration of the action period. Upon request of the subdivider, the Planning Director shall transmit a written copy of his report on the tentative map to the subdivider or his engineer not less than ten (10) days prior to the next regularly scheduled meeting of the Commission. Such request shall have the effect of automatically extending by two (2) weeks the time within which the Commission may take action on said tentative map.

3. The Commission shall, through the Planning Director report its action on the tentative map to the subdivider and

his representative within seven (7) days following the taking of said action. The report approving or conditionally approving a tentative map submitted in conjunction with a petition for change of zone shall state that such approval does not become effective until the effective date of the concurrent ordinance rezoning the property.

4. In the event that any person is dissatisfied with any action of the Commission with respect to the tentative map, an appeal may be directed to the Council within fifteen (15) days following such action. The notice of appeal shall be in writing and filed with the City Clerk.

The City Clerk shall thereupon place the matter on Council docket for a hearing not more than fifteen (15) days from the date of filing of the notice of appeal, or, if the tentative map was submitted in conjunction with a petition for change of zone, at such time as the latter is scheduled to be heard by Council. The City Clerk shall give the subdivider and the Commission written notice of the time so set.

The Council shall hear the appeal on the date set unless such time is extended by agreement with the appellant.

At the hearing, the Council shall proceed to hear the testimony of the subdivider or any witnesses in his behalf and the testimony of the representatives of the Commission or any other witnesses.

Upon conclusion of the hearing, unless additional time for further consideration is mutually agreed upon, the Council shall, within seven (7) days, declare its findings based on the testimony and documents placed before it. It may sustain, modify, reject or overrule the recommendations or rulings of the Commission and may make such findings as are not inconsistent with State or local laws; or, it may refer the matter to the Commission for further report.

5. The Commission may extend the approval of the tentative

map not to exceed one (1) additional year from the date of the original approval, but any failure to record a final map or record of survey within one (1) year from the approval or conditional approval of the tentative map or any extension thereof granted by the Commission shall terminate all proceedings. Before a final map or record of survey may thereafter be recorded, a new tentative map shall be submitted. In the event the Commission denies a subdivider's application for a one-year extension, the subdivider may appeal to the Council in the same manner as is provided in the preceding paragraph.

"SEC. 102.0201.6 TENTATIVE MAP PROCEDURE - DIVISION PLAT TO BE FILED

1. If the tentative map is to be considered for filing as a division plat, after receiving the written reports of the various departments approving the map, the Planning Director shall consider the tentative map and within thirty (30) days from the date of filing, unless such time is extended by agreement with the subdivider, approve, or disapprove said tentative map. In the event that the Director fails to take action within the time stipulated, the tentative map shall be deemed approved, and a division plat conforming to said tentative map may be filed. The Planning Director may extend consideration a maximum of thirty (30) days by mailing written notice to subdivider prior to expiration of the action period.

2. The Planning Director shall report his action to the subdivider in writing within five (5) days following the taking of said action.

3. In the event the subdivider is dissatisfied with any action of the Planning Director with respect to the tentative map, an appeal may be directed to the Commission within fifteen (15) days following the taking of said action. The Commission shall hear the appeal at its earliest convenience. At the hearing, the Commission shall

proceed to hear the testimony of the subdivider or any witnesses in his behalf and the testimony of the Planning Director or any other witnesses. The action of the Commission on the appeal shall be final.

4. Any failure to file a division plat within six (6) months from the approval of the tentative map shall terminate all proceedings. Before a division plat may thereafter be filed, a new tentative map shall be submitted and a new approval obtained.

"SEC. 102.0202 SUSPENSION OF REQUIREMENTS

In approving a tentative map in those cases where a final map or record of survey is to be recorded, a suspension of any of the design standards and criteria set forth or referred to in this Article, and a variance from any of the lot area, frontage, width, depth and front yard or setback requirements of the various zones described in Chapter X, Article 1 of this Code may be granted by the Commission or the Council upon appeal or by the Commission upon appeal of tentative maps to be filed as division plats, provided there is sufficient showing that there are special circumstances or conditions affecting the property in question, and that such suspension or variance, if granted, will not be materially detrimental to the general welfare or the welfare of adjacent persons or property.

"SEC. 102.0203 DISAPPROVAL OF TENTATIVE MAPS

1. The Commission or the Council may disapprove any tentative map when it finds that the land involved is subject to flooding, sliding, slipping, or other similar hazards.

2. The Commission or the Council may disapprove any tentative map that does not comply with one or more of the design standards and criteria set forth or referred to in this Article.

3. The Commission or the Council may disapprove any tentative map which it finds does not conform substantially in its purpose and design to the General Plan or any of the various elements thereof, and to any community and area plans which have been approved by the Commission or the Council.

4. The Commission or the Council may disapprove any tentative map when it finds that the public health or safety justifies such action.

5. The Planning Director may disapprove any tentative map which is sought to be filed as a division plat for any of the reasons cited herein.

"SEC. 102.0204 SUBDIVISION ADVISORY COMMITTEE

1. There is hereby created the Subdivision Advisory Committee which shall be under the chairmanship of the Planning Director and shall include representatives of the Planning, City Engineering, Park and Recreation, and Utilities Departments. In addition, the Committee may include representatives of the following City departments and public or semi-public agencies: Fire; Assessor; Health; School District; State Division of Highways; other interested departments; and local public utility companies.

2. The Committee shall have no official function other than to meet regularly for the primary purpose of affording subdividers and their engineers a convenient opportunity to exchange information with those public officials assigned the responsibilities of conducting investigations and making recommendations on tentative maps.

3. The Planning Director shall make the determination as to which tentative maps are to be placed on the Committee agenda. Those tentative maps for which such consideration has been specifically requested by either the subdivider or by one or more of the Committee's members shall always be placed on said agenda.

4. Copies of the Committee agenda shall be distributed to all committee members and to affected subdividers and/or their engineers not less than five (5) days in advance of the date of the meeting.

'DIVISION 3

SUBDIVISION STANDARDS AND REQUIREMENTS'

"SEC. 102.0301 DEDICATIONS AND RESERVATIONS

1. New subdivisions shall connect to a dedicated and improved (or bonded for) street and shall make provision for dedication of necessary public rights of way, including streets, pedestrian ways and utility easements, within or adjacent to the subdivision.

2. Access Rights

Where it is in the interest of public safety or welfare to limit the access to any street or highway, the subdivider may be required to waive direct access rights or easement of access to any such street or highway from any property shown on the final map as abutting thereon.

3. Required City and/or School District Sites

Required sites within proposed new subdivisions shall be reserved for City and/or School District use prior to the time of City approval of the tentative map. Required sites shall be offered to the City and/or School District for immediate purchase, or under exclusive option for a period of two (2) years from the date of execution, at current unsubdivided land fair market values on said date of execution plus interest and any necessary costs incurred by subdivider from date of execution to date of exercise of said option, which are beneficial to City or School District. Such agreements shall be executed prior to City approval of the final map and shall be a condition of such approval.

4. New subdivisions shall make provision for the continuation of existing streets in adjoining or adjacent subdivisions insofar as these may be necessary for public requirements. Streets shall be extended to the boundary of the subdivision to provide suitable access to adjoining property.

5. Whenever any new subdivision of land is bounded on any side, or in any way by the Bay of San Diego, or by any public body of water in the City of San Diego, or by the Pacific Ocean, there shall be dedicated upon and by such map or plat, a street along said bay, body of water, or ocean front; and all such streets, and those streets leading to said bay, body of water, or ocean front shall run and be open to the mean high tide line.

6. A street or alley lying along the boundary of a subdivision may be dedicated less than the full required width (but in no case less than one-half the required width) if it is practical to require the dedication of the remaining width when the adjoining property is subdivided. Such portion of a street shall be distinctly designated upon the map or plat as being a portion only of a street, and not the street in full width.

7. Whenever there already exists a dedicated and recorded half-street or alley on an adjoining plat, the other half must be dedicated on the proposed plat to complete the street or alley right of way.

8. Where practicable, alleys shall be dedicated in the rear of all lots zoned or approved for multiple family residential or commercial purposes.

9. Where practicable, access shall be provided to major canyon areas via streets or alleys.

"SEC. 102.0302 STREET TREES

The subdivider shall either plant street trees within the subdivision as required by the Department of Parks and Recreation, or else make a cash payment to the City in an amount sufficient in the opinion of said Department to cover the cost of planting trees at an appropriate later date.

"SEC. 102.0303 DESIGN STANDARDS - GENERAL

1. The design of new subdivisions shall conform substantially to approved community and area plans.

2. The design of new subdivisions shall make adequate provision for the proper development of adjacent lands.

3. The design of new subdivisions shall be consistent with the indicated use of the property.

4. Where utilities exist, the design of new subdivisions shall be such as to place them in proper locations or to provide for their relocation as approved by the utility agencies concerned.

5. The design of new subdivisions shall be subject to such redesign as will benefit the community and provide adequate and reasonable subdivision of the property, including services thereto.

"SEC. 102.0304 STREET DESIGN

Street design shall conform to the standard requirements as approved by the Council.

"SEC. 102.0305 LOT DESIGN

1. All lots shall have frontage upon a public street which shall be open to and usable by vehicular traffic; and all lots shall have a minimum fifteen (15) foot wide direct vehicular access to such street.

2. All lots shall meet the area, frontage, width and depth requirements of the prevailing or approved use zone

within which said lots are located; provided, however, that in its consideration of any subdivision, the Commission or the Council may determine that a greater minimum lot area is necessary for the proper protection of the public health, safety and general welfare.

3. Where improvements exist and are proposed to be retained, lots shall be designed so as not to cause said improvements to become nonconforming in respect to building area or yard regulations.

4. The side lines of all lots shall be at approximately right angles or approximately radial to the street upon which the lots front.

5. Whenever practicable, side and rear lot lines shall be located along the top of slopes instead of at the toe or at intermediate locations.

6. The lots shall be numbered in numerical order with no omissions or duplications.

7. Lots for single-family and two-family use shall not be designed with frontage on two (2) paralleling local streets.

8. Wherever practicable, subdivisions of property abutting rights of way for freeways, expressways, railroads, transmission lines, and flood control channels shall be so designed as to create lots which back up to said rights of way.

"SEC. 102.0306 BLOCK DESIGN

1. No block shall be longer than thirteen hundred (1300) feet between street lines.

2. No residential block shall be less than five hundred (500) feet in length between street lines.

"DIVISION 4

FINAL MAPS"

"SEC. 102.0401 FINAL MAP - GENERAL

1. Within one (1) year following approval or conditional approval of the tentative map, the subdivider shall submit a

final map to the City Engineer with such copies as the City Engineer may require.

2. The final map shall conform to the approved tentative map and to the requirements and conditions contained in the report approving the tentative map and shall comply with all the provisions of this Code and the Subdivision Map Act of the State of California and any amendments thereto.

4. The final map shall be clearly and legibly drawn in black waterproof India ink upon good tracing cloth, or polyester base film, except that affidavits, certificates and acknowledgments may be permanently and legibly stamped or printed with opaque ink which will not wear off; or final map may be a transparent linen reproduction with dense black lines of equivalent quality and permanence.

5. The size of the final map sheets shall be eighteen (18) inches long by twenty-six (26) inches wide including a blank margin of one (1) inch all around, and the scale of the drawing shall be one hundred (100) feet to one (1) inch, or fifty (50) feet to one (1) inch.

6. If the number of map sheets (excepting title sheets) exceeds five (5), a key map on a reduced scale showing the subdivision boundary, the streets and the sheet layout, shall be included as part of the map.

7. The description of the property being subdivided (which may be general in character) shall appear on the title sheet.

8. The traverse of the exterior boundaries and any necessary ties of the tract, and the boundaries of each

block, lot and easement in the tract, and the center line of each street in the tract shall be submitted with the final map.

'SEC. 102.0401.1 FINAL MAP - INFORMATION

The final map shall accurately and definitely show the following information:

1. Name of the subdivision, location and extent of the property subdivided, arrow designating true north, scale of plat, and the name of the engineer platting the tract.

The following certificates shall appear on the title sheet of the Final Map:

1. Engineer's Certificate. A certificate signed and sealed by the engineer making the survey shown on such map or plat, certifying that he actually made the survey and performed the work shown, specifying the size and kinds of stakes, monuments and marks found, together with the date that such field work was done by him and certifying that he set (or will set) within thirty (30) days after the completion of the required improvements and their acceptance by the City, the stakes, monuments and marks indicated thereon, and that such monuments are (or will be) sufficient to enable the survey to be retraced and will occupy the positions shown thereon.

In case any dedication or consent shown on such

subdivision map is signed by a corporation, a certified copy of the resolution passed by the board of directors of said corporation authorizing certain officers to sign said subdivision map shall accompany the final map. The provisions of this paragraph shall apply to public utilities only to the extent that the property easements and rights of way are used or were acquired or intended for use for the construction and/or operation of distribution facilities as distinguished from transmission facilities. When the public utility easements and rights of way involve transmission facilities, the provisions of sub-paragraph 5 hereinafter shall apply.

- b. In the event that the future use of said easements or properties by Company shall at any time or times necessitate a rearrangement, relocation or reconstruction of the said public street or public improvements incidental thereto, the same shall be performed at the cost of Company.
- c. All uses of said street areas by either party shall be such as will not permanently interrupt the use or operation of the facilities therein of the other party; uses of said areas by either party which temporarily interfere with the use or operation of the facilities therein of the other party will be made only when reasonably necessary under said easement or for street or incidental purposes and will be promptly terminated as soon as the necessity therefor no longer exists.
- d. If City shall hereafter vacate or abandon, in whole or in part, the streets which are occupied by said easements or properties, the City shall, in the vacation or abandonment proceedings, reserve to Company all rights owned by it prior to the execution of this certification.
- e. Except as expressly herein set forth, this agreement shall not in any way alter, modify or terminate any of Company's prior rights in said areas.

Gas and electric transmission facilities include, but are not limited to pipes, cables, conduits, ducts, vaults, pole and tower lines, wires, steel towers, poles and other related equipment used primarily for transmitting gas and/or electrical energy from one area to another as distinguished from those facilities used primarily for local distribution purposes.

In every agreement for joint use endorsed upon such map or plat, there shall be contained a specific designation by name of the particular streets, highways, alleys, courts, parks and all parcels of land within such tracts or subdivision offered for dedication, public use and not merely a reference thereto.

When an agreement for joint use is shown on a subdivision map and signed by a corporation, a certified copy of the resolution or minutes of the board of directors of said corporation authorizing certain officers to sign said subdivision map must accompany the final map or be on file in the office of the City Clerk.

6. Acknowledgments. All such signatures of owners and others, whether individuals or corporations must be properly signed and acknowledged in India ink before a notary public.

7. City Engineer's Approval. A certificate of the City Engineer approving the map.

10. City Clerk's Certificate. On all such maps presented to the City Council for approval, there shall be provided proper certificates for the City Clerk to certify the approval of the map by the Council, and the acceptance or rejection on behalf of the public of all dedications shown thereon and the acceptance or rejection of all agreements for joint use executed in lieu thereof.

"SEC. 102.0401.3 FINAL MAP - CHECKING PROCEDURE

1. The City Engineer shall check the final map or the record of survey map, submitted in lieu of a final map, for conformance to the approved tentative map, for compliance with the requirements of this Article and the Subdivision Map Act, for correctness of mathematical data and computations, and shall verify the setting of monuments.

2. The City Attorney shall examine the map for sufficiency of affidavits, legal descriptions and other checking to insure compliance with the applicable provisions of law.

3. The Planning Director shall make such examinations and checks of the final map as are required by the Commission.

"SEC. 102.0401.4 FINAL MAP - FEE DEPOSIT SCHEDULE

Prior to the submission of a final subdivision map or record of survey map or improvement plans to the City Engineer, the subdivider shall pay to the City a deposit to cover City costs for processing the final subdivision map, for verifying the field surveying, for checking improvement plans, for installation of street signs, for acquiring rights of way, making improvement construction inspections, and for recording the final map, and for other incidental engineering costs, which deposit shall be in accordance with the following schedule; provided, however, if said deposit, as designated herein, is insufficient to cover the actual cost to said City, the subdivider shall be required to

make additional deposits with the City which in the opinion of the City Engineer will be sufficient to cover such costs. Any portion of said deposits not used to cover the actual costs of the City in processing a final subdivision map, will be returned to the subdivider.

No Improvements Required

"SEC. 102.0401.5 RECORDING OF MAP

Whenever a final map shall have been accepted by the Council, the City Clerk shall transmit the map to the Clerk of the County Board of Supervisors. A record of survey accepted in lieu of a final map shall be transmitted to the County Surveyor. An ozalid transparent print shall then be made from the recorded original of said map or record of survey, which ozalid transparent print shall thereupon be filed in the office of the City Engineer.

"DIVISION 5

RECORD OF SURVEY AND DIVISION PLAT"

"SEC. 102.0501 RECORD OF SURVEY

1. In lieu of a final subdivision map, the subdivider may record a record of survey map pursuant to the provisions of Chapter 15, Division 3, of the Business and Professions Code, and to the provisions

of this Article, where the division is of one or more contiguous numbered or lettered lots (as shown on a recorded final subdivision map) into not more than four (4) new lots or parcels, provided that all of the following facts are found by the Planning Commission to exist:

- (a) All lots proposed front upon dedicated streets.
- (b) Dedication of streets, alleys or other public ways or easements is not required by the City.
- (c) The lot sizes proposed conform to the provisions of the zoning ordinance of the City and to the existing building sites in the vicinity.
- (d) Water and sewer mains are readily available.
- (e) Street grading, paving, curbs, sidewalks and drainage provisions are comparable to existing or authorized improvements in the vicinity, or a contract and bond as provided in this Code have been executed to guarantee the completion of the public improvements required by the City.

2. The record of survey map shall indicate setback lines, as approved by the City, and shall indicate the width, location, and character of all existing easements and other public utility property interests, together with appropriate identification thereof.

"SEC. 102.0502 DIVISION PLATS - REQUIREMENTS

1. In lieu of a final map, the subdivider may file with the Planning Department a division plat pursuant to the provisions of this Article, provided that the approved tentative map is determined by the Planning Director to represent one of the following:

- (a) A division of a previously subdivided lot or lots into not more than four (4) parts, and which division is indicated by the various reporting departments and agencies not to require dedications or improvements.

- (b) A division of one or more parcels into not more than four (4) parts, each of a net area of twenty (20) acres or more and each abutting a public street or a reservation for future street.
- (c) A division of a previously subdivided lot into two (2) parts, the parts thus obtained to be used to increase the size of the building sites adjacent thereto.
- (d) A division made to adjust the boundary line between two (2) previously subdivided lots ('lot line adjustment').

2. The determination as to whether a division constitutes a division under 102.0502(d) above shall be affirmative provided that the Planning Director finds all of the following facts to exist:

- (a) Neither of the two (2) lots affected is made substandard in respect to the requirements for lot design specified in this Code.
- (b) No existing building or structure is made substandard in respect to yard or other zoning requirements specified in this Code.
- (c) Existing easements in favor of the public are not rendered impractical to serve their purpose.
- (d) The utilization of no more building sites is made possible than would have been legally permissible had the location of the lot lines remained unchanged.

"SEC. 102.0503 FILING OF DIVISION PLATS - PROCEDURE AND FEE

If the tentative map has been found by the Planning Director to be suitable for filing as a division plat, the subdivider shall file with the Planning Department a reproducible tracing which conforms to the approved tentative map. Said tracing shall be drawn to a scale specified by the Planning Director and shall contain such dimensions and survey information which he deems pertinent. The filing of the reproducible tracing, which constitutes the division plat, shall be accompanied by a fee of \$10.00

"SEC. 102.0504 COPIES SENT TO OTHER DEPARTMENTS

Within seven (7) days after acceptance of a division plat submitted for filing, the Planning Director shall send prints of said plat to the City Engineer, the Chief Building Inspector, and the City Clerk and County Assessor, and also a reproducible tracing to the City Engineer.

"DIVISION 6
SURVEY"

"SEC. 102.0601 SURVEY

1. Subsequent to the approval of the tentative map thereof, and prior to the filing with the City Engineer of the final map, or record of survey map, each subdivision shall be surveyed accurately in accordance with the tentative map and all required alterations and changes; provided, however, that where the map is exclusively a reversion to acreage, such survey shall not be required.

2. The procedure and practice of all survey work done upon such subdivision shall conform to the accepted standards of the engineering profession. All subdivisions recorded by record of survey map in lieu of the final map shall be processed through the City in the same manner as a final map, including field survey. The City Engineer or a qualified representative may be designated as a Deputy County Surveyor.

3. Permanent monuments shall be set at boundary corners of each subdivision and along the boundary lines at intervals of not more than one thousand (1,000) feet. The location of such points as are inaccessible or are located within street roadways may be established by ties to reference monuments shown on the final map. Such monuments shall be concrete monuments or iron pipes or a metal plug with metal tack and disc set in portland cement concrete sidewalk, curb or pavement. Such permanent boundary monuments are not required for records of survey filed in lieu of final maps.

For the purpose of this Article, a permanent monument shall be no less substantial than the following:

- (a) Cylinder of reinforced concrete six (6) inches in diameter not less than two (2) feet in length, set two (2) feet in the ground with the center point marked by a metal disc firmly set in the top; or
- (b) an iron pipe of minimum two (2) inch diameter not less than two (2) feet in length, placed upright in the ground so that the top of said pipe is flush with the surface. Said pipe shall be filled with a metal or cement plug at least three (3) inches in depth and centered with a metal tack and disc; or
- (c) a metal plug with tack and disc set flush with the surface in portland cement concrete sidewalk, curb or pavement.

Monuments at block corners and at all angle points and points of curves of street and alley property lines, where portland cement concrete sidewalks, curbs or pavement exist or will be constructed as part of the subdivision requirements, shall be metal plugs with tack and disc set flush with the surface at an offset, to be measured radially or at right angles to the property line in said sidewalks, curb or pavement. Where no such concrete work exists, and none will be required to be constructed, monuments shall be set at the true corners and points and shall not be less substantial than steel rods one-half inch in diameter, not less than eighteen (18) inches in length, and driven at least eighteen (18) inches into the ground.

Lot corners along street and alley property lines where portland cement concrete sidewalks, curbs or pavement exist, or will be constructed as part of the subdivision requirements shall be identified with metal plugs with tack and disc set flush with the surface at an offset, to be measured

radially or at right angles to the property line, in said sidewalk, curb or pavement. In case the side line of a lot is not radial or at right angles to the property line, a monument of the same character as that specified below where no concrete work exists, shall be set at the true lot corner and the offset point shall not be set.

Where no such concrete work exists, and none will be required to be constructed, all lot corners shall be marked with a one-half inch steel rod or pipe, twelve (12) inches long, driven at least ten (10) inches into the ground.

In addition to the above monuments along street and alley property lines, concrete control monuments shall be set as part of the subdivision improvement work. The exact number of control monuments, their character and locations shall be as directed by the City Engineer, and each monument with its tie dimensions shall be shown on the final map or record of survey.

"DIVISION 7

IMPROVEMENTS AND LAND DEVELOPMENT"

"SEC. 102.0701 IMPROVEMENTS AND LAND DEVELOPMENT

1. Subdividers shall improve public rights of way and perform land development work as required in this Article and in accordance with the conditions of the resolution approving the tentative map and the standards prescribed in Chapter VI, Article 2.

2. No public improvements shall be required where the tentative map qualifies for filing as a division plat under Section 102.0502 (c) or (d).

3. In agricultural and residential subdivisions of five (5) lots or less, the following public improvements may be waived when any of the following facts are found to exist by the Commission (or Council upon appeal):

a. Pavement, curb and gutter, and sidewalk.

(1) Like improvements do not exist within six hundred (600) feet on the same street or on an intersecting street.

(2) Such improvements would create a drainage or traffic hazard.

- b. Grading - There would be created a drainage or traffic hazard.
- c. Drainage - Because of the size or hazard to adjoining properties drainage facilities are impractical.

4. Streets in and adjacent to subdivisions shall be improved

as follows:

- a. Interior streets full width and extending to the boundary.
- b. Ordinary boundary streets to the center line or to the boundary, whichever is greater; except that where such a street is dedicated full width, grading is to extend to the opposite curb line.
- c. Boundary streets which are used for access or which are located where topography creates a hazardous condition are to be paved to a point twenty-four (24) feet from the curb in single family residential zones and twenty-eight (28) feet from the curb in other zones.

5. Streets which must be constructed off-site to provide the required improved access shall be improved as follows:

- a. Within existing street reservations which are to be dedicated, complete improvements shall be installed as for on-site streets.
- b. Within regularly dedicated streets, improvements shall consist of not less than a twenty-four (24) foot width of paving together with necessary berms and aprons to control drainage. Where the volume of anticipated traffic warrants, additional width paving may be required.

6. Sidewalks shall be constructed on both sides of all streets except that they may be omitted in whole or in part in the following cases:

a. Large lot agricultural or residential subdivision where all the following conditions exist:

- (1) Entire area of the subdivision is in an R-1-10 or more restrictive zone;
- (2) Lots have a minimum frontage of ninety (90) feet or approved equivalent frontage on turnarounds or knuckles;
- (3) Street rights of way are not less than approved minimum widths including ten (10) foot curb to property line distance;
- (4) Streets are local in character, and do not provide principal access to schools or other institutional uses.

b. Large lot industrial subdivision where all the following conditions exist:

- (1) Entire area of the subdivision is in an M-1D, M-1A, or M-2A zone;
- (2) All lots fronting on local industrial streets have a minimum area of two (2) acres and a minimum frontage of two hundred (200) feet or approved equivalent frontage on turn-arounds or knuckles; and
- (3) All lots fronting on primary streets have a minimum area of five (5) acres and a minimum frontage of three hundred (300) feet.

7. Provision shall be made for sewer and water services connecting to the City sewer and water systems for each lot. Water systems shall provide for fire flow required to service entire subdivision. Individual sewer or water systems may be recommended by the City Engineer subject to the concurrence of the Utilities Director and approval of the Health Director in subdivisions of five (5) lots or less where the installation of extension mains to connect to the existing City systems would be impractical. In such cases, contracts shall be executed for installation of future permanent facilities.

8. Provisions shall be made for other utility services by the appropriate public utility companies. Where electric service is to be placed underground, provision shall be made for necessary minimum street lighting.

9. Masonry walls or fences shall be required adjacent to rights of way of flood control channels, railroads, freeways, expressways, major streets, and other streets where necessary or desirable from the standpoint of public health and safety.

10. Any private improvements existing or to be installed in public rights of way shall require encroachment permits in accordance with the provisions of Chapter VI, Article 2.

"SEC. 102.0702 REQUIREMENTS BEFORE COMMENCING WORK

Prior to any construction of improvements and/or land development required, the subdivider shall have complied with and performed the following requirements:

1. Subdivider shall file with the City Clerk detailed plans and specifications approved by the City Engineer for all public improvements or land development together with a detailed cost estimate approved by the City Engineer and an estimate of time reasonably necessary to complete the same.
2. Subdivider shall enter into a contract with The City of San Diego to make, install and complete within the time fixed but in no case more than two (2) years from the date of execution of said contract, all improvements and/or land development in accordance with approved plans and shall cause to be filed with the City Clerk a faithful performance bond payable to The City of San Diego, which shall insure the performance of the said contract and the completion of the said improvements, or land development, free of liens in a principal sum determined from the approved estimate

of the cost of the said improvements, and/or land development by schedule in paragraph 4 of this Section which said bond shall have been approved by the City Attorney as to form. In addition, the said bond shall inure to the benefit of those persons entitled to the protection of Part III, Title IV, Chapter II of the Code of Civil Procedure.

3. In the event that subdivider desires to submit cash in lieu of a faithful performance bond, he may do so by depositing with the City a sum of money, in the form of cash, a certified check or a time certificate of deposit, assignment of a savings account, or pledge of savings account as approved by the City Attorney, as determined from the City Engineer's estimate of the cost of said improvement and/or land development by schedule in paragraph 5 of this Section. In that event, the subdivider shall agree in the contract with the City hereintofore provided for, that if said work is not performed within the agreed time or within an extension of time authorized by City Council resolution, and the subdivider is, by City Council resolution, declared to be in default of his contract, said sum of money so deposited shall be used by the City for the completion of the public improvements and/or land development referred to in Section 102.0701 hereof and thereafter for the payment of any claim arising in connection therewith under the provisions of Part III, Title IV, Chapter II, Code of Civil Procedure. Upon completion and acceptance by the City of the improvements and/or land development, the deposit of any portion remaining with the City Treasurer shall be returned by the City to the subdivider.
4. In the event that subdivider desires to submit an instrument of credit, an irrevocable letter of credit, or escrow agreement in lieu of a faithful performance bond or a cash deposit

with the City, said instrument of credit, letter of credit, or escrow agreement may be drawn by a responsible financial institution regulated by State and Federal law, subject to the approval of the Council, in a sum determined from the approved estimate of the cost of said improvement and/or land development by schedule in paragraph 5 of this Section. Said instrument of credit, letter of credit, or escrow agreement shall have been approved by the City Attorney as to form and shall constitute a trust fund to be utilized for the payment of the cost of said improvement and/or land development. In that event, the subdivider shall agree in the contract with the City hereintofore provided for, that if said work is not performed within the agreed time and the subdivider is, by Council Resolution, declared to be in default of his contract, said sum of money so deposited or balance thereof shall be used by the City for the completion of the public improvements and/or land development required. Said security arrangement may provide for partial withdrawal of the deposit in money or bonds upon certificate of the City Engineer that certain work has been satisfactorily completed and affidavit of subdivider that said work is free of all liens. Upon completion and acceptance by the City of the improvements and/or land development any balance remaining of said instrument of credit, letter of credit, or escrow agreement may be released by said financial institution.

5. The bond or cash deposit amount shall be based on an estimate of the cost of the work approved by the City Engineer and in accordance with the following schedule:

Public Improvements - 110% of cost estimate

"SEC. 102.0703 REQUIREMENTS FOR PRESENTING FINAL MAP FOR ACCEPTANCE

1. No final map shall be presented to the Council for acceptance until the requirements of Sections 102.0701 and 102.0702 have been fulfilled.

2. In the event that the Engineer's Certificate required on the final map provides for the setting of stakes, monuments, and marks within thirty (30) days after completion of the improvements (hereinafter referred to as delayed staking), the subdivider shall furnish to the City a bond or cash deposit guaranteeing payment of the cost of such delayed staking. The engineer signing such certificate shall submit to the City Engineer a written estimate of the cost of the delayed staking and such estimate shall be used as the sole basis for determining the bond amount.

Upon completion of the delayed staking by the subdivider's engineer and acceptance by the City Engineer, a notice of such acceptance shall be given to the subdivider and his engineer. Within thirty (30) days of such notice the subdivider shall present evidence of payment and request exoneration of such bond, or in the event that the above procedure involved a cash deposit, shall authorize the City to make payment to the engineer from the cash deposit. If no such evidence or authorization is received within the allotted time, and upon request of the subdivider's engineer, the bond shall be placed in default and payment made by the surety company or from the cash deposit. In any case the bond shall be exonerated or placed in default within sixty (60) days following the notice of acceptance of the delayed staking.

3. No final map shall be presented to the Council for acceptance until all water, sewer or other charges established by the Council and pertaining to the property being subdivided have been paid.

"SEC. 102.0704 SPECIAL PERMITS ISSUED TO DO WORK

1. Should the subdivider desire to do certain work prior to entering into a contract with The City of San Diego to install and complete all subdivision improvements and land development work, he may make an application to do so under a special permit.

This application shall be accompanied by detailed plans describing the work which is proposed. The City Engineer may issue a special permit to the subdivider or to his contractor upon approval of the application.

The performance bond and contractor's qualifications shall be as provided in Chapter VI, Article 2, of the San Diego Municipal Code.

2. When the special permit is for all work required in connection with the subdivision and the work has been completed, the contract as designated in Section 102.0702 will not be required."

Section 3. A violation of any provision or the failure to comply with any of the requirements established by this Ordinance shall constitute a misdemeanor. Any person convicted of such violation or such failure shall be punishable by a fine of not more than \$500 or by imprisonment in the City Jail for a period of not more than six months or by both fine and imprisonment. The provisions of Section 11.12 of the San Diego Municipal Code shall apply.

AN ORDINANCE AMENDING CHAPTER X, ARTICLE I
OF THE SAN DIEGO MUNICIPAL CODE BY ADDING
THERE TO DIVISION 6 AND SECTION 101.0000,
REGULATING OFFSTREET PARKING IN RESIDENTIAL
ZONES.

BE IT ORDAINED, by the Council of The City of San Diego,
as follows:

Section 1. That Chapter X, Article I of the San Diego Municipal
Code be, and it is hereby amended by adding thereto a new division to
be known as and numbered Division 6 containing Section 101.0000 and
to read as follows:

'DIVISION 6
OFFSTREET PARKING - RESIDENTIAL

"SEC. 101.0000 OFFSTREET PARKING REGULATIONS FOR RESIDENTIAL ZONES

The following offstreet parking regulations shall apply in
all residential zones except that in those zones which contain
offstreet parking regulations conflicting herewith, the offstreet
parking regulations of the prevailing zone shall govern as to such
conflicting regulations.

1. When Required. Offstreet parking spaces and facilities required
in any residential zone shall be provided before the use requiring such
parking facilities commences to operate, and shall be maintained in
good condition so long as the use for which it is provided exists.

2. Existing Parking Not to be Reduced. Existing offstreet
parking facilities on a lot with, or on a lot adjoining, and serving a
use requiring offstreet parking facilities shall not be reduced in
number, dimension, or in any other manner, below the requirements
for a similar new use.

3. Existing Uses - Enlargement and/or Conversion. Whenever an
existing use on any premises is enlarged by an increase in living units,
floor area, etc., or is converted to a less restrictive use, there
shall be provided prior to use or occupancy of such enlargement or
conversion a minimum of twice the number of parking spaces as would

be necessitated by the magnitude of said enlargement and/or conversion if calculated on the basis of new usage; provided, however, that the number of spaces required under this paragraph need not exceed the number of spaces required if the total development were to be calculated on the basis of new usage.

4. Requirements Totaled. The offstreet parking requirements for two or more uses on the same lot shall be the sum of the requirements for each use computed separately. Required offstreet parking facilities provided or maintained for any use shall not serve as required parking for any other use.

5. Computation. In computing the required number of offstreet parking spaces, a remaining fraction of a unit of measurement (living units, persons, area, etc.) of less than one-half, may be disregarded, and a fraction of one-half or more shall be deemed a whole unit of measurement.

6. Marking of Spaces. Where five (5) or more required parking spaces are provided on a lot, each space shall be clearly marked with paint, or any other more durable material, contrasting in color with the surface to which applied.

7. Computation - Unmarked Areas. In a parking area where the required offstreet parking spaces are not marked, the number of spaces shall be the quotient of the total number of square feet in the usable parking area divided by three hundred (300) square feet.

8. Dimensions. Each required parking space shall be not less than eight and one-half feet ($8\frac{1}{2}'$) in width, and twenty feet (20') in length, exclusive of all other areas. All aisles, driveways, and parking spaces shall have a clear vertical height of not less than seven feet (7').

9. Access. Each required parking space shall open directly upon an aisle or driveway of such width and design as to provide safe and efficient means of vehicular access to such parking space. All required parking facilities shall have convenient access to a public street or alley.

10. Surfacing. All parking spaces and driveways shall be surfaced with asphaltic concrete at least two inches (2") in depth, or its equivalent, except that on a lot containing not more than two (2) parking spaces, the required surfacing shall be sufficient to maintain the spaces and driveways in a clean condition and sound repair at all times.

11. Yards - Parking within. Offstreet parking spaces which are open to the sky may be located in any yard except required front yards, and except areas lying between a public street and a setback line, and except areas within required access courts.

12. Lighting. All outdoor lighting shall be so shaded and adjusted that the light therefrom is directed to fall only on the same premises where such light source is located.

13. Enclosure of Parking. On lots or premises in Zone R-2 or less restrictive zones containing five (5) or more parking spaces, all parking areas (including aisles and driveways) shall be bounded by walls, fences, or buildings so as to protect abutting residentially zoned property. Required walls, fences, or buildings shall be not less than five feet (5') in height above the surface of the parking area bounded, except that within a front yard this height shall be reduced to three feet (3').

The requirements specified herein may be eliminated in whole or in part where, in the opinion of the Zoning Administrator, such requirements are not necessary for the proper protection of abutting residentially zoned property because of substantial grade differentials, the existence of adequate walls, or other equally valid reasons.

14. Barriers. On premises containing five (5) or more parking spaces, all such spaces within ten feet (10') of the boundaries of the premises shall be equipped with barriers not less substantial than a six-inch square horizontal timber permanently anchored, and located so as to confine vehicles entirely within said premises, except in those cases where a wall is provided on the boundaries of the premises which, in the opinion of the Zoning Administrator, is of such construction as to suitably protect the adjoining property."

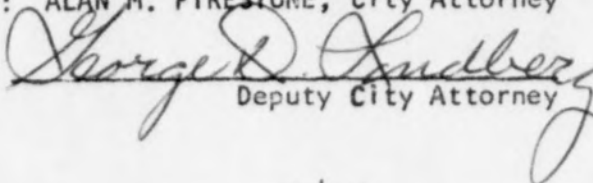

Section 2. A violation of any provision or the failure to comply with any of the requirements established by this ordinance shall constitute a misdemeanor. Any person convicted of such violation or such failure shall be punishable by a fine of not more than \$500.00 or by imprisonment in the City Jail for a period of not more than six months or by both fine and imprisonment. The provisions of Section 11.12 of the San Diego Municipal Code shall apply.

Section 3. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

12. **Lighting.** All outdoor lighting shall be so shaded and adjusted that the light therefrom is directed to fall only on the same premises where such light source is located.

13. **Enclosure of Parking.** On lots or premises in Zone R-2 or less restrictive zones containing five (5) or more parking spaces, all parking areas (including aisles and driveways) shall be bounded by walls, fences, or buildings so as to protect abutting residentially zoned property. Required walls, fences, or buildings shall be not less than five feet (5') in height above the surface of the parking area bounded, except that within a front yard this height shall be reduced to three feet (3').

The requirements specified herein may be eliminated in whole or in part where, in the opinion of the Zoning Administrator, such requirements are not necessary for the proper protection of abutting residentially zoned property because of substantial grade differentials, the existence of adequate walls, or other equally valid reasons.

14. **Barriers.** On premises containing five (5) or more parking spaces, all such spaces within ten feet (10') of the boundaries of the premises shall be equipped with barriers not less substantial than a six-inch square horizontal timber permanently anchored, and located so as to confine vehicles entirely within said premises, except in those cases where a wall is provided on the boundaries of the premises which, in the opinion of the Zoning Administrator, is of such construction as to suitably protect the adjoining property.

Section 2. A violation of any provision or the failure to comply with any of the requirements established by this ordinance shall constitute a misdemeanor. Any person convicted of such violation or such failure shall be punishable by a fine of not more than \$500.00 or by imprisonment in the City Jail for a period of not more than six months or by both fine and imprisonment. The provisions of Section 11.12 of the San Diego Municipal Code shall apply.

Section 3. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

Introduced on January 21, 1964.
