UNDERGROUND UTILITY ORDINANCE--UNIVERSITY
AVENUE FROM WINONA AVENUE TO FORTIETH
STREET

BE IT ORDAINED, by the Council of The City of San
Diego, as follows:

PURPOSE AND INTENT

It is the purpose of this ordinance to enable the
Project as hereinafter defined to go forward to include
the placement underground of facilities presently situated
overhead. San Diego Gas and Electric Company under that
certain contract dated August 16, 1966, has agreed to cause
the relocation underground of its utilities to proceed at
the same time as work goes forward under the Project.

It is the intent of this ordinance to assure that
upon completion of the Project including work to be done by
San Diego Gas and Electric Company under said agreement
that thereafter overhead structures shall not be maintained
in the District. It is the further intent of this ordinance
that this Project shall be considered to be a pilot project
and the enactment of this ordinance shall not be deemed to
be a precedent concerning the performance of the work else-
where in the City in connection with the undergrounding of
overhead facilities.

Section 1. Definitions. Whenever in this ordinance the
words or phrases hereinafter in this Section defined are used,
they shall have the respective meanings assigned to them in
the following definitions:

- a. "City" shall mean The City of San Diego, a
municipal corporation in the State of California.
- b. "Commission" shall mean the Public Utilities
Commission of the State of California.

c. "Council" shall mean the City Council of City.

d. "Underground Utility District" or "District" shall mean that area in City in and abutting University Avenue from the East line of Fortieth Street to the West line of Winona Avenue, as described in "Exhibit A" which is attached hereto and hereby made a part hereof.

g. "Project" shall mean the widening and improvement of University Avenue (including without limitation the placement underground of facilities to provide electric, communication or similar service provided through overhead wires as of the effective date of this ordinance) within the District accomplished under and through the institution of proceedings pursuant to the Improvement Act of 1911 (California Streets and Highways Code, Sections 5000, et seq.).

h. The words "Utility Company" shall include all persons or entities supplying electric, communication, or similar or associated service.

Section 2. Exceptions.

This ordinance shall not apply to the following types of facilities:

a. Poles, and associated overhead structures used exclusively for street lighting or signalization.

b. Wires (exclusive of supporting structures) connecting to building on the perimeter of such portion, when such wires originate in an area from which poles, overhead wires and associated overhead structures are not prohibited.

c. Overhead wires attached to the exterior surface of a building by means of a bracket or other fixture and extending from one location on the building to another location on the same building or to an adjacent building without crossing any public street.

Section 3. Discontinuance of Overhead Facilities in the Underground Utility District.

Twelve (12) months after the date of the award (herein called the "Award Date"), of the contract or contracts to the successful bidder or bidders for the work to be done in the

District in connection with the Project, it shall be unlawful for any person to maintain, own, continue to own, operate, or continue to operate or install, any poles, overhead wires and associated overhead structures on any public street, alley or way within the District. Commencing twelve (12) months after the Award Date, the continued existence, presence or maintenance of poles, overhead wires and associated overhead structures in the District, shall be and the same is hereby declared to be unlawful and a public nuisance endangering the health, safety and general welfare of the public.

Section 4. Exception by Special Permission.

In cases of unusual circumstances and where not detrimental to the public health, safety and general welfare, the Council may grant special permission, on such terms and for such durations as the Council may deem appropriate, to any person or Utility Company, to erect, construct, install, maintain, use, or operate poles for overhead facilities, notwithstanding any other provisions of this ordinance.

Section 5. Notification of Affected Property Owners and Utilities.

a. Within ten (10) days after the effective date of this ordinance, the City Clerk of City shall notify all affected utilities and all persons owning or in possession of real property within the District of the provisions of this ordinance. The City Clerk shall specifically notify said persons of the necessity that, if they desire to continue to receive electric, communication or other similar or associated service, they shall at their own expense provide all necessary facility changes on their premises so as to receive such service from the lines relocated underground of the supplying Utility Company at the new

b. Within ten (10) days after the Award Date, the City Clerk shall notify all persons owning or in possession of real property within the District that the contract or contracts have been awarded and that work under the Project will commence. The City Clerk shall further notify said persons that the work required to change the facilities situate on the premises, so as to receive electric, communication or similar or associated service from the underground terminal provided or to be provided by the Utility Company as a result of the relocation underground of facilities pursuant to the Project, shall be accomplished on or before the period ending three (3) months following the date of the notice so given by the City Clerk with respect to the award of the contract or contracts.

c. Notices given under this section may be given either by personal service or by mail. In case of service by mail, each notice must be deposited in the United States mail in a sealed envelope with postage prepaid, addressed to the person in possession of such premises at such premises, and each notice must be addressed to the owner thereof as such owner's name appears, and must be addressed to such owner's last known address as the same appears on the last equalized assessment roll of the County of San Diego. Notice given by mail shall be deemed to have been received by the person to whom it has been sent within forty-eight (48) hours after the mailing thereof. When notice is given by mail to either the owner or occupant

of such premises, the City Engineer of the City shall, within forty-eight (48) hours after the initial mailing thereof, cause a copy thereof, printed on a card not less than eight (8) inches by ten (10) inches in size, to be posted in a conspicuous place on the premises.

Section 6. Property Owner's Responsibility.

The owner or owners of real property abutting University Avenue within the District shall be obligated to and shall be responsible for the commencement and completion of work on their respective premises as may be necessary to provide for the continuance of electric, communication and similar associated service to the premises at the underground terminal to be provided by the Utility Company as a requirement of the undergrounding of facilities in the course of the Project.

All underground conduits and associated equipment necessary to receive utility service between the lines of the supplying utilities and the service facilities in the building or structure being served shall be provided by the person owning, operating, leasing, or renting said property, at his expense, subject to applicable rules, regulations, and tariffs of the respective utility or utilities on file with the Commission and to the requirements of State laws and City ordinances.

Section 7. Notice by Utility Company.

Upon the completion of the work undertaken by any Utility Company affected by and included within the Project, but not later than twelve (12) months following the Award Date, the Utility Company shall set a date for the conversion of its service from the use of overhead facilities to the facilities located underground pursuant to the Project as the date on which the service shall be provided through underground facilities (herein called the "Energizing Date"). At least fifteen (15) but not more than thirty (30) days prior to the Energizing

Date, the Utility Company shall mail a notice of the proposal to energize the underground facilities as of the Energizing Date to City and to all persons who have not provided the facilities required by Section 6 of this ordinance. The City Clerk shall upon request from the Utility Company make available to such company a list of persons to whom such notices shall have been from time to time so mailed by him. Such notices shall include the statement that from and after the Energizing Date, electric, communication or other associated or similar service shall not be provided to those premises whose facilities shall not have been relocated to receive such service at the underground terminal provided by the Utility Company, unless and until satisfactory provision to receive the same shall have been provided on the premises.

Section 8. Authority to Discontinue Overhead Service.

From and after the Energizing Date, it shall be unlawful to provide electric and communication, or other associated service from poles, overhead wires and associated overhead structures. All utility companies shall discontinue and are hereby authorized to discontinue such overhead service. Thereafter, any affected Utility Company shall not be obligated to provide electric, communication or similar associated service to any premises except such premises as shall have been prepared for and can receive such service through connection at the underground terminal provided by the Utility Company.

Section 9. Obligation of City.

City shall remove its police and fire alarm circuits or any similar municipal equipment at its own expense from all poles required to be removed hereunder in ample time to enable the owner or user of such poles to remove the same within the time specified in this ordinance.

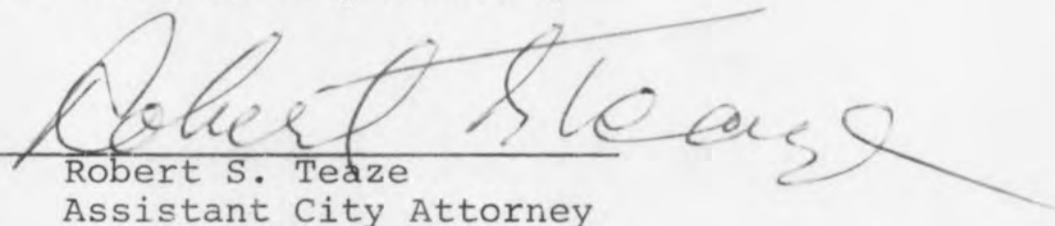

Section 10. Force Majeure.

In the event that any act required by this ordinance cannot be performed within the time provided on account of shortage of materials, war, restraint by public authorities, strikes, labor disturbances, or any other circumstances beyond the control of the actor, then the time within which such act will be accomplished shall be extended for a period equivalent to the time of such limitations.

Section 11. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

b. Within ten (10) days after the Award Date, the City Clerk shall notify all persons owning or in possession of real property within the District that the contract or contracts have been awarded and that work under the Project will commence. The City Clerk shall further notify said persons that the work required to change the facilities situate on the premises so as to receive electric, communication or similar or associated service from the underground terminal provided or to be provided by the Utility Company as a result of the relocation underground of facilities pursuant to the Project, shall be accomplished on or before the period ending three (3) months following the date of the notice so given by the City Clerk with respect to the award of the contract or contracts.

c. Notices given under this section may be given either by personal service or by mail. In case of service by mail, each notice must be deposited in the United States mail in a sealed envelope with postage prepaid, addressed to the person in possession of such premises at such premises, and each notice must be addressed to the owner thereof as such owner's name appears, and must be addressed to such owner's last known address as the same appears on the last equalized assessment roll of the County of San Diego. Notice given by mail shall be deemed to have been received by the person to whom it has been sent within forty-eight (48) hours after the mailing thereof. When notice is given by mail to either the owner or occupant of such premises, the City Engineer of the City shall, within forty-eight (48) hours after the initial mailing thereof, cause a copy thereof, printed on a card not less than eight (8) inches by ten (10) inches in size, to be posted in a conspicuous place on the premises.

Section 6. Property Owner's Responsibility.

The owner or owners of real property abutting University Avenue within the District shall be obligated to and shall be responsible for the commencement and completion of work on their respective premises as may be necessary to provide for the continuance of electric, communication and similar associated service to the premises at the underground terminal to be provided by the Utility Company as a requirement of the undergrounding of facilities in the course of the Project.

All underground conduits and associated equipment necessary to receive utility service between the lines of the supplying utilities and the service facilities in the building or structure being served shall be provided by the person owning, operating, leasing, or renting said property, at his expense, subject to applicable rules, regulations, and tariffs of the respective utility or utilities on file with the Commission and to the requirements of State laws and City ordinances.

Section 7. Notice by Utility Company.

Upon the completion of the work undertaken by any Utility Company affected by and included within the Project, but not later than twelve (12) months following the Award Date, the Utility Company shall set a date for the conversion of its service from the use of overhead facilities to the facilities located underground pursuant to the Project as the date on which the service shall be provided through underground facilities (herein called the "Energizing Date"). At least fifteen (15) but not more than thirty (30) days prior to the Energizing Date, the Utility Company shall mail a notice of the proposal to energize the underground facilities as of the Energizing Date to City and to all persons who have not provided the facilities required by Section 6 of this ordinance. The City Clerk shall upon request from the Utility Company make available to such company a list of persons to whom such notices shall have been from time to time so mailed by him. Such notices shall include the statement that from and after the Energizing Date, electric, communication or other associated or similar service shall not be provided to those premises whose facilities shall not have been relocated to receive such service at the underground terminal provided by the Utility Company, unless and until satisfactory provision to receive the same shall have been provided on the premises.

Section 8. Authority to Discontinue Overhead Service.

From and after the Energizing Date, it shall be unlawful to provide electric and communication, or

other associated service from poles, overhead wires and associated overhead structures. All utility companies shall discontinue and are hereby authorized to discontinue such overhead service. Thereafter, any affected Utility Company shall not be obligated to provide electric, communication or similar associated service to any premises except such premises as shall have been prepared for and can receive such service through connection at the underground terminal provided by the Utility Company.

Section 9. Obligation of City.

City shall remove its police and fire alarm circuits or any similar municipal equipment at its own expense from all poles required to be removed hereunder in ample time to enable the owner or user of such poles to remove the same within the time specified in this ordinance.

Section 10. Force Majeure.

In the event that any act required by this ordinance cannot be performed within the time provided on account of shortage of materials, war, restraint by public authorities, strikes, labor disturbances, or any other circumstances beyond the control of the actor, then the time within which such act will be accomplished shall be extended for a period equivalent to the time of such limitations.

Section 11. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

ORDINANCE NO. 9634
(New Series)

AN ORDINANCE ESTABLISHING A SCHEDULE OF
COMPENSATION FOR OFFICERS AND EMPLOYEES
OF THE CITY OF SAN DIEGO.

WHEREAS, both the Civil Service Commission and the City Council have made detailed studies of salaries and wages paid by private business and industry in the San Diego area and comparable public agencies in San Diego and other California areas; and

WHEREAS, after such detailed investigation upon the findings and recommendations of the Civil Service Commission, the City Council finds and determines that the salaries and wages established herein are comparable to those paid in private business and industry, as well as other public agencies or comparable services; NOW, THEREFORE,

BE IT ORDAINED, by the Council of The City of San Diego, as follows:

Section 1. As a schedule of compensation for all officers and employees of The City of San Diego, including the Unclassified and Classified Services, there is hereby adopted and established a Table of Standard Rates of Pay for biweekly salaries, containing minimum, maximum and intermediate range steps for each Standard Rate. Said compensation schedule is attached hereto as Exhibit "A."

The "Equivalent Monthly Rates" set forth in Exhibit "A" are for comparative and information purposes.

Section 2. "COMPENSATION," as used in this ordinance, means the remuneration paid in cash out of City funds controlled by the Council of The City of San Diego plus the monetary value, as determined by the department head with the approval of the Civil Service Commission of such housing, lodging, fuel, public utility services, or other advantages similar in character,

furnished to an officer or employee in payment of his services.

For purposes of deduction for contributions of officers and employees required by law, the City Auditor and Comptroller shall use the amount fixed in the Standard Rate hereinafter set forth without regard to the monetary value of the advantages herein enumerated furnished to the officer or employee in payment of his services. Warrants issued for compensation to such officers and employees by such City Auditor and Comptroller shall be for the amount set forth in the Standard Rate attached to the position minus the monetary value of the advantages furnished said employee as compensation, as determined above.

Section 3. For all positions in the Unclassified Service, which are identified by the letters (UC), and for all positions in the Classified Service of The City of San Diego, the Standard Rate numbers, providing uniform compensation for like service, attached hereto as Exhibit "B," are hereby adopted.

Section 4. Increases in compensation for employees in the Classified Service, within the range limits of the Standard Rate number attached to the position, may be granted by the appointing authority upon the basis of efficiency and seniority after first receiving the approval of the Civil Service Commission therefor.

The compensation for officers and employees in the Unclassified Service shall be determined and set by the appointing authority at any one of the range steps of the Standard Rate numbers attached to the position. In the case of the City Attorney, said determination and setting shall be made by the City Council pursuant to Section 40 of the City Charter.

Increases in compensation for officers and employees in the Unclassified Service, within the range limits of the

Standard Rate number attached to the position, may be granted by the appointing authority upon the basis of efficiency and seniority; provided, however, no exceptional merit increases or increases of more than one step shall be granted to all those serving in the positions listed in Exhibit "B" under I ADMINISTRATION - GENERAL, without first receiving the approval of the City Council therefor.

Section 5. For the purpose of computing vacations, leaves of absence, overtime, and terminal severance pay, the Auditor and Comptroller is hereby authorized to utilize compilations based upon an eight (8)-hour day and a forty (40)-hour week.

Section 6. The members of the Classified Service, other than firemen and part-time employees, shall receive the salaries provided herein as compensation in full for work performed by them during an average forty (40)-hour week and eight (8)-hour day throughout the fiscal year, except as hereinafter provided.

The Civil Service Commission shall establish and supervise a uniform extra compensation plan which shall provide overtime pay not to exceed one and one-half (1 1/2) times an eligible employee's regular rate of pay, or time off in lieu, and shall provide for extra compensation of one Standard Rate whenever an eligible employee is required for a significant period to work at times substantially unusual for his class of employment, such as (1) working a night shift in which the majority of the hours of work scheduled for said employee throughout any pay period are before 8:00 a.m. or after 6:00 p.m. or (2) on a long-term schedule, working a shift regularly split by more than two (2) consecutive hours or such other work schedule as may be determined by the Civil Service Commission and the City Manager or nonmanagerial appointing authority to be substantially unusual for the class of employment. An

eligible employee who is required to work under more than one of the unusual conditions indicated above shall receive one Standard Rate increase for each of said unusual conditions which shall be certified by the appointing authority on the official payroll time sheets to the Personnel Director. Such increases in compensation shall be identified and symbolized on all official payrolls and all records pertaining to said employee's compensation. When one or more of the said working conditions are commonly accepted conditions for the class of employment, the Civil Service Commission shall take such working conditions into consideration in establishing the compensation for the class.

The employees in the Classified Service who shall be entitled to receive overtime compensation, as herein provided, shall be designated by the Civil Service Commission after consultation with the City Manager and nonmanagerial department heads and in accordance with definitions and procedures developed by the Civil Service Commission in collaboration with the said appointing authorities, which said definitions and procedures shall be binding on all appointing authorities.

In addition to the foregoing provisions for extra compensations, an employee who has been released from work and has left the work premises shall, if he is called back to duty, be paid for the reasonable estimate of the time required for him to travel from and to his residence and the work area, and for the time he actually works. The total time of call-back pay, including travel time, shall not be less than two (2) hours, and shall be computed at the employee's regular rate or at one and one-half (1 1/2) times said rate if the employee is eligible for premium overtime pay.

Section 7. In fixing and approving the Standard Rates

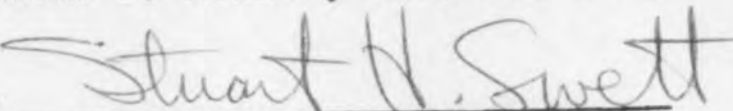

for the officers and employees of the City, this Council has recognized the necessity to increase certain salaries heretofore paid, and in so doing the Council has intended and does hereby intend, in fixing said rates, that where a Standard Rate of pay has been increased from that heretofore paid, said officer and employee whose rate of pay has thus been increased, shall be entitled to the percentage rate of increase intended, and that such new rate of pay shall be fixed so as to apply to that same step under the new Standard Rate that said employee occupied under the old Standard Rate.

Section 8. There is hereby created a class to be known as "Terminal Employee." Any employee, Classified or Unclassified, taking terminal leave prior to termination of City service shall be transferred to the class of "Terminal Employee" as of the date said terminal leave commences. Upon transfer to said class each employee shall be paid at the rate and step established for the position occupied by him at the time of his transfer. Such employee shall be an employee of the department in which he was serving at the time of his transfer.

Section 9. The compensation schedule established by Ordinance No. 9450 (New Series) is hereby continued in force and effect through the pay period ending July 13, 1967. The compensation schedule established by this ordinance shall become effective with the pay period commencing July 14, 1967.

Section 10. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

THE SAN DIEGO UNION

STATE OF CALIFORNIA,

CITY OF SAN DIEGO, }

In the matter of the publication of ORDINANCE #9634 (NEW SERIES), OFFICERS AND EMPLOYEE'S OF THE CITY OF SAN DIEGO.

J. A. Denton, being duly sworn, deposes and says: That he is a resident of the County of San Diego, State of California, over twenty-one years of age, and not interested as a party or otherwise in the above-named matter.

That he is the principal clerk of the printers of The San Diego Union, a newspaper published daily in the City of San Diego, County of San Diego, State of California, and of general circulation in said City; that as such principal clerk he has charge of all the advertisements published in said newspaper; that the said ORDINANCE

ORDINANCE NO. 9634 (NEW SERIES)

AN ORDINANCE ESTABLISHING A SCHEDULE OF COMPENSATION FOR OFFICERS AND EMPLOYEES OF THE CITY OF SAN DIEGO.

WHEREAS, both the Civil Service Commission and the City Council have made detailed studies of salaries and wages paid by private business and industry in the San Diego area and comparable public agencies in San Diego and other California areas; and

WHEREAS, after such detailed investigation upon the findings and recommendations of the Civil Service Commission, the City Council finds and determines that the salaries and wages established herein are comparable to those paid in private business and industry, as well as other public agencies or comparable services; NOW, THEREFORE,

BE IT ORDAINED, by the Council of The City of San Diego, as follows:

Section 1. As a schedule of compensation for all officers and employees of The City of San Diego, including the Unclassified and Classified Services, there is hereby adopted and established a Table of Standard Rates of Pay for biweekly salaries, containing minimum, maximum and intermediate range steps for each Standard Rate. Said compensation schedule is attached hereto as Exhibit "A."

The "Equivalent Monthly Rates" set forth in Exhibit "A" are for comparative and information purposes.

Section 2. "COMPENSATION," as used in this ordinance, means the remuneration paid in cash out of City funds controlled by the Council of The City of San Diego plus the monetary value, as determined by the department head with the approval of the Civil Service Commission of such housing, lodging, fuel, public utility services, or other advantages similar in character, furnished to an officer or employee in payment of his services.

For purposes of deduction for contributions of officers and employees required by law, the City Auditor and Comptroller shall use the amount fixed in the Standard Rate hereinafter set forth without regard to the monetary value of the advantages herein enumerated furnished to the officer or employee in payment of his services. Warrants issued for compensation to such officers and employees by such City Auditor and Comptroller shall be for the amount set forth in the Standard Rate attached to the position minus the monetary value of the advantages furnished said employee as compensation, as determined above.

Section 3. For all positions in the Unclassified Service, which are identified by the letters (UC), and for all positions in the Classified Service of The City of San Diego, the Standard Rate numbers, providing uniform compensation for like service, attached hereto as Exhibit "B," are hereby adopted.

Section 4. Increases in compensation for employees in the Classified Service, within the range limits of the Standard Rate number attached

to the position, may be granted by the appointing authority upon the basis of efficiency and seniority after first receiving the approval of the Civil Service Commission therefor.

The compensation for officers and employees in the Unclassified Service shall be determined and set by the appointing authority at any one of the range steps of the Standard Rate numbers attached to the position. In the case of the City Attorney, said determination and setting shall be made by the City Council pursuant to Section 40 of the City Charter.

Increases in compensation for officers and employees in the Unclassified Service, within the range limits of the Standard Rate number attached to the position, may be granted by the appointing authority upon the basis of efficiency and seniority; provided, however, no exceptional merit increases or increases of more than one step shall be granted to all those serving in the positions listed in Exhibit "B" under I ADMINISTRATION-GENERAL, without first receiving the approval of the City Council therefor.

Section 5. For the purpose of computing vacations, leaves of absence, overtime, and terminal severance pay, the Auditor and Comptroller is hereby authorized to utilize compilations based upon an eight (8)-hour day and a forty (40)-hour week.

Section 6. The members of the Classified Service, other than firemen and part-time employees, shall receive the salaries provided herein as compensation in full for work performed by them during an average forty (40)-hour week and eight (8)-hour day throughout the fiscal year, except as hereinafter provided.

The Civil Service Commission shall establish and supervise a uniform extra compensation plan which shall provide overtime pay not to exceed one and one-half (1½) times an eligible employee's regular rate of pay, or time off in lieu, and shall provide for extra compensation of one Standard Rate whenever an eligible employee is required for a significant period to work at times substantially unusual for his class of employment, such as (1) working a night shift in which the majority of the hours of work scheduled for said employee throughout any pay period are before 8:00 a.m. or after 6:00 p.m. or (2) on a long-term schedule, working a shift regularly split by more than two (2) consecutive hours or such other work schedule as may be determined by the Civil Service Commission and the City Manager or nonmanagerial appointing authority to be substantially unusual for the class of employment. An eligible employee who is required to work under more than one of the unusual conditions indicated above shall receive one Standard Rate increase for each of said unusual conditions which shall be certified by the appointing authority on the official payroll time sheets to the Personnel Director. Such increases in compensation shall be identified and symbolized on all official

day, to-wit: upon the 4TH

day of JUNE, 19 67, and upon the

payrolls and all records pertaining to said employee's compensation. When one or more of the said working conditions are commonly accepted conditions for the class of employment, the Civil Service Commission shall take such working conditions into consideration in establishing the compensation for the class.

The employees in the Classified Service who shall be entitled to receive overtime compensation, as herein provided, shall be designated by the Civil Service Commission after consultation with the City Manager and nonmanagerial department heads and in accordance with definitions and procedures developed by the Civil Service Commission in collaboration with the said appointing authorities, which said definitions and procedures shall be binding on all appointing authorities.

In addition to the foregoing provisions for extra compensations, an employee who has been released from work and has left the work premises shall, if he is called back to duty, be paid for the reasonable estimate of the time required for him to travel from and to his residence and the work area, and for the time he actually works. The total time of call-back pay, including travel time, shall not be less than two (2) hours, and shall be computed at the employee's regular rate or at one and one-half (1½) times said rate if the employee is eligible for premium overtime pay.

Section 7. In fixing and approving the Standard Rates for the officers and employees of the City, this Council has recognized the necessity to increase certain salaries heretofore paid, and in so doing the Council has intended and does hereby intend, in fixing said rates, that where a Standard Rate of pay has been increased from that heretofore paid, said officer and employee whose rate of pay has thus been increased, shall be entitled to the percentage rate of increase intended, and that such new rate of pay shall be fixed so as to apply to that same step under the new Standard Rate that said employee occupied under the old Standard Rate.

Section 8. There is hereby created a class to be known as "Terminal Employee." Any employee, Classified or Unclassified, taking terminal leave prior to termination of City service shall be transferred to the class of "Terminal Employee" as of the date said terminal leave commences. Upon transfer to said class each employee shall be paid at the rate and step established for the position occupied by him at the time of his transfer. Such employee shall be an employee of the department in which he was serving at the time of his transfer.

Section 9. The compensation schedule established by Ordinance No. 9450 (New Series) is hereby continued in force and effect through the pay period ending July 13, 1967. The compensation schedule established by this ordinance shall become effective with the pay period commencing July 14, 1967.

Section 10. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

BULK STORAGE UNDERGROUND

"SEC. 55.15.210 Section 15.210 of the Uniform Fire Code Amended.

Section 15.210 UNDERGROUND: OUTSIDE OF BUILDINGS

(a) Location. A flammable or combustible liquid storage tank may be located underground, outside of a building if such installation meets the requirements of this section. The tank shall be so located with respect to existing foundations and supports that the loads carried by the latter cannot be transmitted to the tank. The distance from any part of a tank storing Class II or III liquid to the nearest wall of any basement, pit, cellar or property line shall be not less than four feet (4'). The distance from any part of a tank storing Class I liquids to the nearest wall of any basement, pit or cellar shall be not less than four feet (4'), and from any property line that may be built upon, not less than four feet (4'). A minimum distance of one foot (1'), shell to shell, shall be maintained between underground tanks.

(b) Depth and Cover. Excavation for underground storage tanks shall be made with due care to avoid undermining of foundations of existing structures. Underground tanks shall be set on firm foundations and surrounded with soft earth or sand well-tamped in place. Tanks shall be covered with a minimum of four feet (4') of earth or shall be covered by not less than one foot (1') of earth on top of which shall be placed a slab of reinforced concrete not less than four inches (4") thick. When underground tanks are or are likely

to be subjected to traffic, they shall be protected against damage from vehicles passing over them by at least four feet (4') of earth cover, or eighteen inches (18") of well-tamped earth, plus six inches (6") of reinforced concrete or eight inches (8") of asphaltic concrete. When asphaltic or reinforced concrete paving is used as part of the protection it shall extend at least one foot (1') horizontally beyond the outline of the tank in all directions.

(c) Anchorage. Where a tank may become buoyant due to a rise in the level of the water table or due to location in an area that may be subjected to flooding, suitable precautions shall be observed to anchor the tank in place.

Section 15.213 DESIGN AND CONSTRUCTION OF TANKS.

Underground Tanks. Tanks shall be designed and constructed to withstand safely the service to which subjected. Material other than steel, if used, shall be of suitable durability and of thickness providing equivalent strength to that provided by steel. Steel commonly known as "mill seconds" shall not be used. Steel tanks shall be of a minimum gauge (U.S. Standard) in accordance with Table 15.213.

Tanks larger than fifty thousand gallons (50,000 gals.) shall be built in accordance with National Recognized Engineering Practice. Tanks (in this category) tested and listed as underground storage tanks by a nationally recognized testing agency may be considered as meeting the requirements of this section. Used tanks shall be approved by the Chief prior to installation.

"SEC. 55.15.215 Section 15.215 of the Uniform Fire Code Amended.

Section 15.215 TANK CONNECTIONS FOR UNDERGROUND TANKS.

(a) Vents.

(1) Location and Arrangement of Vents. Vent pipes from tanks storing flammable or combustible liquids shall be so located that the discharge point is outside of buildings, shall terminate not less than eight feet (8')

above the fill pipe opening and not less than twelve feet (12') above the adjacent ground level. Vent pipes shall discharge only upward horizontally (not downward) in order to disperse vapors. Vent pipes two inches (2") or less in nominal inside diameter shall not be obstructed by devices that will reduce their capacity and thus cause excessive back pressure. Vent pipe outlets shall be so located that flammable vapors will not enter building openings or be trapped under eaves or other obstructions. If the vent pipe is less than ten feet (10') in length of greater than two inches (2") in nominal inside diameter, the outlet shall be provided with a vacuum and pressure relief device or there shall be an approved flame arrester located in the vent line at the outlet or within the approved distance from the outlet. In no case shall a flame arrester be located more than fifteen feet (15') from the outlet end of the vent line.

(2) Vent lines from underground tanks shall be used for no other purpose.

(3) Size of Vents. Each tank shall be vented through piping adequate in size to prevent blow-back of vapor or liquid at the fill opening while tank is being filled. Vent pipes shall be not less than one and one-quarter inches (1 1/4") nominal inside diameter.

(4) Vent Piping. Vent pipes shall be so laid as to drain toward the tank without sags or traps in which liquid can collect. They shall be located so that they will not be subjected to physical damage above ground.

Vent pipes from tanks storing the same class of liquids may be connected into one outlet pipe. The outlet pipe shall be at least one pipe size larger than the largest individual vent pipe connected thereto. In no case shall the point of connection between vent lines be lower than the top of any fill-pipe opening. The lower end of a vent pipe shall enter the tank through the top and shall not extend into the tank more than one inch (1").

(b) Fill and Discharge Piping for Underground Tanks. Fill and discharge lines for Class I, and for Class II and III liquids where practical, shall enter tanks only through the top and shall be graded toward the tank.

(c) Fill Openings. The fill-pipe opening shall be located outside of any building. For Class I flammable liquid storage the fill-pipe opening shall be not less than five feet (5') from any door or cellar opening. For Class II and III liquid storage the fill-pipe opening shall be not less than two feet (2') from any building opening at the same or lower level. The fill-pipe opening shall be closed and liquid tight when not in use. Fill pipe for filling by tank car or tank truck shall not be larger than four inches (4") nominal inside diameter and shall not be constricted. Fill-pipe openings shall be identified by a definite color scheme or other means.

(d) Gauge Openings. Gauge openings, if independent of fill pipe, shall be provided with liquid-tight cap or cover. Where Class I liquids are stored within a building, such gauge opening shall be protected against vapor release

or liquid overflow by means of a spring-loaded check valve or other approved device.

"SEC. 55.15.218 Section 15.218 of the Uniform Fire Code Amended.

Section 15.218 DESIGN AND CONSTRUCTION OF INSIDE STORAGE ROOMS.

(a) Inside storage rooms shall comply with the following general construction requirements.

Walls, floors and ceilings shall be of a construction having a fire resistance rating of not less than one hour. Openings to other rooms or buildings shall be provided with non-combustible liquid-tight sills or ramps at least six inches (6") in height and with approved fire doors arranged to close automatically in case of fire. A permissible alternate to either sills and ramps is open trenches covered with steel grating which drain to a safe location. Where other portions of the building or other properties are exposed, windows shall be protected in an approved manner. Wood, at least one inch (1") nominal thickness, may be used for shelving, racks, dunnage, scuffboards, floor overlays and similar installations. Proper ventilation shall be provided and natural ventilation is preferred over mechanical ventilation. Heating shall be restricted to low-pressure steam or hot water and to electric units approved for Class I hazardous locations.

(b) Electrical wiring and equipment located in inside storage rooms shall be in compliance with the State Electrical Safety Orders and the local electrical code.

(c) Rooms or portions of buildings, affording a type of building construction and other features equivalent to that

required for inside storage rooms (Section 15.218 (a) and (b)), may be utilized for storage of flammable and combustible liquids if not used for any other storage or operation which, in combination, creates a greater fire hazard.

(d) Storage rooms shall be located to minimize damage in the event of an explosion.

(e) The quantity of flammable and combustible liquids in an inside storage room shall not exceed the quantity specified in this paragraph except as provided in paragraph (f) of this section.

If not protected by an approved automatic fire extinguishing system:

(1) Five hundred fifty gallons (550 gals.) total of Class I, II, and III liquids, of which not more than

(2) Two hundred seventy five gallons (275 gals.) may be of Class I flammable liquids, of which more than

(3) Sixty gallons (60 gals.) may be of Class IA flammable liquid.

If protected by an approved automatic fire extinguishing system:

(4) One thousand one hundred gallons (1,100 gals.) total of Class I, II, III liquids, of which not more than

(5) Five hundred fifty gallons (550 gals.) may be of Class I flammable liquids, of which not more than

(6) Two hundred seventy five gallons (275 gals.) may be of Class IA flammable liquid.

(f) The quantity of flammable and combustible liquids in an inside storage room may be increased to that permitted by Section 15.602 for Inside Mixing and Handling Rooms

provided the construction is as provided in Section 15.602.

"SEC. 55.15.503 Section 15.503 of the Uniform Fire Code
Amended.

Section 15.503 DISPENSING DEVICES.

(a) Design and Construction. Class I liquids shall be transferred from underground tanks by means of fixed pumps so designed and equipped as to allow control of the flow and to prevent leakage or accidental discharge. Supplemental means shall be provided outside of the dispensing device whereby the source of power may be readily disconnected in the event of fire or other accident. Dispensing devices for Class I liquids shall be of approved type. Class I liquids shall be dispensed by approved pumps taking suction through the top of the container. Class II and III liquids may be dispensed by gravity feed through approved spring loaded self-closing devices. Flammable or combustible liquids shall not be dispensed by a device that operates through pressure within a storage tank or container unless the tank or container has been approved as a pressure vessel for the use to which it is subjected. In no case shall air or oxygen pressure be used for dispensing flammable or combustible liquids. This section does not prohibit use permitted by Section 15.507.

(b) Automatic Dispensing Devices. The use of any device which permits the dispensing of Class I flammable liquids when the hand of the operator of the discharging nozzle is removed from the nozzle control lever is hereby prohibited except when using an automatic nozzle as provided in this subsection.

In lieu of being held open by hand, an approved automatic nozzle with latch-open device may be used for dispensing Class I flammable liquids into the fuel tank of a vehicle. Such a nozzle shall have the latch-open device as an integral part of the assembly and shall shut off the liquid reliably and positively when the gasoline tank is filled, when it falls from the filling neck of an automobile tank, when it is subject to rough usage such as dropping or lack of proper lubrication, or when an automobile is driven away while the nozzle is still in the tank. Every person installing or using an automatic nozzle with latch-open device shall obtain a permit therefor from the City Treasurer and shall pay a permit fee in the sum of Two Dollars (\$2.00) for the installation and use of each such latch-open nozzle. A decalcomania of appropriate design issued by The City of San Diego shall be permanently affixed to the gasoline pump utilizing such latch-open nozzle.

(c) Location.

(1) Dispensing devices at automobile service stations shall be located a minimum distance of ten feet (10') from a property line and so located that all parts of a vehicle being serviced will be on private property.

(2) Dispensing devices at automobile service stations shall be located not less than ten feet (10') from any building which is not of fire resistive construction. Such dispensing devices shall also be located so that the nozzle, when hose is fully extended, shall not reach within five feet (5') of any building opening.

(d) Inside Garages. Where an outside location is impractical, dispensing devices approved for inside use may

be installed inside a garage or similar establishment, storing, parking, servicing or repairing automotive equipment upon the approval of the location and safeguards by the Chief. The dispensing device shall be located in an area of fire-resistive construction well away from vehicle storage and repair areas and well ventilated. It shall be protected against physical damage by vehicles by mounting on a concrete island or by equivalent means and shall be located in a position where it cannot be struck by a vehicle descending a ramp or other slope out of control. A remote emergency shut-off for electric power to the dispensing unit and the pump supplying it shall be provided at an accessible location and shall be clearly labeled as to its intended purpose.

"SEC. 55.17.09 Section 17.09 of the Uniform Fire Code Amended.

Section 17.09 VENTING AND CLEAN-UP

(a) At the end of the exposure period, fumigators shall safely and properly ventilate the premises and contents, and properly dispose of all fumigant containers, residues, debris and other materials used for fumigation.

(b) At the end of the exposure period, all gas-fired appliance vents shall be cleared of all obstructions.

"SEC. 55.19.02 Section 19.02 of the Uniform Fire Code Amended.

Section 19.02 PERMIT REQUIRED.

A permit shall be required for the storage, transportation or handling of more than fifty-five gallons (55 gals.) of corrosive liquids; or more than five hundred pounds (500 lbs.) of oxidizing materials; or more than ten pounds (10 lbs.) of organic peroxides; or more than five hundred pounds (500 lbs.) of nitomethane; or one thousand pounds (1,000 lbs.) or more of ammonium nitrate, ammonium nitrate fertilizers and

fertilizer mixtures covered in Section 19.06 (d); or any amount of highly toxic materials, pyrophoric materials, hypergolic materials, cryogenic materials, unstable liquids, radioactive materials or poisonous gases.

"SEC. 55.19.12 Section 19.12 of the Uniform Fire Code Added.

Section 19.12 STORAGE OF UNSTABLE LIQUIDS.

The storage of unstable liquids shall conform to the provisions of N.F.P.A. No. 30, "Flammable and Combustible Liquids Code."

"SEC. 55.20.02 Section 20.02 of the Uniform Fire Code Revised.

Section 20.02 PERMITS AND REPORTS OF INSTALLATION.

(a) No person shall keep or store in any one location more than fifty (50) standard U. "SEC. 55.15.210 Section 15.210 of the Uniform Fire Code Amended.

Section 15.210 UNDERGROUND: OUTSIDE OF BUILDINGS

(a) Location. A flammable or combustible liquid storage tank may be located underground, outside of a building if such installation meets the requirements of this section. The tank shall be so located with respect to existing foundations and supports that the loads carried by the latter cannot be transmitted to the tank. The distance from any part of a tank storing Class II or III liquid to the nearest wall of any basement, pit, cellar or property line shall be not less than four feet (4'). The distance from any part of a tank storing Class I liquids to the nearest wall of any basement, pit or cellar shall be not less than four feet (4'), and from any property line that may be built upon, not less than four feet (4'). A minimum distance of one foot (1'), shell to shell, shall be maintained between underground tanks.

Underground tanks shall be set on firm foundations and surrounded with soft earth or sand well-tamped in place. Tanks shall be covered with a minimum of four feet (4') of earth or shall be covered by not less than one foot (1') of earth on top of which shall be placed a slab of reinforced concrete not less than four inches (4") thick. When underground tanks are or are likely to be subjected to traffic, they shall be protected against damage from vehicles passing over them by at least four feet (4') of earth cover, or eighteen inches (18") of well-tamped earth, plus six inches (6") of reinforced concrete or eight inches (8") of asphaltic concrete. When asphaltic or reinforced concrete paving is used as part of the protection it shall extend at least one foot (1') horizontally beyond the outline of the tank in all directions.

(c) Anchorage. Where a tank may become buoyant due to a rise in the level of the water table or due to location in an area that may be subjected to flooding, suitable precautions shall be observed to anchor the tank in place.

"SEC. 55.15.215 Section 15.215 of the Uniform Fire Code Amended.

Section 15.215 TANK CONNECTIONS FOR UNDERGROUND TANKS.

(a) Vents.

(1) Location and Arrangement of Vents. Vent pipes from tanks storing flammable or combustible liquids shall be so located that the discharge point is outside of buildings, shall terminate not less than eight feet (8') above the fill pipe opening and not less than twelve feet (12') above the adjacent ground level. Vent pipes shall discharge only upward horizontally (not downward) in order to disperse vapors. Vent pipes two inches (2") or less in nominal inside diameter shall not be obstructed by devices that will reduce their capacity and thus cause excessive back pressure. Vent pipe outlets shall be so located that flammable vapors will not enter building openings or be trapped under eaves or other obstructions. If the vent pipe is less than ten feet (10') in length of greater than two inches (2") in nominal inside diameter, the outlet shall be provided with a vacuum and pressure relief device or there shall be an approved flame arrester located in the vent line at the outlet or within the approved distance from the outlet. In no case shall a flame arrester be located more than fifteen feet (15') from the outlet end of the vent line.

(2) Vent lines from underground tanks shall be used for no other purpose.

(3) Size of Vents. Each tank shall be vented through piping adequate in size to prevent blowback of vapor or liquid at the fill opening while tank is being filled. Vent pipes shall be not less than one and one-quarter inches (1 1/4") nominal inside diameter.

(4) Vent Piping. Vent pipes shall be so laid as to drain toward the tank without sags or traps in which liquid can collect. They shall be located so that they will not be subjected to physical damage above ground. Vent pipes from tanks storing the same class of liquids may be connected into one outlet pipe. The outlet pipe shall be at least one pipe size larger than the largest individual vent pipe connected thereto. In no case shall the point of connection between vent lines be lower than the top of any fill-pipe opening. The lower end of a vent pipe shall enter the tank through the top and shall not extend into the tank more than one inch (1").

(b) Fill and Discharge Piping for Underground Tanks. Fill and discharge lines for Class I, and for Class II and III liquids where practical, shall enter tanks only through the top and shall be graded toward the tank.

(c) Fill Openings. The fill-pipe opening shall be located outside of any building. For Class I flammable liquid storage the fill-pipe opening shall be not less than five feet (5') from any door or cellar opening. For Class II and III liquid storage the fill-pipe opening shall be not less than two feet (2') from any building opening at the same or lower level. The fill-pipe opening shall be closed and liquid tight when not in use. Fill pipe for filling by tank car or tank truck shall not be larger than four inches (4") nominal inside diameter and shall not be constricted. Fill-pipe openings shall be identified by a definite color scheme or other means.

(d) Gauge Openings. Gauge openings, if independent of fill pipe, shall be provided with liquid-tight cap or cover. Where Class I liquids are stored within a building, such gauge opening shall be protected against vapor release or liquid overflow by means of a spring-loaded check valve or other approved device.

Section 15.218 DESIGN AND CONSTRUCTION OF INSIDE STORAGE ROOMS.

(a) Inside storage rooms shall comply with the following general construction requirements.

Walls, floors and ceilings shall be of a construction having a fire resistance rating of not less than one hour. Openings to other rooms or buildings shall be provided with non-combustible liquid-tight sills or ramps at least six inches (6") in height and with approved fire doors arranged to close automatically in case of fire. A permissible alternate to either sills and ramps is open trenches covered with steel grating which drain to a safe location. Where other portions of the building or other properties are exposed, windows shall be protected in an approved manner. Wood, at least one inch (1") nominal thickness, may be used for shelving, racks, dunnage, scuffboards, floor overlays and similar installations. Proper ventilation shall be provided and natural ventilation is preferred over mechanical ventilation. Heating shall be restricted to low-pressure steam or hot water and to electric units approved for Class I hazardous locations.

(b) Electrical wiring and equipment located in inside storage rooms shall be in compliance with the State Electrical Safety Orders and the local electrical code.

(c) Rooms or portions of buildings, affording a type of building construction and other features equivalent to that required for inside storage rooms (Section 15.218 (a) and (b)), may be utilized for storage of flammable and combustible liquids if not used for any other storage or operation which, in combination, creates a greater fire hazard.

(d) Storage rooms shall be located to minimize damage in the event of an explosion.

(e) The quantity of flammable and combustible liquids in an inside storage room shall not exceed the quantity specified in this paragraph (f) of this section.

If not protected by an approved automatic fire extinguishing system:

(1) Five hundred fifty gallons (550 gals.) total of Class I, II, and III liquids, of which not more than

Section 15.503 DISPENSING DEVICES.

(a) Design and Construction. Class I liquids shall be transferred from underground tanks by means of fixed pumps so designed and equipped as to allow control of the flow and to prevent leakage or accidental discharge. Supplemental means shall be provided outside of the dispensing device whereby the source of power may be readily disconnected in the

event of fire or other accident. Dispensing devices for Class I liquids shall be of approved type. Class I liquids shall be dispensed by approved pumps taking suction through the top of the container. Class II and III liquids may be dispensed by gravity feed through approved spring loaded self-closing devices. Flammable or combustible liquids shall not be dispensed by a device that operates through pressure within a storage tank or container unless the tank or container has been approved as a pressure vessel for the use to which it is subjected. In no case shall air or oxygen pressure be used for dispensing flammable or combustible liquids. This section does not prohibit use permitted by Section 15.507.

(b) Automatic Dispensing Devices. The use of any device which permits the dispensing of Class I flammable liquids when the hand of the operator of the discharging nozzle is removed from the nozzle control lever is hereby prohibited except when using an automatic nozzle as provided in this subsection.

In lieu of being held open by hand, an approved automatic nozzle with latch-open device may be used for dispensing Class I flammable liquids into the fuel tank of a vehicle. Such a nozzle shall have the latch-open device as an integral part of the assembly and shall shut off the liquid reliably and positively when the gasoline tank is filled, when it falls from the filling neck of an automobile tank, when it is subject to rough usage such as dropping or lack of proper lubrication, or when an automobile is driven away while the nozzle is still in the tank. Every person installing or using an automatic nozzle with latch-open device shall obtain a permit therefor from the City Treasurer and shall pay a permit fee in the sum of Two Dollars (\$2.00) for the installation and use of each such latch-open nozzle. A decalcomania of appropriate design issued by The City of San Diego shall be permanently affixed to the gasoline pump utilizing such latch-open nozzle.

(c) Location.

(1) Dispensing devices at automobile service stations shall be located a minimum distance of ten feet (10') from a property line and so located that all parts of a vehicle being serviced will be on private property.

(2) Dispensing devices at automobile service stations shall be located not less than ten feet (10') from any building which is not of fire resistive construction. Such dispensing devices shall also be located so that the nozzle, when hose is fully extended, shall not reach within five feet (5') of any building opening.

(d) Inside Garages. Where an outside location is impractical, dispensing devices approved for inside use may be installed inside a garage or similar establishment, storing, parking, servicing or repairing automotive equipment upon the approval of the location and safeguards by the Chief. The dispensing device shall be located in an area of fire-resistive construction well away from vehicle storage and repair areas and well ventilated. It shall be protected against physical damage by vehicles by mounting on a concrete island or by equivalent means and shall be located in a position where it cannot be struck by a vehicle descending a ramp or other slope out of control. A remote emergency shut-off for electric power to the dispensing unit and the pump supplying it shall be provided at an accessible location and shall be clearly labeled as to its intended purpose.

(e) Before being placed in service, all piping shall be free of

leaks when tested to not less than one and one-half (1 1/2) times the working pressure or a minimum of not less than five pounds per square-inch gauge (5 psig) at the highest point in the system. Tests shall continue for a minimum of thirty (30) minutes.

"SEC. 55.32.09 Section 32.09 of the Uniform Fire Code Revised.

Section 32.09 TRANSFER OF FLAMMABLE AND COMBUSTIBLE LIQUIDS IN PROCESS AREAS.

(a) The transfer of large quantities of flammable and combustible liquids shall be through piping by means of pumps. The use of compressed air as a transfer medium shall be prohibited.

(b) Pumps shall be selected for the flammable and combustible liquid used, the working pressures and the structural stresses to which they may be subjected.

(c) Where solvents are pumped from storage to points of use, approved switches shall be provided in the processing areas and at the pumps to shut down the pumps in case of fire.

(d) Empty and filled containers shall be stored outside the filling area.

(b) Where Class I liquids are exposed to the air, the design of equipment and ventilation of buildings shall be such as to limit the Class I, Division 1 locations to pits, the interior of equipment and the "immediate vicinity" of pumps or equipment locations such as dispensing stations, open centrifuges, plate and frame filters, opened vacuum filters, change cans, and the surfaces of open equipment. Immediate vicinity means a zone extending from the vapor liberation point twenty feet (20') horizontally in all directions and vertically from the floor to a level of six feet (6') above the highest point of vapor liberation.

(c) All locations not covered by Section 32.11 (b) where Class I liquids are handled shall be Class I, Division 2. If the flash point of the liquid processed is higher than ambient temperature and at least one hundred degrees Fahrenheit (100°F), ordinary electrical equipment may be used though care shall be used in locating electrical apparatus to prevent hot metal from falling into open processing equipment.

(d) Ordinary electrical equipment, including switch gear, may be used if installed in a room which is maintained under positive pressure with respect to the hazardous area. Air or other media for pressurization shall be taken from a location where entrainment of flammable vapor is improbable.

ORDINANCE NO. 9671
(New Series)

AN ORDINANCE OF THE CITY OF SAN DIEGO, CALIFORNIA, ORDERING, CALLING, PROVIDING FOR AND GIVING NOTICE OF A SPECIAL ELECTION TO BE HELD IN THE CITY ON SEPTEMBER 19, 1967 FOR THE PURPOSE OF SUBMITTING TO QUALIFIED VOTERS OF THE CITY OF SAN DIEGO A PROPOSITION AMENDING THE CHARTER OF THE CITY OF SAN DIEGO AND CONSOLIDATING SUCH ELECTION WITH THE MUNICIPAL PRIMARY ELECTION TO BE HELD ON THE SAME DATE.

WHEREAS, at a meeting held on July 6, 1967, the City Council of The City of San Diego called a municipal primary election in the City and in the San Diego Unified School District to be held on September 19, 1967; and

WHEREAS, the Council of The City of San Diego desires to submit to the qualified voters of the City a proposition amending the Charter of The City of San Diego; and

WHEREAS, the Council of The City of San Diego desires to consolidate the two elections; NOW, THEREFORE,

BE IT ORDAINED, by the Council of The City of San Diego, as follows:

Section 1. A special municipal election is hereby called and ordered to be held in the City of San Diego, California, on September 19, 1967; and pursuant to the provisions of Section 223 of the Charter of The City of San Diego and the provisions of Section 8 of Article 11 of the Constitution of the State of California, the Council of The City of San Diego being the legislative body thereof, hereby proposes and submits to the qualified voters of the City at such special municipal election the following proposition amending the Charter of The City of San Diego:

PROPOSITION A

Amend Section 12 of Article III of the Charter of The City of San Diego to read as follows:

"Section 12. THE COUNCIL.

The Council shall be composed of nine (9) Councilmen, including the Mayor, and shall be the legislative body of the City, each of the members of which, including the Mayor, shall have the right to vote upon all questions before it.

Councilmen, including the Mayor, shall be elected at a general municipal election held in the odd numbered years and, except as hereinafter provided, shall hold office for the term of four years from and after the first Monday after the first day of December next succeeding their election and until their successors are elected and qualified. Upon any redistricting pursuant to the provisions of this Charter, incumbent councilmen will continue to represent the district in which they reside, unless as a result of such redistricting more than one incumbent councilman resides within any one district, in which case the City Council shall determine by lot which councilman shall represent each district. At the next municipal primary and general elections following a redistricting, councilmen shall be elected from those districts not represented and from those districts represented by incumbent councilmen whose terms expire as of the general election in said year. If as a result of any redistricting more than a simple majority of the City Council as redistricted shall be elected at the general election next following any such redistricting, the City Council prior to any such election shall designate one or more new districts for which the initial councilmanic term shall be two (2) years in order to retain staggered terms for councilmen.

Any vacancy occurring in the Council shall be filled from the District in which the vacancy occurs by appointment by the remaining Councilmen; but in the event that said remaining Councilmen fail to fill such vacancy by appointment within thirty (30) days after the vacancy occurs, they must immediately cause an election to be held to fill such vacancy; provided, however, that any person appointed to fill such vacancy shall hold office only until the next regular municipal election, at which date a person shall be elected to serve for the remainder of such unexpired term.

It is the duty of councilmen to attend all Council meetings. The absence of any councilman from eight (8) consecutive meetings or fifty per cent (50%) of any scheduled meetings within a month shall operate to vacate the seat of such councilman, unless the absence thereof is excused by resolution of the Council.

The rate of pay of each councilman shall be \$8,600 a year.

No Councilman shall be eligible during the term for which he was appointed or elected to hold any other office or employment with the City, except as Mayor and a member of any Board, Commission or Committee thereof, of which he is constituted such a member by general law or by this Charter."

Section 2. This proposition shall be presented and printed upon the ballot and submitted to the voters in the manner and form set out in Section 4 of this ordinance.

Section 3. The polls for this special municipal election shall be open at 7:00 a.m. (local time) on September 19,

9671

1967 and shall remain open continuously until 8:00 p.m. (local time) on the same day at which time the polls shall be closed, except as provided in Section 14436 of the Elections Code of the State of California.

Section 4. Since this election is being consolidated with the municipal primary election and since only one form of ballot is authorized, the method of voting upon this proposition shall be as provided in the Elections Code of the State of California; and, on the ballots to be used at this special municipal election, in addition to any other matters required by law, there shall be printed substantially the following:

CITY OF SAN DIEGO PROPOSITION

<p>PROPOSITION A. CITY OF SAN DIEGO CHARTER AMENDMENT: AMENDS SECTION 12 OF THE CHARTER OF THE CITY OF SAN DIEGO.</p>	<p>YES</p>	
<p>Shall the fifth paragraph of Section 12 be amended to read as follows:</p> <p style="padding-left: 40px;">"The rate of pay of each councilman shall be \$8,600 a year."?</p>	<p>NO</p>	

Section 5. A cross (+) placed in the voting square after the word "YES" shall be counted in favor of the adoption of the proposition. A cross (+) placed in the voting square after the word "NO" shall be counted against the proposition.

Section 6. The special municipal election called for September 19, 1967 in the City of San Diego is hereby ordered consolidated with the municipal primary election

9671

to be held on the same date. Precincts, polling places and officers of the election shall be the same as those provided for in the municipal primary election, all as set forth in the list of election officers and polling places on file in the office of the City Clerk.

Section 7. The City Clerk of The City of San Diego is hereby authorized to canvass the returns of the special municipal election and these elections shall be held in all respects as if there were only one election, and within the City only one form of ballot shall be used. The City Clerk shall certify the results of the canvass of the returns of this special municipal election to the Council of The City of San Diego which shall then declare the results of the election.

Section 8. The proposition submitted by this ordinance shall be designated on the ballot by the letter "A" printed on the left margin of the square containing the description of the measure as provided in Section 10231 of the Elections Code of the State of California.

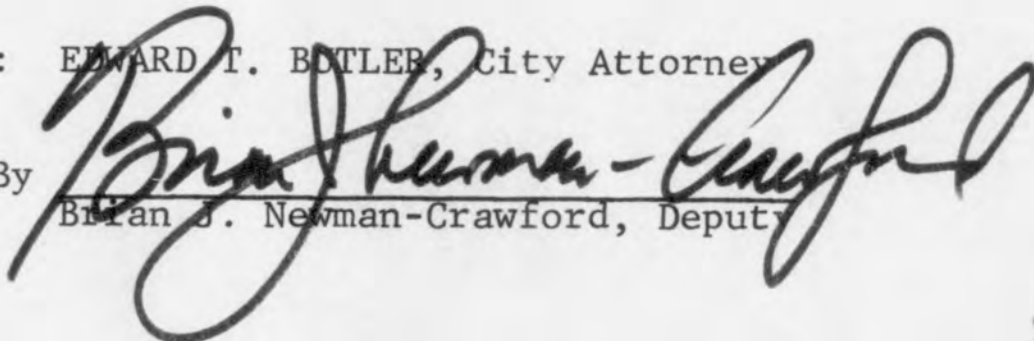

Section 9. Except as otherwise provided in this ordinance, the special municipal election shall be conducted as provided by law for other municipal elections of the City.

Section 10. The City Clerk shall cause this ordinance to be published once in the official newspaper not less than 40 nor more than 60 days before the date of the election. No other notice of the election need be given.

Section 11. This ordinance shall take effect immediately.

ORDINANCE NO. 9671
(New Series)

AN ORDINANCE OF THE CITY OF SAN DIEGO, CALIFORNIA, ORDERING, CALLING, PROVIDING FOR AND GIVING NOTICE OF A SPECIAL ELECTION TO BE HELD IN THE CITY ON SEPTEMBER 19, 1967 FOR THE PURPOSE OF SUBMITTING TO QUALIFIED VOTERS OF THE CITY OF SAN DIEGO A PROPOSITION AMENDING THE CHARTER OF THE CITY OF SAN DIEGO AND CONSOLIDATING SUCH ELECTION WITH THE MUNICIPAL PRIMARY ELECTION TO BE HELD ON THE SAME DATE.

WHEREAS, at a meeting held on July 6, 1967, the City Council of The City of San Diego called a municipal primary election in the City and in the San Diego Unified School District to be held on September 19, 1967; and

WHEREAS, the Council of The City of San Diego desires to submit to the qualified voters of the City a proposition amending the Charter of The City of San Diego; and

WHEREAS, the Council of The City of San Diego desires to consolidate the two elections; NOW, THEREFORE,

BE IT ORDAINED, by the Council of The City of San Diego, as follows:

Section 1. A special municipal election is hereby called and ordered to be held in the City of San Diego, California, on September 19, 1967; and pursuant to the provisions of Section 223 of the Charter of The City of San Diego and the provisions of Section 8 of Article 11 of the Constitution of the State of California, the Council of The City of San Diego being the legislative body thereof, hereby proposes and submits to the qualified voters of the City at such special municipal election the following proposition amending the Charter of The City of San Diego:

PROPOSITION A

Amend Section 12 of Article III of the Charter of The City of San Diego to read as follows:

"Section 12. THE COUNCIL.

The Council shall be composed of nine (9) Councilmen, including the Mayor, and shall be the legislative body of the City, each of the members of which, including the Mayor, shall have the right to vote upon all questions before it.

Councilmen, including the Mayor, shall be elected at a general municipal election held in the odd numbered years and, except as hereinafter provided, shall hold office for the term of four years from and after the first Monday after the first day of December next succeeding their election and until their successors are elected and qualified. Upon any redistricting pursuant to the provisions of this Charter, incumbent councilmen will continue to represent the district in which they reside, unless as a result of such redistricting more than one incumbent councilman resides within any one district, in which case the City Council shall determine by lot which councilman shall represent each district. At the next municipal primary and general elections following a redistricting, councilmen shall be elected from those districts not represented and from those districts represented by incumbent councilmen whose terms expire as of the general election in said year. If as a result of any redistricting more than a simple majority of the City Council as redistricted shall be elected at the general election next following any such redistricting, the City Council prior to any such election shall designate one or more new districts for which the initial councilmanic term shall be two (2) years in order to retain staggered terms for councilmen.

Any vacancy occurring in the Council shall be filled from the District in which the vacancy occurs by appointment by the remaining Councilmen; but in the event that said remaining Councilmen fail to fill such vacancy by appointment within thirty (30) days after the vacancy occurs, they must immediately cause an election to be held to fill such vacancy; provided, however, that any person appointed to fill such vacancy shall hold office only until the next regular municipal election, at which date a person shall be elected to serve for the remainder of such unexpired term.

It is the duty of councilmen to attend all Council meetings. The absence of any councilman from eight (8) consecutive meetings or fifty per cent (50%) of any scheduled meetings within a month shall operate to vacate the seat of such councilman, unless the absence thereof is excused by resolution of the Council.

The rate of pay of each councilman shall be \$8,600 a year.

No Councilman shall be eligible during the term for which he was appointed or elected to hold any other office or employment with the City, except as Mayor and a member of any Board, Commission or Committee thereof, of which he is constituted such a member by general law or by this Charter."

Section 2. This proposition shall be presented and printed upon the ballot and submitted to the voters in the manner and form set out in Section 4 of this ordinance.

Section 3. The polls for this special municipal election shall be open at 7:00 a.m. (local time) on September 19,

9671

16451RP1

1967 and shall remain open continuously until 8:00 p.m. (local time) on the same day at which time the polls shall be closed, except as provided in Section 14436 of the Elections Code of the State of California.

Section 4. Since this election is being consolidated with the municipal primary election and since only one form of ballot is authorized, the method of voting upon this proposition shall be as provided in the Elections Code of the State of California; and, on the ballots to be used at this special municipal election, in addition to any other matters required by law, there shall be printed substantially the following:

CITY OF SAN DIEGO PROPOSITION

<p>PROPOSITION A. CITY OF SAN DIEGO CHARTER AMENDMENT: AMENDS SECTION 12 OF THE CHARTER OF THE CITY OF SAN DIEGO. Shall the fifth paragraph of Section 12 be amended to read as follows:</p>	YES	
<p style="text-align: center;">"The rate of pay of each councilman shall be \$8,600 a year."?</p>	NO	

Section 5. A cross (+) placed in the voting square after the word "YES" shall be counted in favor of the adoption of the proposition. A cross (+) placed in the voting square after the word "NO" shall be counted against the proposition.

Section 6. The special municipal election called for September 19, 1967 in the City of San Diego is hereby ordered consolidated with the municipal primary election

9671

to be held on the same date. Precincts, polling places and officers of the election shall be the same as those provided for in the municipal primary election, all as set forth in the list of election officers and polling places on file in the office of the City Clerk.

Section 7. The City Clerk of The City of San Diego is hereby authorized to canvass the returns of the special municipal election and these elections shall be held in all respects as if there were only one election, and within the City only one form of ballot shall be used. The City Clerk shall certify the results of the canvass of the returns of this special municipal election to the Council of The City of San Diego which shall then declare the results of the election.

Section 8. The proposition submitted by this ordinance shall be designated on the ballot by the letter "A" printed on the left margin of the square containing the description of the measure as provided in Section 10231 of the Elections Code of the State of California.

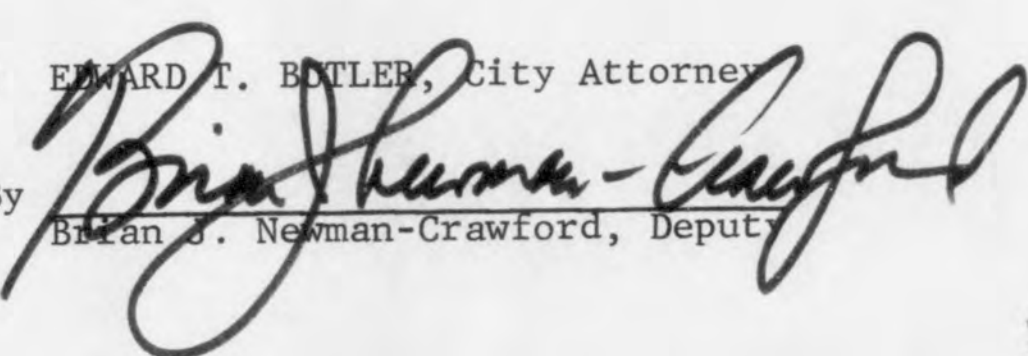

Section 9. Except as otherwise provided in this ordinance, the special municipal election shall be conducted as provided by law for other municipal elections of the City.

Section 10. The City Clerk shall cause this ordinance to be published once in the official newspaper not less than 40 nor more than 60 days before the date of the election. No other notice of the election need be given.

Section 11. This ordinance shall take effect immediately.

(NEW SERIES), SPECIAL ELECTION.

ORDINANCE NO. 9671 (NEW SERIES)

AN ORDINANCE OF THE CITY OF SAN DIEGO, CALIFORNIA, ORDERING, CALLING, PROVIDING FOR AND GIVING NOTICE OF A SPECIAL ELECTION TO BE HELD IN THE CITY ON SEPTEMBER 19, 1967 FOR THE PURPOSE OF SUBMITTING TO QUALIFIED VOTERS OF THE CITY OF SAN DIEGO A PROPOSITION AMENDING THE CHARTER OF THE CITY OF SAN DIEGO AND CONSOLIDATING SUCH ELECTION WITH THE MUNICIPAL PRIMARY ELECTION TO BE HELD ON THE SAME DATE.

WHEREAS, at a meeting held on July 6, 1967, the City Council of The City of San Diego called a municipal primary election in the City and in the San Diego Unified School District to be held on September 19, 1967; and

WHEREAS, the Council of The City of San Diego desires to submit to the qualified voters of the City a proposition amending the Charter of The City of San Diego; and

WHEREAS, the Council of The City of San Diego desires to consolidate the two elections; NOW, THEREFORE,

BE IT ORDAINED, by the Council of The City of San Diego, as follows:

Section 1. A special municipal election is hereby called and ordered to be held in the City of San Diego, California, on September 19, 1967; and pursuant to the provisions of Section 223 of the Charter of The City of San Diego and the provisions of Section 8 of Article II of the Constitution of the State of California, the Council of The City of San Diego being the legislative body thereof, hereby proposes and submits to the qualified voters of the City at such special municipal election the following proposition amending the Charter of The City of San Diego:

PROPOSITION A

Amend Section 12 of Article III of the Charter of The City of San Diego to read as follows:

Section 12. THE COUNCIL.

The Council shall be composed of nine (9) Councilmen, including the Mayor, and shall be the legislative body of the City, each of the members of which, including the Mayor, shall have the right to vote upon all questions before it.

Councilmen, including the Mayor, shall be elected at a general municipal election held in the odd numbered years and, except as hereinafter provided, shall hold office for the term of four years from and after the first Monday after the first day of December next succeeding their election and until their successors are elected and qualified. Upon any redistricting pursuant to the provisions of this Charter, incumbent councilmen will continue to represent the district in which they reside, unless as a result of such redistricting more than one incumbent councilman resides within any one district, in which case the City Council shall determine by lot which councilman shall represent each district. At the next municipal primary and general elections following a redistricting, councilmen shall be elected from those districts not represented and from those districts represented by incumbent councilmen whose terms expire as of the general election in said year. If as a result of any redistricting more than a simple majority of the City Council as redistricted shall be elected at the general election next following any such redistricting, the City Council prior to any such election shall designate one or more new districts for which the initial councilmanic term shall be two (2) years in order to retain staggered terms for councilmen.

Any vacancy occurring in the Council shall be filled from the District in which the vacancy occurs by appointment by the remaining Councilmen; but in the event that said remaining Councilmen fail to fill such vacancy by appointment within thirty (30) days after the vacancy occurs, they must immediately cause an election to be held to fill such vacancy; provided, however, that any person appointed to fill such vacancy shall hold office only until the next regular municipal election, at which date a person shall be elected to serve for the remainder of such unexpired term.

It is the duty of councilmen to attend all Council meetings. The absence of any councilman from eight (8) consecutive meetings or fifty per cent (50%) of any scheduled meetings within a month shall operate to vacate the seat of such councilman, unless the absence thereof is excused by resolution of the Council.

The rate of pay of each councilman shall be \$8,600 a year.

No Councilman shall be eligible during the term for which he was appointed or elected to hold any other office or employment with the City, except as Mayor and a member of any Board, Commission or Committee thereof, of which he is constituted such a member by general law or by this Charter.

Section 2. This proposition shall be presented and printed upon the ballot and submitted to the voters in the manner and form set out in Section 4 of this ordinance.

Section 3. The polls for this special municipal election shall be open at 7:00 a.m. (local time) on September 19, 1967 and shall remain open continuously until 8:00 p.m. (local time) on the same day at which time the polls shall be closed, except as provided in Section 14436 of the Elections Code of the State of California.

Section 4. Since this election is being consolidated with the municipal primary election and since only one form of ballot is authorized, the method of voting upon this proposition shall be as provided in the Elections Code of the State of California; and, on the ballots to be used at this special municipal election, in addition to any other matters required by law, there shall be printed substantially the following:

CITY OF SAN DIEGO PROPOSITION

PROPOSITION A. CITY OF SAN DIEGO CHARTER AMENDMENT: AMENDS SECTION 12 OF THE CHARTER OF THE CITY OF SAN DIEGO.

Shall the fifth paragraph of Section 12 be amended to read as follows:
"The rate of pay of each councilman shall be \$8,600 a year."

YES

NO

Section 5. A cross (+) placed in the voting square after the word "YES" shall be counted in favor of the adoption of the proposition. A cross (+) placed in the voting square after the word "NO" shall be counted against the proposition.

Section 6. The special municipal election called for September 19, 1967 in the City of San Diego is hereby ordered consolidated with the municipal primary election to be held on the same date. Precincts, polling places and officers of the election shall be the same as those provided for in the municipal primary election, all as set forth in the list of election officers and polling places on file in the office of the City Clerk.

Section 7. The City Clerk of The City of San Diego is hereby authorized to canvass the returns of the special municipal election and these elections shall be held in all respects as if there were only one election, and within the City only one form of ballot shall be used. The City Clerk shall certify the results of the canvass of the returns of this special municipal election to the Council of The City of San Diego which shall then declare the results of the election.

Section 8. The proposition submitted by this ordinance shall be designated on the ballot by the letter "A" printed on the left margin of the square containing the description of the measure as provided in Section 10231 of the Elections Code of the State of California.

J. A. Denton, being duly sworn, deposes and says: That he is a resident of the County of San Diego, State of California, over twenty-one years of age, and not interested as a party or otherwise in the above-named matter.

That he is the principal clerk of the printers of The San Diego Union, a newspaper published daily in the City of San Diego, County of San Diego, State of California, and of general circulation in said City; that as such principal clerk he has charge of all the advertisements published in said newspaper; that the said ORDINANCE
